creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

24. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type of IP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

25. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password.

26. "Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

27. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely transferred.

28. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

29. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

30. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

31. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## INFORMATION REGARDING GOOGLE

32. Based on my training and experience, and publicly available information, I have learned that Google provides a variety of online services, including e-mail (Gmail), navigation (Google Maps), online file storage (including Google Drive, Google Photos, and YouTube), messaging (Google Hangouts), and video calling (Google Duo), to the general public. Some services, such as Gmail, online file storage, and messaging, require the user to sign in to the service using their Google account. An individual can obtain a Google account by registering with Google, and the account identifier typically is in the form of a Gmail address. Other services, such as Google Maps and YouTube, can be used while signed in to a Google account, although some aspects of these services can be used even without being signed in to a Google account.

33. Google allows subscribers to obtain e-mail and other accounts at the domain name gmail.com, like the **SUBJECT ACCOUNT** listed in Attachment A. Subscribers obtain a Gmail e-mail account by registering with Google. During the registration process, Google asks subscribers to provide basic personal information. Therefore, the computers of Google are likely to contain stored electronic communications (including retrieved and unretrieved e-mail for Google

subscribers) and information concerning subscribers and their use of Google services, such as account access information, e-mail transaction information, and account application information.

34. In general, an e-mail that is sent to a Google subscriber is stored in the subscriber's "mail box" on Google servers until the subscriber deletes the e-mail. If the subscriber does not delete the message, the message can remain on Google's servers indefinitely. The user can move and store messages in personal folders such as a "sent folder." In recent years, Google, and other ISPs have provided their users with larger storage capabilities associated with the user's e-mail account. Google, and other ISPs have allowed users to store up to one (1) terabyte of information associated with the account on ISP servers. Based on conversations with other law enforcement officers with experience in executing and reviewing search warrants of e-mail accounts, I have learned that search warrants for e-mail accounts and computer systems have revealed stored e-mails sent and/or received many years prior to the date of the search.

35. When the subscriber sends an e-mail, it is initiated at the user's computer or mobile device, transferred via the Internet to Google's servers, and then transmitted to its end destination. Google typically saves a copy of the e-mail sent. Unless the sender of the e-mail specifically deletes the e-mail from the Google server, the e-mail can remain on the system indefinitely.

36. A sent or received e-mail typically includes the content of the message (including attachments), source and destination addresses, the date and time at which the e-mail was sent, and the size and length of the e-mail. If an e-mail user writes a draft message but does not send it, that message may also be saved by Google but may not include all of these categories of data.

37. A Google subscriber can also store files, including e-mails, address books, contact or buddy lists, calendar data, pictures, and other files, on servers maintained and/or owned by Google. In my training and experience, evidence of who was using an e-mail account may be found in address books, contact or buddy lists, e-mail in the account, and attachments to e-mails, including pictures and files.

38. Many subscribers to Google do not store copies of the e-mails stored in their Google account on their home computers. This is particularly true because they access their Google account through the Internet, and thus it is not necessary to copy e-mails to a home computer to use the service. Moreover, an individual may not wish to maintain particular e-mails or files in their residence to ensure others with access to the computer cannot access the e-mails.

39. In my training and experience, generally, e-mail providers like Google ask each of their subscribers to provide certain personal identifying information when registering for an e-mail account. This information can include the subscriber's full name, physical address, telephone numbers (usually a mobile number) and other identifiers, alternative e-mail addresses, and, for paying subscribers, means and source of payment (including any credit card or bank account number). In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users. Based on my training and my experience, I know that even if subscribers insert false information to conceal their identity, This information often provide clues to their identity, location, or illicit activities.

40. The mobile number and alternate e-mail information provided to Google by the user are particularly useful in instances where a user needs to recover his/her account in the event of a lost password or account compromise. With these, Google can send a "reset password" link to the alternate e-mail address or an SMS message to the mobile number. Upon receiving the "reset password" link to an SMS mobile number affiliated with that account, the user can then reset the password in order to continue to utilize that particular account. Because both a mobile device number and alternate e-mail address are used to recover access to an account, they both tend to be closely associated with the user of the account. It is important to note that though Google attempts to validate the personal identifying information provided by subscribers, the validation requires additional voluntary input from users. As this additional input is voluntary, Google is not always successful in validating a user's personal identifying information.

41. When creating an account at Google, the user is provided the opportunity to create a display name and an associated "Profile." Google allows a user to personalize their Profile by "adding an image that represents you." The display name and display image a user provides for their Profile is public and can be seen by anyone, even if the user chooses to keep the rest of their Profile hidden from other users.

42. In my training and experience, e-mail providers typically retain certain transactional information about the creation and use of each account on their systems. This information can include the date on which the account was created, the length of service, records of log-in (i.e., session) times and durations, the types of service utilized, the status of the account (including whether the account is inactive or closed), the methods used to connect to the account (such as logging into the account via Google's website), and other log files that reflect usage of the account. In addition, e-mail providers often have records of the IP address used to register the account and the IP addresses associated with particular logins to the account. Because every device that connects to the Internet must use an IP address, IP address information can help to identify which computers or other devices were used to access the e-mail account.

43. In my training and experience, in some cases, e-mail account users will communicate directly with an e-mail service provider about issues relating to the account, such as technical problems, billing inquiries, or complaints from other users. E-mail providers typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications. In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users.

44. In my training and experience, e-mail users often use e-mail accounts for everyday transactions because it is fast, low cost, and simple to use. People use e-mail to communicate with friends and family, manage accounts, pay bills, and conduct other online business. E-mail users often keep records of these transactions in their e-mail accounts, to include personal identifying information such as name and address.

45. In my training and experience, evidence of who was using an e-mail account may be found in address books, contact or buddy lists, e-mail in the account, and attachments to e-mails, including pictures and files.

46. Google Fit is a health-tracking platform developed by Google for the Android operating system, Wear OS, and iOS. It provides a single set of application program interface for apps and device manufacturers to store and access activity data from fitness apps and sensors on Android and other devices (like wearables, heart rate monitors, etc.). Google Fit uses sensors in a user's activity tracker or mobile device to record physical fitness activities (such as walking, etc.). Google Fit also has location tracking capabilities.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

47. In my training and experience, evidence of who was using a Google ID and from where, and evidence related to criminal activity of the kind described above, may be found in the files and records described in Attachment B. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

48. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Google can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, subscriber information, email and messaging logs, documents, and photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. As an example, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

49. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

50. Data from Google Fit may provide location data for certain physical activities at certain times and indicate spikes in heart rate due to increased activity that may pinpoint the location and activity of the account owner as it relates to the offenses under investigation.

51. Therefore, Google's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Google's services. In my training and experience, such information may constitute evidence of the crimes under investigation, including information that can be used to identify the account's user or users.

52. I anticipate executing this warrant under the Electronic Communications Privacy Act, in particular 18 U.S.C. Sections 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A), by using the warrant to require Google to disclose to the Government copies of the records and other information (including the content of communications and stored data) particularly described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

## CONCLUSION

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

[redacted]

Matthew Miller
SSA, NCIS
Resident Agency Portsmouth, VA

[redacted]he 4th day of June, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

**ATTACHMENT A**

Property to Be Searched

This warrant applies to information associated with Name: Angelia Resendiz; Email Address: [redacted] (the "account") that is stored at premises owned, maintained, controlled, or operated by Google, a company headquartered at 1600 Amphitheatre Parkway, Mountain View, California.

# ATTACHMENT B

## Particular Things to be Seized

### I. Information to be disclosed by Google

To the extent that the information described in Attachment A is within the possession, custody, or control of Google, regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but is still available to Google, or has been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Google is required to disclose the following information to the Government, in unencrypted form whenever available, for each account or identifier listed in Attachment A for the time period **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. All records or other information regarding the identification of the account, to include full name, physical address, telephone numbers, and other identifiers, records of session times and durations, the date on which the account was created, the length of service, the IP Address used to register the account, log-in IP addresses associated with session times and dates, account status, alternative email addresses provided during registration, methods of connecting, log files, and means and source of payment (including any credit or bank account number);

b. All call, text and data connection location information, related to all specialized carrier records and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) of device in relationship to the network when connected to the network for the SUBJECT ACCOUNT;

c. All records associated with the SUBJECT ACCOUNT, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each connection and/or record.

In the event any of the requested data has been deleted, please recover any and all data that is still recoverable, as well as the date and time of deletions.

### II. Information to be seized by the Government

All information described above in Section I that constitutes fruits, contraband, evidence, and instrumentalities of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) of the UCMJ, those violations involving CSSN Angelina Resendiz, U.S. Navy, and occurring from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**, for each account of identifier listed on Attachment A, information pertaining to the following matters:

i. The locations of the device utilized by the account holder of the SUBJECT ACCOUNT during the period of her absence from 28 May 2025 through present.

ii. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNT communicated with.

iii. Evidence indicating the chronological and geographical locations of the device utilized by the account holder of the SUBJECT ACCOUNT.

iv. Evidence that aides in identification of co-conspirators in this case.

v. Evidence relating to the intent of the account holder of SUBJECT ACCOUNT.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The United States of America is investigating potential violations of the UCMJ including Article 107, Article 86, and Article 85. The proposed Order would require TransUnion LLC., a credit reporting agency, located in the United States, to disclose certain records and other information pertaining to Jermiah COPELAND (SSN: [redacted] and Angelina RESENDIZ (SSN: [redacted]), annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. TransUnion LLC., is a provider of credit reporting, as defined in 15 U.S.C. § 1681. Accordingly, the United States may use a court order issued under § 2703(d) to require TransUnion LLC., to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of

competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025, COPELAND was found by Base Police entering Naval Station Norfolk.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. NCIS is targeting information pertaining to RESENDIZ's and COPELAND's financial records. This information is relevant to obtain as the transaction history from financial institutions can aid in the identification of the last known location of COPELAND and RESENDIZ.

## REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that TransUnion LLC. be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require TransUnion LLC. not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of consumer credit reporting whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the

targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring TransUnion LLC., located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that TransUnion LLC. shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that TransUnion LLC. shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers

of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that TransUnion LLC. may disclose this Order to an attorney for TransUnion LLC. for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

_____

United States Military Judge

Date:

**ATTACHMENT A**

## I. The Account(s)

The Order applies to certain records and information associated with the following person(s) account:

Jermiah COPELAND (SSN: [redacted]) between 29MAY25 through PRESENT; and

Angelina RESENDIZ (SSN: [redacted]) between 29MAY25 through PRESENT

## II. Records and Other Information to Be Disclosed

TransUnion LLC. is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Personal information (including social security numbers, name(s) reported, phone numbers, employers reported);
2. Addresses reported both current and past (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Information about credit cards and other lines of credit (including balances, payment history, credit limits, and any late payments or defaults);
4. Information relating to loans (including auto loans);
5. All information relating to banking accounts (including those that have been recently opened or closed)

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC BUSINESS RECORDS PURSUANT TO MILITARY RULE OF EVIDENCE 902(11)**

I, _____, attest, under penalties of perjury under the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this declaration is true and correct. I am employed by _____, and my official title is _____. I am a custodian of records for _____. I state that each of the records attached hereto is the original record or a true duplicate of the original record in the custody of _____, and that I am the custodian of the attached records consisting of _____ (pages/CDs/kilobytes). I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth, by, or from information transmitted by, a person with knowledge of those matters;

b. such records were kept in the ordinary course of a regularly conducted business activity of _____; and

c. such records were made by _____ as a regular practice.

I further state that this certification is intended to satisfy Rule 902(11) of the Military Rules of Evidence.

---

Good afternoon CDR Mayo,

I have done additional research and I have not been able to find any case law or anything else that supports TransUnion falling under the SCA. Is there anything you can point me to on TransUnion's website that shows they consider themselves to be an ECS or RCS?

If I find TransUnion to not be an ECS or RCS, it does not prevent you from obtaining the information pursuant to an investigative subpoena under RCM 309.

Very Respectfully,

LCDR Paul LaPlante, JAGC, USN

**Subject:** Copeland - TransUnion

Good morning CDR Mayo and LT Dempsey,

I am reviewing your requests ICO of Copeland. But I am not sure that the request for TransUnion falls under the SCA. I reviewed 15 USC 1681, but from what I saw, nothing made me believe that a provider of credit reporting qualifies as an ECS or RCS.

If you could provide your reasoning or case law for why TransUnion falls under the SCA that will help in making my decision.

Very Respectfully,

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require Uber Technologies, Inc. to disclosure certain records and other information pertaining to the account associated with, Jermiah Copland (DOB: 23MAY05, Telephone Number [redacted] the **SUBJECT ACCOUNT**. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Uber Technologies, Inc. is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Uber Technologies, Inc. to disclose the items described in Part II of Attachment A. See 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. On June 3, 2025, COPELAND disclosed to NCIS that he does not have an operable vehicle and utilizes a variety of transportation methods.

16. An analysis of COPELAND's geolocation phone data reveals that his cellular phone traveled throughout both Norfolk and Portsmouth, Virginia on Saturday, 31 May 2025.

## REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that Uber Technologies be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Uber Technologies not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor

known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN. [redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN [redacted] Date: 2025.06.05 12:38:48 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Uber Technologies, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Uber Technologies shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Uber Technologies shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Uber Technologies may disclose this Order to an attorney for Uber Technologies for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The United States of American is investigating potential violations of the UCMJ including Articles 107, 86, and 85. The proposed Order would require Uber Technologies, Inc. to disclosure certain records and other information pertaining to the account associated with, Angelina RESENDIZ [redacted], Telephone Number [redacted]), the **SUBJECT ACCOUNT**. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Uber Technologies, Inc. is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Uber Technologies, Inc. to disclose the items described in Part II of Attachment A. See 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving

for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. DoD Person Search revealed that RESENDIZ's email address is [redacted], and her command's recall roster lists her telephone number as [redacted].

16. No vehicle is registered to RESENDIZ.

17. On 3 June 2025, COPELAND stated – contrary to his earlier statement - that RESENDIZ may have taken an Uber or Smartrip to leave his barack's room.

18. A review of RESENDIZ's Navy Federal Credit Union bank statement reveals an Uber charge on May 28th at 0925.

## REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the

events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that Uber Technologies be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Uber Technologies not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.
6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these

documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN.[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN[redacted] Date: 2025.06.05 12:47:26 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Uber Technologies, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Uber Technologies shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Uber Technologies shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Uber Technologies may disclose this Order to an attorney for Uber Technologies for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

| **In re Navy Federal Credit Union Records of CSSN Jeremiah Copeland, USN** | **APPLICATION FOR ORDER OF DELAYED NOTICE PURSUANT TO 12 U.S.C. § 3409 OF THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978**<br><br>**5 June 2025** |

MOTION

1. Pursuant to 12 U.S.C. § 3409(b)(1), if the Court signs the requested investigative subpoena (**Exhibit B**) the Government applies for this Court to enter an Order delaying the customer notice that may be required to CSSN Jeremiah Copeland, USN, under the Right to Financial Privacy Act of 1978 for a period of ninety days.

FACTS

2. a. On 30 May, 2025, Naval Criminal Investigative Service ("NCIS") Investigators commenced an investigation into accusations of Article 86 and Article 107 of the UCMJ committed by CSSN Jeremiah Copeland (the "Investigation.") *See* the Affidavit of Special Agent Tiffany Martinez of June 5, 2025 attached as **Exhibit A** in support of this Application.

b. The Investigation is being conducted within the lawful jurisdiction of the federal government of the United States.

c. Due to the nature of the allegations, as a necessary investigative step relevant to this legitimate law enforcement inquiry, the Government has submitted a request to this Court for an investigative subpoena *duces tecum* (**Exhibit B**), pursuant to R.C.M 703, to Navy Federal Credit Union seeking the following categories of documents:

i. Financial records;

ii. Basic subscriber information; and

iii. Transaction information.

The draft subpoena *duces tecum* is attached as **Exhibit B** in support of this Application.

d. The documents listed in paragraph 2(c) of this Application are relevant to a legitimate law enforcement inquiry. **Exhibit A**.

e. There is reason to believe that if the Accused is provided the customer notice that may be required under the Right to Financial Privacy Act of 1978 that there is substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same. **Exhibit A**.

LAW AND ARGUMENT

3. In the event the Court makes a finding required in 12 U.S.C. §§ 3409(1) - (3), the Court has the authority to enter an Order delaying the period of providing required customer notice for a period not to exceed ninety days. 12 U.S.C. § 3409(b)(1). The Government has the power to file additional applications for subsequent periods of delay after the expiration of the initial ninety-day period. 12 U.S.C. § 3409(b)(2).

RELIEF REQUESTED

4. Evidence Offered in Support of Motion.

a. Affidavit of NCIS Special Agent Tiffany Martinez of June 5, 2025 attached hereto as **Exhibit A**.

b. The draft subpoena *duces tecum* of June 5, 2025, attached hereto as **Exhibit B**.

5. Relief Requested.

a. The Government respectfully requests this Court:

i. make a finding that the evidence offered in support of this Application meets the requirements of 12 U.S.C. §§ 3409(1) - (3); and

ii. enter an Order delaying the customer notice that may be required under the Right to Financial Privacy Act of 1978 for a period of ninety days.

Respectfully Submitted,

| **In re Navy Federal Credit Union Financial Records of CSSN JERMIAH COPELAND, USN** | **AFFIDAVIT OF SPECIAL AGENT TIFFANY MARTINEZ**<br><br>**5 June 2025** |

1. I, Special Agent Tiffany Martinez, am currently employed as a special agent with the Naval Criminal Investigative Service ("NCIS"). I am a Special Agent with the Naval Criminal Investigative Service (NCIS) and have been employed for the NCIS since November, 2021. I am a sworn federal law enforcement officer. Your affiant has received approximately 950 hours of training in the Criminal Investigator Training Program at the Federal Law Enforcement Training Center in Glynco, Georgia. This program provided instruction on investigations, federal law, and other practical issues for investigators. The Special Agent Basic Training Program sponsored by NCIS consisted of training, including death investigations, military law, firearms, intelligence, and crime scene investigation. Prior to NCIS, I was employed as a Correctional Officer with the Federal Bureau of Prisons for five (5) years. Prior to my tenure as a Correctional Officer, I was a paralegal preparing Motions and Discovery as well as trial preparation for criminal complaints. During the course of my tenure as a Special Agent and previous employments, I have served in the United States Army as a Military Police Office for approximately ten (10) years where I currently hold the rank of Captain. During my time as a Military Police Officer, I completed a 17 week Military Police Basic Officer Law Enforcement Training located in Fort Leonard Wood, MO. My education consists of a Bachelor's of Science degree in Pre-Law from Mountain State University and a Masters of Professional Studies degree in Homeland Security from Pennsylvania State University.

2. On May 30, 2025, NCIS commenced an investigation into accusations of a violation of Article 86 and Article 107 of the UCMJ committed by CSSN Jeremiah Copeland, USN ("Accused"). I am the Lead Special Agent assigned to this investigation. The NCIS case number for the investigation is 02JUN25-NFNF-00237-7MNA

3. Due to the nature of the allegations, I determined it was a necessary investigative step to pursue and review the following categories of the Accused's financial records from Navy Federal Credit Union: Basic subscriber information and transactions pertaining to his social security number: [redacted].

4. These financial records are relevant and necessary to the investigation of the allegations against the Accused because the requested records will assist in identifying the location of the Accused and any means of transportation he may have utilized. It will also assist in determining the scope of his false official statement.

5. I have reason to believe that if the Accused is provided the customer notice that may be required under the Right to Financial Privacy Act of 1978 that there is a substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same. I base my opinion on the following evidence and facts that I have observed and/or reviewed:

a. That the Accused has previously provided false statements to law enforcement; and

b. The nature of the offense as being in an unauthorized absence status will mean he may flee again to avoid being caught if he knows we are investigating him.

I declare under penalty of perjury that the foregoing is true and correct.

5 June 2025

| IN RE NAVY FEDERAL CREDIT UNION: APPLICATION OF THE UNITED STATES OF AMERICA FOR ORDER PURSUANT TO THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978, 12 U.S.C. § 3409(B)(1) | Case Identifier: 02JUN25-NFNF-00237-7MNA |

**ORDER PURSUANT TO 12 U.S.C. § 3409(B)(1)**

The United States has submitted an application pursuant to the Right to Financial Privacy Act, 12 U.S.C. § 3409(b)(1), requesting that the Court enter an Order delaying the period of providing required customer notice for a period not to exceed ninety (90) days.

The Court finds that the investigation is being conducted within the lawful jurisdiction of the federal government of the United States and the United States has offered specific and articulable facts showing that the requested documents are relevant to a legitimate law enforcement inquiry.

The Court further determines that there is reason to believe that customer notice required under the Right to Financial Privacy Act of 1978 will result in substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same.

IT IS THEREFORE ORDERED, that any required customer notice regarding the application of the United States, or the existence of this Order of the Court, shall not be disclosed to the customer of the account(s) listed in Attachment A, or to any other person, for ninety (90) days following the date of this Order, except that Navy Federal Credit Union may disclose this Order to an attorney for Navy Federal Credit Union for the purpose of receiving legal advice. This Order is subject to renewal upon a proper showing under 12 U.S.C. § 3409(b)(2).

IT IS FURTHER ORDERED that the application and this Order are sealed until further order of the Court.

| IN RE NAVY FEDERAL CREDIT UNION: APPLICATION OF THE UNITED STATES OF AMERICA FOR ORDER PURSUANT TO THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978, 12 U.S.C. § 3409(B)(1) | Case Identifier: 02JUN25-NFNF-00237-7MNA |

**ORDER PURSUANT TO 12 U.S.C. § 3409(B)(1)**

The United States has submitted an application pursuant to the Right to Financial Privacy Act, 12 U.S.C. § 3409(b)(1), requesting that the Court enter an Order delaying the period of providing required customer notice for a period not to exceed ninety (90) days.

It is hereby ordered that the Government may delay customer notice required under 12 USC § 3407(2) as I have found the following:

(1) the investigation being conducted is within the lawful jurisdiction of the Government authority seeking the financial records;

(2) there is reason to believe that the records being sought are relevant to a legitimate law enforcement inquiry; and

(3) there is reason to believe that such notice will result in the destruction of or tampering with evidence; or otherwise seriously jeopardize an investigation.

This delay order is granted for a period of ninety (90) days from the date of this order. Extensions of the delay of notice may be granted for up to ninety days each may be granted by the court upon application, but only in accordance with this subsection. Upon expiration of the period of delay of notification, the customer shall be served with or mailed a copy of the process or request together with a notice as set forth in 12 USC § 3409(c).

It is further ordered that the subject financial institution is prohibited from disclosing that records have been obtained or that a request for records has been made.

SO ORDERED:

Date: 5 June 2025

LAPLANTE.PAUL.SPENCER.[redacted] Digitally signed by LAPLANTE.PAUL.SPENCER[redacted] Date: 2025.06.05 14:21:35 -07'00'

## FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. On June 1, 2025, CSSN Copeland was found in his barracks room (after prior attempts being unsuccessful).

16. On June 3, 2025, COPELAND disclosed to NCIS that he does not have an operable vehicle and utilizes a variety of transportation methods.

17. An analysis of COPELAND's geolocation phone data reveals that his cellular phone travelled through the Hampton Roads area including Norfolk, VA and Portsmouth, VA on Saturday, 31 May 2025.

18. Through investigative means, NCIS has determined that COPELAND has a bank account at Navy Federal Credit Union and his social security number is: [redacted]

**INFORMATION AND RECORDS REQUESTED**

19. Trial Counsel and law enforcement request one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Navy Federal Credit Union for the records COPELAND's accounts associated with his social security number: [redacted] from 28 May 2025 until present. This includes records regarding withdrawals, deposits, and transfers to determine where CSSN Copeland may have been located and the intent behind his absence and false statements.

**REASON FOR REQUEST**

21. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of COPELAND. Specifically, these records will corroborate the timeline of unauthorized absence and will determine the scope of any false official statements.

22. For these reasons, we respectfully request a subpoena for Navy Federal Credit Union to produce the account information associated with COPELAND.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | ) Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require Apple, Inc. to disclosure certain records and other information pertaining to the account associated with, Jermiah Copland (DOB: [redacted], Telephone Number [redacted] the **SUBJECT ACCOUNT**. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Apple, Inc. is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Apple, Inc. to disclose the items described in Part II of Attachment A. See 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of

competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving

for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. On June 3, 2025, NCIS interviewed COPELAND and he relayed his telephone number is [redacted] Additionally, COPELAND's command advised COPELAND communicated with his command via telephone number [redacted]

16. On June 3, 2025, COPELAND provided his phone to be searched and it is an Apple iPhone 15 pro max.

17. On June 3, 2025, COPELAND disclosed to NCIS that he does not have an operable vehicle and utilizes a variety of transportation methods.

18. An analysis of COPELAND's geolocation phone data reveals that his cellular phone travelled through the Hampton Roads area including Norfolk, VA and Portsmouth, VA on Saturday, 31 May 2025.

## REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are

relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that Apple, Inc. be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Apple, Inc. not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN. [redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN [redacted] Date: 2025.06.05 14:53:41 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Apple, Inc., an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Uber Technologies shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Apple, Inc. shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Apple, Inc. may disclose this Order to an attorney for Uber Technologies for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require Apple, Inc. to disclosure certain records and other information pertaining to the account associated with, Angelina Resendiz (Telephone Number 254-203-0672), the **SUBJECT ACCOUNT**. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Apple, Inc. is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Apple, Inc. to disclose the items described in Part II of Attachment A. See 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of

competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving

for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. On June 3, 2025, NCIS interviewed COPELAND and he relayed his telephone number is 804-216-4307. Additionally, COPELAND's command advised COPELAND communicated with his command via telephone number [redacted].

16. On June 3, 2025, USS JAMES E WILLIAMS provided that CSSN RESENDIZ phone number on the recall roster is [redacted] and I confirmed RESENDIZ as the owner of the telephone via T-Mobile subscriber information.

17. On June 3, 2025, COPELAND disclosed to NCIS that he does not have an operable vehicle and utilizes a variety of transportation methods. COPELAND confirmed that RESENDIZ uses an Apple iPhone.

18. An analysis of COPELAND's geolocation phone data reveals that his cellular phone travelled through the Hampton Roads area including Norfolk, VA and Portsmouth, VA on Saturday, 31 May 2025.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that Apple, Inc. be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Apple, Inc. not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN[redacted] Digitally signed by MARTINEZ.TIFFANY.LYN[redacted] Date: 2025.06.05 14:51:59 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Apple, Inc., an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Uber Technologies shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Apple, Inc. shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Apple, Inc. may disclose this Order to an attorney for Uber Technologies for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Apple, Inc., an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Uber Technologies shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Apple, Inc. shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Apple, Inc. may disclose this Order to an attorney for Uber Technologies for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status after not arriving for work from 30 May-1 June 2025

2. CSSN Jermiah Copeland, USN, DDG 95, was also UA beginning on 29 May 2025. Around approximately 0900 on 29 May, FCC Brad Parker, USN, arrived at the barracks room of CSSN Copeland to get him to come to the ship and notified him that he was going to be labeled as UA. FCC Parker observed CSSN Copeland and CSSN Angelina Resendiz, USN, together in a state of undress and asleep.

3. CSSN Copeland was not located until 1 June when he base police found him in his barracks room.

4. On 1 June, the Accused was interviewed and provided that CSSN Resendiz came to his barracks room to have dinner and have a couple drinks on the afternoon/evening of 28 May. This was confirmed after a review of messages on his phone. He provided that she called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. CSSN Copeland stated CSSN Resendiz became emotional and began to cry. CSSN Copeland stated the relationship with CSSN Resendiz was platonic and he is a friend from work and no sexual acts have happened between them.

5. CSSN Copeland provided that the two of them got dressed and a roommate took him and CSSN Resendiz to Resendiz's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000 29 May 2025 and that was the last time he saw her.

6. This was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

7. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

8. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

9. The whereabouts of CSSN Resendiz are still unknown. Her cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA.

10. On 2 June 2025, CSSN Copeland was re-interviewed and provided that he did not take CSSN Resendiz to her barracks, but rather she left his barracks room alone. He also provided that she had her backpack with her when she arrived at his barracks on 28 May 2025.

11. On 4 June, the USS JAMES E. WILLIAMS provided that the phone number listed for CSSN Resendiz's recall is [redacted]. A check revealed that this phone number is associated with T-Mobile.

12. CSSN Resendiz's family has reported she is a regular user of the Snapchat application.

**INFORMATION AND RECORDS REQUESTED**

7. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Snap, Inc. for the account registered to CSSN Angelina Resendiz.

**REASON FOR REQUEST**

10. Trial Counsel and law enforcement request such information because this account will further the investigation by allowing for the submission of additional legal processes.

11. For these reasons, we respectfully request a subpoena for Snap, Inc. to produce the account information associated with CSSN Angelina Resendiz.

**Subject:** RE: Copeland - Snap Warrant

Good evening LT Dempsey,

I have reviewed the warrant request for Snap Chat. At this time, I do not find it establishes probable cause regarding the investigation of alleged violations of Arts. 85, 86, or 107.

Most of the request is for information that occurred prior to any alleged offenses. Further, the affidavit states that Copeland's phone was searched and snapchatting was found. However, there is no detail as to what those said or why they would contribute to probable cause. Please feel free to apply again with an affidavit that contains additional information.

I am just about to leave the office. If there are any other requests tonight or this weekend, please text me and I will review them ASAP.

Very Respectfully,

**Subject:** RE: Copeland - Snap Warrant

All of your concerns are correct – I've resubmitted Attachment B, the affidavit, and the application. In my haste I must have forgotten to save my signatures.

I am going to begin two iCloud warrants now I expect to have to you soon.

V/r,

LT Dempsey

**Subject:** Copeland - Snap Warrant

Good morning CDR Mayo and LT Dempsey,

I have reviewed your request for a warrant for Copeland's Snap account. I have the following questions:

- You are requesting information from 28 May – present. What is the probable cause to receive information after 2 June considering that he was located on 1 June and interviewed on 2 June?
- What is the probable cause to receive content beyond 29 May considering that per paragraph 30 of the affidavit it appears he did not communicate via Snap after the early morning of 29 May?

Also, LT Dempsey I noticed that you did not sign the bottom of the affidavit. I am not sure if that was intentional or just an oversight. If it was an oversight, please sign it and then re-upload it to

NCORS.

Finally, I am about to start a guilty plea at 1030 PST. I am willing to pause the guilty plea at any time if additional requests come in. The best way to notify me is to text me at [redacted]

Please let me know if you have any questions.

Very Respectfully,

LCDR Paul LaPlante, JAGC, USN
Military Judge, Northwest Judicial Circuit

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with the Snapchat, Inc. Account: [redacted] that is stored at premises owned, maintained, controlled, or operated by Snapchat, Inc., a company headquartered at 2772 Donald Douglas Loop N., Santa Monica, CA 90405.

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Snapchat, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Snapchat, Inc., Snapchat, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Snapchat, Inc., or have been preserved for Snapchat ID: [redacted] from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Snapchat passwords, Snapchat security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

(a) All activity logs for the account and all other documents for previous snaps, stories, and chats, to include any metadata and/or content;

(b) Content of sent snaps; story content; chat content;

(c) Content of user's memories, Snapchat's cloud-storage service;

(d) All logs, including sender recipient, date, and time, concerning the previous snaps sent to or from the Snapchat account of the above users; to include IP addresses associated to accounts listed above;

(e) The types of service utilized by the user;

(f) The length of service (including start date) and the means and source of any payments associated with the service (including an credit card or bank account number);

(g) All privacy settings and other account settings, including privacy settings for individual snaps, and all records showing which Snapchat users have been blocked by the account;

(h) All records pertaining to communications between Snapchat and any person regarding the user or the user's Snapchat account, including contacts with support services and records of actions taken.

II. Information to be seized by the government

All information described above in section I, including correspondence, records, photographs, electronic mail, chat logs, and electronic chat messages that constitutes fruits, evidence and instrumentalities of violations of Article 85 (Desertion) and Article 86 (Unauthorized absence) including, for each account or identifier listed on Attachment A, information pertaining to the following matters, including attempting and conspiring to engage in the following matters from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. Communications between the SUBJECT ACCOUNT and other users relevant to the offense under investigation;

b. The identity of the person(s) who created or used the Snapchat, Inc. account, including records that help reveal the whereabouts of such person(s);

c. Evidence indicating how and when the SUBJECT ACCOUNT was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and the account subscriber;

d. All records pertaining to communications between Snapchat and any person regarding the SUBJECT ACCOUNT;

e. Evidence indicating the subscriber's state of mind as it relates to the crime under investigation;

f. Evidence of the times the accounts or identifiers listed on Attachment A was used;

g. Device backups including camera roll and photo stream data to identify any actors;

h. Credit card and other financial information including but not limited to bills and payment records;

i. Passwords and encryption keys, and other access information that may be necessary to access the account or identifier listed on Attachment A and other associated accounts;

j. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNT communicated with;

k. Evidence relating to the intent of the account holder of SUBJECT ACCOUNT.

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Special Agent Tiffany Martinez, being first duly sworn, hereby depose and state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I, Tiffany Martinez, am a Special Agent with the Naval Criminal Investigative Service (NCIS), having been duly appointed to affect Searches and Seizures in the United States and it's territories, make the following statement in support of a request for a search warrant.

2. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) and have been employed for the NCIS since November, 2021. I am a sworn federal law enforcement officer. Your affiant has received approximately 950 hours of training in the Criminal Investigator Training Program at the Federal Law Enforcement Training Center in Glynco, Georgia. This program provided instruction on investigations, federal law, and other practical issues for investigators. The Special Agent Basic Training Program sponsored by NCIS consisted of training, including death investigations, military law, firearms, intelligence, and crime scene investigation. Prior to NCIS, I was employed as a Correctional Officer with the Federal Bureau of Prisons for five (5) years. Prior to my tenure as a Correctional Officer, I was a paralegal preparing Motions and Discovery as well as trial preparation for criminal complaints. During the course of my tenure as a Special Agent and previous employments, I have served in the United States Army as a Military Police Office for approximately ten (10) years where I currently hold the rank of

Captain. During my time as a Military Police Officer, I completed a 17 week Military Police Basic Officer Law Enforcement Training located in Fort Leonard Wood, MO. My education consists of a Bachelor's of Science degree in Pre-Law from Mountain State University and a Masters of Professional Studies degree in Homeland Security from Pennsylvania State University.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Snapchat records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Snapchat, Inc. as is relates to account "[redacted]" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN ANGELINA RESENDIZ, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the data obtained from **SUBJECT ACCOUNT**.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic

storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

(A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 85 (Desertion) of the Uniform Code of Military Justice (UCMJ) defines Desertion as any person subject tot his chapter who without authority foes or remains absent from his unit, organization, or place of duty with intent to remain away therefrom permanently is guilty of desertion.

12. Article 86 (Unauthorized Absence) of the UCMJ defines Unauthorized Absence as any person subject to this chapter who, without authority, fails to go to his appointed place of duty at the time prescribed; goes from that place; or absents himself or remains absent from his unit, organization, or place of duty at which he is required to be at the time prescribed, is guilty of Unauthorized Absence and shall be punished as a court-martial may direct.

## BACKGROUND CONCERNING SNAPCHAT

13. In my training and experience, I have learned that Snap Inc. provides a variety of on-line services, including electronic communications access, to the public, namely through the application "Snapchat". Subscribers obtain an account by registering with Snap Inc. During the registration process, Snap Inc. asks subscribers to provide basic personal information.

14. Snapchat is a mobile application made by Snapchat, Inc. and is available through the iPhone App Store and Google Play. The application provides a way to share moments with photos, videos, and text. Snapchat's differentiating feature from other communications is that once the sender is able to set a variable amount of time the message is viewable by the receiver. This time can be between one and ten seconds.

15. At the expiration of the time, the message is deleted from Snapchat's servers. Similarly, the message disappears from the user's devices. If the receiver of a Snapchat message does not access the application on the device the message remains undelivered. Snapchat stores undelivered messages for 30 days. After 30 days the messages are deleted from the company's servers.

16. Snapchat users have the following abilities:

    a. Snaps: A user takes a photo or video using their camera phone in real-time and then selects which of their friends to send the message to. Pictures and videos can also be sent from the saved pictures/videos in the gallery of the device. Unless the sender or recipient opts to save the photo or video, the message will be deleted from their devices (after the content is sent in the case of the sender and after it's been opened in the case of the recipient). Users are able to save a photo or video they've taken locally to their devices or to Memories, which is Snapchat's cloud-storage service.

    b. Stories: A user can add a video or snaps to their "story" Depending on the user's privacy settings, the photos and video added to a Story can be viewed by either all

Snapchatters or just the user's friends for up to 24 hours. Stories can also be saved in Memories. Our Stories is a collection of user submitted snaps from different locations and events. A Snapchat user, with the location services of their device turned on, can contribute to a collection of snaps regarding the event.

c. Memories: Snapchat's cloud-storage service. Users can save their sent or unsent Snap, posted stories, and photos and videos from their phone's gallery in Memories. A user can also edit and send snaps and create stories from these memories. Snaps, stories, and other photos and videos saved in memories are backed up by us and ma remain in memories until deleted by the user.

d. Chat: A user can also type messages, send photos, videos, audio notes, and video notes to friends within the Snapchat app using the chat feature. A user sends a chat message to a friend, and once it is viewed by both parties – and both parties swipe away from the Chat screen – the message will be cleared. Within the Snapchat app itself, a user can opt to save part of the Chat by tapping on the message that they want to keep. The user can clear the message by tapping it again.

e. Snapcash: Snapchat also offers money transfer service called Snapcash. Users are able to transfer up to $2,500 per week using this service. Snapcash transactions are only permitted using Visa and Mastercard debit cards issued by a United States Financial Institution. Money transfers can only occur if the sender and received both have Snapchat installed and have linked an appropriate debit card to their accounts. To facilitate these transactions, Snapchat retains information about the method and source of payment including debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers.

17. Information that Snapchat possesses and maintains:

a. Personally Identifying Information: When a user creates an account they make a unique Snapchat username. This is the name visible to other Snapchat users. A user also enters a date of birth. This is supposed to prevent anyone under the age of 13 from using Snapchat. An email address is required to register a Snapchat. A new user also has to provide a mobile phone number. This phone number is verified during the registration process. Snapchat sends an activation code that must be entered before proceeding with the registration step. However, a user may elect to bypass entering a phone.

b. Usage information: While a Snapchat message may disappear, the record of who sent it and when still exists. Snapchat records and retains log files and information that is roughly analogous to the call detail records maintained by telecommunication companies. This includes the date, time, sender, and recipient of a snap. Additionally, Snapchat stores the number of messages exchanged, which users they communicate with the most, message status including if and when the message was opened, and whether the receiver used the native screen capture function of their device to take a picture of the snap before it disappeared.

c. Device information: Snapchat stores device information such as the model, operating system, operating system version, mobile device phone number, and mobile network information of devices used in conjunction with the service. They also collect unique service identifiers such as the Media Access Control (MAC) address and the International Mobile Equipment Identifier (IMEI) or Mobile Equipment Identifier (MEID) of devices used to access Snapchat.

d. Device Phonebook and Photos: If a user consents, Snapchat can access from their device's electronic phonebook or contacts list and images.

e. Financial information: Snapchat retains information about the method and source of payment of customers who use the Snapcash service. This includes debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers. Snapcash generates a receipt for any transaction. The receipts are programmed to automatically delete after the sender and recipient have seen the message and swiped out of the Chat screen, unless either taps to save the message. Snapchat maintains transactional records for ten days. These records include information about the sender and receiver, the transaction amount, and date/times tamps of when the message weas sent, received, and opened.

f. Message Content: Snapchat's motto is "delete is our default." Snapchat deletes a snap once it has been viewed. If the message is not read, because the user has not opened up the application, the message is stored for 30 days before being deleted. However, just because the snap no longer appears the user does not mean it is gone. For example, For example, Snapchat has a feature called Replay. This allows users to view a previously viewed snap once per day. This feature is disabled by default and the user must opt-in to use Replay. Also, if a Snapchat user posts an image or video to the MyStory feature it can be viewed by their

friends for 24 hours. If the user posted to the Our Storie feature, the snaps are archived and can be viewed through Snapchat.

18. Therefore, the computers of Snapchat are likely to contain all the material just described, including stored electronic communications and information concerning subscribers and their use of Snapchat, such as account access information, transaction information, and account application.

## PROBABLE CAUSE

19. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status after not arriving for work from 30 May-1 June 2025

20. CSSN Jermiah Copeland, USN, DDG 95, was also UA beginning on 29 May 2025. Around approximately 0900 on 29 May, FCC Brad Parker, USN, arrived at the barracks room of CSSN Copeland to get him to come to the ship and notified him that he was going to be labeled as UA. FCC Parker observed CSSN Copeland and CSSN Angelina Resendiz, USN, together in a state of undress and asleep.

21. CSSN Copeland was not located until 1 June when he base police found him in his barracks room.

22. On 1 June, the Accused was interviewed and provided that CSSN Resendiz came to his barracks room to have dinner and have a couple drinks on the afternoon/evening of 28 May. This was confirmed after a review of messages on his phone. He provided that she called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. CSSN Copeland stated CSSN Resendiz became emotional and began to cry. CSSN Copeland stated the relationship with CSSN Resendiz was platonic and he is a friend from work and no sexual acts have happened between them.

23. CSSN Copeland provided that the two of them got dressed and a roommate took him and CSSN Resendiz to Resendiz's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000 29 May 2025 and that was the last time he saw her.

24. This was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

25. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed

medication. NMCP Emergency Room and psychology department were negative for her presence when called.

26. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

27. The whereabouts of CSSN Resendiz are still unknown. Her cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA.

28. On 2 June 2025, CSSN Copeland was re-interviewed and provided that he did not take CSSN Resendiz to her barracks, but rather she left his barracks room alone. He also provided that she had her backpack with her when she arrived at his barracks on 28 May 2025.

29. CSSN Resendiz's family has reported she is a regular user of the Snapchat application. They also provided that her username is "[redacted]".

30. Additionally, family and friends reported CSSN Resendiz utilizes Snapchat on a daily basis and has a 400 day snapchat streak with her sister.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

31. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime

(e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

32. Based on the aforementioned factual information, I respectfully submit that probable cause exists to believe that evidence, fruits, and instrumentalities of violations of Articles 85 and 86 of the UCMJ and is located within information associated with the **SUBJECT ACCOUNT**.

33. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional NCIS agents, law enforcement personnel, and forensic support personnel, to search the **SUBJECT ACCOUNT** for, and seize, the items specified in Attachment B.

## CONCLUSION

31. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

MARTINEZ.TIFFANY.LYNN [redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN [redacted]

Special Agent Tiffany Martinez

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. There were two failed login attempts on 1 June 2025 and 2 June 2025 (UTC time) for IP 174.77.94.243. The data is as follows:

2025-06-02 00:00:38 Z 174.77.94.243 Failed Login

Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/135.0.0.0 Safari/537.36,gzip(gfe),gzip(gfe)

2025-06-01 23:54:45 Z 174.77.94.243 Failed Login

8. This IP address belongs to Cox Communications.

## INFORMATION AND RECORDS REQUESTED

9. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Cox Communications for the records IP address for IP 174.77.94.243 to determine where that IP address is located.

## REASON FOR REQUEST

10. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

11. For these reasons, we respectfully request a subpoena for Cox Communications to produce this information.

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with the Snapchat, Inc. Accounts: [redacted] and phone number [redacted] that is stored at premises owned, maintained, controlled, or operated by Snapchat, Inc., a company headquartered at 2772 Donald Douglas Loop N., Santa Monica, CA 90405.

## ATTACHMENT B

### Items to be Seized

I. Information to be disclosed by Snapchat, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Snapchat, Inc., Snapchat, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Snapchat, Inc., or have been preserved for Snapchat IDs: [redacted] and phone number [redacted] from **12AM (Eastern Standard Time) on 28 May, 2025** through **2 June 2025**:

All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Snapchat passwords, Snapchat security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

(a) All activity logs for the account and all other documents for previous snaps, stories, and chats, to include any metadata and/or content;

(b) Content of sent snaps; story content; chat content;

(c) Content of user's memories, Snapchat's cloud-storage service;

(d) All logs, including sender recipient, date, and time, concerning the previous snaps sent to or from the Snapchat account of the above users; to include IP addresses associated to accounts listed above;

(e) The types of service utilized by the user;

(f) The length of service (including start date) and the means and source of any payments associated with the service (including an credit card or bank account number);

(g) All privacy settings and other account settings, including privacy settings for individual snaps, and all records showing which Snapchat users have been blocked by the account;

(h) All records pertaining to communications between Snapchat and any person regarding the user or the user's Snapchat account, including contacts with support services and records of actions taken.

II. Information to be seized by the government

All information relating to communications from **12AM (Eastern Standard Time) on 28 May, 2025** through **29 May 2025 at 0900 EST:**

a. Communications between the SUBJECT ACCOUNTS and other users relevant to the offense under investigation from

b. All records pertaining to communications between Snapchat and any person regarding the SUBJECT ACCOUNTS; and

c. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNTS communicated with.

All information described above in section I, except for communications, that constitutes fruits, evidence and instrumentalities of violations of Article 86 (Unauthorized Absence) and Article 107 (False Official Statement) including, for each account or identifier listed on Attachment A, information pertaining to the following matters, including attempting and conspiring to engage in the following matters from **12AM (Eastern Standard Time) on 28 May, 2025** through **2 June 2025**:

d. The identity of the person(s) who created or used the Snapchat, Inc. account, including records that help reveal the whereabouts of such person(s);

e. Evidence indicating how and when the SUBJECT ACCOUNTS was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and the account subscriber;

f. Evidence indicating the subscriber's state of mind as it relates to the crime under investigation;

g. Evidence of the times the accounts or identifiers listed on Attachment A was used;

h. Device backups including camera roll and photo stream data to identify any actors;

i. Credit card and other financial information including but not limited to bills and payment records;

j. Passwords and encryption keys, and other access information that may be necessary to access the account or identifier listed on Attachment A and other associated accounts;

k. Evidence relating to the intent of the account holder of SUBJECT ACCOUNTS.

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Special Agent Tiffany Martinez, being first duly sworn, hereby depose and state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I, Tiffany Martinez, am a Special Agent with the Naval Criminal Investigative Service (NCIS), having been duly appointed to affect Searches and Seizures in the United States and it's territories, make the following statement in support of a request for a search warrant.

2. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) and have been employed for the NCIS since November, 2021. I am a sworn federal law enforcement officer. Your affiant has received approximately 950 hours of training in the Criminal Investigator Training Program at the Federal Law Enforcement Training Center in Glynco, Georgia. This program provided instruction on investigations, federal law, and other practical issues for investigators. The Special Agent Basic Training Program sponsored by NCIS consisted of training, including death investigations, military law, firearms, intelligence, and crime scene investigation. Prior to NCIS, I was employed as a Correctional Officer with the Federal Bureau of Prisons for five (5) years. Prior to my tenure as a Correctional Officer, I was a paralegal preparing Motions and Discovery as well as trial preparation for criminal complaints. During the course of my tenure as a Special Agent and previous employments, I have served in the United States Army as a

Military Police Office for approximately ten (10) years where I currently hold the rank of Captain. During my time as a Military Police Officer, I completed a 17 week Military Police Basic Officer Law Enforcement Training located in Fort Leonard Wood, MO. My education consists of a Bachelor's of Science degree in Pre-Law from Mountain State University and a Masters of Professional Studies degree in Homeland Security from Pennsylvania State University.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Snapchat records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Snapchat, Inc. as is relates to account [redacted]" and phone number [redacted] (**SUBJECT ACCOUNTS**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the data obtained from **SUBJECT ACCOUNT**.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

(A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 85 (Desertion) of the Uniform Code of Military Justice (UCMJ) defines Desertion as any person subject tot his chapter who without authority foes or remains absent from his unit, organization, or place of duty with intent to remain away therefrom permanently is guilty of desertion.

12. Article 107 (False Official Statement) of the UCMJ defines a False Official Statement as any person subject to this chapter who, with intent to deceive, makes any other false official statement knowing it to be false.

## BACKGROUND CONCERNING SNAPCHAT

13. In my training and experience, I have learned that Snap Inc. provides a variety of on-line services, including electronic communications access, to the public, namely through the application "Snapchat". Subscribers obtain an account by registering with Snap Inc. During the registration process, Snap Inc. asks subscribers to provide basic personal information.

14. Snapchat is a mobile application made by Snapchat, Inc. and is available through the iPhone App Store and Google Play. The application provides a way to share moments with photos, videos, and text. Snapchat's differentiating feature from other communications is that once the sender is able to set a variable amount of time the message is viewable by the receiver. This time can be between one and ten seconds.

15. At the expiration of the time, the message is deleted from Snapchat's servers. Similarly, the message disappears from the user's devices. If the receiver of a Snapchat message does not access the application on the device the message remains undelivered. Snapchat stores undelivered messages for 30 days. After 30 days the messages are deleted from the company's servers.

16. Snapchat users have the following abilities:

    a. Snaps: A user takes a photo or video using their camera phone in real-time and then selects which of their friends to send the message to. Pictures and videos can also be sent from the saved pictures/videos in the gallery of the device. Unless the sender or recipient opts to save the photo or video, the message will be deleted from their devices (after the content is sent in the case of the sender and after it's been opened in the case of the recipient). Users are able to save a photo or video they've taken locally to their devices or to Memories, which is Snapchat's cloud-storage service.

    b. Stories: A user can add a video or snaps to their "story" Depending on the user's privacy settings, the photos and video added to a Story can be viewed by either all Snapchatters or just the user's friends for up to 24 hours. Stories can also be saved in Memories. Our Stories is a collection of user submitted snaps from

different locations and events. A Snapchat user, with the location services of their device turned on, can contribute to a collection of snaps regarding the event.

c. Memories: Snapchat's cloud-storage service. Users can save their sent or unsent Snap, posted stories, and photos and videos from their phone's gallery in Memories. A user can also edit and send snaps and create stories from these memories. Snaps, stories, and other photos and videos saved in memories are backed up by us and ma remain in memories until deleted by the user.

d. Chat: A user can also type messages, send photos, videos, audio notes, and video notes to friends within the Snapchat app using the chat feature. A user sends a chat message to a friend, and once it is viewed by both parties – and both parties swipe away from the Chat screen – the message will be cleared. Within the Snapchat app itself, a user can opt to save part of the Chat by tapping on the message that they want to keep. The user can clear the message by tapping it again.

e. Snapcash: Snapchat also offers money transfer service called Snapcash. Users are able to transfer up to $2,500 per week using this service. Snapcash transactions are only permitted using Visa and Mastercard debit cards issued by a United States Financial Institution. Money transfers can only occur if the sender and received both have Snapchat installed and have linked an appropriate debit card to their accounts. To facilitate these transactions, Snapchat retains information about the method and source of payment including debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers.

17. Information that Snapchat possesses and maintains:

a. Personally Identifying Information: When a user creates an account they make a unique Snapchat username. This is the name visible to other Snapchat users. A user also enters a date of birth. This is supposed to prevent anyone under the age of 13 from using Snapchat. An email address is required to register a Snapchat. A new user also has to provide a mobile phone number. This phone number is verified during the registration process. Snapchat sends an activation code that must be entered before proceeding with the registration step. However, a user may elect to bypass entering a phone.

b. Usage information: While a Snapchat message may disappear, the record of who sent it and when still exists. Snapchat records and retains log files and information that is roughly analogous to the call detail records maintained by telecommunication companies. This includes the date, time, sender, and recipient of a snap. Additionally, Snapchat stores the number of messages exchanged, which users they communicate with the most, message status including if and when the message was opened, and whether the receiver used the native screen capture function of their device to take a picture of the snap before it disappeared.

c. Device information: Snapchat stores device information such as the model, operating system, operating system version, mobile device phone number, and mobile network information of devices used in conjunction with the service. They also collect unique service identifiers such as the Media Access Control (MAC) address and the International Mobile Equipment Identifier (IMEI) or Mobile Equipment Identifier (MEID) of devices used to access Snapchat.

d. Device Phonebook and Photos: If a user consents, Snapchat can access from their device's electronic phonebook or contacts list and images.

e. Financial information: Snapchat retains information about the method and source of payment of customers who use the Snapcash service. This includes debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers. Snapcash generates a receipt for any transaction. The receipts are programmed to automatically delete after the sender and recipient have seen the message and swiped out of the Chat screen, unless either taps to save the message. Snapchat maintains transactional records for ten days. These records include information about the sender and receiver, the transaction amount, and date/times tamps of when the message weas sent, received, and opened.

f. Message Content: Snapchat's motto is "delete is our default." Snapchat deletes a snap once it has been viewed. If the message is not read, because the user has not opened up the application, the message is stored for 30 days before being deleted. However, just because the snap no longer appears the user does not mean it is gone. For example, For example, Snapchat has a feature called Replay. This allows users to view a previously viewed snap once per day. This feature is disabled by default and the user must opt-in to use Replay. Also, if a Snapchat user posts an image or video to the MyStory feature it can be viewed by their

friends for 24 hours. If the user posted to the Our Storie feature, the snaps are archived and can be viewed through Snapchat.

18. Therefore, the computers of Snapchat are likely to contain all the material just described, including stored electronic communications and information concerning subscribers and their use of Snapchat, such as account access information, transaction information, and account application.

## PROBABLE CAUSE

19. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status after not arriving for work from 30 May-1 June 2025

20. CSSN Jermiah Copeland, USN, DDG 95, was also UA beginning on 29 May 2025. Around approximately 0900 on 29 May, FCC Brad Parker, USN, arrived at the barracks room of CSSN Copeland to get him to come to the ship and notified him that he was going to be labeled as UA. FCC Parker observed CSSN Copeland and CSSN Angelina Resendiz, USN, together in a state of undress and asleep.

21. CSSN Copeland was not located until 1 June when base police found him in his barracks room.

22. On 1 June, the Accused was interviewed and provided that CSSN Resendiz came to his barracks room to have dinner and have a couple drinks on the afternoon/evening of 28 May. This was confirmed after a review of messages on his phone. He provided that she called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. CSSN Copeland stated CSSN Resendiz became emotional and began to cry. CSSN Copeland stated the relationship with CSSN Resendiz was platonic and he is a friend from work and no sexual acts have happened between them.

23. CSSN Copeland provided that the two of them got dressed and a roommate took him and CSSN Resendiz to Resendiz's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000 29 May 2025 and that was the last time he saw her.

24. This was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not locate in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

25. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed

medication. NMCP Emergency Room and psychology department were negative for her presence when called.

26. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

27. The whereabouts of CSSN Resendiz are still unknown. Her cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA.

28. On 2 June 2025, CSSN Copeland was re-interviewed and provided that he did not take CSSN Resendiz to her barracks, but rather she left his barracks room alone. He also provided that she had her backpack with her when she arrived at his barracks on 28 May 2025.

29. On June 3, 2025, NCIS interviewed CSSN Copeland and he relayed his telephone number is [redacted] Additionally, CSSN Copeland's command advised Copeland communicated with his command via telephone number [redacted].

30. CSSN Copeland signed a Permissive Authorization for Search and Seizure of his phone. That search revealed his Snapchat username to be jermiah1738. Snapchat communications exist between CSSN Copeland and CSSN Resendiz. CSSN Copeland was also on Snapchat throughout the evening on 28 May 2025 and the early morning of 29 May 2025 communicating with others.

31. Telephone number [redacted] is associated with New Cingular Wireless owned by AT&T Wireless.

32. On 2 June 2025, CSSN Copeland was re-interviewed and confirmed that he was absent from work on 29 May. He stated that he spent time in various lounges in his barracks and visited with friends during the time between 29 May and 1 June. He provided he did not engage in sexual activity with CSSN Resendiz and that she was not naked at any time during her stay at his barracks room. He also provided he did not drive her to her barracks on 29 May, but rather that she left alone.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

31. As explained herein, information stored in connection with the **SUBJECT ACCOUNTS** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic

communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

32. Based on the aforementioned factual information, I respectfully submit that probable cause exists to believe that evidence, fruits, and instrumentalities of violations of Articles 85 and 86 of the UCMJ and is located within information associated with the **SUBJECT ACCOUNTS**.

33. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional NCIS agents, law enforcement personnel, and forensic support personnel, to search the **SUBJECT ACCOUNTS** for, and seize, the items specified in Attachment B.

## CONCLUSION

33. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

MARTINEZ.TIFFANY.LYNN[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN.[redacted] Date: 2025.06.06 11:09:24 -04'00'

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Special Agent Tiffany Martinez, being first duly sworn, hereby depose and state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I, Tiffany Martinez, am a Special Agent with the Naval Criminal Investigative Service (NCIS), having been duly appointed to affect Searches and Seizures in the United States and it's territories, make the following statement in support of a request for a search warrant.

2. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) and have been employed for the NCIS since November, 2021. I am a sworn federal law enforcement officer. Your affiant has received approximately 950 hours of training in the Criminal Investigator Training Program at the Federal Law Enforcement Training Center in Glynco, Georgia. This program provided instruction on investigations, federal law, and other practical issues for investigators. The Special Agent Basic Training Program sponsored by NCIS consisted of training, including death investigations, military law, firearms, intelligence, and crime scene investigation. Prior to NCIS, I was employed as a Correctional Officer with the Federal Bureau of Prisons for five (5) years. Prior to my tenure as a Correctional Officer, I was a paralegal preparing Motions and Discovery as well as trial preparation for criminal complaints. During the course of my tenure as a Special Agent and previous employments, I have served in the United States Army as a

Military Police Office for approximately ten (10) years where I currently hold the rank of Captain. During my time as a Military Police Officer, I completed a 17 week Military Police Basic Officer Law Enforcement Training located in Fort Leonard Wood, MO. My education consists of a Bachelor's of Science degree in Pre-Law from Mountain State University and a Masters of Professional Studies degree in Homeland Security from Pennsylvania State University.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Snapchat records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Snapchat, Inc. as is relates to account "[redacted]" and phone number [redacted] (**SUBJECT ACCOUNTS**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the data obtained from **SUBJECT ACCOUNT**.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

(A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 85 (Desertion) of the Uniform Code of Military Justice (UCMJ) defines Desertion as any person subject tot his chapter who without authority foes or remains absent from his unit, organization, or place of duty with intent to remain away therefrom permanently is guilty of desertion.

12. Article 107 (False Official Statement) of the UCMJ defines a False Official Statement as any person subject to this chapter who, with intent to deceive, makes any other false official statement knowing it to be false.

## BACKGROUND CONCERNING SNAPCHAT

13. In my training and experience, I have learned that Snap Inc. provides a variety of on-line services, including electronic communications access, to the public, namely through the application "Snapchat". Subscribers obtain an account by registering with Snap Inc. During the registration process, Snap Inc. asks subscribers to provide basic personal information.

14. Snapchat is a mobile application made by Snapchat, Inc. and is available through the iPhone App Store and Google Play. The application provides a way to share moments with photos, videos, and text. Snapchat's differentiating feature from other communications is that once the sender is able to set a variable amount of time the message is viewable by the receiver. This time can be between one and ten seconds.

15. At the expiration of the time, the message is deleted from Snapchat's servers. Similarly, the message disappears from the user's devices. If the receiver of a Snapchat message does not access the application on the device the message remains undelivered. Snapchat stores undelivered messages for 30 days. After 30 days the messages are deleted from the company's servers.

16. Snapchat users have the following abilities:

    a. Snaps: A user takes a photo or video using their camera phone in real-time and then selects which of their friends to send the message to. Pictures and videos can also be sent from the saved pictures/videos in the gallery of the device. Unless the sender or recipient opts to save the photo or video, the message will be deleted from their devices (after the content is sent in the case of the sender and after it's been opened in the case of the recipient). Users are able to save a photo or video they've taken locally to their devices or to Memories, which is Snapchat's cloud-storage service.

    b. Stories: A user can add a video or snaps to their "story" Depending on the user's privacy settings, the photos and video added to a Story can be viewed by either all Snapchatters or just the user's friends for up to 24 hours. Stories can also be saved in Memories. Our Stories is a collection of user submitted snaps from

different locations and events. A Snapchat user, with the location services of their device turned on, can contribute to a collection of snaps regarding the event.

c. Memories: Snapchat's cloud-storage service. Users can save their sent or unsent Snap, posted stories, and photos and videos from their phone's gallery in Memories. A user can also edit and send snaps and create stories from these memories. Snaps, stories, and other photos and videos saved in memories are backed up by us and ma remain in memories until deleted by the user.

d. Chat: A user can also type messages, send photos, videos, audio notes, and video notes to friends within the Snapchat app using the chat feature. A user sends a chat message to a friend, and once it is viewed by both parties – and both parties swipe away from the Chat screen – the message will be cleared. Within the Snapchat app itself, a user can opt to save part of the Chat by tapping on the message that they want to keep. The user can clear the message by tapping it again.

e. Snapcash: Snapchat also offers money transfer service called Snapcash. Users are able to transfer up to $2,500 per week using this service. Snapcash transactions are only permitted using Visa and Mastercard debit cards issued by a United States Financial Institution. Money transfers can only occur if the sender and received both have Snapchat installed and have linked an appropriate debit card to their accounts. To facilitate these transactions, Snapchat retains information about the method and source of payment including debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers.

17. Information that Snapchat possesses and maintains:

a. Personally Identifying Information: When a user creates an account they make a unique Snapchat username. This is the name visible to other Snapchat users. A user also enters a date of birth. This is supposed to prevent anyone under the age of 13 from using Snapchat. An email address is required to register a Snapchat. A new user also has to provide a mobile phone number. This phone number is verified during the registration process. Snapchat sends an activation code that must be entered before proceeding with the registration step. However, a user may elect to bypass entering a phone.

b. Usage information: While a Snapchat message may disappear, the record of who sent it and when still exists. Snapchat records and retains log files and information that is roughly analogous to the call detail records maintained by telecommunication companies. This includes the date, time, sender, and recipient of a snap. Additionally, Snapchat stores the number of messages exchanged, which users they communicate with the most, message status including if and when the message was opened, and whether the receiver used the native screen capture function of their device to take a picture of the snap before it disappeared.

c. Device information: Snapchat stores device information such as the model, operating system, operating system version, mobile device phone number, and mobile network information of devices used in conjunction with the service. They also collect unique service identifiers such as the Media Access Control (MAC) address and the International Mobile Equipment Identifier (IMEI) or Mobile Equipment Identifier (MEID) of devices used to access Snapchat.

d. Device Phonebook and Photos: If a user consents, Snapchat can access from their device's electronic phonebook or contacts list and images.

e. Financial information: Snapchat retains information about the method and source of payment of customers who use the Snapcash service. This includes debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers. Snapcash generates a receipt for any transaction. The receipts are programmed to automatically delete after the sender and recipient have seen the message and swiped out of the Chat screen, unless either taps to save the message. Snapchat maintains transactional records for ten days. These records include information about the sender and receiver, the transaction amount, and date/times tamps of when the message weas sent, received, and opened.

f. Message Content: Snapchat's motto is "delete is our default." Snapchat deletes a snap once it has been viewed. If the message is not read, because the user has not opened up the application, the message is stored for 30 days before being deleted. However, just because the snap no longer appears the user does not mean it is gone. For example, For example, Snapchat has a feature called Replay. This allows users to view a previously viewed snap once per day. This feature is disabled by default and the user must opt-in to use Replay. Also, if a Snapchat user posts an image or video to the MyStory feature it can be viewed by their

friends for 24 hours. If the user posted to the Our Storie feature, the snaps are archived and can be viewed through Snapchat.

18. Therefore, the computers of Snapchat are likely to contain all the material just described, including stored electronic communications and information concerning subscribers and their use of Snapchat, such as account access information, transaction information, and account application.

## PROBABLE CAUSE

19. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status after not arriving for work from 30 May-1 June 2025

20. CSSN Jermiah Copeland, USN, DDG 95, was also UA beginning on 29 May 2025. Around approximately 0900 on 29 May, FCC Brad Parker, USN, arrived at the barracks room of CSSN Copeland to get him to come to the ship and notified him that he was going to be labeled as UA. FCC Parker observed CSSN Copeland and CSSN Angelina Resendiz, USN, together in a state of undress and asleep.

21. CSSN Copeland was not located until 1 June when base police found him in his barracks room.

22. On 1 June, the Accused was interviewed and provided that CSSN Resendiz came to his barracks room to have dinner and have a couple drinks on the afternoon/evening of 28 May. This was confirmed after a review of messages on his phone. He provided that she called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. CSSN Copeland stated CSSN Resendiz became emotional and began to cry. CSSN Copeland stated the relationship with CSSN Resendiz was platonic and he is a friend from work and no sexual acts have happened between them.

23. CSSN Copeland provided that the two of them got dressed and a roommate took him and CSSN Resendiz to Resendiz's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000 29 May 2025 and that was the last time he saw her.

24. This was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not locate in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

25. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed

medication. NMCP Emergency Room and psychology department were negative for her presence when called.

26. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

27. The whereabouts of CSSN Resendiz are still unknown. Her cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA.

28. On 2 June 2025, CSSN Copeland was re-interviewed and provided that he did not take CSSN Resendiz to her barracks, but rather she left his barracks room alone. He also provided that she had her backpack with her when she arrived at his barracks on 28 May 2025.

29. On June 3, 2025, NCIS interviewed CSSN Copeland and he relayed his telephone number is [redacted]. Additionally, CSSN Copeland's command advised Copeland communicated with his command via telephone number [redacted].

30. CSSN Copeland signed a Permissive Authorization for Search and Seizure of his phone. That search revealed his Snapchat username to be [redacted]. Snapchat communications exist between CSSN Copeland and CSSN Resendiz. CSSN Copeland was also on Snapchat throughout the evening on 28 May 2025 and the early morning of 29 May 2025 communicating with others.

31. Telephone number [redacted] is associated with New Cingular Wireless owned by AT&T Wireless.

32. On 2 June 2025, CSSN Copeland was re-interviewed and confirmed that he was absent from work on 29 May. He stated that he spent time in various lounges in his barracks and visited with friends during the time between 29 May and 1 June. He provided he did not engage in sexual activity with CSSN Resendiz and that she was not naked at any time during her stay at his barracks room. He also provided he did not drive her to her barracks on 29 May, but rather that she left alone.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

31. As explained herein, information stored in connection with the **SUBJECT ACCOUNTS** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic

communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

32. Based on the aforementioned factual information, I respectfully submit that probable cause exists to believe that evidence, fruits, and instrumentalities of violations of Articles 85 and 86 of the UCMJ and is located within information associated with the **SUBJECT ACCOUNTS**.

33. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional NCIS agents, law enforcement personnel, and forensic support personnel, to search the **SUBJECT ACCOUNTS** for, and seize, the items specified in Attachment B.

## CONCLUSION

33. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

MARTINEZ.TIFFANY.LYNN[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN.[redacted] Date: 2025.06.06 11:09:24 -04'00'

**Subject:** RE: Copeland - Snap Warrant

Good evening LT Dempsey,

I have reviewed the warrant request for Snap Chat. At this time, I do not find it establishes probable

cause regarding the investigation of alleged violations of Arts. 85, 86, or 107.

Most of the request is for information that occurred prior to any alleged offenses. Further, the affidavit states that Copeland's phone was searched and snapchatting was found. However, there is no detail as to what those said or why they would contribute to probable cause. Please feel free to apply again with an affidavit that contains additional information.

I am just about to leave the office. If there are any other requests tonight or this weekend, please text me and I will review them ASAP.

Very Respectfully,

**Subject:** RE: Copeland - Snap Warrant

All of your concerns are correct – I've resubmitted Attachment B, the affidavit, and the application.  In my haste I must have forgotten to save my signatures.

I am going to begin two iCloud warrants now I expect to have to you soon.

V/r,

LT Dempsey

**Subject:** Copeland - Snap Warrant

Good morning CDR Mayo and LT Dempsey,

I have reviewed your request for a warrant for Copeland's Snap account. I have the following questions:

- You are requesting information from 28 May – present. What is the probable cause to receive information after 2 June considering that he was located on 1 June and interviewed on 2 June?
- What is the probable cause to receive content beyond 29 May considering that per paragraph 30 of the affidavit it appears he did not communicate via Snap after the early morning of 29 May?

Also, LT Dempsey I noticed that you did not sign the bottom of the affidavit. I am not sure if that was intentional or just an oversight. If it was an oversight, please sign it and then re-upload it to NCORS.

Finally, I am about to start a guilty plea at 1030 PST. I am willing to pause the guilty plea at any time if additional requests come in. The best way to notify me is to text me at [redacted]

Please let me know if you have any questions.

Very Respectfully,

LCDR Paul LaPlante, JAGC, USN

| **U N I T E D S T A T E S**<br><br>**v.**<br><br>**ANGELINA RESENDIZ**<br>**CSSN / E-3**<br>**U.S. NAVY** | **REQUEST FOR INVESTIGATIVE SUBPOENA**<br><br>**5 JUN 2025** |

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. An iCloud 2703(d) order revealed that her account and cell phone were accessing IP address: 216.54.97.75 as recently as Jun 6 at 07:44:00 PDT.

8. This IP address belongs to Cox Communications.

## INFORMATION AND RECORDS REQUESTED

9. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Cox Communications for the records IP address for IP 216.54.97.75 to determine where that IP address is located.

## REASON FOR REQUEST

10. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

11. For these reasons, we respectfully request a subpoena for Cox Communications to produce this information.

**ATTACHMENT A**

**PROPERTY TO BE SEARCHED**

This warrant applies to information associated with the Snapchat, Inc. Account: [redacted] that is stored at the premises controlled by Apple Inc., One Apple Park Way, Cupertino, CA 95014.

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Apple, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple, Inc., Apple, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Apple, Inc., or have been preserved for the iCloud account of e-mail: angelinaresendiz19@gmail.com from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Apple passwords, Apple security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

b. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

c. All past and current usernames associated with the **SUBJECT ACCOUNTS**;

d. The dates and times at which the **SUBJECT ACCOUNTS** was created, and IP address at the time of sign-up;

e. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNTS**, as well as any other log file information;

f. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNTS**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNTS** and the date and time of those accesses;

g. All information and content contained within the **SUBJECT ACCOUNTS**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

**II. Information to be seized by the government**

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of violations of Article 85 (Unauthorized Absence) and Article 86 (Desertion) of the UCMJ.

a. The identity of the person(s) who created or used the iCloud account, including records which help reveal the whereabouts of such person(s) for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

b. Evidence indicating how and when the **SUBJECT ACCOUNTS** were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

c. All content of emails (including attachments) between the **SUBJECT ACCOUNTS** and other email addresses relating to the crimes under investigation for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

d. Evidence indicating the **SUBJECT ACCOUNTS** owners' or users' state of mind as it relates to the crime under investigation for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

e. Evidence of the times the accounts or identifiers listed on Attachment A was used for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

f. Passwords and encryption keys, and other access information that may be necessary to access the accounts or identifiers listed on Attachment A and other associated accounts for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

g. All information and content contained within the **SUBJECT ACCOUNTS**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user, for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

## III. Method of Service/Delivery

Apple Inc. shall disclose responsive data, if any, by sending to Special Agent Tiffany using electronic means (tiffany.martinez@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Apple, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple, Inc., Apple, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Apple, Inc., or have been preserved for the iCloud account of e-mail: [redacted] from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Apple passwords, Apple security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

b. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

c. All past and current usernames associated with the **SUBJECT ACCOUNTS**;

d. The dates and times at which the **SUBJECT ACCOUNTS** was created, and IP address at the time of sign-up;

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Apple, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple, Inc., Apple, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Apple, Inc., or have been preserved for the iCloud account of e-mail: angelinaresendiz19@gmail.com from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Snapchat passwords, Snapchat security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

(a) All activity logs for the account and all other documents for previous snaps, stories, and chats, to include any metadata and/or content;

(b) Content of sent snaps; story content; chat content;

(c) Content of user's memories, Snapchat's cloud-storage service;

(d) All logs, including sender recipient, date, and time, concerning the previous snaps sent to or from the Snapchat account of the above users; to include IP addresses associated to accounts listed above;

(e) The types of service utilized by the user;

(f) The length of service (including start date) and the means and source of any payments associated with the service (including an credit card or bank account number);

(g) All privacy settings and other account settings, including privacy settings for individual snaps, and all records showing which Snapchat users have been blocked by the account;

(h) All records pertaining to communications between Snapchat and any person regarding the user or the user's Snapchat account, including contacts with support services and records of actions taken.

II. Information to be seized by the government

All information described above in section I, including correspondence, records, photographs, electronic mail, chat logs, and electronic chat messages that constitutes fruits, evidence and instrumentalities of violations of Article 85 (Desertion) and Article 86 (Unauthorized absence) including, for each account or identifier listed on Attachment A, information pertaining to the following matters, including attempting and conspiring to engage in the following matters from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. Communications between the SUBJECT ACCOUNT and other users relevant to the offense under investigation;

b. The identity of the person(s) who created or used the Snapchat, Inc. account, including records that help reveal the whereabouts of such person(s);

c. Evidence indicating how and when the SUBJECT ACCOUNT was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and the account subscriber;

d. All records pertaining to communications between Snapchat and any person regarding the SUBJECT ACCOUNT;

e. Evidence indicating the subscriber's state of mind as it relates to the crime under investigation;

f. Evidence of the times the accounts or identifiers listed on Attachment A was used;

g. Device backups including camera roll and photo stream data to identify any actors;

h. Credit card and other financial information including but not limited to bills and payment records;

i. Passwords and encryption keys, and other access information that may be necessary to access the account or identifier listed on Attachment A and other associated accounts;

j. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNT communicated with;

k. Evidence relating to the intent of the account holder of SUBJECT ACCOUNT.

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Special Agent Tiffany Martinez, being first duly sworn, hereby depose and state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I, Tiffany Martinez, am a Special Agent with the Naval Criminal Investigative Service (NCIS), having been duly appointed to affect Searches and Seizures in the United States and it's territories, make the following statement in support of a request for a search warrant.

2. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) and have been employed for the NCIS since November, 2021. I am a sworn federal law enforcement officer. Your affiant has received approximately 950 hours of training in the Criminal Investigator Training Program at the Federal Law Enforcement Training Center in Glynco, Georgia. This program provided instruction on investigations, federal law, and other practical issues for investigators. The Special Agent Basic Training Program sponsored by NCIS consisted of training, including death investigations, military law, firearms, intelligence, and crime scene investigation. Prior to NCIS, I was employed as a Correctional Officer with the Federal Bureau of Prisons for five (5) years. Prior to my tenure as a Correctional Officer, I was a paralegal preparing Motions and Discovery as well as trial preparation for criminal complaints. During the course of my tenure as a Special Agent and previous employments, I have served in the United States Army as a

Military Police Office for approximately ten (10) years where I currently hold the rank of Captain. During my time as a Military Police Officer, I completed a 17 week Military Police Basic Officer Law Enforcement Training located in Fort Leonard Wood, MO. My education consists of a Bachelor's of Science degree in Pre-Law from Mountain State University and a Masters of Professional Studies degree in Homeland Security from Pennsylvania State University.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Snapchat records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Apple, Inc. as is relates to the email [redacted]" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN ANGELINA RESENDIZ, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the data obtained from **SUBJECT ACCOUNT**.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

(A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 85 (Desertion) of the Uniform Code of Military Justice (UCMJ) defines Desertion as any person subject tot his chapter who without authority foes or remains absent from his unit, organization, or place of duty with intent to remain away therefrom permanently is guilty of desertion.

12. Article 86 (Unauthorized Absence) of the UCMJ defines Unauthorized Absence as any person subject to this chapter who, without authority, fails to go to his appointed place of duty at the time prescribed; goes from that place; or absents himself or remains absent from his unit, organization, or place of duty at which he is required to be at the time prescribed, is guilty of Unauthorized Absence and shall be punished as a court-martial may direct.

## BACKGROUND CONCERNING iCLOUD

33. In my training and experience, I have learned that Apple Inc. provides a variety of on-line services, including electronic mail ("email") access, to the public. Apple Inc. allows subscribers to obtain email accounts at the domain name icloud.com, like the email account listed in Attachment A. Subscribers obtain an account by registering with Apple Inc. During the registration process, Apple Inc. asks subscribers to provide basic personal information. Therefore, the computers of Apple Inc. are likely to contain stored electronic communications, including retrieved and unretrieved email for Apple Inc. subscribers, and information concerning subscribers and their use of Apple Inc. services, such as account access information, email transaction information, and account application information. In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users.

34. An Apple Inc. subscriber can also store with the provider files in addition to emails, such as address books, contact or buddy lists, calendar data, pictures other than ones attached to emails, and other files, on servers maintained and/or owned by Apple Inc. In my training and experience, evidence of who was using an email account may be found in address books, calendar data, contact or buddy lists, email in the account, and attachments to emails, including pictures and files.

35. In my training and experience, email providers generally ask their subscribers to provide certain personal identifying information when registering for an email account. Such information can include the subscriber's full name, physical address, telephone numbers and other identifiers, and alternative email addresses. In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users. Based on my training and my experience, I know that even if subscribers insert false information to conceal their identity, I know that this information often provide clues to their identity, location or illicit activities.

36. In my training and experience, email providers typically retain certain transactional information about the creation and use of each account on their systems. This information can include the date on which the account was created, the length of service, records of log-in (i.e., session) times and durations, the types of service utilized, the status of the account (including whether the account is inactive or closed), the methods used to connect to the account (such as

logging into the account via the provider's website), and other log files that reflect usage of the account. In addition, email providers often have records of the Internet Protocol address ("IP address") used to register the account and the IP addresses associated with particular logins to the account. Because every device that connects to the Internet must use an IP address, IP address information can help to identify which computers or other devices were used to access the email account.

37. In my training and experience, in some cases, email account users will communicate directly with an email service provider about issues relating to the account, such as technical problems, billing inquiries, or complaints from other users. Email providers typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications. In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users.

38. As explained herein, information stored in connection with an email account may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with an email account can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, email communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the account at a relevant time. Further, information maintained by the email provider can show how and when the account was accessed or used. For example, as described below, email providers typically log the Internet Protocol (IP) addresses from which users access the email account along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the email account access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the account owner. Additionally, information stored at the user's account may further indicate the geographic location of the account user at a particular time (e.g., location information integrated into an image or video sent via email). Last, stored electronic data may provide relevant insight into the email account owner's state of mind as it relates to the offense under investigation. For example, information in the email account may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications to conceal them from law enforcement).

39. In general, an email that is sent to an Apple Inc. subscriber is stored in the subscriber's "mail box" on Apple Inc. servers until the subscriber deletes the email. If the subscriber does not delete the message, the message can remain on Apple Inc. servers indefinitely. Even if the

subscriber deletes the email, it may continue to be available on Apple Inc.'s servers for a certain period of time.

## PROBABLE CAUSE

13. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status after not arriving for work from 30 May-1 June 2025

14. CSSN Jermiah Copeland, USN, DDG 95, was also UA beginning on 29 May 2025. Around approximately 0900 on 29 May, FCC Brad Parker, USN, arrived at the barracks room of CSSN Copeland to get him to come to the ship and notified him that he was going to be labeled as UA. FCC Parker observed CSSN Copeland and CSSN Angelina Resendiz, USN, together in a state of undress and asleep.

15. CSSN Copeland was not located until 1 June when he base police found him in his barracks room.

16. On 1 June, the Accused was interviewed and provided that CSSN Resendiz came to his barracks room to have dinner and have a couple drinks on the afternoon/evening of 28 May. This was confirmed after a review of messages on his phone. He provided that she called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. CSSN Copeland stated CSSN Resendiz became emotional and began to cry. CSSN Copeland stated the relationship with CSSN Resendiz was platonic and he is a friend from work and no sexual acts have happened between them.

17. CSSN Copeland provided that the two of them got dressed and a roommate took him and CSSN Resendiz to Resendiz's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000 29 May 2025 and that was the last time he saw her.

18. This was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

19. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

20. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

21. The whereabouts of CSSN Resendiz are still unknown. Her cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA.

22. On 2 June 2025, CSSN Copeland was re-interviewed and provided that he did not take CSSN Resendiz to her barracks, but rather she left his barracks room alone. He also provided that she had her backpack with her when she arrived at his barracks on 28 May 2025.

23. A 2703(d) order provided that her Apple iCloud account is tied to the e-mail address [redacted] and may currently be in use intermittently and as recently as 6 June:

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

31. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

32. Based on the aforementioned factual information, I respectfully submit that probable cause exists to believe that evidence, fruits, and instrumentalities of violations of Articles 85 and 86 of the UCMJ and is located within information associated with the **SUBJECT ACCOUNT**.

33. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional NCIS agents, law enforcement personnel, and forensic support personnel, to search the **SUBJECT ACCOUNT** for, and seize, the items specified in Attachment B.

## CONCLUSION

24. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

MARTINEZ.TIFFANY.LYNN [redacted] Digitally signed by [redacted] Date: 2025.06.06 15:18:27 -04'00'

Special Agent Tiffany Martinez

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

Arrange and bind the record of trial with allied papers in the sequence indicated below. The court reporter is responsible for certifying the record of trial prior to transmittal for appellate review, in accordance with R.C.M. 1112 and JAG/CNLSCINST 5813.1G.

1. Pages 1 (Cover page) and 2 (Chronology Sheet) of DD Form 490 (enclosure 7).

2. Court reporter certification of Record of Trial (enclosure 8).

3. Military Judge verification of Record of Trial (enclosure 8).

4. DD Form 490 (pages 3-6 and any continuation pages if needed) (enclosure 7).

5. Completed Post-Trial Checklist from JAG/CNLSCINST 5814.1G (enclosure 2).

6. Completed Convening Authority's Action Checklist (enclosure 4).

7. Post-Trial Documents.

a. Certificates/Proof of Service of the Certified Record of Trial to the accused and victim, if applicable (enclosure 7).

b. Convening Authority's Action and Entry of Judgment (enclosure 6).

c. Any requests for copies of the court-martial record pursuant to R.C.M. 1106 or 1106A (attach written requests, and any certificates/proof of service, but do not attach the victim's post-trial rights advisement or DD Form 2704).

d. Matters submitted by the accused and/or victim under R.C.M. 1106 or 1106A, or any written waiver of the right to submit such matters. Include all responses to requests here as well.

e. Any deferment request and the action on it (including any request to waive automatic forfeitures under Article 58b).

f. Conditions of suspension and proof of service on probationer under R.C.M. 1107, if any.

g. All clemency recommendations by members or military judge, if any.

h. Statement of Trial Results (enclosure 1).

i. Crime Reporting Information.

j. Accused's request for appellate defense counsel, or waiver/withdrawal of appellate review under R.C.M. 1115, if applicable.

k. All transfer orders, confinement orders, and excess leave orders.

l. Briefs of counsel submitted after trial, if any.

8. Preliminary Hearing.

a. DD Form 457, Preliminary Hearing Officer's Report, pursuant to Article 32, if such hearing was conducted, followed by any other allied papers that accompanied the charges when referred for trial (including any matters submitted under R.C.M. 405(l), unless included elsewhere in the record of trial).*

b. Waiver of Article 32 Hearing (if applicable).

9. Pre-Trial Allied Papers.

a. Convening Order and all amending convening orders.

b. DD Form 458, Charge Sheet (unless included at the point of arraignment in the transcript).

**INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL**

c. Congressional inquiries and replies, if any.

d. Advice of staff judge advocate, when prepared pursuant to Article 34 or otherwise.

10. Record of Proceedings.

a. Substantially verbatim recording of court-martial proceedings. Segregate open and closed sessions of the court-martial in accordance with R.C.M. 1113 and the following guidance:*

b. Ensure that each closed session of the court-martial is recorded on a separate DVD marked CLOSED SESSION, placed in its own envelope marked CLOSED SESSION, and sealed.

c. Label all DVD(s) and envelopes with the information on page 1 of this template.

d. Mark all DVDs and envelopes with "1 of X." as necessary (for example, the second DVD of six DVDs and its envelope should be marked, 2 of 6). All DVDs of open sessions may be in one envelope.

e. Mark all DVDs with their beginning and ending timestamps. The timestamps for closed sessions should match those shown on the Index.

f. Verbatim transcript or summarized report prepared in accordance with JAGINST 5814.1G. Include the following:

I. A certificate of correction, if any (including any supplemental certification for additional proceedings).

II. Court reporter and transcriptionist certification of verbatim transcript.

g. Records of former proceedings (Article 30a) and/or trials, (e.g., electronic/digital record of former proceeding, including audio recording and any scanned documentation/transcripts, CD/DVD format).*

11. Prosecution exhibits admitted in evidence.

12. Defense Exhibits admitted in evidence.

13. Appellate Exhibits including but not limited to, proposed instructions, written offers of proof or preliminary evidence (real or documentary), briefs of counsel submitted at trial, request to be tried by military judge alone (if any), the accused election of members under R.C.M. 903 (if any), any statement by convening authority required under R.C.M. 503(a)(2), and the election for sentencing by members in lieu of sentencing by military judge under R.C.M. 1002(b).*

14. Redaction. The following information shall be redacted in accordance with JAGMAN 1059 from the record of trial prior to releasing it to any accused or victim (including any transcript made pursuant to R.C.M. 1114 and attached to the record of trial) unless the information establishes an element of an offense, or is otherwise required:

a. Any recordings of closed sessions, any transcripts of closed sessions, and any sealed exhibits.

b. Names of minor victims, and names of minor witnesses. If an identifier is used, use only the initials.

c. Social Security Numbers.

d. Financial account information.

e. Home addresses.

f. Telephone numbers.

g. Personal e-mail addresses.

h. Dates of birth.

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

i. Any other information that could be used to identify a specific person other than the accused.

*If the report of preliminary hearing or record of trial contains exhibits, proceedings, or other materials ordered sealed by the preliminary hearing officer or military judge, counsel for the Government, the court reporter, or trial counsel shall cause such materials to be sealed to prevent unauthorized examination or disclosure, pursuant to R.C.M. 1113. Sealed material shall be properly marked, individually placed in separate envelopes with a copy of the preliminary hearing officer or military judge sealing order affixed to it, and inserted at the appropriate place in the record of trial. Do not duplicate sealed material to include it in any copy of the record of trial. Instead, insert a copy of the sealing order in lieu of any sealed material, in any copies of the record of trial.

**DIVIDERS ARE NOT NECESSARY TO SEPARATE EACH SECTION. IF USED, THEY CAN BE PAPER RATHER THAN CARD STOCK. IF A PARTICULAR COMPONENT IS NOT APPLICABLE IN THE RECORD OF TRIAL, SUCH AS AN ARTICLE 32 HEARING, EXHIBITS NOT ADMITTED, POST-TRIAL PROCEEDINGS AND VACATION HEARINGS, DO NOT INSERT A DIVIDER OR PLACEHOLDER.**

**FRONT AND BACK COVER MUST BE ON BLUE CARDS STOCK AND LABELED WITH GUM LABELS.**

**Binding.** Each volume of a record of trial should be no more than 1.5 inches thick and bound at the top with metal or plastic fasteners. **DO NOT** interlace or "piggy-back" prong fasteners to create an oversized volume. **DO NOT** place hole punches where it covers up the evidence or language in the transcript. When it becomes necessary to assemble the record of trial in more than one volume, the volumes will be numbered consecutively, on the front cover, as illustrated below:

**Volume 1 of 4 (Pages 1-250)**
**Volume 2 of 4 (Pages 251-400)**
**Volume 3 of 4 (Pages 401-652)**
**Volume 4 of 4 (Pages 653-901 and Exhibits)**

Make the first volume of a multi-volume record an inch thick or smaller to allow for inclusion of post-trial documents. Limit subsequent volumes to 1.5 inches, unless dividing them requires assembling an additional volume smaller than a half inch.

Label the upper right-hand corner or the Preparation and Certification of Record of Trial Form (enclosure (8)) to reflect which copy it is, i.e., "**ORIGINAL**," "**ACCUSED**," "**REVIEW**" etc.

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. NCIS learned that CSSN Resendiz's Apple Pay was used on 30 May 2025.

## INFORMATION AND RECORDS REQUESTED

8. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Equifax

## REASON FOR REQUEST

9. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

10. For these reasons, we respectfully request a subpoena for Cox Communications to produce this information.

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Apple, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple, Inc., Apple, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Apple, Inc., or have been preserved for the iCloud account of e-mail: [redacted] from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Apple passwords, Apple security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

b. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

c. All past and current usernames associated with the **SUBJECT ACCOUNTS**;

d. The dates and times at which the **SUBJECT ACCOUNTS** was created, and IP address at the time of sign-up;

e. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNTS**, as well as any other log file information;

f. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNTS**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNTS** and the date and time of those accesses;

g. All information and content contained within the **SUBJECT ACCOUNTS**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

**II. Information to be seized by the government**

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of violations of Article 85 (Unauthorized Absence) and Article 86 (Desertion) of the UCMJ.

a. The identity of the person(s) who created or used the iCloud account, including records which help reveal the whereabouts of such person(s) for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

b. Evidence indicating how and when the **SUBJECT ACCOUNTS** were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

c. All content of emails (including attachments) between the **SUBJECT ACCOUNTS** and other email addresses relating to the crimes under investigation for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

d. Evidence indicating the **SUBJECT ACCOUNTS** owners' or users' state of mind as it relates to the crime under investigation for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

e. Evidence of the times the accounts or identifiers listed on Attachment A was used for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**;

f. Passwords and encryption keys, and other access information that may be necessary to access the accounts or identifiers listed on Attachment A and other associated accounts for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

g. All information and content contained within the **SUBJECT ACCOUNTS**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user, for the timeframe of **12AM (Eastern Standard Time) on 28 May, 2025** through **present**.

## III. Method of Service/Delivery

Apple Inc. shall disclose responsive data, if any, by sending to Special Agent Tiffany using electronic means (tiffany.martinez@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**ATTACHEMENT B**

**Items to be Seized**

I. Information to be disclosed by Apple, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple, Inc., Apple, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Apple, Inc., or have been preserved for the iCloud account of e-mail: angelinaresendiz19@gmail.com from **12AM (Eastern Standard Time) on 28 May, 2025** through **present**:

a. All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Apple passwords, Apple security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

b. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | ) | Case Identifier 02JUN25-NFNF-00237-7MNA |
| | ) | **Filed Under Seal** |

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Verizon, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Verizon shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Verizon shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

# ATTACHMENT A

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through present

## II. Records and Other Information to Be Disclosed

Verizon is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Location history and/or data pings for the cellular telephone;
5. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require Verizon, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted], annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Verizon is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Verizon, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving

for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. When interviewed by NCIS COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025, COPELAND was found by Base Police entering Naval Station Norfolk.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA on 31 May 2025.

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. NCIS obtained phone call logs from RESENDIZ's Tmobile account.

16. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to Petty Officer Daniel RICH.

17. In the early morning hours of 29 May 2025, RESENDIZ's phone records reveal an approximately 2 minute long completed from call from RESENDIZ to RICH.

18. RICH and RESENDEZ are stationed together on board USS JAMES E. WILLIAMS.

19. Interviews indicate a close personal relationship between GILLESPIE and RESENDIZ.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described

above, and to determine the nature and scope of their activities. Accordingly, the United States requests that Verizon be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Verizon not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of

the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN.[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN.1[redacted] Date: 2025.06.07 16:25:42 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Verizon, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Verizon shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Verizon shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through present

## II. Records and Other Information to Be Disclosed

Verizon is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Location history and/or data pings for the cellular telephone;
5. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring Verizon, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that Verizon shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that Verizon shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require Verizon, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number 910-549-9482, annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. Verizon is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require Verizon, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

## THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving

for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. When interviewed by NCIS COPELAND stated, he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining, the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025, COPELAND was found by Base Police entering Naval Station Norfolk.

10. NCIS interview all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA on 31 May 2025.

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. NCIS obtained phone call logs from RESENDIZ's Tmobile account.

16. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to Petty Office Michael GILLESPIE.

17. From midnight until roughly 0900 on 29 May 2025, RESENDIZ's phone records indicate approximately one hundred and eighty incoming calls from GILLESPIE to RESENDIZ.

18. GILLESPIE and RESENDEZ are stationed together on board USS JAMES E. WILLIAMS.

19. Interviews indicate a former romantic relationship between GILLESPIE and RESENDIZ.

20. On the early morning of 29 May 2025, GILLESPIE was on duty on board USS JAMES E. WILLIAMS. He requested permission to leave duty early to deal with a personal matter.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States

requests that Verizon be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require Verizon not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18

U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the

targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of

the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN[redacted] Date: 2025.06.07 16:27:48 -04'00'

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday, May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. CSSN Resendiz has a bank account with Navy Federal Credit Union. The account number is [redacted] The routing number is [redacted]

8. A subpoena was signed and submitted 2 Jun for records from Navy Federal Credit Union from May until present (then-2 June).

**INFORMATION AND RECORDS REQUESTED**

8. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Navy Federal Credit Union for the records of CSSN Angelina Resendiz's checking account number [redacted] from 2 June 2025 until present. This includes records regarding withdrawals, deposits, and transfers to determine where CSSN Resendiz may be located.

**REASON FOR REQUEST**

9. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

10. For these reasons, we respectfully request a subpoena for Navy Federal Credit Union to produce the account information associated with CSSN Angelina Resendiz.

| **In re Navy Federal Credit Union Financial Records of CSSN Angelina Resendiz, USN** | **AFFIDAVIT OF SPECIAL AGENT MATTHEW MILLER**<br><br>**2 June 2025** |

1. I, Special Agent Mathew Miller, am currently employed as a special agent with the Naval Criminal Investigative Service ("NCIS"). I have worked for NCIS for over 10 years. I am currently a Supervisory Special Agent with the Norfolk Field Office.

2. On June 1, 2025, NCIS commenced an investigation into accusations of a violation of Article 86, UCMJ committed by CSSN Angelina Resendiz, USN ("Accused"). I am the Lead Special Agent assigned to this investigation. The NCIS case number for the investigation is 01JUN25NFNF-00237-7MNA.

3. Due to the nature of the allegations, I determined it was a necessary investigative step to pursue and review the following categories of the Accused's financial records from Navy Federal Credit Union: Basic subscriber information and transactions pertaining to account number: [redacted].

4. These financial records are relevant and necessary to the investigation of the allegations against the Accused because the requested records will assist in identifying the location of the Accused and any means of transportation she may have utilized.

5. I have reason to believe that if the Accused is provided the customer notice that may be required under the Right to Financial Privacy Act of 1978 that there is a substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same. I base my opinion on the following evidence and facts that I have observed and/or reviewed:

a. The suicidal ideation previously expressed by the Accused and her distressed state immediately prior to her entering a UA status; and

b. The nature of the offense as being in an unauthorized absence status will mean she will likely change her patterns to avoid being caught if she knows we are tracking her location.

I declare under penalty of perjury that the foregoing is true and correct.

2 June 2025

| IN RE NAVY FEDERAL CREDIT UNION: APPLICATION OF THE UNITED STATES OF AMERICA FOR ORDER PURSUANT TO THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978, 12 U.S.C. § 3409(B)(1) | Case Identifier: 01JUN25NFNF-7MNA |

**ORDER PURSUANT TO 12 U.S.C. § 3409(B)(1)**

The United States has submitted an application pursuant to the Right to Financial Privacy Act, 12 U.S.C. § 3409(b)(1), requesting that the Court enter an Order delaying the period of providing required customer notice for a period not to exceed ninety (90) days.

The Court finds that the investigation is being conducted within the lawful jurisdiction of the federal government of the United States and the United States has offered specific and articulable facts showing that the requested documents are relevant to a legitimate law enforcement inquiry.

The Court further determines that there is reason to believe that customer notice required under the Right to Financial Privacy Act of 1978 will result in substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same.

IT IS THEREFORE ORDERED, that any required customer notice regarding the application of the United States, or the existence of this Order of the Court, shall not be disclosed to the customer of the account(s) listed in Attachment A, or to any other person, for ninety (90) days following the date of this Order, except that Navy Federal Credit Union may disclose this Order to an attorney for Navy Federal Credit Union for the purpose of receiving legal advice. This Order is subject to renewal upon a proper showing under 12 U.S.C. § 3409(b)(2).

IT IS FURTHER ORDERED that the application and this Order are sealed until further order of the Court.

| IN RE NAVY FEDERAL CREDIT UNION: APPLICATION OF THE UNITED STATES OF AMERICA FOR ORDER PURSUANT TO THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978, 12 U.S.C. § 3409(B)(1) | Case Identifier: 01JUN25NFNF-7MNA |

**ORDER PURSUANT TO 12 U.S.C. § 3409(B)(1)**

The United States has submitted an application pursuant to the Right to Financial Privacy Act, 12 U.S.C. § 3409(b)(1), requesting that the Court enter an Order delaying the period of providing required customer notice for a period not to exceed ninety (90) days.

The Court finds that the investigation is being conducted within the lawful jurisdiction of the federal government of the United States and the United States has offered specific and articulable facts showing that the requested documents are relevant to a legitimate law enforcement inquiry.

The Court further determines that there is reason to believe that customer notice required under the Right to Financial Privacy Act of 1978 will result in substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same.

IT IS THEREFORE ORDERED, that any required customer notice regarding the application of the United States, or the existence of this Order of the Court, shall not be disclosed to the customer of the account(s) listed in Attachment A, or to any other person, for ninety (90) days following the date of this Order, except that Navy Federal Credit Union may disclose this Order to an attorney for Navy Federal Credit Union for the purpose of receiving legal advice. This Order is subject to renewal upon a proper showing under 12 U.S.C. § 3409(b)(2).

IT IS FURTHER ORDERED that the application and this Order are sealed until further order of the Court.

SO ORDERED:

| **In re Navy Federal Credit Union Records of CSSN Angelina Resendiz, USN** | **APPLICATION FOR ORDER OF DELAYED NOTICE PURSUANT TO 12 U.S.C. § 3409 OF THE RIGHT TO FINANCIAL PRIVACY ACT OF 1978**<br><br>8 **June 2025** |

MOTION

1. Pursuant to 12 U.S.C. § 3409(b)(1), if the Court signs the requested investigative subpoena the Government applies for this Court to enter an Order delaying the customer notice that may be required to CSSN Angelina Resendiz, USN, under the Right to Financial Privacy Act of 1978 for a period of ninety days.

FACTS

2. a. On 30 May, 2025, Naval Criminal Investigative Service ("NCIS") Investigators commenced an investigation into accusations of Article 86, UCMJ committed by CSSN Angelina Resendiz (the "Investigation.") *See* the Affidavit of Special Agent Matthew Miller of June 2, 2025 attached in support of this Application.

b. The Investigation is being conducted within the lawful jurisdiction of the federal government of the United States.

c. Due to the nature of the allegations, as a necessary investigative step relevant to this legitimate law enforcement inquiry, the Government has submitted a request to this Court for an investigative subpoena *duces tecum*, pursuant to R.C.M 703, to Navy Federal Credit Union seeking the following categories of documents:

i. Financial records;

ii. Basic subscriber information; and

iii. Transaction information.

The draft subpoena *duces tecum* is attached in support of this Application.

d. The documents listed in paragraph 2(c) of this Application are relevant to a legitimate law enforcement inquiry.

e. There is reason to believe that if the Accused is provided the customer notice that may be required under the Right to Financial Privacy Act of 1978 that there is substantial risk of destruction of endangering life or physical safety, flight from prosecution, or seriously jeopardizing an investigation or official proceeding or unduly delaying the same.

LAW AND ARGUMENT

3. In the event the Court makes a finding required in 12 U.S.C. §§ 3409(1) - (3), the Court has the authority to enter an Order delaying the period of providing required customer notice for a period not to exceed ninety days. 12 U.S.C. § 3409(b)(1). The Government has the power to file additional applications for subsequent periods of delay after the expiration of the initial ninety-day period. 12 U.S.C. § 3409(b)(2).

RELIEF REQUESTED

4. Evidence Offered in Support of Motion.

a. Affidavit of NCIS Special Agent Matthew Miller of June 2, 2025 attached hereto

b. The draft subpoena *duces tecum* of June 8, 2025, attached.

5. Relief Requested.

a. The Government respectfully requests this Court:

i. make a finding that the evidence offered in support of this Application meets the requirements of 12 U.S.C. §§ 3409(1) - (3); and

ii. enter an Order delaying the customer notice that may be required under the Right to Financial Privacy Act of 1978 for a period of ninety days.

Respectfully Submitted

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that T-Mobile may disclose this Order to an attorney for T-Mobile for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

## I. The Account(s)

The Order applies to certain records and information associated with the following account:

[redacted] between 1 May 25 through 28 May 2025.

## II. Records and Other Information to Be Disclosed

T-Mobile is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Location history and/or data pings for the cellular telephone;
5. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | ) Case Identifier: 02JUN25-NFNF-00237-7MNA<br>) **Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number, 254-203-0672, annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

3. COPELAND stated RESENDIZ called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

4. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, COPELAND, and an unknown female on the floor naked.

5. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

6. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

7. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND and RESENDIZ were in a state of undress and RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

8. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

9. COPELAND's movements after dropping RESENDIZ off at Miller Hall are unknown. However, we know after speaking with Command, COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025.

10. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

11. RESENDIZ's residence is located at Miller Hall, Unit 1083B. RESENDIZ last entered her room, according to the door swipes, on 28 May 2025 at 1227 and at 2004 on 28 May 2025, into the common area only.

12. NCIS subpoenaed RESENDIZ's Navy Federal Credit Union banking records which show no activity since 28 May 2025.

13. RESENDIZ's cellphone has been pinged for last known location. The last known was approximately Latitude 36.896558 Longitude -76.435536, which appears to be located in Suffolk, VA

14. NCIS has been in contact with friends and family and as of today, there is no communication from RESENDIZ.

15. The Government discovered and confirmed via the USS JAMES E WILLIAMS recall roster that RESENDIZ's telephone phone number is 254-203-0672.

16. NCIS received RESENDIZ's mental health records. In them, she said that when she has mental health episodes, she goes on walks. NCIS has not been able to identify where RESENDIZ generally goes on these walks.

17. NCIS received RESENDIZ's phone records from 28 May to 4 June. They did not include any phone call with an ex-boyfriend in Texas mentioned by COPELAND. They also did not help identify where RESENDIZ generally goes when she has mental breakdowns.

18. RESENDIZ's telephone number, [redacted], is associated with T-Mobile.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight

from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

MARTINEZ.TIFFANY.LYNN.[redacted] Digitally signed by MARTINEZ.TIFFANY.LYNN.[redacted] Date: 2025.06.08 13:55:33 -04'00'

Tiffany Martinez, Special Agent
Naval Criminal Investigative Service
Norfolk, Virginia

SUBSCRIBED AND SWORN to before me on this 8th day of June, 2025.

[redacted]

Patricia Cannaday
LT, JAGC, USN

**Subject:** FW: An RCM 309 Matter has been submitted on case U.S. v. Copeland (3), N-ML-25-0033

Good afternoon, CDR Mayo:

Reviewing this investigative subpoena, I noted the following discrepancy between paragraphs 8 and 10:

**INFORMATION AND RECORDS REQUESTED**

8. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Cash App

**REASON FOR REQUEST**

9. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

10. For these reasons, we respectfully request a subpoena for Cox Communications to produce this information.

Please clarify by reply email to this message if the subpoena requested is for CashApp or Cox Communications.

**Subject:** RE: An RCM 309 Matter has been submitted on case U.S. v. Copeland (2), N-OE-24-1444

Your Honor,

Good afternoon, Sir. The application for an investigative subpoena was submitted ex parte because the Government understands it to be a pre-referral investigative subpoena that may be submitted ex parte pursuant to RCM 309(b)(1) and 703(g)(3)(C). I am not tracking a rule that affects the ability to submit ex parte following a ruling for continued pre-trial confinement, but if there is such a limiting rule, the Government can modify its request. Standing by for any questions or concerns, Your Honor.

V/R,

Matthew C. Doherty

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. NCIS learned that CSSN Resendiz's Cash App was used on 25 May 2025.

## INFORMATION AND RECORDS REQUESTED

8. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Cash App

## REASON FOR REQUEST

9. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Resendiz. Specifically, these records will identify CSSN Resendiz's location and the scope of potential involvement by other parties.

10. For these reasons, we respectfully request a subpoena for Cox Communications to produce this information.

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. Additionally, NCIS spoke with her mother in Texas and she conveyed CSSN Resendiz has attempted suicide in the past and suffers from depression, for which she is prescribed medication. NMCP Emergency Room and psychology department were negative for her presence when called.

6. On 2 June 25, NCIS spoke to FCC Brad Parker, USN, JAMES E WILLIAMS, to verify CSSN Resendiz's work schedule. FCC Parker stated CSSN Resendiz was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC Parker stated CSSN Resendiz failed to report all three (3) days.

7. A review of CSSN Copeland's NFCU bank records reveal that he visited a Langley Federal Credit Union on Hampton Blvd between 0400 EST and 0500 EST on 02JUNE25

8. The morning of 02JUNE25 is when a screenshot of a google location pin was taken on CSSN Copeland's cellphone.

## INFORMATION AND RECORDS REQUESTED

8. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena for Langley Federal Credit Union for CCTV footage at the ATM and building from 02JUN25 from 0400 EST to 0500EST at the Hampton Blvd location.

## REASON FOR REQUEST

9. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland. Specifically, these records will identify CSSN Copeland's various locations on the morning the google pin was taken.

10. For these reasons, we respectfully request a subpoena for Langley Federal Credit Union to produce this information.

Failure to appear or produce items as directed above may also result in you being taken into custody and brought before the proceedings under a Warrant of Attachment (DD Form 454) Manual for Courts-Martial R.C.M. 703(g)(3)(H)(iv). Any person who refuses to appear, testify, or produce items as directed above is guilty of an offense against the United States and shall be tried on indictment or information in a United States district court (10 U.S.C. § 847).**

Issued by _____ (*Name*) on _____ (*Date*) as Military Judge (*Issuing Authority*)

_____
*Signature of Issuing Authority*

**You may, before the time specified for compliance, request relief on the grounds that compliance is unreasonable or oppressive (R.C.M. 703(g)(3)(G)). Requests should be directed to:** LN1 Bethany Spinney, Clerk of Court
757-341-4570, bethany.l.spinney.mil@us.navy.mil
*Name, Phone Number and E-mail Address*

This subpoena was requested by an official of the United States Government represented by CDR Lauren Mayo, JAGC, USN
*Name of Government Counsel*

757-341-4598, lauren.a.mayo2.mil@us.navy.mil
*Phone Number and E-mail Address of Government Counsel*

## CERTIFICATE OF SERVICE

Served on _____ (*Name of Person Served*) _____ (*Signature*) _____ (*Date*)

**IF SERVICE IS REFUSED**

By my signature below, I attest that I personally delivered a copy of this subpoena, on the date and at the time specified, to the person described on the "To" line above

_____ (*Name of Server*) _____ (*Signature*) _____ (*Date and Time of Service*)

_____
*Phone Number and E-mail Address of Server*

## AFFIDAVIT IN SUPPORT OF SEARCH WARRANT

1. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A), and 2703(c)(1)(A) to require Google, LLC (hereafter "Google") to disclose to the Government records and other information, including location data, associated with the above-listed name, phone number, email, or Google ID that is stored at premises owned, maintained, controlled, or operated by Google, a company headquartered at 1600 Amphitheatre Parkway, Mountain View, CA 94043. The information to be disclosed by Google and searched by the Government is described in the following paragraphs and in Attachments A and B.

2. I, Jessica Gokey, am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

3. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. This affidavit is intended to show simply that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

4. Based on the facts as set forth in this affidavit, there is probable cause to believe that the information described in Attachment A contains evidence, instrumentalities, and fruits of violation of Uniform Code of Military Justice (U.C.M.J.) Article 107 (False Statements), Article 118 (Murder), and Article 131b (Obstructing Justice).

## JURISDICTION

5. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (UCMJ) to which a military judge has been detailed."

## LEGAL AUTHORITY

6. The legal authority for this search warrant application regarding the subject account is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2711, entitled "Stored Wire and Electronic Communications and Transactional Records Access." Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

7. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

> (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

> (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

8. The Government may also obtain records relating to e-mail communications, such as subscriber identifying information, by way of a search warrant. 18 U.S.C. § 2703(c)(1)(A).

9. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PROBABLE CAUSE

10. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

11. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple of drinks.

12. COPELAND stated RESENDIZ called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

13. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

14. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on May 29, 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

15. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

16. GORDILLOCRUZ stated he could tell the female was breathing by her chest moving up and down. GORDILLOCRUZ stated that he had never seen the female before and has not seen her since.

17. COPELAND stated that he was late for work on the morning of May 29, 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt.

FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

18. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

19. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

20. COPELAND's movements after dropping RESENDIZ off at Miller Hall are unknown. However, we know after speaking with Command, COPELAND was marked UA for the days of 29-31 May 2025 and on 01 June 2025.

21. On 01 June 2025, according to COPELAND's roommate, CALISSE, COPELAND went to dinner at Chipotle with CALISSE AND GORDILLOCRUZ around 1900. Then, after eating, at around 2000, COPELAND asked CALISSE if he could use CALISSE'S car, a white Jeep (Virginia license plate TCA-1173), to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND is unaccounted for from 2000, 1 Jun 2025 to 0630, 2 Jun 2025.

22. On 02 June 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER stated RESENDIZ was scheduled to work day shift Friday, May 30, 2025 - Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

23. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

24. RESENDIZ's cellphone last pinged on May 29, 2025, and the location was at the X-2 barracks.

25. During the search of COPELAND's room on June 04, 2025, after being analyzed it was determined there was a potential blood trail leading from inside the closet onto the carpet of the room. NCIS will also be removing the carpet from COPELAND's room and the common room for further testing for DNA and/or trace evidence.

26. On June 08, 2025, NCIS received confirmation from USACIL that the swab taken from the inside of COPELAND's closet had tested positive for human blood.

27. NCIS also observed a blood spatter in the stair well closest to COPELAND's room of COPELAND's barracks. This blood tested positive for human blood and was positively identified through DNA testing as RESENDIZ's blood.

28. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google Maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

29. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on June 02, 2025, from 3:45AM to 5:57AM the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

30. On June 09, 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the duffel bag.

31. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

32. On June 10, 2025, around 0200, COPELAND was taken into custody at the Chesapeake Brig.

33. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

34. On June 10, 2025, the Office of the Chief Medical Examiner (OCME) identified the remains located in the duffel bag to be those of CSSN Angelina RESENDIZ.

35. At the autopsy, although CSSN Angelina RESENDIZ's body was in an extreme state of decomposition, the red cross tattoo on her back was still identifiable.

36. NCIS has been forensically searching the iPhone taken from COPELAND. Within the data, Digital Forensic Expert John DAVISON was able to piece together the movements of the cellphone on the night of 01JUN25 and the morning of 02JUN25.

37. NCIS was able to obtain video footage from Gate 2 of Naval Station Norfolk from 02JUN25, showing COPELAND leaving base driving a white Jeep, now known to belong to COPELAND's roommate, CALISSE.

38. NCIS was able to see from COPELAND's cell phone data that on 02JUN25, COPELAND goes to the area where RESENDIZ's body was found inside the duffel bag and returned back to Naval Station Norfolk at approximately 0550.

## DEFINITIONS

39. "Electronic communication service provider" (ECSP) means (a) a telecommunications carrier, as that term is defined in section 3 of the Communications Act of 1934; (b) a provider of electronic communication service, (c) a provider of a remote computing service, (d) any other communication service provider who has access to wire or electronic communications either as such communications are transmitted or as such communications are stored; or (e) an officer, employee, or agent of an entity described in subparagraph (a), (b), (c), or (d).

40. "Electronic Communications System" means any wire, radio, electromagnetic, photo optical, or photo electronic facilities for the transmission of wire or electronic communications, and any

computer facilities or related electronic equipment for the electronic storage of such communications. 18 U.S.C. § 2510(14).

41. "Electronic storage" means (a) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof; and (b) any storage of such communication by an electronic communication service for purposes of backup protection of such communication. 18 U.S.C. § 2510(17).

42. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

43. "Computer," as used herein, refers to "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device" and includes smartphones, and mobile phones and devices. 18 U.S.C. § 1030(e)(1).

44. "Computer passwords and data security devices," as used herein, consist of information or items designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

45. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type of IP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

46. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically

creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password.

47. "Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

48. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely transferred.

49. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

50. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

51. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer

customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

52. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## INFORMATION REGARDING GOOGLE

53. Based on my training and experience, and publicly available information, I have learned that Google provides a variety of online services, including e-mail (Gmail), navigation (Google Maps), online file storage (including Google Drive, Google Photos, and YouTube), messaging (Google Hangouts), and video calling (Google Duo), to the general public. Some services, such as Gmail, online file storage, and messaging, require the user to sign in to the service using their Google account. An individual can obtain a Google account by registering with Google, and the account identifier typically is in the form of a Gmail address. Other services, such as Google Maps and YouTube, can be used while signed in to a Google account, although some aspects of these services can be used even without being signed in to a Google account.

54. Google allows subscribers to obtain e-mail and other accounts at the domain name gmail.com, like the **SUBJECT ACCOUNT** listed in Attachment A. Subscribers obtain a Gmail e-mail account by registering with Google. During the registration process, Google asks subscribers to provide basic personal information. Therefore, the computers of Google are likely to contain stored electronic communications (including retrieved and unretrieved e-mail for Google subscribers) and information concerning subscribers and their use of Google services, such as account access information, e-mail transaction information, and account application information.

55. In general, an e-mail that is sent to a Google subscriber is stored in the subscriber's "mail box" on Google servers until the subscriber deletes the e-mail. If the subscriber does not delete the message, the message can remain on Google's servers indefinitely. The user can move and store messages in personal folders such as a "sent folder." In recent years, Google, and other ISPs have provided their users with larger storage capabilities associated with the user's e-mail account. Google, and other ISPs have allowed users to store up to one (1) terabyte of information associated with the account on ISP servers. Based on conversations with other law enforcement officers with experience in executing and reviewing search warrants of e-mail accounts, I have learned that search warrants for e-mail accounts and computer systems have revealed stored e-mails sent and/or received many years prior to the date of the search.

56. When the subscriber sends an e-mail, it is initiated at the user's computer or mobile device, transferred via the Internet to Google's servers, and then transmitted to its end destination. Google typically saves a copy of the e-mail sent. Unless the sender of the e-mail specifically deletes the e-mail from the Google server, the e-mail can remain on the system indefinitely.

57. A sent or received e-mail typically includes the content of the message (including attachments), source and destination addresses, the date and time at which the e-mail was sent, and

the size and length of the e-mail. If an e-mail user writes a draft message but does not send it, that message may also be saved by Google but may not include all of these categories of data.

58. A Google subscriber can also store files, including e-mails, address books, contact or buddy lists, calendar data, pictures, and other files, on servers maintained and/or owned by Google. In my training and experience, evidence of who was using an e-mail account may be found in address books, contact or buddy lists, e-mail in the account, and attachments to e-mails, including pictures and files.

59. Many subscribers to Google do not store copies of the e-mails stored in their Google account on their home computers. This is particularly true because they access their Google account through the Internet, and thus it is not necessary to copy e-mails to a home computer to use the service. Moreover, an individual may not wish to maintain particular e-mails or files in their residence to ensure others with access to the computer cannot access the e-mails.

60. In my training and experience, generally, e-mail providers like Google ask each of their subscribers to provide certain personal identifying information when registering for an e-mail account. This information can include the subscriber's full name, physical address, telephone numbers (usually a mobile number) and other identifiers, alternative e-mail addresses, and, for paying subscribers, means and source of payment (including any credit card or bank account number). In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users. Based on my training and my experience, I know that even if subscribers insert false information to conceal their identity, This information often provide clues to their identity, location, or illicit activities.

61. The mobile number and alternate e-mail information provided to Google by the user are particularly useful in instances where a user needs to recover his/her account in the event of a lost password or account compromise. With these, Google can send a "reset password" link to the alternate e-mail address or an SMS message to the mobile number. Upon receiving the "reset password" link to an SMS mobile number affiliated with that account, the user can then reset the password in order to continue to utilize that particular account. Because both a mobile device number and alternate e-mail address are used to recover access to an account, they both tend to be closely associated with the user of the account. It is important to note that though Google attempts to validate the personal identifying information provided by subscribers, the validation requires additional voluntary input from users. As this additional input is voluntary, Google is not always successful in validating a user's personal identifying information.

62. When creating an account at Google, the user is provided the opportunity to create a display name and an associated "Profile." Google allows a user to personalize their Profile by "adding an image that represents you." The display name and display image a user provides for their Profile is public and can be seen by anyone, even if the user chooses to keep the rest of their Profile hidden from other users.

63. In my training and experience, e-mail providers typically retain certain transactional information about the creation and use of each account on their systems. This information can

include the date on which the account was created, the length of service, records of log-in (i.e., session) times and durations, the types of service utilized, the status of the account (including whether the account is inactive or closed), the methods used to connect to the account (such as logging into the account via Google's website), and other log files that reflect usage of the account. In addition, e-mail providers often have records of the IP address used to register the account and the IP addresses associated with particular logins to the account. Because every device that connects to the Internet must use an IP address, IP address information can help to identify which computers or other devices were used to access the e-mail account.

64. In my training and experience, in some cases, e-mail account users will communicate directly with an e-mail service provider about issues relating to the account, such as technical problems, billing inquiries, or complaints from other users. E-mail providers typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications. In my training and experience, such information may constitute evidence of the crimes under investigation because the information can be used to identify the account's user or users.

65. In my training and experience, e-mail users often use e-mail accounts for everyday transactions because it is fast, low cost, and simple to use. People use e-mail to communicate with friends and family, manage accounts, pay bills, and conduct other online business. E-mail users often keep records of these transactions in their e-mail accounts, to include personal identifying information such as name and address.

66. In my training and experience, evidence of who was using an e-mail account may be found in address books, contact or buddy lists, e-mail in the account, and attachments to e-mails, including pictures and files.

67. Google Fit is a health-tracking platform developed by Google for the Android operating system, Wear OS, and iOS. It provides a single set of application program interface for apps and device manufacturers to store and access activity data from fitness apps and sensors on Android and other devices (like wearables, heart rate monitors, etc.). Google Fit uses sensors in a user's activity tracker or mobile device to record physical fitness activities (such as walking, etc.). Google Fit also has location tracking capabilities.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

68. In my training and experience, evidence of who was using a Google ID and from where, and evidence related to criminal activity of the kind described above, may be found in the files and records described in Attachment B. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

69. In your affiant's training and experience, I know that cellular devices that are only connected to Wi-Fi and not the cellular network will still allow a person to log into their email accounts without registering location pings via the cellular networks. As established herein, your affiant

believes there is probable cause to search the location data from Google, as it would reveal CSSN COPELAND's location if he were logged in via Wi-Fi alone. Additionally, your affiant believes there is probable cause to search CSSN COPELAND's Google account, Google Maps data, search history, and communications during the timeframe of his interactions with CSSN RESENDIZ, and following, before he was placed in pre-trial confinement. CSSN Copeland's behavior after the disappearance of CSSN RESENDIZ indicates some level of confusion and uncertainty with what to do. As such, it is likely, as a Google user, he sought information from the internet on what steps to take.

70. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Google can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, subscriber information, email and messaging logs, documents, and photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. As an example, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

71. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

72. Data from Google Fit may provide location data for certain physical activities at certain times and indicate spikes in heart rate due to increased activity that may pinpoint the location and activity of the account owner as it relates to the offenses under investigation.

73. Therefore, Google's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Google's services. In my training and experience, such information may constitute evidence of the crimes under investigation, including information that can be used to identify the account's user or users.

74. I anticipate executing this warrant under the Electronic Communications Privacy Act, in particular 18 U.S.C. Sections 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A), by using the warrant to require Google to disclose to the Government copies of the records and other information (including the content of communications and stored data) particularly described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

## CONCLUSION

75. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

## Particular Things to be Seized

### I. Information to be disclosed by Google

To the extent that the information described in Attachment A is within the possession, custody, or control of Google, regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but is still available to Google, or has been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Google is required to disclose the following information to the Government, in unencrypted form whenever available, for each account or identifier listed in Attachment A for the time period **12AM (Eastern Standard Time "EST") on 28 May, 2025 through 12AM on 10 June 2025**:

a. All records or other information regarding the identification of the account, to include full name, physical address, telephone numbers, and other identifiers, records of session times and durations, the date on which the account was created, the length of service, the IP Address used to register the account, log-in IP addresses associated with session times and dates, account status, alternative email addresses provided during registration, methods of connecting, log files, and means and source of payment (including any credit or bank account number);

b. All call, text and data connection location information, related to all specialized carrier records and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) of device in relationship to the network when connected to the network for the SUBJECT ACCOUNT;

c. All records associated with the SUBJECT ACCOUNT, to include all stored communication or files, including e-mail, voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each connection and/or record.

In the event any of the requested data has been deleted, please recover any and all data that is still recoverable, as well as the date and time of deletions.

### II. Information to be seized by the Government

All information described above in Section I that constitutes fruits, contraband, evidence, and instrumentalities of violations of Article 107 (False Statements), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the UCMJ, those violations involving CSSN Jermiah Copeland,

[redacted]

## Particular Things to be Seized

### I. Information to be disclosed by Google

To the extent that the information described in Attachment A is within the possession, custody, or control of Google, regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but is still available to Google, or has been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Google is required to disclose the following information to the Government, in unencrypted form whenever available, for each account or identifier listed in Attachment A for the time period **12AM (Eastern Standard Time "EST") on 28 May, 2025 through 12AM on 10 June 2025**:

a. All records or other information regarding the identification of the account, to include full name, physical address, telephone numbers, and other identifiers, records of session times and durations, the date on which the account was created, the length of service, the IP Address used to register the account, log-in IP addresses associated with session times and dates, account status, alternative email addresses provided during registration, methods of connecting, log files, and means and source of payment (including any credit or bank account number);

b. All call, text and data connection location information, related to all specialized carrier records and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) of device in relationship to the network when connected to the network for the SUBJECT ACCOUNT;

c. All records associated with the SUBJECT ACCOUNT, to include all stored communication or files, including e-mail, voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each connection and/or record.

In the event any of the requested data has been deleted, please recover any and all data that is still recoverable, as well as the date and time of deletions.

### II. Information to be seized by the Government

All information described above in Section I that constitutes fruits, contraband, evidence, and instrumentalities of violations of Article 107 (False Statements), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the UCMJ, those violations involving CSSN Jermiah Copeland, U.S. Navy, and occurring from **12AM (Eastern Standard Time) on 28 May, 2025** through **12 AM (EST) on 10 June 2025**, for each account of identifier listed on Attachment A, information pertaining to the following matters:

i. The locations of the device utilized by the account holder of the SUBJECT ACCOUNT during the period from 28 May 2025 through 10 June 2025.

ii. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNT communicated with.

iii. Evidence indicating the chronological and geographical locations of the device utilized by the account holder of the SUBJECT ACCOUNT.

iv. Search history of the SUBJECT ACCOUNT, including Google Maps search history.

v. Evidence that aides in identification of any co-conspirators in this case.

vi. Evidence relating to the intent of the account holder of SUBJECT ACCOUNT.

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with the Snapchat, Inc. Accounts: [redacted] and phone number [redacted] that is stored at premises owned, maintained, controlled, or operated by Snapchat, Inc., a company headquartered at 2772 Donald Douglas Loop N., Santa Monica, CA 90405.

**ATTACHMENT B**

**Items to be Seized**

I. Information to be disclosed by Snapchat, Inc.

To the extent that the information described in Attachment A is within the possession, custody, or control of Snapchat, Inc., Snapchat, Inc. is required to disclose the following information to the government for the account or identifier listed in Attachment A. such information should include the below-described content of the subject account including any messages, records, files, logs, or information that have been deleted, but are still available to Snapchat, Inc., or have been preserved for Snapchat IDs: [redacted] and phone number [redacted] from **12AM (Eastern Standard Time) on 28 May, 2025 through 10 June 2025 at 12AM**:

All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, Snapchat passwords, Snapchat security questions and answers, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.

(a) All activity logs for the account and all other documents for previous snaps, stories, and chats, to include any metadata and/or content;

(b) Content of sent snaps; story content; chat content;

(c) Content of user's memories, Snapchat's cloud-storage service;

(d) All logs, including sender recipient, date, and time, concerning the previous snaps sent to or from the Snapchat account of the above users; to include IP addresses associated to accounts listed above;

(e) The types of service utilized by the user;

(f) The length of service (including start date) and the means and source of any payments associated with the service (including an credit card or bank account number);

(g) All privacy settings and other account settings, including privacy settings for individual snaps, and all records showing which Snapchat users have been blocked by the account;

(h) All records pertaining to communications between Snapchat and any person regarding the user or the user's Snapchat account, including contacts with support services and records of actions taken.

II. Information to be seized by the government

All information relating to communications from **12AM (Eastern Standard Time) on 28 May, 2025 through 10 June 2025 at 12 AM EST:**

a. Communications between the SUBJECT ACCOUNTS and other users relevant to the offense under investigation from

b. All records pertaining to communications between Snapchat and any person regarding the SUBJECT ACCOUNTS; and

c. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT ACCOUNTS communicated with.

All information described above in section I, except for communications, that constitutes fruits, evidence and instrumentalities of violations of Article 131b (Obstructing Justice), Article 118 (Murder), and Article 107 (False Official Statement) including, for each account or identifier listed on Attachment A, information pertaining to the following matters, including attempting and conspiring to engage in the following matters from **12AM (Eastern Standard Time) on 28 May, 2025 through 12AM 10 June 2025**:

d. The identity of the person(s) who created or used the Snapchat, Inc. account, including records that help reveal the whereabouts of such person(s);

e. Evidence indicating how and when the SUBJECT ACCOUNTS was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and the account subscriber;

f. Evidence indicating the subscriber's state of mind as it relates to the crime under investigation;

g. Evidence of the times the accounts or identifiers listed on Attachment A was used;

h. Device backups including camera roll and photo stream data to identify any actors;

i. Credit card and other financial information including but not limited to bills and payment records;

j. Passwords and encryption keys, and other access information that may be necessary to access the account or identifier listed on Attachment A and other associated accounts;

k. Evidence relating to the intent of the account holder of SUBJECT ACCOUNTS.

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Special Agent Jessica Gokey, being first duly sworn, hereby depose and state as follows:

## INTRODUCTION AND AGENT BACKGROUND

1. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A), and 2703(c)(1)(A) to require Google, LLC (hereafter "Google") to disclose to the Government records and other information, including location data, associated with the above-listed name, phone number, email, or Google ID that is stored at premises owned, maintained, controlled, or operated by Google, a company headquartered at 1600 Amphitheatre Parkway, Mountain View, CA 94043. The information to be disclosed by Google and searched by the Government is described in the following paragraphs and in Attachments A and B.

2. I, Jessica Gokey, am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended

the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Snapchat records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Snapchat, Inc. as is relates to account "[redacted]" and phone number [redacted] (**SUBJECT ACCOUNTS**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstructing Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –
>
> > (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –
>
> > (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and
> >
> > (B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 134 (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) defines Obstructing Justice as engaging in conduct in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending, with intent to influence, impede, or otherwise obstruct the due administration of justice.

12. Article 107 (False Official Statement) of the UCMJ defines a False Official Statement as any person subject to this chapter who, with intent to deceive, makes any other false official statement knowing it to be false.

13. Article 118 (Murder) of the UCMJ defines Murder as, without justification or excuse, unlawfully killing a human being, when he has premeditated design to kill; intends to kill or inflict great bodily harm; is engaged in an act which is inherently dangerous to another and evinces a wanton disregard of human life; or is engaged in the perpetration or attempted perpetration of… sexual assault… aggravated sexual contact, robbery or aggravated arson.

## BACKGROUND CONCERNING SNAPCHAT

14. In my training and experience, I have learned that Snap Inc. provides a variety of on-line services, including electronic communications access, to the public, namely through the application "Snapchat". Subscribers obtain an account by registering with Snap Inc. During the registration process, Snap Inc. asks subscribers to provide basic personal information.

15. Snapchat is a mobile application made by Snapchat, Inc. and is available through the iPhone App Store and Google Play. The application provides a way to share moments with photos, videos, and text. Snapchat's differentiating feature from other communications is that once the sender is able to set a variable amount of time the message is viewable by the receiver. This time can be between one and ten seconds.

16. At the expiration of the time, the message is deleted from Snapchat's servers. Similarly, the message disappears from the user's devices. If the receiver of a Snapchat message does not access the application on the device the message remains undelivered. Snapchat stores undelivered messages for 30 days. After 30 days the messages are deleted from the company's servers.

17. Snapchat users have the following abilities:

a. Snaps: A user takes a photo or video using their camera phone in real-time and then selects which of their friends to send the message to. Pictures and videos can also be sent from the saved pictures/videos in the gallery of the device. Unless the sender or recipient opts to save the photo or video, the message will be deleted from their devices (after the content is sent in the case of the sender and after it's been opened in the case of the recipient). Users are able to save a photo or video they've taken locally to their devices or to Memories, which is Snapchat's cloud-storage service.

b. Stories: A user can add a video or snaps to their "story" Depending on the user's privacy settings, the photos and video added to a Story can be viewed by either all Snapchatters or just the user's friends for up to 24 hours. Stories can also be saved in Memories. Our Stories is a collection of user submitted snaps from different locations and events. A Snapchat user, with the location services of their device turned on, can contribute to a collection of snaps regarding the event.

c. Memories: Snapchat's cloud-storage service. Users can save their sent or unsent Snap, posted stories, and photos and videos from their phone's gallery in Memories. A user can also edit and send snaps and create stories from these memories. Snaps, stories, and other photos and videos saved in memories are backed up by us and ma remain in memories until deleted by the user.

d. Chat: A user can also type messages, send photos, videos, audio notes, and video notes to friends within the Snapchat app using the chat feature. A user sends a chat message to a friend, and once it is viewed by both parties – and both parties swipe away from the Chat screen – the message will be cleared. Within the Snapchat app itself, a user can opt to save part of the Chat by tapping on the message that they want to keep. The user can clear the message by tapping it again.

e. Snapcash: Snapchat also offers money transfer service called Snapcash. Users are able to transfer up to $2,500 per week using this service. Snapcash transactions are only permitted using Visa and Mastercard debit cards issued by a United States Financial Institution. Money transfers can only occur if the sender and received both have Snapchat installed and have linked an appropriate debit card to their accounts. To facilitate these transactions, Snapchat retains information about the method and source of payment including debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers.

18. Information that Snapchat possesses and maintains:

a. Personally Identifying Information: When a user creates an account they make a unique Snapchat username. This is the name visible to other Snapchat users. A user also enters a date of birth. This is supposed to prevent anyone under the age of 13 from using Snapchat. An email address is required to register a Snapchat. A new user also has to provide a mobile phone number. This phone number is verified during the registration process. Snapchat sends an activation code that must be entered before proceeding with the registration step. However, a user may elect to bypass entering a phone.

b. Usage information: While a Snapchat message may disappear, the record of who sent it and when still exists. Snapchat records and retains log files and information that is roughly analogous to the call detail records maintained by telecommunication companies. This includes the date, time, sender, and recipient of a snap. Additionally, Snapchat stores the number of messages exchanged, which users they communicate with the most, message status including if and when the message was opened, and whether the receiver used the native screen capture function of their device to take a picture of the snap before it disappeared.

c. Device information: Snapchat stores device information such as the model, operating system, operating system version, mobile device phone number, and mobile network information of devices used in conjunction with the service. They also collect unique service identifiers such as the Media Access Control (MAC) address and the International Mobile Equipment Identifier (IMEI) or Mobile Equipment Identifier (MEID) of devices used to access Snapchat.

d. Device Phonebook and Photos: If a user consents, Snapchat can access from their device's electronic phonebook or contacts list and images.

e. Financial information: Snapchat retains information about the method and source of payment of customers who use the Snapcash service. This includes debit card information such as the card number, expiration date, CVV security code, and billing address zip code. Additionally, the company may have the date of birth and social security number of those involved in money transfers. Snapcash generates a receipt for any transaction. The receipts are programmed to automatically delete after the sender and recipient have seen the message and swiped out of the Chat screen, unless either taps to save the message. Snapchat maintains transactional records for ten days. These records include information

about the sender and receiver, the transaction amount, and date/times tamps of when the message weas sent, received, and opened.

f. Message Content: Snapchat's motto is "delete is our default." Snapchat deletes a snap once it has been viewed. If the message is not read, because the user has not opened up the application, the message is stored for 30 days before being deleted. However, just because the snap no longer appears the user does not mean it is gone. For example, For example, Snapchat has a feature called Replay. This allows users to view a previously viewed snap once per day. This feature is disabled by default and the user must opt-in to use Replay. Also, if a Snapchat user posts an image or video to the MyStory feature it can be viewed by their friends for 24 hours. If the user posted to the Our Storie feature, the snaps are archived and can be viewed through Snapchat.

19. Therefore, the computers of Snapchat are likely to contain all the material just described, including stored electronic communications and information concerning subscribers and their use of Snapchat, such as account access information, transaction information, and account application.

## PROBABLE CAUSE

20. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

21. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple of drinks.

22. COPELAND stated RESENDIZ called an "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

23. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

24. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on May 29, 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

25. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ

was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

26. GORDILLOCRUZ stated he could tell the female was breathing by her chest moving up and down. GORDILLOCRUZ stated that he had never seen the female before and has not seen her since.

27. COPELAND stated that he was late for work on the morning of May 29, 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

28. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

29. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

30. COPELAND's movements after dropping RESENDIZ off at Miller Hall are unknown. However, we know after speaking with Command, COPELAND was marked UA for the days of 29-31 May 2025 and on 01 June 2025.

31. On 01 June 2025, according to COPELAND's roommate, CALISSE, COPELAND went to dinner at Chipotle with CALISSE AND GORDILLOCRUZ around 1900. Then, after eating, at around 2000, COPELAND asked CALISSE if he could use CALISSE'S car, a white Jeep (Virginia license plate TCA-1173), to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND is unaccounted for from 2000, 1 Jun 2025 to around 0600, 2 Jun 2025.

32. COPELAND did not own a car and had to communicate with others to borrow various vehicles for transportation.

33. On 02 June 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER stated RESENDIZ was scheduled to work day shift Friday, May 30, 2025 - Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

34. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

35. RESENDIZ's cellphone last pinged on May 29, 2025, and the location was at the X-2 barracks.

36. During the search of COPELAND's room on June 04, 2025, after analysis, it was determined there was a potential blood trail leading from inside the closet onto the carpet of the room. NCIS will also be removing the carpet from COPELAND's room and the common room for further testing for DNA and/or trace evidence.

37. On June 08, 2025, NCIS received confirmation from USACIL that the swab taken from the inside of COPELAND's closet had tested positive for human blood.

38. NCIS also observed a blood spatter in the stairwell closest to COPELAND's room of COPELAND's barracks. This blood tested positive for human blood and was positively identified through DNA testing as RESENDIZ's blood.

39. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google Maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screenshot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

40. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on June 02, 2025, from 3:45AM to 5:57AM the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

41. On June 09, 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the duffel bag.

42. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

43. On June 03, 2025, COPELAND was interviewed and his phone was taken, pursuant to a CASS. However, he had access to a second phone which was observed in his barracks room. Although he said that the phone would not turn on, when NCIS placed it on a charger, it turned on.

44. On June 07, 2025, COPELAND was placed on restriction. However, he was not restricted from using electronic devices.

45. On June 10, 2025, around 0200, COPELAND was taken into custody at the Chesapeake Brig.

46. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

47. On June 10, 2025, the Office of the Chief Medical Examiner (OCME) identified the remains located in the duffel bag to be those of CSSN Angelina RESENDIZ.

48. At the autopsy, although CSSN Angelina RESENDIZ's body was in an extreme state of decomposition, the red cross tattoo on her back was still identifiable.

49. NCIS has been forensically searching the iPhone taken from COPELAND. Within the data, Digital Forensic Expert John DAVISON was able to piece together the movements of the cellphone on the night of 01JUN25 and the morning of 02JUN25.

50. NCIS was able to obtain video footage from Gate 2 of Naval Station Norfolk from 02JUN25, showing COPELAND leaving base driving a white Jeep, now known to belong to COPELAND's roommate, CALISSE.

51. NCIS was able to see from COPELAND's cell phone data that on 02JUN25, COPELAND goes to the area where RESENDIZ's body was found inside the duffel bag and returned back to Naval Station Norfolk at approximately 0550.

52. On June 3, 2025, NCIS interviewed CSSN Copeland and he relayed his telephone number is [redacted]. Additionally, CSSN Copeland's command advised Copeland communicated with his command via telephone number [redacted].

53. CSSN Copeland signed a Permissive Authorization for Search and Seizure of his phone. That search revealed his Snapchat username to be jermiah1738. From the review of his cellphone, it is clear CSSN Copeland regularly used Snapchat during the period reviewed (28 May – 03 Jun) and was speaking with multiple individuals.

54. Telephone number [redacted] is associated with New Cingular Wireless owned by AT&T Wireless.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

55. As explained herein, information stored in connection with the **SUBJECT ACCOUNTS** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

56. Based on the aforementioned factual information, I respectfully submit that probable cause exists to believe that evidence, fruits, and instrumentalities of violations of Articles 85 and 86 of the UCMJ and is located within information associated with the **SUBJECT ACCOUNTS**.

57. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional NCIS agents, law enforcement personnel, and forensic support personnel, to search the **SUBJECT ACCOUNTS** for, and seize, the items specified in Attachment B.

## CONCLUSION

58. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted] Digitally signed by GOKEY.JESSICA.RAY.[redacted] Date: 2025.06.20 14:40:49 -04'00'

Subj: APPLICATION FOR INVESTIGATIVE SUBPOENA ICO US V. COPELAND

Ref: (a) Uniform Code of Military Justice, Article 30a
(b) Rule for Courts-Martial 309(b)
(c) Rule for Courts-Martial 703(g)(3)(C)

Encl: (1) Draft DD Form 453 ICO US v. Copeland

1. The Government respectfully requests an investigative subpoena to obtain subscriber information regarding user name: u/ovenisitirl.

2. NCIS obtained a screenshot from a social media post on the publicly accessed Reddit forum "r/navy" where username "u/[redacted] posted publicly under the title "Recent Assault/murder of navy soldier." In the post, u/ovenistirl states that they went to school with CSSN Jermiah COPELAND (S/COPELAND), USN, USS JAMES E. WILLIAMS (DDG-95). u/ovenistirl alleges S/COPELAND "has always been a sex offender. He sexually assaulted multiple girls including myself all throughout elementary – middle school some even all the way into high school. We reported him numerous times to school authorities and police but were never taken seriously. My point is, It was clear the kind of person he was/was bound to become and no one did a damn thing to help any of us. This is the result you get when you ignore victims and laugh in their faces when they try to speak out. Not only did he get away with this from the age of 11 until now. But he also took an innocent girls life. Such a shame."

3. The Government believes it is important to obtain the subscriber information in order to identify this potential victim.

4. Thank you for your time and consideration. If there are any questions or concerns, I can be reached via email at patricia.t.cannaday.mil@us.navy.mil or via phone at 757-341-4509.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted], annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLOCRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLOCRUZ, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLOCRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. The blood found in the closet and in the stairwell has been contributed to RESENDIZ's DNA profile.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the duffel bag to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number 619-451-7956 belongs to CALISSE.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through 2JUN25

## II. Records and Other Information to Be Disclosed

T-Mobile is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Location history and/or data pings for the cellular telephone;
5. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted], annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLOCRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLOCRUZ, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLOCRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. The blood found in the closet and in the stairwell has been contributed to RESENDIZ's DNA profile.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the duffel bag.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the duffel bag to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number 509-450-3128 belongs to GORDILLOCRUZ.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted], annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLOCRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLOCRUZ, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLOCRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. The blood found in the closet and in the stairwell has been contributed to RESENDIZ's DNA profile.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the duffel bag.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the duffel bag to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to MONAGHAN.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.07.14 13:17:50 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that Verizon may disclose this Order to an attorney for Verizon for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

_____

United States Military Judge

Date:

**ATTACHMENT A**

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through 2JUN25

## II. Records and Other Information to Be Disclosed

T-Mobile is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Location history and/or data pings for the cellular telephone;
5. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC BUSINESS RECORDS PURSUANT TO MILITARY RULE OF EVIDENCE 902(11)**

I, _____, attest, under penalties of perjury under the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this declaration is true and correct. I am employed by _____, and my official title is _____. I am a custodian of records for _____. I state that each of the records attached hereto is the original record or a true duplicate of the original record in the custody of _____, and that I am the custodian of the attached records consisting of _____ (pages/CDs/kilobytes). I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth, by, or from information transmitted by, a person with knowledge of those matters;

b. such records were kept in the ordinary course of a regularly conducted business activity of _____; and

c. such records were made by _____ as a regular practice.

I further state that this certification is intended to satisfy Rule 902(11) of the Military Rules of Evidence.

Subj: APPLICATION FOR INVESTIGATIVE SUBPOENA ICO US V. COPELAND

Ref: (a) Uniform Code of Military Justice, Article 30a
(b) Rule for Courts-Martial 309(b)
(c) Rule for Courts-Martial 703(g)(3)(C)

Encl: (1) Draft DD Form 453 ICO US v. Copeland

1. The Government respectfully requests an investigative subpoena to obtain subscriber information regarding user name: u/ovenisitirl.

2. NCIS obtained a screenshot from a social media post on the publicly accessed Reddit forum "r/navy" where username "u/ovenistirl" posted publicly under the title "Recent Assault/murder of navy soldier." In the post, u/ovenistirl states that they went to school with CSSN Jermiah COPELAND (S/COPELAND), USN, USS JAMES E. WILLIAMS (DDG-95). u/ovenistirl alleges S/COPELAND "has always been a sex offender. He sexually assaulted multiple girls including myself all throughout elementary – middle school some even all the way into high school. We reported him numerous times to school authorities and police but were never taken seriously. My point is, It was clear the kind of person he was/was bound to become and no one did a damn thing to help any of us. This is the result you get when you ignore victims and laugh in their faces when they try to speak out. Not only did he get away with this from the age of 11 until now. But he also took an innocent girls life. Such a shame."

3. The Government believes it is important to obtain the subscriber information in order to identify this potential victim.

4. Thank you for your time and consideration. If there are any questions or concerns, I can be reached via email at patricia.t.cannaday.mil@us.navy.mil or via phone at 757-341-4509.

| IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted], annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLACRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLACRUZ, at approximately 0645 on 29 May 2025, GORDILLACRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLACRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. All of these samples were later tested and confirmed to contain the DNA of RESENDIZ.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to CALISSE.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.07.18 08:40:22 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that T-Mobile may disclose this Order to an attorney for T-Mobile for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

# ATTACHMENT A

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through 2JUN25

## II. Records and Other Information to Be Disclosed

T-Mobile is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

[redacted]

Digitally signed by PFEIL.JASON.ANDREW.[redacted]
Date: 2025.07.21 13:38:21 -04'00'

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC BUSINESS RECORDS PURSUANT TO MILITARY RULE OF EVIDENCE 902(11)**

I, _____, attest, under penalties of perjury under the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this declaration is true and correct. I am employed by _____, and my official title is _____. I am a custodian of records for _____. | IN RE APPLICATION OF THE UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d) | Case Identifier: 02JUN25-NFNF-00237-7MNA<br>**Filed Under Seal** |

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number [redacted] annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLACRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLACRUZ, at approximately 0645 on 29 May 2025, GORDILLACRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLACRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. All of these samples were later tested and confirmed to contain the DNA of RESENDIZ.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to GORDILLACRUZ.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

GOKEY.JESSICA.[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.07.18 08:40:39 -04'00'

Jessica Gokey, Special Agent

APPLICATION OF THE UNITED STATES

FOR AN ORDER PURSUANT TO 18 U.S.C. § 2703(d)

The United States of America, moving by and through its undersigned counsel, respectfully submits under seal this *ex parte* application for an Order pursuant to 18 U.S.C. § 2703(d). The proposed Order would require T-Mobile, an Internet Service Provider located in the United States, to disclose certain records and other information pertaining to Telephone Number 856-479-3880, annotated in Attachment A. The records and other information to be disclosed are described in Attachment A to the proposed Order. In support of this application, the United States asserts:

LEGAL BACKGROUND

1. T-Mobile is a provider of an electronic communications service, as defined in 18 U.S.C. § 2510(15), and/or a remote computing service, as defined in 18 U.S.C. § 2711(2). Accordingly, the United States may use a court order issued under § 2703(d) to require T-Mobile, to disclose the items described in Part II of Attachment A. *See* 18 U.S.C. § 2703(c)(2) and 10 U.S.C. 846(c)(3) (Part II.A of Attachment A); 18 U.S.C. § 2703(c)(1) (Part II.B of Attachment A).

2. This Court has jurisdiction to issue the proposed Order because it is "a court of competent jurisdiction," as defined in 18 U.S.C. § 2711. *See* 18 U.S.C. § 2703(d). Specifically, the Court is a court-martial or other proceeding under chapter 47 of title 10 (the Uniform Code of Military Justice), to which a military judge has been detailed. *See* 18 U.S.C. § 2711(3)(C).

3. A court order under § 2703(d) "shall issue only if the governmental entity offers specific and articulable facts showing that there are reasonable grounds to believe that the contents of a wire or electronic communication, or the records or other information sought, are relevant and material to an ongoing criminal investigation." 18 U.S.C. § 2703(d). Accordingly, the next section of this application sets forth specific and articulable facts showing that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation.

THE RELEVANT FACTS

1. On May 28, 2025, CSSN Angelina RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, which is occupied by CSSN Jermiah COPELAND.

2. COPELAND shares his barracks room with three other roommates: (1) ISSA Irbin GORDILLACRUZ, (2) AR John CALISSE, and (3) YN3 Sean MONOGHAN.

3. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

4. COPELAND stated RESENDIZ called a "ex-boyfriend from Texas" and was confronting the person about returning personal items. COPELAND stated that RESENDIZ became emotional and began to cry.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the

night.

6. During an interview with GORDILLACRUZ, at approximately 0645 on 29 May 2025, GORDILLACRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND, and an unknown female on the floor naked.

7. GORDILLACRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ's breasts and could see COPELAND's head resting on RESENDIZ's stomach area. GORDILLOCRUZ stated he could not see if RESENDIZ was wearing anything below COPELAND's head. GORDILLOCRUZ stated COPELAND was also naked but his back was facing upwards.

8. GORDILLOCRUZ stated he had never seen the female before and has not seen her since.

9. When interviewed by NCIS, COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER recognized RESENDIZ and stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

10. COPELAND continued explaining that the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

11. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

12. COPELAND's specific movements after dropping RESENDIZ off at Miller Hall remain unknown. However, COPELAND did not return to work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025, and 01 June 2025. On 01 June 2025, COPELAND checked into work.

13. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at

Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND also took CALISSE's EZ Pass. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

14. On 02 JUNE 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER states RESENDIZ was scheduled to work day shift Friday, May 30, 2025 – Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

15. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

16. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

17. During a search of COPELAND's room on 02 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. All of these samples were later tested and confirmed to contain the DNA of RESENDIZ.

18. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

19. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

20. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

21. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

22. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

23. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

24. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to MONAGHAN.

REQUEST FOR ORDER

4. The facts set forth in the previous section show that there are reasonable grounds to believe that the records and other information described in Part II of Attachment A are relevant and material to an ongoing criminal investigation. Specifically, these items will help the United States to identify and locate the individual(s) who are responsible for the events described above, corroborate the account of any suspects, confirm timelines and locations of interested parties, and to determine the nature and scope of their activities. Accordingly, the United States requests that T-Mobile be directed to produce all items described in Part II of Attachment A to the proposed Order.

5. The United States further requests that the Order require T-Mobile not to notify any person, including the subscribers or customers of the account(s) listed in Part I of Attachment A, of the existence of the Order for 180 days from the date of the Order. *See* 18 U.S.C. § 2705(b). This Court has authority under 18 U.S.C. § 2705(b) to issue "an order

commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order." *Id.* In this case, such an order would be appropriate because the requested Order relates to an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation, and its disclosure may alert the targets to the ongoing investigation. Accordingly, there is reason to believe that notification of the existence of the requested Order will seriously jeopardize the investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, intimidate potential witnesses, or endanger the life or physical safety of an individual. *See* 18 U.S.C. § 2705(b)(2), (3), (5). Some of the evidence in this investigation is stored electronically. If alerted to the investigation, the subjects under investigation could destroy that evidence, including information saved to their personal computers.

6. The United States further requests that the Court order that this application and any resulting order be sealed until further order of the Court. As explained above, these documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

Very Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.07.18 08:40:54 -04'00'

ORDER

The United States has submitted an application pursuant to 18 U.S.C. § 2703(d), requesting that the Court issue an Order requiring T-Mobile, an electronic communications service provider and/or a remote computing service located in the United States, to disclose the records and other information described in Attachment A to this Order.

The Court finds that the United States has offered specific and articulable facts showing that there are reasonable grounds to believe that the records or other information sought are relevant and material to an ongoing criminal investigation.

The Court determines that there is reason to believe that notification of the existence of this Order will seriously jeopardize the ongoing investigation, including by giving targets an opportunity to flee or continue flight from prosecution, destroy or tamper with evidence, change patterns of behavior, or notify confederates. *See* 18 U.S.C. § 2705(b)(2), (3), (5).

IT IS THEREFORE ORDERED, pursuant to 18 U.S.C. § 2703(d), that T-Mobile shall, within ten days of the date of this Order, disclose to the United States the records and other information described in Attachment A to this Order.

IT IS FURTHER ORDERED that T-Mobile shall not disclose the existence of the application of the United States, or the existence of this Order of the Court, to the subscribers of the account(s) listed in Attachment A, or to any other person, for 180 days from the date of this Order, except that T-Mobile may disclose this Order to an attorney for T-Mobile for the purpose of receiving legal advice.

IT IS FURTHER ORDERED that the application and this Order are sealed until otherwise ordered by the Court.

# ATTACHMENT A

## I. The Account(s)

The Order applies to certain records and information associated with the following account phone number:

[redacted] between 29MAY25 through 2JUN25

## II. Records and Other Information to Be Disclosed

T-Mobile is required to disclose the following records and other information, if available, to the United States for each account or identifier listed in Part I of this Attachment ("Account"):

A. The following information about the customers or subscribers of the Account:

1. Names (including subscriber names, user names, and screen names);
2. Addresses (including mailing addresses, residential addresses, business addresses, and e-mail addresses);
3. Local and long-distance telephone connection records with location of cellular telephone at the time of the connection;
4. Records of session times and durations, location of telephone during data sessions, and the temporarily assigned network addresses (such as Internet Protocol ("IP") addresses) associated with those sessions;
5. Length of service (including start date) and types of service utilized;
6. Telephone or instrument numbers (including MAC addresses);
7. Other subscriber numbers or identities (including temporarily assigned network addresses and registration Internet Protocol ("IP") addresses (including carrier grade natting addresses or ports)); and

B. All records and other information (not including the contents of communications) relating to the Account, including:

1. Records of user activity for each connection made to or from the Account, including log files; messaging logs; the date, time, length, and method of connections; data transfer volume; user names; and source and destination Internet Protocol addresses;

[redacted]

Digitally signed by PFEIL.JASON.ANDREW.[redacted]
Date: 2025.07.21 14:15:15 -04'00'

2. Information about each communication sent or received by the Account, including the date and time of the communication, the method of communication, and the source and destination of the communication (such as source and destination email addresses, IP addresses, and telephone numbers).

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Apple Inc. (hereafter "Apple") to disclose

to the government records and other information, including the contents of communications, associated with the Apple iCloud account associated with Apple ID (the **SUBJECT ACCOUNT):**

a. [redacted]
b. Directory Services Identifier (DSID) listed as [redacted]

and seize information associated with that account that is stored at premises owned, maintained, controlled, or operated by Apple Inc., a company headquartered at **One Apple Park Way, Cupertino, CA 95014**, CA. The information to be disclosed by Apple Inc. and searched by the government is described in the following paragraphs and in Attachments A and B.

4. This application seeks a warrant to search all responsive records and information under the control of Apple Inc., a provider subject to the jurisdiction of this court, regardless of where Apple Inc. has chosen to store such information. The government intends to require the disclosure pursuant to the requested warrant of the contents of wire or electronic communications and any records or other information pertaining to the customers or subscribers if such communication, record, or other information is within Apple Inc.'s possession, custody, or control, regardless of whether such communication, record, or other information is stored, held, or maintained outside the United States.

5. Your Affiant anticipates executing this warrant by using this warrant to require Apple Inc. to disclose to the government copies of the records and other information (including the content of communications) described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

6. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. I have set forth only those facts that I believe are necessary to establish probable cause that evidence, fruits, and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 118 (Murder), Article 120 (Rape and Sexual Assault Generally), Article 120c (Other Sexual Misconduct), Article 128b (Domestic Violence) and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) are present in the information associated with the above listed **SUBJECT ACCOUNT.** Where statements of others are set forth in this Affidavit, they are set forth in substance and in part.

## JURISDICTION

7. As defined in 18 U.S.C. §2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. §§2703(a), (b)(l)(A), (c)(l)(A), and 10 U.S.C. § 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of Title 10 (UCMJ)."

## PERTINENT STATUTES UNDER THE UNIFORM CODE OF MILITARY JUSTICE

8. Article 86 (Unauthorized Absence): Any member of the armed forces who failed to go to his appointed place of duty at the time prescribed.

9. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

10. Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images): The accused knowingly and wrongfully broadcasted or distributed a visual image; The visual image is an intimate visual image of another person or a visual image of sexually explicit conduct involving another person; The person depicted in the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the intimate visual image or visual image of sexually explicit conduct was made under circumstances in which the person depicted retained a reasonable expectation of privacy regarding any broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct was like to: Cause harm. Harassment, intimidation, emotional distress, or financial loss for the person depicted in the intimate visual image or visual image of sexually explicit conduct or harm substantially the depicted person with respect to that persons health, safety, business, calling, career, financial condition, reputation, or personal relationships; and conduct of the accused, under the circumstances, had a reasonably direct and palpable connection to a military mission or military environment.

11. Article 118 (Murder): Intent to kill or inflict great bodily harm; A certain named or described person is dead; Death resulted from the act or omission of the accused; the killing was unlawful; and at the time of the killing, the accused had the intent to kill or inflict great bodily harm upon a person.

12. Article 120 (Rape and Sexual Assault Generally)): Accused commits a sexual act upon another person without the consent of the other person.

13. Article 120c (Other Sexual Misconduct): Accused knowingly distributed a certain recording of another person's private area; Recording was made without the other person's consent; Accused knew or reasonably should have known that said recording was made without the other person's consent; Accused knew or reasonably should have known that said recording was made under circumstances in which the other person had a reasonable expectation of privacy.

14. Article 128 (Assault Consummated by a Battery): Accused does bodily harm to another person.

15. Article 128b (Domestic Violence): Assaulting a spouse, an intimate partner, or an immediate family member of that person by strangulation or suffocation; Accused assault a spouse, an intimate partner, or an immediate family member of the accused; Accused did so

by strangulation or suffocation; and the strangulation or suffocation was done with unlawful force or violence.

16. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## OTHER LEGAL AUTHORITY

17. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from 18 U.S.C. §§ 2701-2711, entitled "Stored Wire and Electronic Communications and Transactional Records Access." Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant. A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection -
>
> > (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service -
>
> > (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and
> >
> > (B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents

of any such communications for purposes of providing any services other than storage or computer processing.

18. The government may also obtain records relating to e-mail communications, such as subscriber identifying information, by way of a search warrant. 18 U.S.C. § 2703(c)(l)(A).

19. 18 U.S.C. §§ 2703(b)(l)(A) and 2703(c)(l)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## DEFINITIONS

20. "Electronic communication service provider" (ECSP) means (a) a telecommunications carrier, as that term is defined in section 3 of the Communications Act of 1934; (b) a provider of electronic communication service, (c) a provider of a remote computing service, (d) any other communication service provider who has access to wire or electronic communications either as such communications are transmitted or as such communications are stored; or (e) an officer, employee, or agent of an entity described in subparagraph (a), (b), (c), or (d).

21. "Electronic Communications System" means any wire, radio, electromagnetic, photo optical, or photo electronic facilities for the transmission of wire or electronic communications, and any computer facilities or related electronic equipment for the electronic storage of such communications. 18 U.S.C. § 2510(14).

22. "Electronic storage" means (a) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof; and (b) any storage of such communication by an electronic communication service for purposes of backup protection of such communication. 18 U.S.C. § 2510(17).

23. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

24. "Computer," as used herein, refers to "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device" and includes smartphones, and mobile phones and devices. 18 U.S.C. § 1030(e)(l).

25. "Computer passwords and data security devices," as used herein, consist of information or items designed to restrict access to or hide computer software,

documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

26. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type ofIP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

27. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password."

28. Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

29. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely

transferred.

30. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

31. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

32. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

33. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## TECHNICAL BACKGROUND ON APPLE INC.

34. Apple Inc. ("Apple") is a United States company that produces the iPhone, iPad, and iPod Touch, all of which use the iOS operating system, and desktop and laptop

computers based on the Mac OS operating system.

35. Apple provides a variety of services that can be accessed from Apple devices or, in some cases, other devices via web browsers or mobile and desktop applications ("apps"). As described in further detail below, these services include email, instant messaging, and file storage:

a. Apple provides email service to its users through email addresses at the domain names mac.com, me.com, and icloud.com.

b. iMessage and FaceTime allow users of Apple devices to communicate in real-time. iMessage enables users of Apple devices to exchange instant messages ("iMessages") containing text, photos, videos, locations, and contacts, while FaceTime enables those users to conduct video calls.

c. iCloud is a file hosting, storage, and sharing service provided by Apple. iCloud can be utilized through numerous iCloud-connected services, and can also be used to store iOS device backups and data associated with third-party apps.

d. iCloud-connected services allow users to create, store, access, share, and synchronize data on Apple devices or via icloud.com on any Internet-connected device. For example, iCloud Mail enables a user to access Apple-provided email accounts on multiple Apple devices and on icloud.com. iCloud Photo Library and My Photo Stream can be used to store and manage images and videos taken from Apple devices, and iCloud Photo Sharing allows the user to share those images and videos with other Apple subscribers. iCloud Drive can be used to store presentations, spreadsheets, and other documents. iCloud Tabs enables iCloud to be used to synchronize webpages opened in the Safari web browsers on all of the user's Apple devices. iWorks Apps, a suite of productivity apps (Pages, Numbers, and Keynote), enables iCloud to be used to create, store, and share documents, spreadsheets, and presentations. iCloud Keychain enables user to keep website username and passwords, credit card information, and Wi-Fi network information synchronized across multiple Apple devices.

e. Game Center, Apple's social gaming network, allows users of Apple devices to play and share games with each other.

f. Find My iPhone allows owners of Apple devices to remotely identify and track the location of, display a message on, and wipe the contents of those devices.

g. Location Services allows apps and websites to use information from

cellular, Wi- Fi, Global Positioning System ("GPS") networks, and Bluetooth, to determine a user's approximate location.

h. App Store and iTunes Store are used to purchase and download digital content. iOS apps can be purchased and downloaded through App Store on iOS devices, or through iTunes Store on desktop and laptop computers running either Microsoft Windows or Mac OS. Additional digital content, including music, movies, and television shows, can be purchased through iTunes Store on iOS devices and on desktop and laptop computers running either Microsoft Windows or Mac OS.

36. Apple services are accessed through the use of an "Apple ID," an account created during the setup of an Apple device or through the iTunes or iCloud services. A single Apple ID can be linked to multiple Apple services and devices, serving as a central authentication and syncing mechanism.

37. An Apple ID takes the form of the full email address submitted by the user to create the account; it can later be changed. Users can submit an Apple-provided email address (often ending in@icloud.com, @me.com, or @mac.com) or an email address associated with a third- party email provider (such as Gmail, Yahoo, or Hotmail). The Apple ID can be used to access most Apple services (including iCloud, iMessage, and FaceTime) only after the user accesses and responds to a "verification email" sent by Apple to that "primary" email address. Additional email addresses ("alternate," "rescue," and "notification" email addresses) can also be associated with an Apple ID by the user.

38. Apple captures information associated with the creation and use of an Apple ID. During the creation of an Apple ID, the user must provide basic personal information including the user's full name, physical address, and telephone numbers. The user may also provide means of payment for products offered by Apple. The subscriber information and password associated with an Apple ID can be changed by the user through the "My Apple ID" and "iForgot" pages on Apple's website. In addition, Apple captures the date on which the account was created, the length of service, records of log-in times and durations, the types of service utilized, the status of the account (including whether the account is inactive or closed), the methods used to connect to and utilize the account, the Internet Protocol address ("IP address") used to register and access the account, and other log files that reflect usage of the account.

39. Additional information is captured by Apple in connection with the use of an Apple ID to access certain services. For example, Apple maintains connection logs with IP addresses that reflect a user's sign-on activity for Apple services such as iTunes Store and

App Store, iCloud, Game Center, and the My Apple ID and iForgot pages on Apple's website. Apple also maintains records reflecting a user's app purchases from App Store and iTunes Store, "call invitation logs" for FaceTime calls, and "mail logs" for activity over an Apple-provided email account. Records relating to the use of the Find My iPhone service, including connection logs and requests to remotely lock or erase a device, are also maintained by Apple.

40. Apple also maintains information about the devices associated with an Apple ID. When a user activates or upgrades an iOS device, Apple captures and retains the user's IP address and identifiers such as the Integrated Circuit Card ID number ("ICCID"), which is the serial number of the device's SIM card. Similarly, the telephone number of a user's iPhone is linked to an Apple ID when the user signs in to FaceTime or iMessage. Apple also may maintain records of other device identifiers, including the Media Access Control address ("MAC address"), the unique device identifier ("UDID"), and the serial number. In addition, information about a user's computer is captured when iTunes is used on that computer to play content associated with an Apple ID, and information about a user's web browser may be captured when used to access services through icloud.com and apple.com. Apple also retains records related to communications between users and Apple customer service, including communications regarding a particular Apple device or service, and the repair history for a device.

41. Apple provides users with five gigabytes of free electronic space on iCloud, and users can purchase additional storage space. That storage space, located on servers controlled by Apple, may contain data associated with the use of iCloud-connected services, including: email (iCloud Mail); images and videos (iCloud Photo Library, My Photo Stream, and iCloud Photo Sharing); documents, spreadsheets, presentations, and other files (iWorks and iCloud Drive); and web browser settings and Wi-Fi network information (iCloud Tabs and iCloud Keychain). iCloud can also be used to store iOS device backups, which can contain a user's photos and videos, iMessages, Short Message Service ("SMS") and Multimedia Messaging Service ("MMS") messages, voicemail messages, call history, contacts, calendar events, reminders, notes, app data and settings, and other data. Records and data associated with third-party apps may also be stored on iCloud; for example, the iOS app for WhatsApp, an instant messaging service, can be configured to regularly back up a user's instant messages on iCloud. Some of this data is stored on Apple's servers in an encrypted form but can nonetheless be decrypted by Apple.

42. In my training and experience, evidence of who was using an Apple ID and from where, and evidence related to criminal activity of the kind described above, may be found in the files and records described above. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United

States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

43. For example, the stored communications and files connected to an Apple ID may provide direct evidence of the offenses under investigation. Based on my training and experience, instant messages, emails, voicemails, photos, videos, and documents are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

44. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Apple can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, subscriber information, email and messaging logs, documents, and photos and videos (and the data associated with the foregoing, such as geo- location, date and time) may be evidence of who used or controlled the account at a relevant time. As an example, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

45. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

46. Other information connected to an Apple ID may lead to the discovery of additional evidence. For example, the identification of apps downloaded from App Store and iTunes Store may reveal services used in furtherance of the crimes under investigation or services used to communicate with co-conspirators. In addition, emails, instant messages, Internet activity, documents, and contact and calendar information can lead to the identification of co-conspirators and instrumentalities of the crimes under investigation.

47. Therefore, Apple's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Apple's services. In my training and experience, such information may constitute evidence of the crimes under investigation including information that can be used to identify the account's user or users.

**FACTS AND CIRCUMSTANCES ESTABLISHING PROBABLE CAUSE FOR ALLEGATIONS RELATING TO CSSN MONIQUE [redacted] TO SEARCH THE SUBJECT ACCOUNT**

48. On November 06, 2024, NCIS interviewed CSSN [redacted] USN, USS HARRY S TRUMAN (CVN-75) after [redacted] made a report of Sexual Assault against CSSN Jermiah COPELAND (SUBJECT), USN USS JAMES E. WILLIAMS (DDG-95).

49. [redacted] stated she was sexually assaulted by COPELAND on 04NOV24 in a bar is Oslo, Norway while on deployment. [redacted] recalled she went to Heidi's Bier Bar with a group of Sailors. [redacted] relayed she became extremely intoxicated and could not recall the events of the evening. The following day, [redacted] stated multiple people approached her and stated COPELAND was showing other a video of him having sexual intercourse with her. [redacted] stated she called COPELAND and confronted him about the sexual encounter and video. However, COPELAND denied having sexual intercourse with her and denied having a recording. COPELAND threatened to kill himself via text following the phone call.

50. On November 06, 2024, NCIS interviewed CSSA Jacqueline BITA, USN, CVN-75, who was reported to have seen the video from COPELAND. BITA stated while at the bar in Norway, [redacted] was drinking and intoxicated. BITA explained COPELAND had not been part of the original group who went to the bar together, however, he had shown up later in the evening. BITA stated she observed COPELAND assisting [redacted] to the bathroom. A little while later in the evening, BITA stated she was speaking with another sailor, SR Jada KNIGHT, USN, VAW-126, and COPELAND approached them, saying words to the effect of "You'll never believe what happened, if I show you, you can't tell anyone." BITA stated COPELAND then showed her and KNIGHT a video of COPELAND having sexual intercourse with [redacted] BITA stated [redacted] could be identified in the video based on her hair style and the outfit she was wearing. BITA opined she could not tell if [redacted] was conscious in the video. BITA stated COPELAND was "happy and laughing", while BITA and KNIGHT were "shocked" at the video. BITA opined COPELAND was in his "right mind" the night of the assault, however, after being confronted by [redacted] COPELAND knew "he had messed up."

51. On November 6, 2024, NCIS conducted a search for the cellphone belonging to COPELAND. COPELAND's person was searched and the cellphone was not discovered. COPELAND stated he gave his cellphone to CSSN Kaulise COUSINS, USN, CVN-75. NCIS approached and searched COUSINS, who stated he never possessed COPELAND's cellphone. COPELAND's berthing, rack, and locker was searched by NCIS however, COPELAND's cellphone was not recovered.

52. On November 08, 2024, NCIS interviewed CSSA Jakobie GANT, USN, CVN-75, who stated on 05NOV24, he was approached by COPELAND, who relayed he had sexual intercourse with [redacted] the night prior. GANT opined COPELAND was excited about it. GANT stated COPELAND showed him a video of him engaging in sexual intercourse with [redacted] GANT stated he did not see [redacted] face in the video. GANT stated he was very uncomfortable after watching the video because [redacted] did not appear conscious or in a comfortable position. GANT stated [redacted] was face down against a toilet.

53. On November 18, 2024, NCIS interviewed KNIGHT, who stated approximately 30 minutes after arriving at the bar in Norway, she was approached by COPELAND. KNIGHT stated COPELAND asked her not to tell anyone about what he was going to show her. KNIGHT recalled COPELAND showed her a video of him having sexual intercourse with [redacted] in a bathroom stall. KNIGHT stated COPELAND indicated [redacted] was the female in the video. KNIGHT stated the video depicted COPELAND's smiling face before panning to him thrusting in and out of her vagina.

54. On November 18, 2024, NCIS interviewed COPELAND, who opined the sexual encounter was with consent due to [redacted] taking him by the hand and pulling him into the bathroom stall and removing her pants. COPELAND stated during the sexual encounter, he did pull out his cellphone and begin recording. COPELAND stated he was unsure if [redacted] was aware of him recording the sexual encounter. COPELAND did admit to showing the video to KNIGHT and others without [redacted] knowledge. COPELAND again stated he had given his cellphone to COUSINS but denied throwing the phone away on purpose and stated it was lost after his phone fell out of his pocket and the screen shattered.

55. On December 20, 2024, NCIS interviewed COPELAND, who stated he had purchased a new cellphone. COPELAND stated the video he took of the sexual intercourse with [redacted] had been taken on Instagram Reels, and the video automatically deleted after a period of time of being posted. COPELAND provided screenshots of messages he exchanged with [redacted] from 5 November 2024, indicating even if it was a new phone the data from that time period remained or was transferred over from another source, such as iCloud.

**FACTS AND CIRCUMSTANCES ESTABLISHING PROBABLE CAUSE FOR ALLEGATIONS RELATING TO CSSN [redacted]**

56. CSSN [redacted] explained that on 11 April 2025, she was sleeping in COPELAND's barracks room when she received a call from COPELAND's girlfriend

asking if she was with COPELAND because she suspected him of cheating on her. [redacted] confirmed they were still dating and woke COPELAND up and told him about the situation. After going back and forth, COPELAND strangled her with both hands around her neck and restricted her breathing for about 10 seconds. He was smiling while he did it.

57. [redacted] left the barracks and returned upset and confronted COPELAND with a multi-tool knife in-hand. She proceeded to punch COPELAND.

58. COPELAND explained that he later noticed his car tire was slashed and that [redacted] admitted to having slashed it via text message on 12 April 2025.

**FACTS AND CIRCUMSTANCES ESTABLISHING PROBABLE CAUSE FOR ALLEGATIONS RELATING TO CSSN ANGELINA RESENDIZ TO SEARCH THE SUBJECT ACCOUNT**

59. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

60. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

61. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

62. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

63. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

64. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

65. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

66. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

67. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

68. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

69. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

70. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

71. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

72. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

73. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

74. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

75. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

76. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

77. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

78. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

79. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

80. During the search on 04 June 2025, NCIS notated an Apple watch was located in COPELAND's belonging. During the interview of COPELAND on 3 June 2025, he stated that his Apple watch was no longer working and he did not use it.

81. On 03 June 2025, COPELAND gave his iPhone 15 to investigators after signing a PASS.

82. During the execution of the CASS on June 04, 2025, NCIS also located a second iPhone, which COPELAND stated was his however, it did not work.

83. On June 06, 2025, COPELAND was placed in a restricted status aboard the barge for DDG-95. COPELAND was advised to bring his toiletries and belongings to the ship. COPELAND remained on restriction until his arrest and pre-trial confinement.

84. On June 09, 2025, NCIS determined the Apple watch was connected to the iPhone 15 COPELAND gave to NCIS on 3 June 2025. The iPhone 15 is currently in NCIS' possession and has since been forensically viewed to show the Apple watch last synched with the iPhone on May 29, 2025 at approximately 0256.

85. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

86. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which showshealth data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

87. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

88. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

89. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

90. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

91. On June 10, 2025, NCIS conducted a Command Authorized Search and Seizure for COPELAND's berthing onboard the barge associated with DDG-95. NCIS was able to locate and seize the Apple watch, however, the second iPhone found on the June 04, 2025, search of COPELAND's barracks was never located again.

92. On July 30, 2025, NCIS was conducting a review of the forensic examination of COPELAND's iPhone. During which, NCIS located a conversation between himself and a person saved as "Bitch", who is believed to be a girlfriend or ex-girlfriend. During the conversation on 30 May, 2025, "Bitch" sends a text reading "switched phones is crazy." "Bitch" had been attempting to contact COPELAND since May 29, 2025. COPELAND did not acknowledge "Bitch" until June 02, 2025 from that device.

93. It is believed, COPELAND may have used the second iPhone found in the search on June 04, 2025, to communicate while aboard DDG-95 and while on restriction. As such, NCIS is requesting this warrant be issued until his arrest on June 09, 2025.

94. It is believed the Apple watch located in the berthing of COPELAND was used to contact others or may contain evidence crucial to this investigation, due to its ability to be used in a cellular capacity and not need to have Wifi connected to work. Due to it not synching with the iPhone since May 29, 2025, NCIS cannot see what, if any, activity associated with the Apple watch from May 29, 2025 until his apprehension on June 09, 2025.

## CONCLUSION

95. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

96. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 86 (Unauthorized Absence), Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 118 (Murder), Article 120 (Rape and Sexual Assault Generally), Article 120c (Other Sexual Misconduct), Article 128 (Assault Consummated by a Battery), Article 128b (Domestic Violence) and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

97. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

98. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Apple, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

99. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

Very respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.08.04 10:01:36 -04'00'

Jessica Gokey, Special Agent
Naval Criminal Investigative Service
Norfolk, Virginia

SUBSCRIBED and SWORN to before me on 04 August 2025

[redacted]

LT Christopher Dempsey, JAGC, USN
Special Trial Counsel

**ATTACHMENT A**

**Property to Be Searched**

This warrant applies to the electronically stored data, information, communications, and items contained in, related to, and associated with, including all preserved data associated with the iCloud account of Jermiah Copeland with Apple ID:

a. [redacted] **(SUBJECT ACCOUNT)**
b. Directory Services Identifier (DSID) listed as [redacted]

that is stored at premises owned, maintained, controlled, or operated by Apple, Inc., a company headquartered at One Apple Park Way, Cupertino, CA 95014, to include that information preserved by Apple Inc., pursuant to the recent preservation request submitted.

## ATTACHMENT B

## Particular Things to Be Seized

### I. Information to Be Disclosed By Apple Inc. (The "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Apple Inc., including any messages. Records. Files, logs, or information that have been deleted but are still available to Apple Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f). Apple Inc. Is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the **SUBJECT ACCOUNT** listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024, 10 April 2025 through 11 April 2025, and 28 May 2025 through 09 June 2025:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the **SUBJECT ACCOUNT**;

c. The dates and times at which the **SUBJECT ACCOUNT** was created, and IP address at the time of sign-up;

d. All activity logs including IP logs and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNT**, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNT**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNT** and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

### II. Information to be seized by the government

All information described above in section I, including correspondence, records, documents,photographs, videos, electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of Article 86, 107, 117a, 118, 120, 120c, 128, 128b, or 131b of the Uniform Code of Military Justice (UCMJ), for the **SUBJECT ACCOUNT** listed on Attachment A, information pertaining to the following matters, from 04 November 2024 to 06 November 2024, 10 April 2025 through 11 April 2025, and 28 May 2025 through 09 June 2025. This includes but is not limited to:

a. The identity of the person or persons who created or used the **SUBJECT ACCOUNT**, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the **SUBJECT ACCOUNT** was accessed or used to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. All content of communications between the **SUBJECT ACCOUNT** and others relating to the crimes under investigation;

d. Evidence indicating the **SUBJECT ACCOUNT** owners' or users' state of mind as it relates to the crime under investigation;

e. Evidence of the times the **SUBJECT ACCOUNT** listed on Attachment A was used;

f. Passwords and encryption keys, and other access information that may be necessary to access **SUBJECT ACCOUNT** listed on Attachment A and other associated accounts;

g. Evidence that may identify any co-conspirators or aiders and abettors, including records that help reveal their whereabouts;

h. All information and content contained within the **SUBJECT ACCOUNT**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked.

**III**. **Disclosure by provider - By Order of the Court**

Apple Inc. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@leo.gov). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

# UNITED STATES OF AMERICA

SUBPOENA

Military Justice Proceeding

United States of America
v.
CSSN Jeremiah Copeland
*Subject of Investigation / Accused*

MCIO Case No. 02JUN25-NFNF-00237-7MNA *(Optional)*

## SUBPOENA TO TESTIFY AND/OR TO PRODUCE OR PERMIT INSPECTION OF ITEMS

To: Oak Harbor High School
*Name of person to whom this subpoena is directed*

**YOU ARE HEREBY COMMANDED, PURSUANT TO 10 U.S.C. §§ 846-47, TO DO THE FOLLOWING:**

☐ **1. To appear personally on the following date, time and location:**

to testify before:

- ☐ an individual designated to take your deposition
- ☐ a Court-Martial of the United States
- ☐ a court of inquiry

Date: 25 August 2025
Time: 1700
Location: E-mail to:
jessica.gokey@NCIS.NAVY.MIL

☒ **2. To produce the following items on the date and location listed:** Disciplinary records for Jermiah Taylor Copeland

DOB: [redacted]

☐ **3. To permit inspection and/or copying of the following items by the date and time listed:**

**Failure to appear and testify or to produce items as directed above is punishable by a fine of not more than $1,000 or confinement for a period of not more than 30 days, or both, by the military judge (10 U.S.C. § 848). Failure to appear or produce items as directed above may also result in you being taken into custody and brought before the proceedings under a Warrant of Attachment (DD Form 454) Manual for Courts-Martial R.C.M. 703(g)(3)(H)(iv). Any person who refuses to appear, testify, or produce items as directed above is guilty of an offense against the United States and shall be tried on indictment or information in a United States district court (10 U.S.C. § 847).**

Issued by _____ on _____ as _____
*Name* *Date* *Issuing Authority*

_____
*Signature of Issuing Authority*

**You may, before the time specified for compliance, request relief on the grounds that compliance is unreasonable or oppressive (R.C.M. 703(g)(3)(G)). Requests should be directed to:** LN1 Bethany Spinney
bethany.1.spinney.mil@us.navy.mil
*Name, Phone Number and E-mail Address*

This subpoena was requested by an official of the United States Government represented by LT Christopher Dempsey, JAGC, USN
*Name of Government Counsel*

757-341-4545; christopher.dempsey2@navy.mil
*Phone Number and E-mail Address of Government Counsel*

## CERTIFICATE OF SERVICE

Served on _____ _____ _____
*Name of Person Served* *Signature* *Date*

**IF SERVICE IS REFUSED**

By my signature below, I attest that I personally delivered a copy of this subpoena, on the date and at the time specified, to the person described on the "To" line above

## FACTS

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.
3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

4. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

6. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

7. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

8. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

9. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

10. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

11. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

12. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

13. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

14. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

15. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

16. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

17. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

18. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

19. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

20. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

21. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

22. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

23. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

24. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

25. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. NCIS obtained information from the School Resource Officer (SRO) from Oak Harbor High School that there may be information relevant to our case in regard to CSSN Jermiah COPELAND. According to the SRO CSSN Copeland was removed from the high school after numerous complaints were made against him, which some of them allegedly involve sexual misconduct.

**INFORMATION AND RECORDS REQUESTED**

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Oak Harbor High School for the disciplinary records of CSSN Jermiah Taylor Copeland, date of Birth 23 May 2005.

**REASON FOR REQUEST**

30. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Oak Harbor High School to produce this information.

## SUBPOENA TO TESTIFY AND/OR TO PRODUCE OR PERMIT INSPECTION OF ITEMS

To: Oak Harbor High School
*Name of person to whom this subpoena is directed*

**YOU ARE HEREBY COMMANDED, PURSUANT TO 10 U.S.C. §§ 846-47, TO DO THE FOLLOWING:**

☐ **1. To appear personally on the following date, time and location:**

to testify before:

- ☐ an individual designated to take your deposition
- ☐ a Court-Martial of the United States
- ☐ a court of inquiry

Date: 25 August 2025
Time: 1700
Location: E-mail to:
jessica.gokey@NCIS.NAVY.MIL

☒ **2. To produce the following items on the date and location listed:** Disciplinary records for Jermiah Taylor Copeland

DOB: [redacted]

☐ **3. To permit inspection and/or copying of the following items by the date and time listed:**

**Failure to appear and testify or to produce items as directed above is punishable by a fine of not more than $1,000 or confinement for a period of not more than 30 days, or both, by the military judge (10 U.S.C. § 848). Failure to appear or produce items as directed above may also result in you being taken into custody and brought before the proceedings under a Warrant of Attachment (DD Form 454) Manual for Courts-Martial R.C.M. 703(g)(3)(H)(iv). Any person who refuses to appear, testify, or produce items as directed above is guilty of an offense against the United States and shall be tried on indictment or information in a United States district court (10 U.S.C. § 847).**

Subj: APPLICATION FOR INVESTIGATIVE SUBPOENA ICO US V. COPELAND

Ref: (a) Uniform Code of Military Justice, Article 30a
(b) Rule for Courts-Martial 309(b)
(c) Rule for Courts-Martial 703(g)(3)(C)

Encl: (1) Draft DD Form 453 ICO US v. Copeland

1. The Government respectfully requests an investigative subpoena to obtain subscriber information regarding user name: u/ovenisitirl.

2. NCIS obtained a screenshot from a social media post on the publicly accessed Reddit forum "r/navy" where username "u/ovenistirl" posted publicly under the title "Recent Assault/murder of navy soldier." In the post, u/ovenistirl states that they went to school with CSSN Jermiah COPELAND (S/COPELAND), USN, USS JAMES E. WILLIAMS (DDG-95). u/ovenistirl alleges S/COPELAND "has always been a sex offender. He sexually assaulted multiple girls including myself all throughout elementary – middle school some even all the way into high school. We reported him numerous times to school authorities and police but were never taken seriously. My point is, It was clear the kind of person he was/was bound to become and no one did a damn thing to help any of us. This is the result you get when you ignore victims and laugh in their faces when they try to speak out. Not only did he get away with this from the age of 11 until now. But he also took an innocent girls life. Such a shame."

3. The Government believes it is important to obtain the subscriber information in order to identify this potential victim. A request for this subpoena was previously submitted and granted 18 July 2025. However, this subpoena timed out before it was served, and Reddit requires re-submission.

4. Thank you for your time and consideration. If there are any questions or concerns, I can be reached via email at patricia.t.cannaday.mil@us.navy.mil or via phone at 757-341-4509.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records, including as they pertain to Call Detail Records and Cellular Site Analysis.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from AT&T as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to CSSN JEREMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 86 (Unauthorized Absence) and Article 107 (False Official Statement) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

(1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less,

only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

9. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –

(A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.

(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

10. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## PERTINENT CRIMINAL STATUTES

11. Article 86 (Unauthorized Absence) of the UCMJ defines Unauthorized Absence as any person subject to this chapter who, without authority, fails to go to his appointed place of duty at the time prescribed; goes from that place; or absents himself or remains absent from his unit, organization, or place of duty at which he is required to be at the time prescribed, is guilty of Unauthorized Absence and shall be punished as a court-martial may direct.

12. Article 107 (False Official Statement) The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

13. Article 118 (Murder) Intent to kill or inflict great bodily harm; A certain named or described person is dead; Death resulted from the act or omission of the accused; the killing was unlawful; and at the time of the killing, the accused had the intent to kill or inflict great bodily harm upon a person.

14. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

15. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

16. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

17. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular

service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

18. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the person's cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

19. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

20. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the

cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

21. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

22. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cell site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

23. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

24. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

25. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

26. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

27. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

28. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

29. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

30. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

31. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

32. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was

leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

33. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

34. On 29 May 2025, at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

35. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

36. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

37. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

38. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

39. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

40. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

41. On 02 June 2025, at approximately 0415, a white Jeep SUV was seen exiting NSN at Gate 2 and continued to travel southbound on Hampton Blvd.

42. The vehicle is again observed entering Gate 2 at approximately 0543 and traveling Northbound on Maryland Ave.

43. According to text messages obtained from COPELAND's cellphone, on 02 June 2025, CALISSE text COPELAND at 0509 saying "Yooo." COPELAND replies at 0528, "5mins away." COPELAND sends "Traffic at the gate bro" at 0530 and "Headed up to the room rnnlp" at 0543. CALISSE replies at 0544, "Im outside stop lying bro."

44. During a search of COPELAND's room on 04 June 2025, a trail of suspected blood was found between the common area and COPELAND's room. Suspected Blood was

also found on the bathroom sink and COPELAND's closet. Suspected blood was also located in a stairwell close to COPELAND's barracks room.

45. On 05 August 2025, NCIS received the DNA results and confirmed the blood located in the closet was a mixture of COPELAND's and RESENDIZ's. The DNA report also confirmed the blood in the stairwell was RESENDIZ's.

46. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

47. During the search on 04 June 2025, NCIS notated an Apple watch was located in COPELAND's belongings. During the interview of COPELAND on 3 June 2025, he stated that his Apple watch was no longer working and he did not use it.

48. On 03 June 2025, COPELAND gave his iPhone 15 to investigators after signing a PASS.

49. During the execution of the CASS on June 04, 2025, NCIS also located a second iPhone, which COPELAND stated was his however, it did not work.

50. On June 06, 2025, COPELAND was placed in a restricted status aboard the barge for DDG-95. COPELAND was advised to bring his toiletries and belongings to the ship. COPELAND remained on restriction until his later arrest and pre-trial confinement.

51. On June 09, 2025, NCIS determined the Apple watch was connected to the iPhone 15 COPELAND gave to NCIS on 3 June 2025. The iPhone 15 is currently in NCIS' possession and has since been forensically viewed to show the Apple watch last synched with the iPhone on May 29, 2025 at approximately 0256.

52. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screenshot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

53. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

54. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

55. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

56. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

57. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

58. On June 10, 2025, NCIS conducted a Command Authorized Search and Seizure for COPELAND's berthing onboard the barge associated with DDG-95. NCIS was able to locate and seize the Apple watch, however, the second iPhone found on the June 04, 2025, search of COPELAND's barracks was never located again.

59. On July 30, 2025, NCIS was conducting a review of the forensic examination of COPELAND's iPhone. During which, NCIS located a conversation between himself and a person saved as "Bitch", who is believed to be a girlfriend or ex-girlfriend. During the conversation on 30 May, 2025, "Bitch" sends a text reading "switched phones is crazy." "Bitch" had been attempting to contact COPELAND since May 29, 2025. COPELAND did not acknowledge "Bitch" until June 02, 2025 from that device.

60. It is believed, COPELAND may have used the second iPhone found in the search on June 04, 2025, to communicate while aboard DDG-95 and while on restriction. As such, NCIS is requesting this order be issued until his arrest on June 09, 2025.

61. It is believed the Apple watch located in the berthing of COPELAND was also used to contact others via this AT&T account or may contain evidence crucial to this investigation, due to its ability to be used in a cellular capacity and not need to have Wifi connected to work. Due to it not synching with the iPhone since May 29, 2025, NCIS cannot see what, if any, activity associated with the Apple watch from May 29, 2025 until his apprehension on June 09, 2025.

## CONCLUSION

62. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted]

Trial Counsel

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with AT&T cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by AT&T, located at 208 S. Akard Street, Dallas, TX 75202.

## ATTACHEMENT B

### Items to be Seized

i. Information to be disclosed by AT&T

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections **12AM (Eastern Standard Time) on 03 June, 2025** through **12AM (Eastern Standard Time) 09 June, 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12AM (Eastern Standard Time) on 03 June, 2025** through **12AM (Eastern Standard Time) 09 June, 2025**.

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **12AM (Eastern Standard Time) on 03 June, 2025** through **12AM (Eastern Standard Time) 09 June, 2025**.

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 86 (Unauthorized Absence), Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER during the period of her absence from 03 June 2025 through 10 June 2025.
    ii. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT PHONE NUMEBR communicated with.
    iii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.
    iv. Evidence that aides in identification of co-conspirators in this case.
    v. Evidence relating to any false official statements of the account holder of SUBJECT PHONE NUMBER.
    vi. Any relevant content provided by AT&T associated with SUBJECT PHONE NUMBER.

**Items to be Seized**

i. Information to be disclosed by AT&T

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections **12AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) 10 June, 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) 10 June, 2025**.

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, digital images (e.g. pictures), contact lists, web activity (name of website visited or accessed), data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, data sessions, name of web sites accessed), date and time when all web sites were accessed and the duration of each web site was accessed, and any other files including all cell site and sector information associated with each connection and/or record associated with the SUBJECT PHONE NUMBER for the time

range of **12AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) 10 June, 2025**.

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 86 (Unauthorized Absence), Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER during the period of her absence from 28 May 2025 through 10 June 2025.
    ii. Evidence that includes additional phone numbers, accounts, and communications with which the SUBJECT PHONE NUMEBR communicated with.
    iii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.
    iv. Evidence that aides in identification of co-conspirators in this case.
    v. Evidence relating to any false official statements of the account holder of SUBJECT PHONE NUMBER.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Meta records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Meta Platforms, Inc. as is relates to account "[redacted]" and "[redacted]" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images): The accused knowingly and wrongfully broadcasted or distributed a visual image; The visual image is an intimate visual image of another person or a visual image of sexually explicit conduct involving another person; The person depicted in the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the intimate visual image or visual image of sexually explicit conduct was made under circumstances in which the person depicted retained a reasonable expectation of privacy regarding any broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct was like to: Cause harm.

Harassment, intimidation, emotional distress, or financial loss for the person depicted in the intimate visual image or visual image of sexually explicit conduct or harm substantially the depicted person with respect to that persons health, safety, business, calling, career, financial condition, reputation, or personal relationships; and conduct of the accused, under the circumstances, had a reasonably direct and palpable connection to a military mission or military environment.

10. Article 120 (Rape and Sexual Assault Generally): Accused commits a sexual act upon another person without the consent of the other person.

11. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## LEGAL AUTHORITY

12. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

13. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –
>
> (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

14. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## BACKGROUND CONCERNING INSTAGRAM

15. Meta is a United States company that is the parent organization of Instagram. Instagram is a free photograph and video sharing social networking service that can be accessed at https://www.instagram.com/?hl=en or via the Instagram application on a smartphone (iPhone, Blackberry, Android, Windows-based, and Nokia phones).

16. Instagram allows its users to establish accounts; after which, they can share information, view photographs, watch videos, and interact with other Instagram users and/or the general public (those who do not have an Instagram account), depending on the user's privacy settings.

17. Instagram provides a variety of services for its users who have established accounts. As described in further detail below, the services include "following" other Instagram users on the platform; sharing photographs and images; posting and watching video content; connecting through Instagram's direct message system; commenting on photographs and videos of other users; and "liking" images or videos.

18. Instagram allows its users to connect with friends, family, and communities around the globe by sending another user a "Follow Request." If the recipient accepts the request, the two users will become "followers" for purposes of Instagram and can exchange communications and view photographs and video about one another. Additionally, once two users become "followers," they can monitor and see what content one another "like" and comment on.

19. Instagram users can "post" (i.e. share) an unlimited number of photographs or videos to their account. These photographs and videos may be visible to the user, other Instagram users, or the general public (people who do not have an Instagram account) depending on the user's privacy settings. Instagram allows its user to "tag" (i.e. label) other Instagram users in photographs or videos which then links the image or video to the tagged user's account.

20. Instagram Reels, a platform within Instagram, allows users to post video content on the social networking website for financial gain. The more views a user receives on a video, the more money that user will earn from Instagram or advertising sponsors.

21. Instagram users can also privately message each other through the platform on Instagram's direct message feature. These messages mirror email messages; they are sent to the recipient's "inbox" on Instagram. Instagram stores copies of messages sent by the recipient.

22. Instagram users may comment on and "like" images and videos posted by their Instagram "followers" or by users who have their account visible to the public. Once a user has commented on or "liked" an image or video, their followers can see that content, as well, and know that the user engaged with that image or video.

23. Instagram asks users to provide basic contact information during the account registration process. This information includes: (1) the user's full name and (2) email address or mobile phone number. In this account creation process, the user selects their username and password. This username is then used by Instagram to identify the user. After the registration process, users have the ability to include any personal identifier they choose on their account "profile," such as age, gender, location, etc.

24. After creating an account, users can access Instagram via its website on any computer with Internet access or via the Instagram application, available on any smartphone.

25. Instagram users can select one of two different levels of privacy for the communications and information associated with their account: (1) public or (2) private. A "public" account is one in which all of its content, their profile and posts, can be view by anyone, regardless of whether or not they have an Instagram account. A "private" account is one in which only the followers approved by the user can see what the user shares, including videos or photos, the user's follower list, and the user's following list.

26. Meta collects information associated with the Instagram's user's account activity and device by which they accessed their account. With regard to the user's account activity, Meta collects the time and date a user signs up for an account, all content created or shared, messages or other forms of communication, the location of and/or date a file was created, the frequency of actions taken on the website, the duration of activities on the website, the content the user interacts with on Instagram, means of payment associated with the account (including any credit card or bank account number) and more. With regard to the user's device by which they accessed their account, Meta collects the name of the mobile operator or ISP; the language; time zone; mobile phone number; IP addresses; Bluetooth signals; information about nearby Wi-Fi access points, beacons, and cell towers; GPS location; camera; photographs; and more.

27. Meta's computers contain all Instagram material described above, including stored electronic communications and information concerning subscribers and their use of Instagram, such as account access information, transaction information, and account application.

## BACKGROUND CONCERNING FACEBOOK

28. Meta owns and operates Facebook, a free-access social networking website of the same name that can be accessed at http://www.facebook.com. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users and sometimes with the general public.

29. Meta asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact email addresses, Facebook passwords, Facebook security questions and answers (for password retrieval), physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

30. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

31. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create "lists" of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

32. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post "status" updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere

on the Internet. Facebook users can also post information about upcoming "events," such as social occasions, by listing the event's time, location, host, and guest list. In addition, Facebook users can "check in" to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user's profile page also includes a "Wall," which is a space where the user and his or her "Friends" can post messages, attachments, and links that will typically be visible to anyone who can view the user's profile.

33. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to "tag" (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook's purposes, the photos and videos associated with a user's account will include all photos and videos uploaded by that user that have not been deleted as well as all photos and videos uploaded by any user that have that user tagged in them.

34. Facebook users can exchange private messages on Facebook with other users. These messages, which are similar to email messages, are sent to the recipient's "Inbox" on Facebook, which also stores copies of messages sent by the recipient as well as other information. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a Chat feature that allows users to send and receive instant messages through Facebook. These chat communications are stored in the chat history for the account. Facebook also has a Video Calling feature, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

35. If a Facebook user does not want to interact with another user on Facebook, the first user can "block" the second user from seeing his or her account.

36. Facebook has a "like" feature that allows users to give positive feedback or connect to particular pages. Facebook users can "like" Facebook posts or updates as well as webpages or content on third-party (i.e., non-Facebook) websites. Facebook users can also become "fans" of particular Facebook pages.

37. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

38. Each Facebook account has an activity log, which is a list of the user's posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the

account such as "liking" a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user's Facebook page.

39. Facebook Notes is a blogging feature available to Facebook users, and it enables users to write and post notes or personal web logs ("blogs") or to import their blogs from other services, such as Xanga, LiveJournal, and Blogger.

40. The Facebook Gifts feature allows users to send virtual "gifts" to their friends that appear as icons on the recipient's profile page. Gifts cost money to purchase, and a personalized message can be attached to each gift. Facebook users can also send each other "pokes," which are free and simply result in a notification to the recipient that he or she has been "poked" by the sender.

41. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

42. In addition to the applications described above, Meta also provides its users with access to thousands of other applications on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about the user's access or use of that application may appear on the user's profile page.

43. Some Facebook pages are affiliated with groups of users, rather than one individual user. Membership in the group is monitored and regulated by the administrator or head of the group, who can invite new members and reject or accept requests by users to enter. Facebook can identify all users who are currently registered to a particular group and can identify the administrator and/or creator of the group. Facebook uses the term "Group Contact Info" to describe the contact information for the group's creator and/or administrator as well as a PDF of the current status of the group profile page.

44. Facebook uses the term "Neoprint" to describe an expanded view of a given user profile. The "Neoprint" for a given user can include the following information from the user's profile: profile contact information; News Feed information; status updates; links to videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications.

45. Meta also retains Internet Protocol ("IP") logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID

and IP address associated with the action. For example, if a user views a Facebook profile, that user's IP log would reflect the fact that the user viewed the profile and would show when and from what IP address the user did so.

46. Social networking providers like Meta typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Meta about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Meta typically retain records about such communications, including records of contacts between the user and the provider's support services as well as records of any actions taken by the provider or user as a result of the communications.

47. In my training and experience, evidence of who was using the Instagram or Facebook account and from where, and evidence related to violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ, may be found in the files and records described above. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

48. For example, the stored communications and files connected to an Instagram and Facebook account may provide direct evidence of the offenses under investigation. Based on my training and experience, direct messages, photos, and videos are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

49. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Meta can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, account information, messaging logs, photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. Moreover, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

50. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan

to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

51. Other information connected to an Instagram and Facebook account may lead to the discovery of additional evidence. For example, the search of an individual's Instagram account may reveal services or third-party applications, such as Snapchat, iMessage, etc., used in furtherance of the crimes under investigation, identities of and services used to communicate with co-conspirators, or instrumentalities of the crimes under investigation.

52. Therefore, Meta's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Instagram and Facebook's services. In my training and experience, such information may constitute evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ.

## PROBABLE CAUSE

53. On November 06, 2024, NCIS interviewed CSSN [redacted] USN, USS HARRY S TRUMAN (CVN-75) after [redacted] made a report of Sexual Assault against CSSN Jermiah COPELAND, USN USS JAMES E. WILLIAMS (DDG-95).

54. [redacted] stated she was sexually assaulted by COPELAND on 04NOV24 in a bar is Oslo, Norway while on deployment. [redacted] recalled she went to Heidi's Bier Bar with a group of Sailors. [redacted] relayed she became extremely intoxicated and could not recall the events of the evening. The following day, [redacted] stated multiple people approached her and stated COPELAND was showing others a video of him having sexual intercourse with her. [redacted] stated she called COPELAND and confronted him about the sexual encounter and video. However, COPELAND denied having sexual intercourse with her and denied having a recording. COPELAND threatened to kill himself via text following the phone call.

55. On November 06, 2024, NCIS interviewed CSSA Jacqueline BITA, USN, CVN-75, who was reported to have seen the video from COPELAND. BITA stated while at the bar in Norway, [redacted] was drinking and intoxicated. BITA explained COPELAND had not been part of the original group who went to the bar together, however, he had shown up later in the evening. BITA stated she observed COPELAND assisting [redacted] to the bathroom. A little while later in the evening, BITA stated she was speaking with another sailor, SR Jada KNIGHT, USN, VAW-126, and COPELAND approached them, saying words to the effect of "You'll never believe what happened, if I show you, you can't tell anyone." BITA stated COPELAND then showed her and KNIGHT a video of COPELAND having sexual intercourse with [redacted] BITA stated [redacted] could be identified in the video based on her hair style and the outfit she was wearing. BITA opined she could not tell if [redacted] was conscious in the video. BITA stated COPELAND was "happy and laughing", while

BITA and KNIGHT were "shocked" at the video. BITA opined COPELAND was in his "right mind" the night of the assault, however, after being confronted by [redacted] COPELAND knew "he had messed up."

56. On November 6, 2024, NCIS conducted a search for the cellphone belonging to COPELAND. COPELAND's person was searched and the cellphone was not discovered. COPELAND stated he gave his cellphone to CSSN Kaulise COUSINS, USN, CVN-75. NCIS approached and searched COUSINS, who stated he never possessed COPELAND's cellphone. COPELAND's berthing, rack, and locker was searched by NCIS however, COPELAND's cellphone was not recovered.

57. On November 08, 2024, NCIS interviewed CSSA Jakobie GANT, USN, CVN-75, who stated on 05NOV24, he was approached by COPELAND, who relayed he had sexual intercourse with [redacted] the night prior. GANT opined COPELAND was excited about it. GANT stated COPELAND showed him a video of him engaging in sexual intercourse with [redacted] GANT stated he did not see [redacted] face in the video. GANT stated he was very uncomfortable after watching the video because [redacted] did not appear conscious or in a comfortable position. GANT stated [redacted] was face down against a toilet.

58. On November 18, 2024, NCIS interviewed KNIGHT, who stated approximately 30 minutes after arriving at the bar in Norway, she was approached by COPELAND. KNIGHT stated COPELAND asked her not to tell anyone about what he was going to show her. KNIGHT recalled COPELAND showed her a video of him having sexual intercourse with [redacted] in a bathroom stall. KNIGHT stated COPELAND indicated [redacted] was the female in the video. KNIGHT stated the video depicted COPELAND's smiling face before panning to him thrusting in and out of her vagina.

59. On November 18, 2024, NCIS interviewed COPELAND, who opined the sexual encounter was with consent due to [redacted] taking him by the hand and pulling him into the bathroom stall and removing her pants. COPELAND stated during the sexual encounter, he did pull out his cellphone and begin recording. COPELAND stated he was unsure if [redacted] was aware of him recording the sexual encounter. COPELAND did admit to showing the video to KNIGHT and others without [redacted] knowledge. COPELAND again stated he had given his cellphone to COUSINS but denied throwing the phone away on purpose and stated it was lost after his phone fell out of his pocket and the screen shattered. This inconsistency leads me to doubt if he actually did lose his phone.

60. On December 20, 2024, NCIS interviewed COPELAND, who stated he had purchased a new cellphone. COPELAND stated the video he took of the sexual intercourse with [redacted] had been taken on Instagram Reels, and the video automatically deleted after a period of time of being posted.

## CONCLUSION

61. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

62. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

63. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

64. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Meta, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

65. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Respectfully submitted,

Special Agent Jessica Gokey
Naval Criminal Investigative Service

SUBSCRIBED AND SWORN to before me, a person authorized to administer oaths under 10 U.S.C § 936, in Norfolk, Virginia, USA.

Subscribed and sworn to before me on the _____ day of _____, 2025.

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

## ATTACHMENT A

### Property to Be Searched

This warrant applies to information associated with Meta Platforms Inc., ACCOUNT, of CSSN Jermiah COPELAND, USN, USS JAMES E. WILLIAMS (DDG-95), namely:

Name: Jermiah Copeland
Instagram Account: [redacted]
URL: https://www.facebook.com/[redacted]

(the "SUBJECT ACCOUNT") that is stored at premises owned, maintained, controlled, or operated by: Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.

# ATTACHMENT B

## Particular Things to be Seized

## I. Information to be disclosed by Meta, Inc. (the "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta Platforms Inc., including any postings, transactions, images, messages, records, files, logs, or information that have been deleted but are still available to Meta Platforms Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta Platforms Inc. is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the SUBJECT ACCOUNT listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the SUBJECT ACCOUNT;

c. The dates and times at which the SUBJECT ACCOUNT was created, and IP address at the time of sign-up;

d. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the SUBJECT ACCOUNT, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

## II. Information to be seized by the Government

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits,

evidence and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ), for the SUBJECT ACCOUNT or identifiers listed on Attachment A, information pertaining to the following matters:

a. The identity of the person(s) who created or used the Facebook account, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the SUBJECT ACCOUNT were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. Evidence indicating the SUBJECT ACCOUNT owners' or users' state of mind as it relates to the crime under investigation;

d. Evidence of the times the ACCOUNT or identifiers listed on Attachment A was used;

e. Passwords and other access information that may be necessary to access the ACCOUNT or identifiers listed on Attachment A and other associated ACCOUNT.

f. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

g. All relevant content to the crimes under investigation, to include the recording of the sexual encounter with [redacted]

## III. Method of Service/Delivery

Meta Platforms Inc. shall disclose responsive data, if any, by sending to Special Agent Jesus Santos, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

Arrange and bind the record of trial with allied papers in the sequence indicated below. The court reporter is responsible for certifying the record of trial prior to transmittal for appellate review, in accordance with R.C.M. 1112 and JAG/CNLSCINST 5813.1G.

1. Pages 1 (Cover page) and 2 (Chronology Sheet) of DD Form 490 (enclosure 7).

2. Court reporter certification of Record of Trial (enclosure 8).

3. Military Judge verification of Record of Trial (enclosure 8).

4. DD Form 490 (pages 3-6 and any continuation pages if needed) (enclosure 7).

5. Completed Post-Trial Checklist from JAG/CNLSCINST 5814.1G (enclosure 2).

6. Completed Convening Authority's Action Checklist (enclosure 4).

7. Post-Trial Documents.

a. Certificates/Proof of Service of the Certified Record of Trial to the accused and victim, if applicable (enclosure 7).

b. Convening Authority's Action and Entry of Judgment (enclosure 6).

c. Any requests for copies of the court-martial record pursuant to R.C.M. 1106 or 1106A (attach written requests, and any certificates/proof of service, but do not attach the victim's post-trial rights advisement or DD Form 2704).

d. Matters submitted by the accused and/or victim under R.C.M. 1106 or 1106A, or any written waiver of the right to submit such matters. Include all responses to requests here as well.

e. Any deferment request and the action on it (including any request to waive automatic forfeitures under Article 58b).

f. Conditions of suspension and proof of service on probationer under R.C.M. 1107, if any.

g. All clemency recommendations by members or military judge, if any.

h. Statement of Trial Results (enclosure 1).

i. Crime Reporting Information.

j. Accused's request for appellate defense counsel, or waiver/withdrawal of appellate review under R.C.M. 1115, if applicable.

k. All transfer orders, confinement orders, and excess leave orders.

l. Briefs of counsel submitted after trial, if any.

8. Preliminary Hearing.

a. DD Form 457, Preliminary Hearing Officer's Report, pursuant to Article 32, if such hearing was conducted, followed by any other allied papers that accompanied the charges when referred for trial (including any matters submitted under R.C.M. 405(l), unless included elsewhere in the record of trial).*

b. Waiver of Article 32 Hearing (if applicable).

9. Pre-Trial Allied Papers.

a. Convening Order and all amending convening orders.

b. DD Form 458, Charge Sheet (unless included at the point of arraignment in the transcript).

**INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL**

c. Congressional inquiries and replies, if any.

d. Advice of staff judge advocate, when prepared pursuant to Article 34 or otherwise.

10. Record of Proceedings.

a. Substantially verbatim recording of court-martial proceedings. Segregate open and closed sessions of the court-martial in accordance with R.C.M. 1113 and the following guidance:*

b. Ensure that each closed session of the court-martial is recorded on a separate DVD marked CLOSED SESSION, placed in its own envelope marked CLOSED SESSION, and sealed.

c. Label all DVD(s) and envelopes with the information on page 1 of this template.

d. Mark all DVDs and envelopes with "1 of X." as necessary (for example, the second DVD of six DVDs and its envelope should be marked, 2 of 6). All DVDs of open sessions may be in one envelope.

e. Mark all DVDs with their beginning and ending timestamps. The timestamps for closed sessions should match those shown on the Index.

f. Verbatim transcript or summarized report prepared in accordance with JAGINST 5814.1G. Include the following:

I. A certificate of correction, if any (including any supplemental certification for additional proceedings).

II. Court reporter and transcriptionist certification of verbatim transcript.

g. Records of former proceedings (Article 30a) and/or trials, (e.g., electronic/digital record of former proceeding, including audio recording and any scanned documentation/transcripts, CD/DVD format).*

11. Prosecution exhibits admitted in evidence.

12. Defense Exhibits admitted in evidence.

13. Appellate Exhibits including but not limited to, proposed instructions, written offers of proof or preliminary evidence (real or documentary), briefs of counsel submitted at trial, request to be tried by military judge alone (if any), the accused election of members under R.C.M. 903 (if any), any statement by convening authority required under R.C.M. 503(a)(2), and the election for sentencing by members in lieu of sentencing by military judge under R.C.M. 1002(b).*

14. Redaction. The following information shall be redacted in accordance with JAGMAN 1059 from the record of trial prior to releasing it to any accused or victim (including any transcript made pursuant to R.C.M. 1114 and attached to the record of trial) unless the information establishes an element of an offense, or is otherwise required:

a. Any recordings of closed sessions, any transcripts of closed sessions, and any sealed exhibits.

b. Names of minor victims, and names of minor witnesses. If an identifier is used, use only the initials.

c. Social Security Numbers.

d. Financial account information.

e. Home addresses.

f. Telephone numbers.

g. Personal e-mail addresses.

h. Dates of birth.

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

i. Any other information that could be used to identify a specific person other than the accused.

*If the report of preliminary hearing or record of trial contains exhibits, proceedings, or other materials ordered sealed by the preliminary hearing officer or military judge, counsel for the Government, the court reporter, or trial counsel shall cause such materials to be sealed to prevent unauthorized examination or disclosure, pursuant to R.C.M. 1113. Sealed material shall be properly marked, individually placed in separate envelopes with a copy of the preliminary hearing officer or military judge sealing order affixed to it, and inserted at the appropriate place in the record of trial. Do not duplicate sealed material to include it in any copy of the record of trial. Instead, insert a copy of the sealing order in lieu of any sealed material, in any copies of the record of trial.

**DIVIDERS ARE NOT NECESSARY TO SEPARATE EACH SECTION. IF USED, THEY CAN BE PAPER RATHER THAN CARD STOCK. IF A PARTICULAR COMPONENT IS NOT APPLICABLE IN THE RECORD OF TRIAL, SUCH AS AN ARTICLE 32 HEARING, EXHIBITS NOT ADMITTED, POST-TRIAL PROCEEDINGS AND VACATION HEARINGS, DO NOT INSERT A DIVIDER OR PLACEHOLDER.**

**FRONT AND BACK COVER MUST BE ON BLUE CARDS STOCK AND LABELED WITH GUM LABELS.**

**Binding.** Each volume of a record of trial should be no more than 1.5 inches thick and bound at the top with metal or plastic fasteners. **DO NOT** interlace or "piggy-back" prong fasteners to create an oversized volume. **DO NOT** place hole punches where it covers up the evidence or language in the transcript. When it becomes necessary to assemble the record of trial in more than one volume, the volumes will be numbered consecutively, on the front cover, as illustrated below:

**Volume 1 of 4 (Pages 1-250)**
**Volume 2 of 4 (Pages 251-400)**
**Volume 3 of 4 (Pages 401-652)**
**Volume 4 of 4 (Pages 653-901 and Exhibits)**

Make the first volume of a multi-volume record an inch thick or smaller to allow for inclusion of post-trial documents. Limit subsequent volumes to 1.5 inches, unless dividing them requires assembling an additional volume smaller than a half inch.

Label the upper right-hand corner or the Preparation and Certification of Record of Trial Form (enclosure (8)) to reflect which copy it is, i.e., "**ORIGINAL**," "**ACCUSED**," "**REVIEW**" etc.

| **IN THE MATTER OF THE SEARCH OF:**<br><br>**INFORMATION ASSOCIATED WITH THE META PLATFORM INC., ACCOUNT: (SUBJECT ACCOUNT)**<br>Name: Jermiah Copeland<br>Instagram Account: [redacted]<br>Facebook Username[redacted];<br>URL: https://www.facebook.com[redacted]<br><br>**That is stored at the Premises Controlled by Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.** | Case No.: **01JUN25-NFNF-00237-7HNA**<br><br>Filed Under Seal |

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Meta records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Meta Platforms, Inc. as is relates to account "[redacted]" and "[redacted]" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images): The accused knowingly and wrongfully broadcasted or distributed a visual image; The visual image is an intimate visual image of another person or a visual image of sexually explicit conduct involving another person; The person depicted in the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the intimate visual image or visual image of sexually explicit conduct was made under circumstances in which the person depicted retained a reasonable expectation of privacy regarding any broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct was like to: Cause harm.

Harassment, intimidation, emotional distress, or financial loss for the person depicted in the intimate visual image or visual image of sexually explicit conduct or harm substantially the depicted person with respect to that persons health, safety, business, calling, career, financial condition, reputation, or personal relationships; and conduct of the accused, under the circumstances, had a reasonably direct and palpable connection to a military mission or military environment.

10. Article 120 (Rape and Sexual Assault Generally): Accused commits a sexual act upon another person without the consent of the other person.

11. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## LEGAL AUTHORITY

12. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

13. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –
>
> (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

14. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## BACKGROUND CONCERNING INSTAGRAM

15. Meta is a United States company that is the parent organization of Instagram. Instagram is a free photograph and video sharing social networking service that can be accessed at https://www.instagram.com/?hl=en or via the Instagram application on a smartphone (iPhone, Blackberry, Android, Windows-based, and Nokia phones).

16. Instagram allows its users to establish accounts; after which, they can share information, view photographs, watch videos, and interact with other Instagram users and/or the general public (those who do not have an Instagram account), depending on the user's privacy settings.

17. Instagram provides a variety of services for its users who have established accounts. As described in further detail below, the services include "following" other Instagram users on the platform; sharing photographs and images; posting and watching video content; connecting through Instagram's direct message system; commenting on photographs and videos of other users; and "liking" images or videos.

18. Instagram allows its users to connect with friends, family, and communities around the globe by sending another user a "Follow Request." If the recipient accepts the request, the two users will become "followers" for purposes of Instagram and can exchange communications and view photographs and video about one another. Additionally, once two users become "followers," they can monitor and see what content one another "like" and comment on.

19. Instagram users can "post" (i.e. share) an unlimited number of photographs or videos to their account. These photographs and videos may be visible to the user, other Instagram users, or the general public (people who do not have an Instagram account) depending on the user's privacy settings. Instagram allows its user to "tag" (i.e. label) other Instagram users in photographs or videos which then links the image or video to the tagged user's account.

20. Instagram Reels, a platform within Instagram, allows users to post video content on the social networking website for financial gain. The more views a user receives on a video, the more money that user will earn from Instagram or advertising sponsors.

21. Instagram users can also privately message each other through the platform on Instagram's direct message feature. These messages mirror email messages; they are sent to the recipient's "inbox" on Instagram. Instagram stores copies of messages sent by the recipient.

22. Instagram users may comment on and "like" images and videos posted by their Instagram "followers" or by users who have their account visible to the public. Once a user has commented on or "liked" an image or video, their followers can see that content, as well, and know that the user engaged with that image or video.

23. Instagram asks users to provide basic contact information during the account registration process. This information includes: (1) the user's full name and (2) email address or mobile phone number. In this account creation process, the user selects their username and password. This username is then used by Instagram to identify the user. After the registration process, users have the ability to include any personal identifier they choose on their account "profile," such as age, gender, location, etc.

24. After creating an account, users can access Instagram via its website on any computer with Internet access or via the Instagram application, available on any smartphone.

25. Instagram users can select one of two different levels of privacy for the communications and information associated with their account: (1) public or (2) private. A "public" account is one in which all of its content, their profile and posts, can be view by anyone, regardless of whether or not they have an Instagram account. A "private" account is one in which only the followers approved by the user can see what the user shares, including videos or photos, the user's follower list, and the user's following list.

26. Meta collects information associated with the Instagram's user's account activity and device by which they accessed their account. With regard to the user's account activity, Meta collects the time and date a user signs up for an account, all content created or shared, messages or other forms of communication, the location of and/or date a file was created, the frequency of actions taken on the website, the duration of activities on the website, the content the user interacts with on Instagram, means of payment associated with the account (including any credit card or bank account number) and more. With regard to the user's device by which they accessed their account, Meta collects the name of the mobile operator or ISP; the language; time zone; mobile phone number; IP addresses; Bluetooth signals; information about nearby Wi-Fi access points, beacons, and cell towers; GPS location; camera; photographs; and more.

27. Meta's computers contain all Instagram material described above, including stored electronic communications and information concerning subscribers and their use of Instagram, such as account access information, transaction information, and account application.

## BACKGROUND CONCERNING FACEBOOK

28. Meta owns and operates Facebook, a free-access social networking website of the same name that can be accessed at http://www.facebook.com. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users and sometimes with the general public.

29. Meta asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact email addresses, Facebook passwords, Facebook security questions and answers (for password retrieval), physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

30. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

31. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create "lists" of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

32. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post "status" updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere

on the Internet. Facebook users can also post information about upcoming "events," such as social occasions, by listing the event's time, location, host, and guest list. In addition, Facebook users can "check in" to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user's profile page also includes a "Wall," which is a space where the user and his or her "Friends" can post messages, attachments, and links that will typically be visible to anyone who can view the user's profile.

33. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to "tag" (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook's purposes, the photos and videos associated with a user's account will include all photos and videos uploaded by that user that have not been deleted as well as all photos and videos uploaded by any user that have that user tagged in them.

34. Facebook users can exchange private messages on Facebook with other users. These messages, which are similar to email messages, are sent to the recipient's "Inbox" on Facebook, which also stores copies of messages sent by the recipient as well as other information. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a Chat feature that allows users to send and receive instant messages through Facebook. These chat communications are stored in the chat history for the account. Facebook also has a Video Calling feature, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

35. If a Facebook user does not want to interact with another user on Facebook, the first user can "block" the second user from seeing his or her account.

36. Facebook has a "like" feature that allows users to give positive feedback or connect to particular pages. Facebook users can "like" Facebook posts or updates as well as webpages or content on third-party (i.e., non-Facebook) websites. Facebook users can also become "fans" of particular Facebook pages.

37. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

38. Each Facebook account has an activity log, which is a list of the user's posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the

account such as "liking" a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user's Facebook page.

39. Facebook Notes is a blogging feature available to Facebook users, and it enables users to write and post notes or personal web logs ("blogs") or to import their blogs from other services, such as Xanga, LiveJournal, and Blogger.

40. The Facebook Gifts feature allows users to send virtual "gifts" to their friends that appear as icons on the recipient's profile page. Gifts cost money to purchase, and a personalized message can be attached to each gift. Facebook users can also send each other "pokes," which are free and simply result in a notification to the recipient that he or she has been "poked" by the sender.

41. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

42. In addition to the applications described above, Meta also provides its users with access to thousands of other applications on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about the user's access or use of that application may appear on the user's profile page.

43. Some Facebook pages are affiliated with groups of users, rather than one individual user. Membership in the group is monitored and regulated by the administrator or head of the group, who can invite new members and reject or accept requests by users to enter. Facebook can identify all users who are currently registered to a particular group and can identify the administrator and/or creator of the group. Facebook uses the term "Group Contact Info" to describe the contact information for the group's creator and/or administrator as well as a PDF of the current status of the group profile page.

44. Facebook uses the term "Neoprint" to describe an expanded view of a given user profile. The "Neoprint" for a given user can include the following information from the user's profile: profile contact information; News Feed information; status updates; links to videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications.

45. Meta also retains Internet Protocol ("IP") logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID

and IP address associated with the action. For example, if a user views a Facebook profile, that user's IP log would reflect the fact that the user viewed the profile and would show when and from what IP address the user did so.

46. Social networking providers like Meta typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Meta about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Meta typically retain records about such communications, including records of contacts between the user and the provider's support services as well as records of any actions taken by the provider or user as a result of the communications.

47. In my training and experience, evidence of who was using the Instagram or Facebook account and from where, and evidence related to violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ, may be found in the files and records described above. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

48. For example, the stored communications and files connected to an Instagram and Facebook account may provide direct evidence of the offenses under investigation. Based on my training and experience, direct messages, photos, and videos are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

49. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Meta can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, account information, messaging logs, photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. Moreover, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

50. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan

to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

51. Other information connected to an Instagram and Facebook account may lead to the discovery of additional evidence. For example, the search of an individual's Instagram account may reveal services or third-party applications, such as Snapchat, iMessage, etc., used in furtherance of the crimes under investigation, identities of and services used to communicate with co-conspirators, or instrumentalities of the crimes under investigation.

52. Therefore, Meta's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Instagram and Facebook's services. In my training and experience, such information may constitute evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ.

## PROBABLE CAUSE

53. On November 06, 2024, NCIS interviewed CSSN [redacted] USN, USS HARRY S TRUMAN (CVN-75) after [redacted] made a report of Sexual Assault against CSSN Jermiah COPELAND, USN USS JAMES E. WILLIAMS (DDG-95).

54. [redacted] stated she was sexually assaulted by COPELAND on 04NOV24 in a bar is Oslo, Norway while on deployment. [redacted] recalled she went to Heidi's Bier Bar with a group of Sailors. [redacted] relayed she became extremely intoxicated and could not recall the events of the evening. The following day, [redacted] stated multiple people approached her and stated COPELAND was showing others a video of him having sexual intercourse with her. [redacted] stated she called COPELAND and confronted him about the sexual encounter and video. However, COPELAND denied having sexual intercourse with her and denied having a recording. COPELAND threatened to kill himself via text following the phone call.

55. On November 06, 2024, NCIS interviewed CSSA Jacqueline BITA, USN, CVN-75, who was reported to have seen the video from COPELAND. BITA stated while at the bar in Norway, [redacted] was drinking and intoxicated. BITA explained COPELAND had not been part of the original group who went to the bar together, however, he had shown up later in the evening. BITA stated she observed COPELAND assisting [redacted] to the bathroom. A little while later in the evening, BITA stated she was speaking with another sailor, SR Jada KNIGHT, USN, VAW-126, and COPELAND approached them, saying words to the effect of "You'll never believe what happened, if I show you, you can't tell anyone." BITA stated COPELAND then showed her and KNIGHT a video of COPELAND having sexual intercourse with [redacted] BITA stated [redacted] could be identified in the video based on her hair style and the outfit she was wearing. BITA opined she could not tell if [redacted] was conscious in the video. BITA stated COPELAND was "happy and laughing", while

BITA and KNIGHT were "shocked" at the video. BITA opined COPELAND was in his "right mind" the night of the assault, however, after being confronted by [redacted] COPELAND knew "he had messed up."

56. On November 6, 2024, NCIS conducted a search for the cellphone belonging to COPELAND. COPELAND's person was searched and the cellphone was not discovered. COPELAND stated he gave his cellphone to CSSN Kaulise COUSINS, USN, CVN-75. NCIS approached and searched COUSINS, who stated he never possessed COPELAND's cellphone. COPELAND's berthing, rack, and locker was searched by NCIS however, COPELAND's cellphone was not recovered.

57. On November 08, 2024, NCIS interviewed CSSA Jakobie GANT, USN, CVN-75, who stated on 05NOV24, he was approached by COPELAND, who relayed he had sexual intercourse with [redacted] the night prior. GANT opined COPELAND was excited about it. GANT stated COPELAND showed him a video of him engaging in sexual intercourse with [redacted] GANT stated he did not see [redacted] face in the video. GANT stated he was very uncomfortable after watching the video because [redacted] did not appear conscious or in a comfortable position. GANT stated [redacted] was face down against a toilet.

58. On November 18, 2024, NCIS interviewed KNIGHT, who stated approximately 30 minutes after arriving at the bar in Norway, she was approached by COPELAND. KNIGHT stated COPELAND asked her not to tell anyone about what he was going to show her. KNIGHT recalled COPELAND showed her a video of him having sexual intercourse with [redacted] in a bathroom stall. KNIGHT stated COPELAND indicated [redacted] was the female in the video. KNIGHT stated the video depicted COPELAND's smiling face before panning to him thrusting in and out of her vagina.

59. On November 18, 2024, NCIS interviewed COPELAND, who opined the sexual encounter was with consent due to [redacted] taking him by the hand and pulling him into the bathroom stall and removing her pants. COPELAND stated during the sexual encounter, he did pull out his cellphone and begin recording. COPELAND stated he was unsure if [redacted] was aware of him recording the sexual encounter. COPELAND did admit to showing the video to KNIGHT and others without [redacted] knowledge. COPELAND again stated he had given his cellphone to COUSINS but denied throwing the phone away on purpose and stated it was lost after his phone fell out of his pocket and the screen shattered. This inconsistency leads me to doubt if he actually did lose his phone.

60. On December 20, 2024, NCIS interviewed COPELAND, who stated he had purchased a new cellphone. COPELAND stated the video he took of the sexual intercourse with [redacted] had been taken on Instagram Reels, and the video automatically deleted after a period of time of being posted.

## CONCLUSION

61. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

62. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

63. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

64. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Meta, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

65. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Respectfully submitted,

GOKEY.JESSICA.RAY [redacted] Digitally signed by GOKEY.JESSICA.RAY.[redacted] Date: 2025.08.11 14:59:09 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

SUBSCRIBED AND SWORN to before me, a person authorized to administer oaths under 10 U.S.C § 936, in Norfolk, Virginia, USA.

Subscribed and sworn to before me on the _____ day of _____, 2025.

_____
Christopher Dempsey
LT, JAGC, USN
Trial Counsel

## ATTACHMENT A

### Property to Be Searched

This warrant applies to information associated with Meta Platforms Inc., ACCOUNT, of CSSN Jermiah COPELAND, USN, USS JAMES E. WILLIAMS (DDG-95), namely:

Name: Jermiah Copeland
Instagram Account: [redacted]
Facebook Username[redacted]
URL: https://www.facebook.com/[redacted]

(the "SUBJECT ACCOUNT") that is stored at premises owned, maintained, controlled, or operated by: Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.

# ATTACHMENT B

## Particular Things to be Seized

## I. Information to be disclosed by Meta, Inc. (the "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta Platforms Inc., including any postings, transactions, images, messages, records, files, logs, or information that have been deleted but are still available to Meta Platforms Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta Platforms Inc. is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the SUBJECT ACCOUNT listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the SUBJECT ACCOUNT;

c. The dates and times at which the SUBJECT ACCOUNT was created, and IP address at the time of sign-up;

d. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the SUBJECT ACCOUNT, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

## II. Information to be seized by the Government

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits,

evidence and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ), for the SUBJECT ACCOUNT or identifiers listed on Attachment A, information pertaining to the following matters:

a. The identity of the person(s) who created or used the Facebook account, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the SUBJECT ACCOUNT were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. Evidence indicating the SUBJECT ACCOUNT owners' or users' state of mind as it relates to the crime under investigation;

d. Evidence of the times the ACCOUNT or identifiers listed on Attachment A was used;

e. Passwords and other access information that may be necessary to access the ACCOUNT or identifiers listed on Attachment A and other associated ACCOUNT.

f. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

g. All relevant content to the crimes under investigation, to include the recording of the sexual encounter with [redacted]

## III. Method of Service/Delivery

Meta Platforms Inc. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**ATTACHMENT A**

**Property to Be Searched**

This warrant applies to the electronically stored data, information, communications, and items contained in, related to, and associated with, including all preserved data associated with the Sony Interactive Entertainment LLC account of Jermiah Copeland with online ID and email:

a. **Online ID:** [redacted]
b. [redacted]

that is stored at premises owned, maintained, controlled, or operated by Sony Interactive Entertainment LLC.

## ATTACHMENT B

## Particular Things to Be Seized

### I. Information to Be Disclosed By Sony Interactive Entertainment LLC (The "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of the Provider, including any messages, Records, Files, logs, or information that have been deleted but are still available to the Provider, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f). The Provider is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the **SUBJECT ACCOUNT** listed in Attachment A from 12AM (EST) on 28 May 2025 through 09 June 2025:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the **SUBJECT ACCOUNT**;

c. The dates and times at which the **SUBJECT ACCOUNT** was created, and IP address at the time of sign-up;

d. All activity logs including IP logs and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNT**, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNT**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNT** and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata from 28 May 2025 through 09 June 2025 to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe of 28 May 2025 through 09 June 2025.

### II. Information to be seized by the government

All information described above in section I. Including correspondence, records, documents. Photographs, videos, Electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of Article 107, 118, 131b of the Uniform Code of Military Justice (UCMJ), for the **SUBJECT ACCOUNT** listed on Attachment A, information pertaining to the following matters, from 28 May 2025 through 09 June 2025:

a. The identity of the person or persons who created or used the **SUBJECT ACCOUNT**, including records which help reveal the whereabouts of such person(s):

b. Evidence indicating how and when the **SUBJECT ACCOUNT** was accessed or used from 28 May 2025 through 09 June 2025, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user.

c. All messaging or chat sessions available, including but not limited to voice messages, text chats, photos, links, or other communications **SUBJECT ACCOUNT** and other email addresses, from 28 May 2025 through 09 June 2025, relating to the crimes under investigation;

d. Evidence indicating the **SUBJECT ACCOUNT** owners' or users' state of mind as it relates to the crime under investigation:

e. Evidence of the times the **SUBJECT ACCOUNT** listed on Attachment A was used from 28 May 2025 through 09 June 2025;

f. Passwords and encryption keys, and other access information that may be necessary to access **SUBJECT ACCOUNT** listed on Attachment A and other associated accounts.

g. Evidence that may identify any co-conspirators or aiders and abettors, including records that help reveal their whereabouts.

h. All information and content contained within the **SUBJECT ACCOUNT**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, from 28 May 2025 through 09 June 2025.

**III**. **Disclosure by provider - By Order of the Court**

Apple Inc. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@leo.gov). Please include an attestation certificate

for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**IN THE MATTER OF THE SEARCH OF:**

**Information Associated with the Sony Interactive Entertainment LLC Account Associated with the Online ID:** [redacted]
**With associated email address** [redacted]

**That is Stored at the Premises Controlled by Sony Interactive Entertainment LLC, Corporation Service Company 100 Shockoe Slip, 2nd Floor, Richmond, VA 23219**

**Case Identifier:**
**01JUN25-NFNF-00237-7HNA**

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Sony Interactive Entertainment LLC

(hereafter "Sony") to disclose to the government records and other information, including the contents of communications, associated with the Sony account associated with online ID and email (the **SUBJECT ACCOUNT):**

a. [redacted]

and seize information associated with that account that is stored at premises owned, maintained, controlled, or operated by Sony. The information to be disclosed by Sony and searched by the government is described in the following paragraphs and in Attachments A and B.

4. This application seeks a warrant to search all responsive records and information under the control of Sony, a provider subject to the jurisdiction of this court, regardless of where Sony has chosen to store such information. The government intends to require the disclosure pursuant to the requested warrant of the contents of wire or electronic communications and any records or other information pertaining to the customers or subscribers if such communication, record, or other information is within Sony's possession, custody, or control, regardless of whether such communication, record, or other information is stored, held, or maintained outside the United States.

5. Your Affiant anticipates executing this warrant by using this warrant to require Sony to disclose to the government copies of the records and other information (including the content of communications) described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

6. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. I have set forth only those facts that I believe are necessary to establish probable cause that evidence, fruits, and instrumentalities of violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) are present in the information associated with the above listed **SUBJECT ACCOUNT.** Where statements of others are set forth in this Affidavit, they are set forth in substance and in part.

## JURISDICTION

7. As defined in 18 U.S.C. §2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. §§2703(a), (b)(l)(A), (c)(l)(A), and 10 U.S.C. § 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of Title 10 (UCMJ)."

## PERTINENT STATUTES UNDER THE UNIFORM CODE OF MILITARY JUSTICE

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain

particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 118 (Murder): Intent to kill or inflict great bodily harm; A certain named or described person is dead; Death resulted from the act or omission of the accused; the killing was unlawful; and at the time of the killing, the accused had the intent to kill or inflict great bodily harm upon a person.

10. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## OTHER LEGAL AUTHORITY

11. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from 18 U.S.C. §§ 2701-2711, entitled "Stored Wire and Electronic Communications and Transactional Records Access." Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant. A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection -
>
> > (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service -
>
> > (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by

means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

12. The government may also obtain records relating to e-mail communications, such as subscriber identifying information, by way of a search warrant. 18 U.S.C. § 2703(c)(l)(A).

13. 18 U.S.C. §§ 2703(b)(l)(A) and 2703(c)(l)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## DEFINITIONS

14. "Electronic communication service provider" (ECSP) means (a) a telecommunications carrier, as that term is defined in section 3 of the Communications Act of 1934; (b) a provider of electronic communication service, (c) a provider of a remote computing service, (d) any other communication service provider who has access to wire or electronic communications either as such communications are transmitted or as such communications are stored; or (e) an officer, employee, or agent of an entity described in subparagraph (a), (b), (c), or (d).

15. "Electronic Communications System" means any wire, radio, electromagnetic, photo optical, or photo electronic facilities for the transmission of wire or electronic communications, and any computer facilities or related electronic equipment for the electronic storage of such communications. 18 U.S.C. § 2510(14).

16. "Electronic storage" means (a) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof; and (b) any storage of such communication by an electronic communication service for purposes of backup protection of such communication. 18 U.S.C. § 2510(17).

17. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

18. "Computer," as used herein, refers to "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related

to or operating in conjunction with such device" and includes smartphones, and mobile phones and devices. 18 U.S.C. § 1030(e)(l).

19. "Computer passwords and data security devices," as used herein, consist of information or items designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

20. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type ofIP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

21. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password."

22. Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

23. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of

events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely transferred.

24. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

25. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

26. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

27. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## TECHNICAL BACKGROUND ON SONY INTERACTIVE ENTERTAINMENT

28. From the internet, I know that Sony Interactive Entertainment LLC (SIE) is a digital entertainment company associated with Sony. SIE develops gaming consoles, game development, and companion applications to their consoles. Sony is the developer and owner of the PlayStation gaming system, PlayStation Mobile, and PlayStation Plus. A PlayStation is a gaming console that connects wirelessly or via cable to the internet. Users can purchase game disks or purchase games through the PlayStation store, and can play individually or online with parties around the world in real time. Users of the PlayStation gaming systems are provided with the option to create a player profile where they can add their name, link an email address to their player profile, and create an account with the gaming system to store game progress, applications, and customized settings. On the PlayStation, users can purchase and download games from the PlayStation Store after adding a purchased gift card or by inputting billing information, purchase subscriptions to enable online play, and add applications to their PlayStation to stream shows and movies such as Netflix and other third party services. PlayStation additionally has created a messaging component for users to communicate where voice messages, photos, and attachments can be exchanged by users using the gaming console, a cellphone/electronic device via the PlayStation messaging app, or a computer. Sony collects various information about its users including stored chats, purchase history and billing information, and associated application sign on information such as Netflix apps or Spotify, IP address information, and other items.

29. I know from experience, a PlayStation 5 can be used to access and search the internet via applications such as Google. However, on the PlayStation5 it is not a dedicated application, as was on older models, there are workarounds through settings where search engines such as Google can be accessed.

30. A Playstation 5 user can also access their account through a web browser, including from a mobile device.

## PROBABLE CAUSE TO SEARCH THE SUBJECT ACCOUNT

31. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

32. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

33. Throughout the investigation, NCIS determined on May 28, 2025, RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by COPELAND.

34. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

35. COPELAND stated RESENDIZ called an “ex-boyfriend from Texas” and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

36. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have happened between them.

37. During an interview with AN John CALISSE, he stated that COPELAND and, now who we know to be RESENDIZ, were singing along with Karaoke in the common area of their barracks room at approximately 0200 on 29 May 2025

38. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on May 29, 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor.

39. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ’s breasts and could see COPELAND’s head resting on RESENDIZ’s. GORDILLOCRUZ stated COPELAND was naked and his back was facing upwards.

40. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

41. COPELAND stated, he was late for work on the morning of May 29, 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

42. COPELAND reported that he and RESENDIZ got dressed and a roommate took him and RESENDIZ to RESENDIZ’s residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

43. COPELAND later changed his story and stated RESENDIZ and him woke up and cleaned the kitchen and RESENDIZ had left. COPELAND stated he did not drop her off at her barracks.

44. COPELAND was marked UA for the days of 29-31 May 2025 and on 01 June 2025.

45. On 02 June 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER stated RESENDIZ was scheduled to work day shift Friday, May 30, 2025 - Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

46. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

47. RESENDIZ's cellphone last pinged on May 29, 2025, and the location was at the X-2 barracks.

48. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

49. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

50. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

51. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

52. On 03 June 2025, COPELAND gave his iPhone 15 to investigators after signing a PASS.

53. During the execution of the CASS on June 04, 2025, NCIS also located a second iPhone, which COPELAND stated was his however, it did not work.

54. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time

on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

55. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which showshealth data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

56. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

57. COPELAND was apprehended on 09 June 2025, but maintained access to an iPhone and Apple Watch with cellular data until that date.

58. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

59. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

60. On June 03, 2025, NCIS executed a CASS, during which CSSN Sarah COOK, USN, CVN-77 was located inside the barracks of COPELAND. COOK stated she and COPELAND were hanging out and playing video games.

61. NCIS has also obtained video footage from various friends of COPELAND, where the PlayStation in the common area owned by COPELAND is being utilized as a device to play music on.

62. NCIS was able to determine COPELAND's username is [redacted] and the e-mail associated with that account is [redacted], after reviewing emails associated to the iPhone 15 forensic review.

## CONCLUSION

63. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored within the Sony account may give a timeline as to when the device was being used during the night in question of

RESENDIZ's death. It may also provide relevant information in the form of internet searches that were not found or associated with any of the other electronic devise NCIS has searched.

64. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

65. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

66. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Apple, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

67. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

Very respectfully submitted,

_____
Jessica Gokey, Special Agent
Naval Criminal Investigative Service
Norfolk, Virginia

SUBSCRIBED and SWORN to before me on __ ____ 2025

_____

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Sony Interactive Entertainment LLC

(hereafter "Sony") to disclose to the government records and other information, including the contents of communications, associated with the Sony account associated with online ID and email (the **SUBJECT ACCOUNT):**

a. [redacted]

and seize information associated with that account that is stored at premises owned, maintained, controlled, or operated by Sony. The information to be disclosed by Sony and searched by the government is described in the following paragraphs and in Attachments A and B.

4. This application seeks a warrant to search all responsive records and information under the control of Sony, a provider subject to the jurisdiction of this court, regardless of where Sony has chosen to store such information. The government intends to require the disclosure pursuant to the requested warrant of the contents of wire or electronic communications and any records or other information pertaining to the customers or subscribers if such communication, record, or other information is within Sony's possession, custody, or control, regardless of whether such communication, record, or other information is stored, held, or maintained outside the United States.

5. Your Affiant anticipates executing this warrant by using this warrant to require Sony to disclose to the government copies of the records and other information (including the content of communications) described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

6. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. I have set forth only those facts that I believe are necessary to establish probable cause that evidence, fruits, and instrumentalities of violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) are present in the information associated with the above listed **SUBJECT ACCOUNT.** Where statements of others are set forth in this Affidavit, they are set forth in substance and in part.

## JURISDICTION

7. As defined in 18 U.S.C. §2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. §§2703(a), (b)(l)(A), (c)(l)(A), and 10 U.S.C. § 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of Title 10 (UCMJ)."

## PERTINENT STATUTES UNDER THE UNIFORM CODE OF MILITARY JUSTICE

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain

particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 118 (Murder): Intent to kill or inflict great bodily harm; A certain named or described person is dead; Death resulted from the act or omission of the accused; the killing was unlawful; and at the time of the killing, the accused had the intent to kill or inflict great bodily harm upon a person.

10. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## OTHER LEGAL AUTHORITY

11. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from 18 U.S.C. §§ 2701-2711, entitled "Stored Wire and Electronic Communications and Transactional Records Access." Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant. A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection -
>
> > (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service -
>
> > (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by

means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

12. The government may also obtain records relating to e-mail communications, such as subscriber identifying information, by way of a search warrant. 18 U.S.C. § 2703(c)(l)(A).

13. 18 U.S.C. §§ 2703(b)(l)(A) and 2703(c)(l)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## DEFINITIONS

14. "Electronic communication service provider" (ECSP) means (a) a telecommunications carrier, as that term is defined in section 3 of the Communications Act of 1934; (b) a provider of electronic communication service, (c) a provider of a remote computing service, (d) any other communication service provider who has access to wire or electronic communications either as such communications are transmitted or as such communications are stored; or (e) an officer, employee, or agent of an entity described in subparagraph (a), (b), (c), or (d).

15. "Electronic Communications System" means any wire, radio, electromagnetic, photo optical, or photo electronic facilities for the transmission of wire or electronic communications, and any computer facilities or related electronic equipment for the electronic storage of such communications. 18 U.S.C. § 2510(14).

16. "Electronic storage" means (a) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof; and (b) any storage of such communication by an electronic communication service for purposes of backup protection of such communication. 18 U.S.C. § 2510(17).

17. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

18. "Computer," as used herein, refers to "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related

to or operating in conjunction with such device" and includes smartphones, and mobile phones and devices. 18 U.S.C. § 1030(e)(l).

19. "Computer passwords and data security devices," as used herein, consist of information or items designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

20. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type ofIP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

21. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password."

22. Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

23. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of

events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely transferred.

24. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

25. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

26. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

27. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## TECHNICAL BACKGROUND ON SONY INTERACTIVE ENTERTAINMENT

28. From the internet, I know that Sony Interactive Entertainment LLC (SIE) is a digital entertainment company associated with Sony. SIE develops gaming consoles, game development, and companion applications to their consoles. Sony is the developer and owner of the PlayStation gaming system, PlayStation Mobile, and PlayStation Plus. A PlayStation is a gaming console that connects wirelessly or via cable to the internet. Users can purchase game disks or purchase games through the PlayStation store, and can play individually or online with parties around the world in real time. Users of the PlayStation gaming systems are provided with the option to create a player profile where they can add their name, link an email address to their player profile, and create an account with the gaming system to store game progress, applications, and customized settings. On the PlayStation, users can purchase and download games from the PlayStation Store after adding a purchased gift card or by inputting billing information, purchase subscriptions to enable online play, and add applications to their PlayStation to stream shows and movies such as Netflix and other third party services. PlayStation additionally has created a messaging component for users to communicate where voice messages, photos, and attachments can be exchanged by users using the gaming console, a cellphone/electronic device via the PlayStation messaging app, or a computer. Sony collects various information about its users including stored chats, purchase history and billing information, and associated application sign on information such as Netflix apps or Spotify, IP address information, and other items.

29. I know from experience, a PlayStation 5 can be used to access and search the internet via applications such as Google. However, on the PlayStation5 it is not a dedicated application, as was on older models, there are workarounds through settings where search engines such as Google can be accessed.

## PROBABLE CAUSE TO SEARCH THE SUBJECT ACCOUNT

30. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

31. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

32. Throughout the investigation, NCIS determined on May 28, 2025, RESENDIZ was known to be in the barracks room located at X-2 room 335B Rack A located onboard Naval Station Norfolk, who is occupied by COPELAND.

33. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

34. COPELAND stated RESENDIZ called an “ex-boyfriend from Texas” and was confronting the person about returning personal items. COPELAND stated, RESENDIZ became emotional and began to cry.

35. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have happened between them.

36. During an interview with AN John CALISSE, he stated that COPELAND and, now who we know to be RESENDIZ, were singing along with Karaoke in the common area of their barracks room at approximately 0200 on 29 May 2025.

37. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of COPELAND, at approximately 0645 on May 29, 2025, GORDILLOCRUZ stated he was leaving for work and saw his roommate, later clarified to be COPELAND and an unknown female on the floor.

38. GORDILLOCRUZ stated the female looked to have darker skin, and black curly hair. He could see RESENDIZ’s breasts and could see COPELAND’s head resting on RESENDIZ’s. GORDILLOCRUZ stated COPELAND was naked and his back was facing upwards.

39. GORDILLOCRUZ stated he could tell RESENDIZ was breathing by her chest moving up and down. GORDILLOCRUZ stated, he had never seen the female before and has not seen her since.

40. COPELAND stated, he was late for work on the morning of May 29, 2025 and FCC Brad PARKER knocked on his door to say COPELAND was going to be labeled as Unauthorized Absence (UA). FCC PARKER stated COPELAND answered the door in shorts and no shirt. FCC PARKER stated RESENDIZ waved and rolled over into a blanket. FCC PARKER told COPELAND to report to work and left the barracks room.

41. COPELAND reported that he and RESENDIZ got dressed and a roommate took him and RESENDIZ to RESENDIZ’s residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

42. COPELAND later changed his story and stated RESENDIZ and him woke up and cleaned the kitchen and RESENDIZ had left. COPELAND stated he did not drop her off at her barracks.

43. COPELAND was marked UA for the days of 29-31 May 2025 and on 01 June 2025.

44. On 02 June 2025, NCIS spoke to FCC PARKER to verify RESENDIZ's work schedule. FCC PARKER stated RESENDIZ was scheduled to work day shift Friday, May 30, 2025 - Sunday, June 1, 2025 with a report time of 0500-0530 hours. FCC PARKER stated RESENDIZ failed to report all three (3) days.

45. NCIS interviewed all roommates of COPELAND, who stated they did not give a ride to COPELAND and RESENDIZ on the morning of May 29, 2025.

46. RESENDIZ's cellphone last pinged on May 29, 2025, and the location was at the X-2 barracks.

47. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

48. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

49. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

50. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

51. On 03 June 2025, COPELAND gave his iPhone 15 to investigators after signing a PASS.

52. During the execution of the CASS on June 04, 2025, NCIS also located a second iPhone, which COPELAND stated was his however, it did not work.

53. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

54. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which showshealth data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

55. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

56. COPELAND was apprehended on 09 June 2025.

57. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

58. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ

59. On June 03, 2025, NCIS executed a CASS, during which CSSN Sarah COOK, USN, CVN-77 was located inside the barracks of COPELAND. COOK stated she and COPELAND were hanging out and playing video games.

60. NCIS has also obtained video footage from various friends of COPELAND, where the PlayStation in the common area owned by COPELAND is being utilized as a device to play music on.

61. NCIS was able to determine COPELAND's username is Dripdip02 and the e-mail associated with that account is jerimahcopeland7@gmail.com, after reviewing emails associated to the iPhone 15 forensic review.

## CONCLUSION

62. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored within the Sony account may give a timeline as to when the device was being used during the night in question of RESENDIZ's death. It may also provide relevant information in the form of internet searches that were not found or associated with any of the other electronic devise NCIS has searched.

63. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

64. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

65. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Apple, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

66. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

Very respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.08.13 10:04:11 -04'00'

Jessica Gokey, Special Agent
Naval Criminal Investigative Service
Norfolk, Virginia

SUBSCRIBED and SWORN to before me on 13 August 2025

[redacted]

LT Christopher Dempsey, JAGC, USN
Special Trial Counsel

**ATTACHMENT A**

**Property to Be Searched**

This warrant applies to the electronically stored data, information, communications, and items contained in, related to, and associated with, including all preserved data associated with the Sony Interactive Entertainment LLC account of Jermiah Copeland with online ID and email:

a. **Online ID:** [redacted]

that is stored at premises owned, maintained, controlled, or operated by Sony Interactive Entertainment LLC.

**ATTACHMENT B**

**Particular Things to Be Seized**

**I. Information to Be Disclosed By Sony Interactive Entertainment LLC (The "Provider")**

To the extent that the information described in Attachment A is within the possession, custody, or control of the Provider, including any messages, Records, Files, logs, or information that have been deleted but are still available to the Provider, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f). The Provider is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the **SUBJECT ACCOUNT** listed in Attachment A from 12AM (EST) on 28 May 2025 through 09 June 2025:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the **SUBJECT ACCOUNT**;

c. The dates and times at which the **SUBJECT ACCOUNT** was created, and IP address at the time of sign-up;

d. All activity logs including IP logs and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNT**, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNT**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNT** and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata from 28 May 2025 through 09 June 2025 to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe of 28 May 2025 through 09 June 2025.

**II. Information to be seized by the government**

All information described above in section I. Including correspondence, records, documents. Photographs, videos, Electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of Article 107, 118, 131b of the Uniform Code of Military Justice (UCMJ), for the **SUBJECT ACCOUNT** listed on Attachment A, information pertaining to the following matters, from 28 May 2025 through 09 June 2025:

a. The identity of the person or persons who created or used the **SUBJECT ACCOUNT**, including records which help reveal the whereabouts of such person(s):

b. Evidence indicating how and when the **SUBJECT ACCOUNT** was accessed or used from 28 May 2025 through 09 June 2025, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user.

c. All messaging or chat sessions available, including but not limited to voice messages, text chats, photos, links, or other communications **SUBJECT ACCOUNT** and other email addresses, from 28 May 2025 through 09 June 2025, relating to the crimes under investigation;

d. Evidence indicating the **SUBJECT ACCOUNT** owners' or users' state of mind as it relates to the crime under investigation:

e. Evidence of the times the **SUBJECT ACCOUNT** listed on Attachment A was used from 28 May 2025 through 09 June 2025;

f. Passwords and encryption keys, and other access information that may be necessary to access **SUBJECT ACCOUNT** listed on Attachment A and other associated accounts.

g. Evidence that may identify any co-conspirators or aiders and abettors, including records that help reveal their whereabouts.

h. All information and content contained within the **SUBJECT ACCOUNT**, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, from 28 May 2025 through 09 June 2025.

**III**. **Disclosure by provider - By Order of the Court**

Apple Inc. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@leo.gov). Please include an attestation certificate

for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Meta records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Meta Platforms, Inc. as is relates to account "jermiah.copeland.3" and "23jcopeland" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images): The accused knowingly and wrongfully broadcasted or distributed a visual image; The visual image is an intimate visual image of another person or a visual image of sexually explicit conduct involving another person; The person depicted in the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the intimate visual image or visual image of sexually explicit conduct was made under circumstances in which the person depicted retained a reasonable expectation of privacy regarding any broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct was like to: Cause harm.

Harassment, intimidation, emotional distress, or financial loss for the person depicted in the intimate visual image or visual image of sexually explicit conduct or harm substantially the depicted person with respect to that persons health, safety, business, calling, career, financial condition, reputation, or personal relationships; and conduct of the accused, under the circumstances, had a reasonably direct and palpable connection to a military mission or military environment.

10. Article 120 (Rape and Sexual Assault Generally): Accused commits a sexual act upon another person without the consent of the other person.

11. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## LEGAL AUTHORITY

12. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

13. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –
>
> (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

14. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## BACKGROUND CONCERNING INSTAGRAM

15. Meta is a United States company that is the parent organization of Instagram. Instagram is a free photograph and video sharing social networking service that can be accessed at https://www.instagram.com/?hl=en or via the Instagram application on a smartphone (iPhone, Blackberry, Android, Windows-based, and Nokia phones).

16. Instagram allows its users to establish accounts; after which, they can share information, view photographs, watch videos, and interact with other Instagram users and/or the general public (those who do not have an Instagram account), depending on the user's privacy settings.

17. Instagram provides a variety of services for its users who have established accounts. As described in further detail below, the services include "following" other Instagram users on the platform; sharing photographs and images; posting and watching video content; connecting through Instagram's direct message system; commenting on photographs and videos of other users; and "liking" images or videos.

18. Instagram allows its users to connect with friends, family, and communities around the globe by sending another user a "Follow Request." If the recipient accepts the request, the two users will become "followers" for purposes of Instagram and can exchange communications and view photographs and video about one another. Additionally, once two users become "followers," they can monitor and see what content one another "like" and comment on.

19. Instagram users can "post" (i.e. share) an unlimited number of photographs or videos to their account. These photographs and videos may be visible to the user, other Instagram users, or the general public (people who do not have an Instagram account) depending on the user's privacy settings. Instagram allows its user to "tag" (i.e. label) other Instagram users in photographs or videos which then links the image or video to the tagged user's account.

20. Instagram Reels, a platform within Instagram, allows users to post video content on the social networking website for financial gain. The more views a user receives on a video, the more money that user will earn from Instagram or advertising sponsors.

21. Instagram users can also privately message each other through the platform on Instagram's direct message feature. These messages mirror email messages; they are sent to the recipient's "inbox" on Instagram. Instagram stores copies of messages sent by the recipient.

22. Instagram users may comment on and "like" images and videos posted by their Instagram "followers" or by users who have their account visible to the public. Once a user has commented on or "liked" an image or video, their followers can see that content, as well, and know that the user engaged with that image or video.

23. Instagram asks users to provide basic contact information during the account registration process. This information includes: (1) the user's full name and (2) email address or mobile phone number. In this account creation process, the user selects their username and password. This username is then used by Instagram to identify the user. After the registration process, users have the ability to include any personal identifier they choose on their account "profile," such as age, gender, location, etc.

24. After creating an account, users can access Instagram via its website on any computer with Internet access or via the Instagram application, available on any smartphone.

25. Instagram users can select one of two different levels of privacy for the communications and information associated with their account: (1) public or (2) private. A "public" account is one in which all of its content, their profile and posts, can be view by anyone, regardless of whether or not they have an Instagram account. A "private" account is one in which only the followers approved by the user can see what the user shares, including videos or photos, the user's follower list, and the user's following list.

26. Meta collects information associated with the Instagram's user's account activity and device by which they accessed their account. With regard to the user's account activity, Meta collects the time and date a user signs up for an account, all content created or shared, messages or other forms of communication, the location of and/or date a file was created, the frequency of actions taken on the website, the duration of activities on the website, the content the user interacts with on Instagram, means of payment associated with the account (including any credit card or bank account number) and more. With regard to the user's device by which they accessed their account, Meta collects the name of the mobile operator or ISP; the language; time zone; mobile phone number; IP addresses; Bluetooth signals; information about nearby Wi-Fi access points, beacons, and cell towers; GPS location; camera; photographs; and more.

27. Meta's computers contain all Instagram material described above, including stored electronic communications and information concerning subscribers and their use of Instagram, such as account access information, transaction information, and account application.

## BACKGROUND CONCERNING FACEBOOK

28. Meta owns and operates Facebook, a free-access social networking website of the same name that can be accessed at http://www.facebook.com. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users and sometimes with the general public.

29. Meta asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact email addresses, Facebook passwords, Facebook security questions and answers (for password retrieval), physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

30. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

31. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create "lists" of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

32. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post "status" updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere

on the Internet. Facebook users can also post information about upcoming "events," such as social occasions, by listing the event's time, location, host, and guest list. In addition, Facebook users can "check in" to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user's profile page also includes a "Wall," which is a space where the user and his or her "Friends" can post messages, attachments, and links that will typically be visible to anyone who can view the user's profile.

33. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to "tag" (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook's purposes, the photos and videos associated with a user's account will include all photos and videos uploaded by that user that have not been deleted as well as all photos and videos uploaded by any user that have that user tagged in them.

34. Facebook users can exchange private messages on Facebook with other users. These messages, which are similar to email messages, are sent to the recipient's "Inbox" on Facebook, which also stores copies of messages sent by the recipient as well as other information. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a Chat feature that allows users to send and receive instant messages through Facebook. These chat communications are stored in the chat history for the account. Facebook also has a Video Calling feature, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

35. If a Facebook user does not want to interact with another user on Facebook, the first user can "block" the second user from seeing his or her account.

36. Facebook has a "like" feature that allows users to give positive feedback or connect to particular pages. Facebook users can "like" Facebook posts or updates as well as webpages or content on third-party (i.e., non-Facebook) websites. Facebook users can also become "fans" of particular Facebook pages.

37. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

38. Each Facebook account has an activity log, which is a list of the user's posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the

account such as "liking" a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user's Facebook page.

39. Facebook Notes is a blogging feature available to Facebook users, and it enables users to write and post notes or personal web logs ("blogs") or to import their blogs from other services, such as Xanga, LiveJournal, and Blogger.

40. The Facebook Gifts feature allows users to send virtual "gifts" to their friends that appear as icons on the recipient's profile page. Gifts cost money to purchase, and a personalized message can be attached to each gift. Facebook users can also send each other "pokes," which are free and simply result in a notification to the recipient that he or she has been "poked" by the sender.

41. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

42. In addition to the applications described above, Meta also provides its users with access to thousands of other applications on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about the user's access or use of that application may appear on the user's profile page.

43. Some Facebook pages are affiliated with groups of users, rather than one individual user. Membership in the group is monitored and regulated by the administrator or head of the group, who can invite new members and reject or accept requests by users to enter. Facebook can identify all users who are currently registered to a particular group and can identify the administrator and/or creator of the group. Facebook uses the term "Group Contact Info" to describe the contact information for the group's creator and/or administrator as well as a PDF of the current status of the group profile page.

44. Facebook uses the term "Neoprint" to describe an expanded view of a given user profile. The "Neoprint" for a given user can include the following information from the user's profile: profile contact information; News Feed information; status updates; links to videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications.

45. Meta also retains Internet Protocol ("IP") logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID

and IP address associated with the action. For example, if a user views a Facebook profile, that user's IP log would reflect the fact that the user viewed the profile and would show when and from what IP address the user did so.

46. Social networking providers like Meta typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Meta about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Meta typically retain records about such communications, including records of contacts between the user and the provider's support services as well as records of any actions taken by the provider or user as a result of the communications.

47. In my training and experience, evidence of who was using the Instagram or Facebook account and from where, and evidence related to violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ, may be found in the files and records described above. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

48. For example, the stored communications and files connected to an Instagram and Facebook account may provide direct evidence of the offenses under investigation. Based on my training and experience, direct messages, photos, and videos are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

49. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Meta can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, account information, messaging logs, photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. Moreover, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

50. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan

to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

51. Other information connected to an Instagram and Facebook account may lead to the discovery of additional evidence. For example, the search of an individual's Instagram account may reveal services or third-party applications, such as Snapchat, iMessage, etc., used in furtherance of the crimes under investigation, identities of and services used to communicate with co-conspirators, or instrumentalities of the crimes under investigation.

52. Therefore, Meta's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Instagram and Facebook's services. In my training and experience, such information may constitute evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ.

**PROBABLE CAUSE**

53. On November 06, 2024, NCIS interviewed CSSN [redacted] USN, USS HARRY S TRUMAN (CVN-75) after [redacted] made a report of Sexual Assault against CSSN Jermiah COPELAND, USN USS JAMES E. WILLIAMS (DDG-95).

54. [redacted] stated she was sexually assaulted by COPELAND on 04NOV24 in a bar is Oslo, Norway while on deployment. [redacted] recalled she went to Heidi's Bier Bar with a group of Sailors. [redacted] relayed she became extremely intoxicated and could not recall the events of the evening. The following day, [redacted] stated multiple people approached her and stated COPELAND was showing others a video of him having sexual intercourse with her. [redacted] stated she called COPELAND and confronted him about the sexual encounter and video. However, COPELAND denied having sexual intercourse with her and denied having a recording. COPELAND threatened to kill himself via text following the phone call.

55. On November 06, 2024, NCIS interviewed CSSA Jacqueline BITA, USN, CVN-75, who was reported to have seen the video from COPELAND. BITA stated while at the bar in Norway, [redacted] was drinking and intoxicated. BITA explained COPELAND had not been part of the original group who went to the bar together, however, he had shown up later in the evening. BITA stated she observed COPELAND assisting [redacted] to the bathroom. A little while later in the evening, BITA stated she was speaking with another sailor, SR Jada KNIGHT, USN, VAW-126, and COPELAND approached them, saying words to the effect of "You'll never believe what happened, if I show you, you can't tell anyone." BITA stated COPELAND then showed her and KNIGHT a video of COPELAND having sexual intercourse with [redacted] BITA stated [redacted] could be identified in the video based on her hair style and the outfit she was wearing. BITA opined she could not tell if [redacted] was conscious in the video. BITA stated COPELAND was "happy and laughing", while

BITA and KNIGHT were "shocked" at the video. BITA opined COPELAND was in his "right mind" the night of the assault, however, after being confronted by [redacted] COPELAND knew "he had messed up."

56. On November 6, 2024, NCIS conducted a search for the cellphone belonging to COPELAND. COPELAND's person was searched and the cellphone was not discovered. COPELAND stated he gave his cellphone to CSSN Kaulise COUSINS, USN, CVN-75. NCIS approached and searched COUSINS, who stated he never possessed COPELAND's cellphone. COPELAND's berthing, rack, and locker was searched by NCIS however, COPELAND's cellphone was not recovered.

57. On November 08, 2024, NCIS interviewed CSSA Jakobie GANT, USN, CVN-75, who stated on 05NOV24, he was approached by COPELAND, who relayed he had sexual intercourse with [redacted] the night prior. GANT opined COPELAND was excited about it. GANT stated COPELAND showed him a video of him engaging in sexual intercourse with [redacted] GANT stated he did not see [redacted] face in the video. GANT stated he was very uncomfortable after watching the video because [redacted] did not appear conscious or in a comfortable position. GANT stated [redacted] was face down against a toilet.

58. On November 18, 2024, NCIS interviewed KNIGHT, who stated approximately 30 minutes after arriving at the bar in Norway, she was approached by COPELAND. KNIGHT stated COPELAND asked her not to tell anyone about what he was going to show her. KNIGHT recalled COPELAND showed her a video of him having sexual intercourse with [redacted] in a bathroom stall. KNIGHT stated COPELAND indicated [redacted] was the female in the video. KNIGHT stated the video depicted COPELAND's smiling face before panning to him thrusting in and out of her vagina.

59. On November 18, 2024, NCIS interviewed COPELAND, who opined the sexual encounter was with consent due to [redacted] taking him by the hand and pulling him into the bathroom stall and removing her pants. COPELAND stated during the sexual encounter, he did pull out his cellphone and begin recording. COPELAND stated he was unsure if [redacted] was aware of him recording the sexual encounter. COPELAND did admit to showing the video to KNIGHT and others without [redacted] knowledge. COPELAND again stated he had given his cellphone to COUSINS but denied throwing the phone away on purpose and stated it was lost after his phone fell out of his pocket and the screen shattered. This inconsistency leads me to doubt if he actually did lose his phone.

60. On December 20, 2024, NCIS interviewed COPELAND, who stated he had purchased a new cellphone. COPELAND stated the video he took of the sexual intercourse with [redacted] had been taken on Instagram Reels, and the video automatically deleted after a period of time of being posted.

## CONCLUSION

61. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

62. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

63. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

64. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Meta, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

65. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Respectfully submitted,

Special Agent Jessica Gokey
Naval Criminal Investigative Service

SUBSCRIBED AND SWORN to before me, a person authorized to administer oaths under 10 U.S.C § 936, in Norfolk, Virginia, USA.

Subscribed and sworn to before me on the _____ day of _____, 2025.

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

## ATTACHMENT A

### Property to Be Searched

This warrant applies to information associated with Meta Platforms Inc., ACCOUNT, of CSSN Jermiah COPELAND, USN, USS JAMES E. WILLIAMS (DDG-95), namely:

Name: Jermiah Copeland
Instagram Account: [redacted]
Facebook Username [redacted]
URL: https://www.facebook.com/[redacted]

(the "SUBJECT ACCOUNT") that is stored at premises owned, maintained, controlled, or operated by: Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.

# ATTACHMENT B

## Particular Things to be Seized

## I. Information to be disclosed by Meta, Inc. (the "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta Platforms Inc., including any postings, transactions, images, messages, records, files, logs, or information that have been deleted but are still available to Meta Platforms Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta Platforms Inc. is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the SUBJECT ACCOUNT listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the SUBJECT ACCOUNT;

c. The dates and times at which the SUBJECT ACCOUNT was created, and IP address at the time of sign-up;

d. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the SUBJECT ACCOUNT, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

## II. Information to be seized by the Government

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits,

evidence and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ), for the SUBJECT ACCOUNT or identifiers listed on Attachment A, information pertaining to the following matters:

a. The identity of the person(s) who created or used the Facebook account, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the SUBJECT ACCOUNT were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. Evidence indicating the SUBJECT ACCOUNT owners' or users' state of mind as it relates to the crime under investigation;

d. Evidence of the times the ACCOUNT or identifiers listed on Attachment A was used;

e. Passwords and other access information that may be necessary to access the ACCOUNT or identifiers listed on Attachment A and other associated ACCOUNT.

f. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

g. All relevant content to the crimes under investigation, to include the recording of the sexual encounter with [redacted]

## III. Method of Service/Delivery

Meta Platforms Inc. shall disclose responsive data, if any, by sending to Special Agent Jesus Santos, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed Meta records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from Meta Platforms, Inc. as is relates to account "jermiah.copeland.3" and "23jcopeland" (**SUBJECT ACCOUNT**), as this number has been identified as belonging to CSSN JERMIAH COPELAND, USN, USS JAMES E. WILLIAMS (DDG 95).

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images): The accused knowingly and wrongfully broadcasted or distributed a visual image; The visual image is an intimate visual image of another person or a visual image of sexually explicit conduct involving another person; The person depicted in the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the intimate visual image or visual image of sexually explicit conduct was made under circumstances in which the person depicted retained a reasonable expectation of privacy regarding any broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct; Accused knew or reasonably should have known that the broadcast or distribution of the intimate visual image or visual image of sexually explicit conduct was like to: Cause harm.

Harassment, intimidation, emotional distress, or financial loss for the person depicted in the intimate visual image or visual image of sexually explicit conduct or harm substantially the depicted person with respect to that persons health, safety, business, calling, career, financial condition, reputation, or personal relationships; and conduct of the accused, under the circumstances, had a reasonably direct and palpable connection to a military mission or military environment.

10. Article 120 (Rape and Sexual Assault Generally): Accused commits a sexual act upon another person without the consent of the other person.

11. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## LEGAL AUTHORITY

12. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNTS** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713. Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

13. R.C.M 703A(d) and 18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection –
>
> (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service –

(A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

14. 18 U.S.C. §§ 2703(b)(1)(A) and 2703(c)(1)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## BACKGROUND CONCERNING INSTAGRAM

15. Meta is a United States company that is the parent organization of Instagram. Instagram is a free photograph and video sharing social networking service that can be accessed at https://www.instagram.com/?hl=en or via the Instagram application on a smartphone (iPhone, Blackberry, Android, Windows-based, and Nokia phones).

16. Instagram allows its users to establish accounts; after which, they can share information, view photographs, watch videos, and interact with other Instagram users and/or the general public (those who do not have an Instagram account), depending on the user's privacy settings.

17. Instagram provides a variety of services for its users who have established accounts. As described in further detail below, the services include "following" other Instagram users on the platform; sharing photographs and images; posting and watching video content; connecting through Instagram's direct message system; commenting on photographs and videos of other users; and "liking" images or videos.

18. Instagram allows its users to connect with friends, family, and communities around the globe by sending another user a "Follow Request." If the recipient accepts the request, the two users will become "followers" for purposes of Instagram and can exchange communications and view photographs and video about one another. Additionally, once two users become "followers," they can monitor and see what content one another "like" and comment on.

19. Instagram users can "post" (i.e. share) an unlimited number of photographs or videos to their account. These photographs and videos may be visible to the user, other Instagram users, or the general public (people who do not have an Instagram account) depending on the user's privacy settings. Instagram allows its user to "tag" (i.e. label) other Instagram users in photographs or videos which then links the image or video to the tagged user's account.

20. Instagram Reels, a platform within Instagram, allows users to post video content on the social networking website for financial gain. The more views a user receives on a video, the more money that user will earn from Instagram or advertising sponsors.

21. Instagram users can also privately message each other through the platform on Instagram's direct message feature. These messages mirror email messages; they are sent to the recipient's "inbox" on Instagram. Instagram stores copies of messages sent by the recipient.

22. Instagram users may comment on and "like" images and videos posted by their Instagram "followers" or by users who have their account visible to the public. Once a user has commented on or "liked" an image or video, their followers can see that content, as well, and know that the user engaged with that image or video.

23. Instagram asks users to provide basic contact information during the account registration process. This information includes: (1) the user's full name and (2) email address or mobile phone number. In this account creation process, the user selects their username and password. This username is then used by Instagram to identify the user. After the registration process, users have the ability to include any personal identifier they choose on their account "profile," such as age, gender, location, etc.

24. After creating an account, users can access Instagram via its website on any computer with Internet access or via the Instagram application, available on any smartphone.

25. Instagram users can select one of two different levels of privacy for the communications and information associated with their account: (1) public or (2) private. A "public" account is one in which all of its content, their profile and posts, can be view by anyone, regardless of whether or not they have an Instagram account. A "private" account is one in which only the followers approved by the user can see what the user shares, including videos or photos, the user's follower list, and the user's following list.

26. Meta collects information associated with the Instagram's user's account activity and device by which they accessed their account. With regard to the user's account activity, Meta collects the time and date a user signs up for an account, all content created or shared, messages or other forms of communication, the location of and/or date a file was created, the frequency of actions taken on the website, the duration of activities on the website, the content the user interacts with on Instagram, means of payment associated with the account (including any credit card or bank account number) and more. With regard to the user's device by which they accessed their account, Meta collects the name of the mobile operator or ISP; the language; time zone; mobile phone number; IP addresses; Bluetooth signals; information about nearby Wi-Fi access points, beacons, and cell towers; GPS location; camera; photographs; and more.

27. Meta's computers contain all Instagram material described above, including stored electronic communications and information concerning subscribers and their use of Instagram, such as account access information, transaction information, and account application.

## BACKGROUND CONCERNING FACEBOOK

28. Meta owns and operates Facebook, a free-access social networking website of the same name that can be accessed at http://www.facebook.com. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users and sometimes with the general public.

29. Meta asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact email addresses, Facebook passwords, Facebook security questions and answers (for password retrieval), physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

30. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

31. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create "lists" of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

32. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post "status" updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere

on the Internet. Facebook users can also post information about upcoming "events," such as social occasions, by listing the event's time, location, host, and guest list. In addition, Facebook users can "check in" to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user's profile page also includes a "Wall," which is a space where the user and his or her "Friends" can post messages, attachments, and links that will typically be visible to anyone who can view the user's profile.

33. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to "tag" (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook's purposes, the photos and videos associated with a user's account will include all photos and videos uploaded by that user that have not been deleted as well as all photos and videos uploaded by any user that have that user tagged in them.

34. Facebook users can exchange private messages on Facebook with other users. These messages, which are similar to email messages, are sent to the recipient's "Inbox" on Facebook, which also stores copies of messages sent by the recipient as well as other information. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a Chat feature that allows users to send and receive instant messages through Facebook. These chat communications are stored in the chat history for the account. Facebook also has a Video Calling feature, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

35. If a Facebook user does not want to interact with another user on Facebook, the first user can "block" the second user from seeing his or her account.

36. Facebook has a "like" feature that allows users to give positive feedback or connect to particular pages. Facebook users can "like" Facebook posts or updates as well as webpages or content on third-party (i.e., non-Facebook) websites. Facebook users can also become "fans" of particular Facebook pages.

37. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

38. Each Facebook account has an activity log, which is a list of the user's posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the

account such as "liking" a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user's Facebook page.

39. Facebook Notes is a blogging feature available to Facebook users, and it enables users to write and post notes or personal web logs ("blogs") or to import their blogs from other services, such as Xanga, LiveJournal, and Blogger.

40. The Facebook Gifts feature allows users to send virtual "gifts" to their friends that appear as icons on the recipient's profile page. Gifts cost money to purchase, and a personalized message can be attached to each gift. Facebook users can also send each other "pokes," which are free and simply result in a notification to the recipient that he or she has been "poked" by the sender.

41. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

42. In addition to the applications described above, Meta also provides its users with access to thousands of other applications on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about the user's access or use of that application may appear on the user's profile page.

43. Some Facebook pages are affiliated with groups of users, rather than one individual user. Membership in the group is monitored and regulated by the administrator or head of the group, who can invite new members and reject or accept requests by users to enter. Facebook can identify all users who are currently registered to a particular group and can identify the administrator and/or creator of the group. Facebook uses the term "Group Contact Info" to describe the contact information for the group's creator and/or administrator as well as a PDF of the current status of the group profile page.

44. Facebook uses the term "Neoprint" to describe an expanded view of a given user profile. The "Neoprint" for a given user can include the following information from the user's profile: profile contact information; News Feed information; status updates; links to videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications.

45. Meta also retains Internet Protocol ("IP") logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID

and IP address associated with the action. For example, if a user views a Facebook profile, that user's IP log would reflect the fact that the user viewed the profile and would show when and from what IP address the user did so.

46. Social networking providers like Meta typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Meta about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Meta typically retain records about such communications, including records of contacts between the user and the provider's support services as well as records of any actions taken by the provider or user as a result of the communications.

47. In my training and experience, evidence of who was using the Instagram or Facebook account and from where, and evidence related to violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ, may be found in the files and records described above. This evidence may establish the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or, alternatively, to exclude the innocent from further suspicion.

48. For example, the stored communications and files connected to an Instagram and Facebook account may provide direct evidence of the offenses under investigation. Based on my training and experience, direct messages, photos, and videos are often created and used in furtherance of criminal activity, including to communicate and facilitate the offenses under investigation.

49. In addition, the user's account activity, logs, stored electronic communications, and other data retained by Meta can indicate who has used or controlled the account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, account information, messaging logs, photos and videos (and the data associated with the foregoing, such as geo-location, date and time) may be evidence of who used or controlled the account at a relevant time. Moreover, because every device has unique hardware and software identifiers, and because every device that connects to the Internet must use an IP address, IP address and device identifier information can help to identify which computers or other devices were used to access the account. Such information also allows investigators to understand the geographic and chronological context of access, use, and events relating to the crime under investigation.

50. Account activity may also provide relevant insight into the account owner's state of mind as it relates to the offenses under investigation. For example, information on the account may indicate the owner's motive and intent to commit a crime (e.g., information indicating a plan

to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

51. Other information connected to an Instagram and Facebook account may lead to the discovery of additional evidence. For example, the search of an individual's Instagram account may reveal services or third-party applications, such as Snapchat, iMessage, etc., used in furtherance of the crimes under investigation, identities of and services used to communicate with co-conspirators, or instrumentalities of the crimes under investigation.

52. Therefore, Meta's servers are likely to contain stored electronic communications and information concerning subscribers and their use of Instagram and Facebook's services. In my training and experience, such information may constitute evidence of violations of Article 107 (False Official Statement), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Sexual Assault), and Article 131b (Obstruction of Justice) of the UCMJ.

## PROBABLE CAUSE

53. On November 06, 2024, NCIS interviewed CSSN [redacted] USN, USS HARRY S TRUMAN (CVN-75) after [redacted] made a report of Sexual Assault against CSSN Jermiah COPELAND, USN USS JAMES E. WILLIAMS (DDG-95).

54. [redacted] stated she was sexually assaulted by COPELAND on 04NOV24 in a bar is Oslo, Norway while on deployment. [redacted] recalled she went to Heidi's Bier Bar with a group of Sailors. [redacted] relayed she became extremely intoxicated and could not recall the events of the evening. The following day, [redacted] stated multiple people approached her and stated COPELAND was showing others a video of him having sexual intercourse with her. [redacted] stated she called COPELAND and confronted him about the sexual encounter and video. However, COPELAND denied having sexual intercourse with her and denied having a recording. COPELAND threatened to kill himself via text following the phone call.

55. On November 06, 2024, NCIS interviewed CSSA Jacqueline BITA, USN, CVN-75, who was reported to have seen the video from COPELAND. BITA stated while at the bar in Norway, [redacted] was drinking and intoxicated. BITA explained COPELAND had not been part of the original group who went to the bar together, however, he had shown up later in the evening. BITA stated she observed COPELAND assisting [redacted] to the bathroom. A little while later in the evening, BITA stated she was speaking with another sailor, SR Jada KNIGHT, USN, VAW-126, and COPELAND approached them, saying words to the effect of "You'll never believe what happened, if I show you, you can't tell anyone." BITA stated COPELAND then showed her and KNIGHT a video of COPELAND having sexual intercourse with [redacted] BITA stated [redacted] could be identified in the video based on her hair style and the outfit she was wearing. BITA opined she could not tell if [redacted] was conscious in the video. BITA stated COPELAND was "happy and laughing", while

BITA and KNIGHT were "shocked" at the video. BITA opined COPELAND was in his "right mind" the night of the assault, however, after being confronted by [redacted] COPELAND knew "he had messed up."

56. On November 6, 2024, NCIS conducted a search for the cellphone belonging to COPELAND. COPELAND's person was searched and the cellphone was not discovered. COPELAND stated he gave his cellphone to CSSN Kaulise COUSINS, USN, CVN-75. NCIS approached and searched COUSINS, who stated he never possessed COPELAND's cellphone. COPELAND's berthing, rack, and locker was searched by NCIS however, COPELAND's cellphone was not recovered.

57. On November 08, 2024, NCIS interviewed CSSA Jakobie GANT, USN, CVN-75, who stated on 05NOV24, he was approached by COPELAND, who relayed he had sexual intercourse with [redacted] the night prior. GANT opined COPELAND was excited about it. GANT stated COPELAND showed him a video of him engaging in sexual intercourse with [redacted] GANT stated he did not see [redacted] face in the video. GANT stated he was very uncomfortable after watching the video because [redacted] did not appear conscious or in a comfortable position. GANT stated [redacted] was face down against a toilet.

58. On November 18, 2024, NCIS interviewed KNIGHT, who stated approximately 30 minutes after arriving at the bar in Norway, she was approached by COPELAND. KNIGHT stated COPELAND asked her not to tell anyone about what he was going to show her. KNIGHT recalled COPELAND showed her a video of him having sexual intercourse with [redacted] in a bathroom stall. KNIGHT stated COPELAND indicated [redacted] was the female in the video. KNIGHT stated the video depicted COPELAND's smiling face before panning to him thrusting in and out of her vagina.

59. On November 18, 2024, NCIS interviewed COPELAND, who opined the sexual encounter was with consent due to [redacted] taking him by the hand and pulling him into the bathroom stall and removing her pants. COPELAND stated during the sexual encounter, he did pull out his cellphone and begin recording. COPELAND stated he was unsure if [redacted] was aware of him recording the sexual encounter. COPELAND did admit to showing the video to KNIGHT and others without [redacted] knowledge. COPELAND again stated he had given his cellphone to COUSINS but denied throwing the phone away on purpose and stated it was lost after his phone fell out of his pocket and the screen shattered. This inconsistency leads me to doubt if he actually did lose his phone.

60. On December 20, 2024, NCIS interviewed COPELAND, who stated he had purchased a new cellphone. COPELAND stated the video he took of the sexual intercourse with [redacted] had been taken on Instagram Reels, and the video automatically deleted after a period of time of being posted.

## CONCLUSION

61. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored in connection with electronic accounts can indicate who has used or controlled the accounts. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, electronic communications, contacts lists, and images sent (and the data associated with the foregoing, such as date and time) may indicate who used or controlled the accounts at a relevant time. Further, information maintained by the ESP can show how and when the accounts was accessed or used. For example, e-mail providers typically log the IP addresses from which users access the e-mail accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the e-mail accounts access and use relating to the crime under investigation. This geographic and timeline information may tend to either inculpate or exculpate the accounts owner. Additionally, information stored in the user's accounts may further indicate the geographic location of the accounts user at a particular time (e.g., location information integrated into an image or video sent via e-mail). Lastly, stored electronic data may provide relevant insight into the electronic accounts owner's state of mind as it relates to the offense under investigation. For example, information in the e-mail accounts may indicate the owner's motive and intent to commit a crime (e.g., communications relating to the crime), or consciousness of guilt (e.g., deleting communications in an effort to conceal them from law enforcement).

62. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

63. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

64. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Meta, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

65. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Respectfully submitted,

[redacted]CA.RAY.[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.08.14 10:10:07 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

SUBSCRIBED AND SWORN to before me, a person authorized to administer oaths under 10 U.S.C § 936, in Norfolk, Virginia, USA.

Subscribed and sworn to before me on the 14th day of August, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

## ATTACHMENT A

### Property to Be Searched

This warrant applies to information associated with Meta Platforms Inc., ACCOUNT, of CSSN Jermiah COPELAND, USN, USS JAMES E. WILLIAMS (DDG-95), namely:

Name: Jermiah Copeland
Instagram Account: [redacted]
Facebook Username[redacted]
URL: https://www.facebook.com[redacted]

(the "SUBJECT ACCOUNT") that is stored at premises owned, maintained, controlled, or operated by: Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.

# ATTACHMENT B

## Particular Things to be Seized

## I. Information to be disclosed by Meta, Inc. (the "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta Platforms Inc., including any postings, transactions, images, messages, records, files, logs, or information that have been deleted but are still available to Meta Platforms Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta Platforms Inc. is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the SUBJECT ACCOUNT listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the SUBJECT ACCOUNT;

c. The dates and times at which the SUBJECT ACCOUNT was created, and IP address at the time of sign-up;

d. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the SUBJECT ACCOUNT, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

f. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

## II. Information to be seized by the Government

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits,

evidence and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ), for the SUBJECT ACCOUNT or identifiers listed on Attachment A, information pertaining to the following matters:

a. The identity of the person(s) who created or used the Facebook account, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the SUBJECT ACCOUNT were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. Evidence indicating the SUBJECT ACCOUNT owners' or users' state of mind as it relates to the crime under investigation;

d. Evidence of the times the ACCOUNT or identifiers listed on Attachment A was used;

e. Passwords and other access information that may be necessary to access the ACCOUNT or identifiers listed on Attachment A and other associated ACCOUNT.

f. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

g. All relevant content to the crimes under investigation, to include the recording of the sexual encounter with [redacted]

## III. Method of Service/Delivery

Meta Platforms Inc. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

## ATTACHMENT A

### Property to Be Searched

This warrant applies to information associated with Meta Platforms Inc., ACCOUNT, of CSSN Jermiah COPELAND, USN, USS JAMES E. WILLIAMS (DDG-95), namely:

Name: Jermiah Copeland
Instagram Account: [redacted]

(the "SUBJECT ACCOUNT") that is stored at premises owned, maintained, controlled, or operated by: Meta Platforms, Inc., 1 Meta Way, Menlo Park, CA 94025.

Attachments A and B AS ISSUED for Meta Warrant

Date: 2025.08.18 16:43:24 -04'00'

# ATTACHMENT B

## Particular Things to be Seized

## I. Information to be disclosed by Meta, Inc. (the "Provider")

To the extent that the information described in Attachment A is within the possession, custody, or control of Meta Platforms Inc., including any postings, transactions, images, messages, records, files, logs, or information that have been deleted but are still available to Meta Platforms Inc., or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Meta Platforms Inc. is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the SUBJECT ACCOUNT listed in Attachment A from 12AM (EST) on 04 November 2024 to 06 November 2024:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the SUBJECT ACCOUNT;

c. The dates and times at which the SUBJECT ACCOUNT was created, and IP address at the time of sign-up;

d. All activity logs including IP logs, including those associated with user posts, and other documents showing the IP address, date, and time of each login to the SUBJECT ACCOUNT, as well as any other log file information;

e. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses;

f. All location information, including location history, login activity, and related metadata to the extent this shows user attribution; and

g. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user and that the relevant account was not hacked, for the timeframe above

## II. Information to be seized by the Government

All information described above in Section I, including correspondence, records, documents, photographs, videos, electronic mail and electronic messages that constitutes fruits,

evidence and instrumentalities of violations of Article 107 (False Official Statements), Article 117a (Wrongful Broadcast or Distribution of Intimate Visual Images), Article 120 (Rape and Sexual Assault Generally), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ), for the SUBJECT ACCOUNT or identifiers listed on Attachment A, information pertaining to the following matters:

a. The identity of the person(s) who created or used the Facebook account, including records which help reveal the whereabouts of such person(s);

b. Evidence indicating how and when the SUBJECT ACCOUNT were accessed or used, to determine the chronological and geographic context of account access, use and events relating to the crime under investigation and the account user;

c. Evidence indicating the SUBJECT ACCOUNT owners' or users' state of mind as it relates to the crime under investigation;

d. Evidence of the times the ACCOUNT or identifiers listed on Attachment A was used;

e. Passwords and other access information that may be necessary to access the ACCOUNT or identifiers listed on Attachment A and other associated ACCOUNT.

f. All information regarding the particular device or devices used to login to or access the SUBJECT ACCOUNT, including all device identifier information or cookie information, including all information about the particular device or devices used to access the SUBJECT ACCOUNT and the date and time of those accesses; and

g. The recording of the sexual encounter with [redacted]

## III. Method of Service/Delivery

Meta Platforms Inc. shall disclose responsive data, if any, by sending to Special Agent Jesus Santos, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@NCIS.NAVY.MIL). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

## FACTS

1. On 1 June 2025, NCIS Norfolk Field Office was made aware that CSSN Angelina Resendiz, USN, JAMES E. WILLIAMS (DDG 95) had recently gone into an unauthorized absence (UA) status.

2. CSSN Resendiz and CSSN Jermiah Copeland, USN, DDG 95, went UA on Thursday, May 29, 2025 (morning approximately 0900) . No one could get a hold of either Sailor for several days until CSSN Copeland turned up in his barracks room on the morning of 1 June. CSSN Resendiz reportedly spent the night with CSSN Copeland Wednesday, May 28 into the morning of Thursday, May 29.

3. NCIS spoke to CSSN Copeland on 1 June and he said they spent Wednesday evening making tacos (which was confirmed through a review of messages on his phone). CSSN Copeland also said the two consumed alcohol and spoke about CSSN Resendiz's past and somewhat current relationships. CSSN Copeland said CSSN Resendiz was visibly distraught while discussing her relationships.

4. CSSN Resendiz was reportedly dropped back off at her barracks aboard NOB around 1000 on Thursday,. May 29, which was the last time anyone has spoken to her. NCIS went to her barracks room on 1 June and it was very neat and tidy with no signs that anything malicious occurred. NCIS spoke to an ex-boyfriend from her ship and he said she always carries a hello kitty backpack, which NCIS did not located in her barracks room. Her phone, identification, banking cards, and other personal items were also not in her room.

5. On June 08, 2025, NCIS received confirmation from USACIL that the swab taken from the inside of CSSN Copeland's closet had tested positive for human blood. NCIS also observed a blood spatter in the stairwell closest to CSSN Copeland's room of CSSN Copeland's barracks. This blood tested positive for human blood and was positively identified through DNA testing as CSSN Resendiz's blood.

6. On June 09, 2025, while reviewing the iPhone belonging to CSSN Copeland, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google Maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time

the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

7. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that in the early morning hours of June 02, 2025, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

8. On June 09, 2025, NCIS went to the location of the ping/screenshot and began to search the area. A duffel bag was located beneath a tree within the perimeter captured by CSSN COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the duffel bag.

9. A review of CSSN Copeland's NFCU bank records reveal debit transactions, but do not include credit card transactions from other institutions.

## INFORMATION AND RECORDS REQUESTED

10. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena for Equifax to determine any other financial resources that may have been used in the commission of these crimes.

## REASON FOR REQUEST

11. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland. Specifically, these records will identify any other financial resources that may have been used in the commission of these crimes.

12. For these reasons, we respectfully request a subpoena for Equifax to produce this information.

| **U N I T E D S T A T E S**<br><br>**v.**<br><br>**JERMIAH COPELAND**<br>**CSSN / E-3**<br>**U.S. NAVY** | **REQUEST FOR INVESTIGATIVE SUBPOENA**<br><br>**26 AUG 2025** |

## FACTS

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

4. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

6. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

7. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

8. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

9. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

10. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

11. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

12. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

13. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

14. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

15. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

16. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

17. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

18. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

19. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

20. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

21. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

22. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

23. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

24. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

25. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. COPELAND advised via Snapchat messages on 2 June 2025 to a user "desi.rv" that he had not turned off his Life 360 account and shared a screenshot indicating his account was active. The only identifying information included in the Snapchat image is the username "Jermiah." Text messages dating back to March 3, 20255 indicate he has had an account since at least that time.

**INFORMATION AND RECORDS REQUESTED**

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Life360 for account information relating to CSSN Jermiah Taylor Copeland, date of Birth [redacted]

**REASON FOR REQUEST**

30. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Life 360 to produce this information.

[redacted]

C. B. DEMPSEY

LT, JAGC, USN
Trial Counsel

**ATTACHMENT A**

**PROPERTY TO BE SEARCHED**

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**

    ii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.

    iii. Communications between AR John Calisse and his roommates, CSSN Jermiah Copeland, YN3 Sean Monoghan, and ISSA Irbin Gordillocruz from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number 619-451-7956 (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to AR JOHN CALISSE, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to CALISSE and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

50. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

51. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

52. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

**CONCLUSION**

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.08.26 15:08:31 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

Subscribed and sworn to before me on the 26 day of _____, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

**NAVY MARINE CORPS TRIAL JUDICIARY, CENTRAL JUDICIAL CIRCUIT**

In the Matter of the Search of
*(Briefly describe the property to be searched):*

T-MOBILE RECORDS FOR CELL PHONE NUMBER [redacted]

Case Identifier: 02JUN25-NFNF-00237-7MNA

## Search and Seizure Warrant Pursuant to 18 U.S.C. § 2703

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following property located at *(identify the electronic communications or remote computing service or describe the property to be searched and give its location):*

See attachment A

I find that the affidavit(s) and/or sworn testimony establish probable cause to search and seize the property described above, and that such search will reveal *(describe the property to be seized):*

See Attachment B "Particular Things to Be Seized."

**YOU ARE COMMANDED** to execute this warrant on or before _____
*(not to exceed 14 days)*

The officer executing this warrant must prepare an inventory as required by law and promptly return this warrant and inventory to

, JAGC, USN
*Rank and name of military judge*

Date and time issued: _____ _____ hours , Military Judge, USN
*Military judge's name and title*

Naval Station Norfolk
*Military installation or location:*

_____
*Signature of military judge*

Questions and requests for relief should be directed to:

**ATTACHMENT A**

**PROPERTY TO BE SEARCHED**

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**

    ii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.

    iii. Communications between ISSA Irbin Gordillocruz and his roommates, CSSN Jermiah Copeland, YN3 Sean Monoghan, and AR John Calisse. from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number 509-450-3128 (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to PSSN IRBIN GORDILLOCRUZ, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag.

Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to GORDILLACRUZ and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

50. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

51. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

52. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted]
Digitally signed by GOKEY.JESSICA.RAY.[redacted]
Date: 2025.08.26 15:10:21 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

Subscribed and sworn to before me on the 26 day of _____, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

**NAVY MARINE CORPS TRIAL JUDICIARY, CENTRAL JUDICIAL CIRCUIT**

In the Matter of the Search of
*(Briefly describe the property to be searched):*

T-MOBILE RECORDS FOR CELL PHONE NUMBER [redacted]

Case Identifier: 02JUN25-NFNF-00237-7MNA

## Search and Seizure Warrant Pursuant to 18 U.S.C. § 2703

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following property located at *(identify the electronic communications or remote computing service or describe the property to be searched and give its location):*

See attachment A

I find that the affidavit(s) and/or sworn testimony establish probable cause to search and seize the property described above, and that such search will reveal *(describe the property to be seized):*

See Attachment B "Particular Things to Be Seized."

**YOU ARE COMMANDED** to execute this warrant on or before _____
*(not to exceed 14 days)*

The officer executing this warrant must prepare an inventory as required by law and promptly return this warrant and inventory to

, JAGC, USN
*Rank and name of military judge*

Date and time issued: _____ _____ hours , Military Judge, USN
*Military judge's name and title*

Naval Station Norfolk
*Military installation or location:*

_____
*Signature of military judge*

Questions and requests for relief should be directed to:

| Christopher | Dempsey |

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**

    ii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.

    iii. Communications between YN3 Sean Monoghan and his roommates, CSSN Jermiah Copeland, ISSA Irbin Gordillocruz, and AR John Calisse. from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

**DEPARTMENT OF THE NAVY**
**NAVY-MARINE CORPS TRIAL JUDICIARY**
**CENTRAL JUDICIAL CIRCUIT**

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number 856-479-3880 (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to YN3 SEAN MONOGHAN, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag.

Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to MONAGHAN and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

50. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

51. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

52. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted]
Digitally signed by GOKEY.JESSICA.RAY[redacted]99

Special Agent Jessica Gokey
Naval Criminal Investigative Service

Subscribed and sworn to before me on the 26 day of _____, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

**NAVY MARINE CORPS TRIAL JUDICIARY, CENTRAL JUDICIAL CIRCUIT**

In the Matter of the Search of
*(Briefly describe the property to be searched):*

T-MOBILE RECORDS FOR CELL PHONE NUMBER [redacted]

Case Identifier: 02JUN25-NFNF-00237-7MNA

## Search and Seizure Warrant Pursuant to 18 U.S.C. § 2703

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following property located at *(identify the electronic communications or remote computing service or describe the property to be searched and give its location):*

See attachment A

I find that the affidavit(s) and/or sworn testimony establish probable cause to search and seize the property described above, and that such search will reveal *(describe the property to be seized):*

See Attachment B "Particular Things to Be Seized."

**YOU ARE COMMANDED** to execute this warrant on or before _____
*(not to exceed 14 days)*

The officer executing this warrant must prepare an inventory as required by law and promptly return this warrant and inventory to

, JAGC, USN
*Rank and name of military judge*

Date and time issued: _____ _____ hours , Military Judge, USN
*Military judge's name and title*

Naval Station Norfolk
*Military installation or location:*

_____
*Signature of military judge*

Questions and requests for relief should be directed to:

| Christopher | Dempsey |
|---|---|
| *First name* | *Last name* |
| 757-341-4545 | christopher.dempsey2@navy.mil |
| *Phone number* | *E-mail address* |

## Return

| In the Matter of the Search of<br>*(Briefly describe the property to be searched):*<br>T-MOBILE RECORDS FOR CELL PHONE NUMBER [redacted] | Case Identifier: 02JUN25-NFNF-00237-7MNA |
|---|---|
| Date and time warrant executed: | Copy of warrant and inventory left with: |
| Inventory made in the presence of: | |

## Certification

Inventory of the property taken:

I declare under penalty of perjury that this inventory is correct and was returned along with the original warrant to the designated judge.

# GENERAL COURT-MARTIAL
# UNITED STATES COAST GUARD

| | |
|---|---|
| UNITED STATES<br><br>v.<br><br>DC3 RUDOLPH P. REIMONENQ IV,<br><br>U.S. Coast Guard | RULING on Defense Motion for Appropriate Relief (Confinement Credit)<br><br>14 March 2025 |

**1. Relief Sought**

The Defense filed a motion for administrative credit for various alleged violations of Article 13, UCMJ. AE 46. The Government filed a response opposing the Defense motion. AE 48. An Article 39(a) session was held to hear arguments on this motion on 28 January 2025.

**2. Issues Presented**

a. Did the Government violate Article 13, UCMJ, when it placed and kept the accused as a maximum-security prisoner, and, if so, what administrative credit is the accused entitled to, if any?

b. Did the Government violate Article 13, UCMJ, when it kept the accused shackled during his Article 32, UCMJ, preliminary hearing, and, if so, what administrative credit is the accused entitled to, if any?

c. Did the Government violate Article 13, UCMJ, when it failed to provide the accused a Coast Guard uniform for his Article 32, UCMJ, preliminary hearing, and, if so, what administrative credit is the accused entitled to, if any?

**3. Findings of Fact**

In reaching its findings of fact and conclusions of law, the Court considered all legal and competent evidence presented and the reasonable inferences drawn therefrom and resolved all issues of credibility. The Court finds the following facts by a preponderance of the evidence.

a. Procedural History

(1) DC3 Rudolph Reimonenq, USCG, is accused of attempted premeditated

murder, two specifications of carrying a concealed weapon, and one specification of dereliction of duty. The charges and specifications arise from an incident when the Accused brought a rifle, revolver and ammunition with him when he reported to duty aboard the United States Coast Guard Cutter (USCGC) LEGARE in the early morning hours of 26 March 2024. The accused later admitted to CGIS that he intended to kill the Commanding Officer of the *Legare*.

(2) The accused was ordered into Pre-Trial Confinement (PTC) at NCBC DET Chesapeake on 28 March 2024. He has remained in PTC since that time.

b. NCBC DET Chesapeake

(1) The Naval Consolidated brig in Chesapeake, Virginia, is a brig detachment under the supervision of NCBC (NCBC), South Carolina. NCBC DET Chesapeake does not have an independent Commanding Officer (CO). Instead, it has an Officer-in-Charge (OIC) that is subordinate to the Commanding Officer of NCBC.

(2) CDR IM is the OIC for NCBC DET Chesapeake. He reports to CDR JB as the CO for NCBC.

(3) CDR IM testified that on 28 January 2025 there were 14 prisoners housed at NCBC DET Chesapeake, which is a typical number for that facility.

(4) CDR IM's career has been as a Navy helicopter pilot. His current assignment is the first in the Military corrections field. In addition to a generic leadership course offered to all entering a command position, CDR IM also attended a Brig Officer Management course, which was either 4 or 5 days.

(5) Similarly, CDR JB's background has not been in military corrections, instead he entered his current position after a career as a Surface Warfare Officer.

(6) Both NCBC and NCBC DET Chesapeake have civilian corrections professionals to advise the command on corrections matters and corrections policy. Ms. RR is the Technical Director for NCBC, and Mr. PM is the Program and Service Department Head at NCBC DET Chesapeake. He also serves as the Facilities Manager and the Safety Manager.

c. Prisoner custody classification

(1) Medium-In (MDI)

(a) MDI is the lowest level of classification for a pre-trial confinee.

(b) Generally, an MDI prisoner is in their cell overnight from 2130 until 0530. Once they wake up, an MDI prisoner exits their cell and remains outside

of it until they go back in at 2130.

(c) An MDI prisoner is not required to wear restraints while moving within the brig, and there are generally no restrictions on their interactions with other prisoners.

(d) An MDI prisoner will work in assigned work details from after breakfast until approximately 1530.

(e) After 1530, MDI prisoners get to participate in rec call, where they can work out or play sports with other prisoners.

(f) After dinner (generally around 1700), prisoners can enjoy personal time until they must return to their cells at 2130. During personal time MDI prisoners can be outside of their cells in their housing unit, watch TV, make phone calls, or talk with other prisoners.

(g) MDI prisoners are permitted to have contact visits with family and counsel.

(2) Maximum (MAX)

(a) MAX prisoners are confined to their cells for up to 22 hours a day. They are permitted one hour of recreation, and one hour of personal time. Both recreation time and personal time are performed alone without any other interaction with other prisoners.[1]

(b) MAX prisoners are not permitted to make contact with anyone other than the brig staff. Brig staff must physically observe a MAX prisoner every 15 minutes and record their observations on a DD 509 form.

(c) MAX prisoners eat all of their meals in their cell.

(d) MAX prisoners are fully restrained (hand irons, leg irons, and transport belt) and escorted by two brig staff members when outside of their housing unit – even within the brig's fenceline. They are not required to wear restraints during their recreational or personal time; however, they must be restrained and escorted to the recreation yard.

(e) Only a military judge or the brig OIC can order a MAX prisoner's restraints removed.[2]

(f) MAX prisoners may not have any contact visits with either family or counsel, which means a MAX prisoner must be separated from their

[1] CDR IM testified that MAX prisoners were permitted additional personal time if there were sufficient staff resources to support it.
[2] MAX prisoners may move unrestrained in emergency situations.

visitor by some form of partition.

(3) Classification & Adjustment (C&A) Board

(a) Each brig is required to have a C&A Board which must meet daily (excluding weekends and holidays). The board evaluates the classification status for each prisoner, generally once every 30 days or at the prisoner's request, using objective criteria:

| 5. CLASSIFICATION CRITERIA *(Enter point values)* |
|---|
| a. OFFENSE SEVERITY = 1 - 8 |
| b. NUMBER OF DISCIPLINARY BOARDS *(Last 90 days)*<br>NONE = 0 ONE = 1 TWO = 2 THREE+ = 4 |
| c. SEVEREST DISCIPLINARY REPORT<br>NONE = 0 CATEGORY 1 = 1 CATEGORY 2 = 2 CATEGORY 3 = 3 CATEGORY 4 = 4 CATEGORY 5 = 5 |
| d. NUMBER OF NEGATIVE OBSERVATION/DISCIPLINARY REPORTS *(Last 90 days)*<br>NONE - THREE = 0 FOUR - SIX = 2 SEVEN - TEN = 4 ELEVEN+ = 6 |
| e. NUMBER OF POSITIVE OBSERVATION REPORTS *(Last 90 days)*<br>NONE = 0 ONE OR MORE = -1 |
| f. CURRENT PROGRAMMING COMPLETED A TREATMENT PROGRAM = -2<br>INVOLVED IN TREATMENT PROGRAMS = -1 *(only if no program completed)*<br>NO PROGRAM INVOLVEMENT = 0 FAILED OR DROPPED FROM PROGRAM = 2 |
| g. WORK PERFORMANCE<br>OUTSTANDING = -2 ABOVE AVERAGE = -1 AVERAGE = 0 BELOW AVERAGE = 2 |
| h. LENGTH OF SENTENCE TIME REMAINING PRETRIAL OR 0 - 90 DAYS = 0 91 DAYS - 1 YEAR = 1<br>1+ TO 3 YEARS = 2 3+ TO 5 YEARS = 3 5 + TO 10 YEARS = 5 10+ YEARS = 7 LIFE/DEATH = 8 |
| i. PENDING CHARGES/WARRANTS/DETAINERS<br>NO = 0 YES = ENTER POINTS FOR OFFENSE SEVERITY CODE *(See DoDI 1325.07, Severity Code Tables)* |
| j. TOTAL POINTS |

(b) After adding up the points assigned to the objective criteria, the C&A board can recommend reduction in classification (for 0-6 points), remain the same (7-10 points), or increase the classification (11 or more points).

(c) There are also subjective criteria which the board can use to override the recommendation generated by the objective criteria. To override a reduction in classification, the board may consider the following:

i. Assaultive behavior;

ii. Disruptive behavior;

iii. Serious drug abuse;

iv. Serious civil or military criminal record (convicted or alleged);

v. Low tolerance of frustration;

vi. Intensive acting out or dislike of the military;

vii. History of previous escape(s);

viii. Pending civil charges or detainers filed;

ix. Serving a sentence that the individual considers unjust or severe;

x. Poor home conditions or family relationships;

xi. Emotional or mental instability;

xii. Indication of unwillingness to accept responsibility for personal actions, past and present;

xiii. Demonstrated pattern of poor judgment;

xiv. Length, or potential length, of sentence;

xv. Gang affiliation or ties with disruptive organizations;

xvi. Awaiting transfer;

xvii. A sentence length exceeding the designated length of confinement authorized at the MCF; and

xviii. Refusal to accept or participate in recommended treatment or education programs.[3]

(d) To override an increase in classification, the board may consider the following:

i. Clear military record, aside from present offense;

ii. Close family ties - good home conditions;

iii. The offense(s) charged is not serious;

iv. Emotional and mental stability;

v. Comparatively short sentence to confinement; however, length of sentence will not be a sole overriding factor;

vi. Behavior during confinement, and

vii. Successful completion of, or active participation in, offense-related treatment programs or groups.

(e) Finally, the facility commander may override the C&A board's recommendation using the same criteria.

d. Navy & NCBC policies

(1) Navy Corrections policy

(a) Section 4202 of SECNAVINST M1640.1 addresses classification criteria. It notes that "Ultra-conservative custody classification results in a waste of prisoner and staff manpower. … Classification systems must follow established, but flexible, procedures." It also states that "Prisoners will be placed in a lower custody classification as soon as practical and as warranted."

[3] Pre-Trial Confinees are generally ineligible to participate in treatment programs.

(2) NCBC policy

(a) NCBC has a policy that any pre-trial confinee who is charged with a "serious crime" will be classified as a MAX prisoner.

(b) This policy is not written. CDR IM testified that CDR JB relayed to them that "most people who are accused of murder, they're normal, they have a bad day and then something bad happens," and that they were going to keep those accused of murder classified as MAX prisoners to keep everybody safe, both staff and prisoners.

(c) There was no evidence of data supporting CDR JB's assertion that, as a general matter, prisoners accused of murder were more likely to do "something bad" and that they posed a safety risk for brig staff and inmates.[4]

(d) Further, as the policy was not written, there was not a definition of "serious crime," however, CDR IM understood that murder and attempted murder qualified as "serious."

(e) At the time the accused was ordered into PTC, CDR IM was not aware of this policy. In June 2024 there was a use-of-force incident with a different pre-trial confinee accused of a serious crime that brought to light NCBC DET Chesapeake's non-compliance with NCBC's policy.

e. The accused's confinement at NCBC DET Chesapeake

(1) When the accused was ordered into PTC, the confinement order specified he was suspected of violating Articles 80 (attempted murder), 92 (failing to obey an order or regulation), 114 (endangerment offenses) and 115 (communicating a threat), UCMJ.

(2) Because NCBC DET Chesapeake was not classifying pre-trial confinees accused of serious crimes as MAX prisoners, the accused was initially classified as an MDI inmate.

(3) From 28 Mar 2024 until 19 July 2024 the accused performed as an MDI prisoner without any disciplinary incidents.

(4) On 19 July 2024 the accused was served with the preferred charge sheet. At that point, the NCBC DET Chesapeake staff and OIC realized he had been

[4] The only evidence in the record of a pre-trial confinee acting in a manner that threatened other staff or prisoners occurred in June, 2024, when HM3 Pate (another pre-trial confinee accused of a serious offense) had an adverse interaction with a staff member. However, the evidence is not clear about whether the staff member bore some responsibility for instigating the incident, and, in any event, the staff member involved did not regard the prisoner as a physical threat.

misclassified and reclassified the accused to a MAX prisoner.[5]

(5) At the following C&A board on 20 Aug 2024, the board recommended again reclassifying the accused to an MDI prisoner. The OIC overrode the board's recommendation and ordered the accused remain as a MAX prisoner.

(6) At every subsequent C&A board (occurring approximately every 30 days), the board recommended downgrading the accused's classification to MDI. Every time the OIC overrode the board's recommendation and ordered the accused remain a MAX prisoner.[6] At times, the OIC noted the seriousness of the crime as the justification, others he merely noted that the accused should "remain MAX." The OIC was unaware of the specifics of the accused's offense, only that he was accused of attempted pre-meditated murder.

(7) In November 2024, the licensed clinical social worker assigned to NCBC DET Chesapeake informed the OIC of the following concern:

> Based on a brief assessment that was conducted recently with SNP Reimonenq, SNP is demonstrating/expressing an increased level of emotional [decompensation] due to being isolated and confined in a cell for an [extended] period of time. In my clinical judgement, SNP Reimonenq would benefit from increased interaction with others to reduce [further] decompensation.

(8) In each of the DD Form 2711-1 documenting the accused's C&A board results, the board noted the accused was dealing with mental health challenges.

(9) Mr. PM disagrees with the NCBC's policy about keeping prisoners accused of serious crimes as MAX prisoners. He termed the policy "cookie cutter" and expressed concerns about being unable to justify the decisions based upon the prisoner's observed behavior.

f. <u>The Article 32 hearing</u>

(1) On 9 October 2024, CDR KW presided over an Article 32, UCMJ, hearing into the charges against the accused.

---

[5] At the C&A board that led to the accused's reclassification to a MAX prisoner, the board had to recommend overriding the objective criteria because, based upon his lack of disciplinary issues since being confined, the objective criteria directed that his classification remain the same (i.e. MDI). The OIC concurred with the board's recommendation.

[6] Prior to the Article 39(a) session where this motion was litigated, the OIC again overrode the C&A board's recommendation on 13 Jan 2025. The C&A board's evaluation on 13 January 2025 noted the objective criteria—for the first time—should require the accused to remain in his current classification. However, the board overrode the objective criteria to recommend reclassification to MDI due to "period of observation and evaluation." The OIC overrode the board's recommendation.

(2) The hearing was conducted in the Coast Guard courtroom in Main Street Tower in Norfolk, VA. The hearing was open to the public and members of the public attended the hearing, including members of the accused's family.

(3) By agreement of the parties, CDR KW participated remotely, as did civilian defense counsel. Detailed defense counsel was present with the accused.

(4) The accused was attired in a brown prisoner's uniform and remained shackled throughout the proceeding.

(5) Defense counsel requested that the shackles be removed. Government counsel joined in this request. However, the brig personnel refused to do so because it was not a "court proceeding" and the Preliminary Hearing Officer was not a judge.

(6) At the outset of the hearing, CDR KW noted that the accused was not attired in the proper uniform but noted that he would take into consideration the fact that the accused was a third-class petty officer in the Coast Guard and also took note of his awards.

(7) Shortly before he was ordered into PTC, the accused was re-assigned to LANTAREA. In July 2024, the LANT staff received notice that the *Legare* command had sent the accused's personal effects to his mother in Louisiana, however, they were unaware that his personal effects included his uniforms.

(8) The accused did not ask the LANT staff about his uniforms for upcoming proceedings during their weekly brig visits. Neither the LANT legal staff nor Government counsel asked the accused new command (i.e. LANT-1) about his uniforms.[7]

(9) The accused was in the proper uniform for all subsequent court-martial proceedings.

*Further facts necessary for an appropriate ruling are contained within the Analysis section.*

## 4. Principles of Law

a. Burden

As the moving party, the Defense bears the burden of persuasion by a preponderance of the evidence. R.C.M. 905(c).

[7] While there isn't direct evidence that the LANT legal staff or government counsel engaged with LANT-1 about the accused's uniforms, given the commendable efforts expended by the LANT-1 staff to ensure the accused was properly attired for his court-martial, the Court infers that no such inquiries were made prior to the Article 32 hearing.

b. Article 13

Article 13, UCMJ provides that:

> No person, while being held for trial, may be subjected to punishment or penalty other than arrest or confinement upon the charges pending against him, nor shall the arrest or confinement imposed upon him be any more rigorous than the circumstances required to insure his presence, but he may be subjected to minor punishment during that period for infractions of discipline.

"Article 13, UCMJ prohibits two things: (1) the imposition of punishment prior to trial, and (2) conditions of arrest or pretrial confinement that are more rigorous than necessary to ensure the accused's presence for trial." *United States v. King*, 61 M.J. 225, 227 (C.A.A.F. 2005).

A service member may not be detained under conditions that amount to punishment prior to trial. *United States v. James*, 28 M.J. 214, 215 (C.M.A. 1989). One significant factor in determining whether the conditions or terms of confinement violate Article 13 is the intent of the detention officials. *Id.* at 216. Thus, "[a] court must decide whether the disability is imposed for...punishment or whether it is but an incident of some other legitimate governmental purpose." *Id.* (quoting *Bell v. Wolfish*, 441 U.S. 520, 538 (1979). In *United States v. Howell*, 75 M.J. 386 (C.A.A.F. 2016), the court held that for an Article 13 violation to occur the record "must disclose an intent to punish on the part of the Government."

If there was not an intent to punish, the court must then decide whether the government action furthered a legitimate, non-punitive government interest. *Id*. at 393. Irrespective of the intent to punish, Article 13 may still be violated if the activity serves no legitimate, non-punitive purpose. *Id*. This analysis is exclusive to the intent of the government's action and is not informed by the impact of the action, even if punitive in nature. *Id*. at 393-94.

Confinement in violation of service regulations does not create a *per se* entitlement to relief but can shed light on whether impermissible intent to punish should be attributed to confinement officials. A command's disregard for service regulations may lead a military court to infer an improper purpose, such as to punish, even where an accused's status as a flight risk or a threat of continuing misconduct justifies the decision to confine him. *United States v. West*, No. 201200189, 2013 WL 1209934, at *4 (N-M. Ct. Crim. App. Mar. 21, 2013).

**5. Analysis**

a. The accused's continued classification as a MAX prisoner did not further a legitimate government interest

As an initial matter, there was no evidence presented that the NCBC classification policy was intended to punish the accused, and the Defense disclaimed any such claim. Therefore, the Court may only find a violation of Article 13 if the continued classification of the accused as a MAX prisoner did not serve a legitimate government interest.

The Court finds that the *initial* classification of a prisoner accused of a serious crime to a MAX prisoner to serve a legitimate government interest. The concerns articulated by the NCBC DET Chesapeake OIC (albeit vaguely) could be present when a member is placed in pre-trial confinement for serious crimes, and those factors are also captured in the SECNAVINST (seriousness of the alleged crimes and potential sentence). This interest is heightened at the imposition of confinement because the brig staff lack information about how the confinee will react to being incarcerated.

In this case, though, prior to reclassifying the accused as a MAX prisoner, they had nearly four months of data on how the accused responded to incarceration, during which the accused had no disciplinary infractions. Nonetheless, the Court is loath to second-guess brig staff in ensuring they were following their parent command's policies for classifying prisoners, especially where the initial classification furthers a legitimate government interest.

However, the Court finds the *continued* classification of the accused in face of repeated recommendations from corrections professionals to downgrade his status to MDI does not serve a legitimate governmental interest. The C&A board's repeated recommendations to return the accused to MDI status undercuts the government's theory that prisoners accused of serious crimes "might" pose to staff and other prisoners. It does so because the objective criteria not only consider the seriousness of the crime (the only source for the government's concern)[8] as well as the observations of this *particular* accused.

The legitimate government concern is further undercut by the informality and lack of support of the NCBC policy. While a formally issued (and presumably legally reviewed) policy may not overcome the persistent recommendations of the C&A board (based upon repeated interactions with the accused), the fact that the policy was communicated to the NCBC DET Chesapeake OIC orally with scanty support weakens the government's purported interest.

Finally, while the SECNAVINST does permit overriding of the objective classification recommendation based upon the seriousness of the crime and the potential

[8] The Court does not minimize the seriousness of the crimes with which the accused has been charged. However, the charge of attempted premeditated murder can encompass a wide range of conduct, from arriving at a location with the means and motive to kill an individual to grievously injuring the victim (while not causing the victim's death). The fact the OIC was unaware of the facts of the accused's alleged conduct and thus could not take that into account in his classification decision, further detracts from the government's asserted interest.

length of the sentence, the SECNAVINST also directs that classification should follow "established, but flexible, procedures." Further, the SECNAVINST commands that "Prisoners *will* be placed in a lower custody classification as soon as practical and as warranted." (emphasis added). NCBC's policy is anything but flexible, as the OIC testified that there was no circumstance where the accused would be eligible for a lower classification.

Having found a violation of Article 13, the Court must determine the appropriate credit to be awarded. As an initial matter, the accused was confined for 22 hours each day, as compared with 8 for a typical MDI prisoner, resulting in the accused spending 175% more time locked in his cell (22 hours is 175% of 8 hours). However, a credit of only 1.75 days for each day in MAX after 20 August 2024 doesn't adequately encompass the additional hardships imposed upon the accused, because the accused was also denied the opportunity to interact with other prisoners in social settings. This restriction has caused psychological harm. Further, it is harm that was made known to the brig command. Additionally, his status has prevented him from contact visitation with his family and his attorneys. Thus, the Court finds that an appropriate amount of credit is 3 days for each day after 20 August 2024, resulting in 438 days of confinement credit.[9]

b. Shackling of the accused during the Article 32 hearing furthered a legitimate government objective

The SECNAVINST restricts who may order restraints removed from a MAX prisoner, limiting it to Brig command staff and a military judge. In doing so, it furthers a legitimate government objective to maintain security over a prisoner who, by some criteria, is deemed to be a danger to himself or others. Additionally, it avoids having the brig chasers make case-by-case determinations and prevents any arguments from strong willed advocates from swaying either junior personnel or the brig staff.

The defense arguments to the contrary are unpersuasive. First, even though an Article 32 hearing is a legal proceeding, the PHO is not a military judge and thus does not meet the objective criteria outline in the SECNAVINST. Second, the rules cited in the defense motion apply before *courts-martial*, and not any legal proceeding. The accused is not entitled to credit for being shackled during the Article 32 hearing.

c. Forcing the accused to appear in a prisoner's uniform at his Article 32 hearing did not further a legitimate government objective

As an initial matter, the Court does not find an intent to punish the accused by forcing him to wear a prisoner's uniform to his Article 32 hearing. As is clear from the affidavit submitted by Mr. TL of LANT-1, once alerted to the accused's lack of uniforms took

[9] This is calculated from 21 August 2024 up to and including 13 January 2025, the last day for which the Court has evidence of the OIC overriding the C&A board's recommendation.

appropriate measures to ensure the accused was appropriately attired, evincing a lack of intent to punish.

Even assuming, as the Court does, that the government's inability to ensure the accused had access to his uniforms was an oversight, it nonetheless decided to proceed with the Article 32 hearing with the accused in a prisoner's uniform. While it is true that the accused (and Defense counsel) agreed to go forward with the accused attired in a prisoner's uniform, the accused should not have been put into that position. When it imposes pre-trial confinement, the government has a responsibility to ensure the accused is attired in the proper uniform.[10] Further, they had 195 days from when they imposed pre-trial confinement and 83 days from when they preferred charges to ensure the accused had a proper Coast Guard uniform.

The government's decision to proceed is mitigated somewhat by the accused not inquiring about his uniforms during the weekly command brig visits because a military member bears responsibility to appear in the prescribed uniform of the day.

Nonetheless, the lion's share of the responsibility falls upon the government, a responsibility they failed to uphold (albeit without any malice towards the accused). In so doing, they did not further any legitimate government objective and thus violated Article 13. The accused shall be awarded an additional 4 days of confinement credit.

**6. <u>Conclusions of Law</u>**

a. The Government violated Article 13 by continuing to classify the accused as a MAX prisoner after 20 August 2024 and until and including 13 January 2025. The accused shall be awarded 438 days of confinement credit.

b. The Government did not violate Article 13 when the accused remained shackled for his Article 32 hearing.

c. The Government violated Article 13 when it failed to provide the accused with a proper Coast Guard uniform. The accused shall be awarded 4 days of confinement credit.

[10] The Court takes judicial notice of Article 1.F.5.e of the Coast Guard Discipline and Conduct Manual, COMDTINST M1600.2(series), which states that "Prisoners shall be delivered in the appropriate Service Dress uniform," and "Accordingly, it is important that the prisoner be delivered with a sufficiently full seabag to sustain his/her needs during the anticipated period of confinement."

7. **Ruling and Order**

The Defense motion is **GRANTED IN PART** and **DENIED IN PART,** consistent with the above conclusions of law.

**So ordered this 14th day of March, 2025**.

| U N I T E D S T A T E S | ) | R.C.M. 305(j)(2)(D) Memorandum |
| v. | ) | **Initial Review Officer Findings, Conclusions, and Action** |
| JEREMIAH T. COPELAND<br>CSSN / E-3 USN | ) | Date: 17 June 2025 |

1. **Background**. I, CDR Jason A. Pfeil, JAGC, USN was detailed as the Initial Review Officer (IRO) for the review of pretrial confinement in the case of CSSN Jeremiah T. Copeland, USN (Confinee). The 7-day review hearing was at Naval Consolidated Brig Chesapeake, Virginia (NCBC) on 16 June 2025. This memorandum is prepared pursuant to Rule for Courts-Martial (R.C.M.) 305(j)(2)(D), Manual for Courts-Martial.

2. **Findings of Fact**. After considering the evidence and statements provided at the 7-day review hearing, the preponderance of the evidence supports the following factual findings:

A. The Confinee is from Durham, North Carolina.
B. The Confinee is 20 years of age.
C. The IRO received no evidence of substantial ties to the Hampton Roads area of Virginia other than that his command is based out of Naval Station Norfolk, Virginia.
D. *Facts Pertinent to Alleged Violation of Article 118 (murder)*
    a. 28 May 2025
        i. CSSN A.R. was with the Confinee in his barracks room, building X-2, room 335B and she spent the night.
        ii. CSSN A.R. last used her bank accounts.
        iii. CSSN A.R. was in authorized liberty status 28-29 May 2025.
    b. 29 May 2025
        i. At 0645, PSSN Irbin Gordillocruz, one of the Confinee's roommates, saw CSSN A.R. in the Confinee's barracks room, naked and laying on the floor with the Confinee, also naked, was laying on the floor with his head resting on CSSN A.R.'s stomach area.
        ii. PSSN Gordillocruz observed CSSN A.R. breathing.
        iii. At 0645, CSSN A.R. was alive.
        iv. Some time afterward, FCC Brad Parker from USS JAMES E. WILLIAMS (DDG 95) went to the Confinee's barracks room to make contact with him because he did not report for work.
        v. When FCC Parker knocked on the Confinee's door, the Confinee opened the door wearing shorts and no shirt. FCC Parker recognized CSSN A.R. in the Confinee's barracks room.

vi. CSSN A.R. waved at FCC Parker and then rolled over into a blanket.
vii. FCC Parker ordered CSSN Copeland to report to work and then left the Confinee's barracks room.
viii. CSSN A.R. was alive when FCC Parker left the Confinee's barracks room on 29 May 2025.
ix. No JAMES E. WILLIAMS personnel, other than the Confinee, had further positive contact with CSSN A.R. after FCC Parker saw her.
x. The Confinee did not report to work as ordered and was placed in an unauthorized absence (UA) status.
xi. CSSN A.R.'s cell phone was last used in the evening.
xii. CSSN A.R. was still in an authorized liberty status.

c. 30 May 2025
   i. CSSN A.R. did not report for duty and was placed in a UA status.
   ii. The Confinee remained in a UA status.

d. 31 May 2025
   i. Both the Confinee and CSSN A.R. remained in a UA status.

e. 1 June 2025
   i. The Confinee and CSSN A.R. remained in a UA status.
   ii. At approximately 1900, the Confinee and his roommates PSSN Gordillacruz and AR John Calisse went to dinner at Chipotle.
   iii. At approximately 2000, after eating dinner, the Confinee asked AR Calisse if he could use his vehicle to "go get something to eat" and AR Calisse agreed.
   iv. The Confinee mustered on board the ship to terminate his UA status.
   v. The Confinee's whereabouts after mustering are unknown.

f. The Confinee was in a UA status for approximately four days: from 29 May until the evening of 1 June 2025.

g. FCC Parker is the last known person, other than the Confinee to see CSSN A.R. alive.

h. As part of its investigation, NCIS interviewed the Confinee who told NCIS the following:
   i. CSSN A.R. came to his room on 28 May 2025 for dinner and drinks.
   ii. His relationship with CSSN A.R. was platonic friendship.
   iii. No sexual acts ever happened between them.
   iv. She spent the night in his barracks room the night of 28 May but she had her clothes on the entire time she was in his barracks room.
   v. He was late for work on the morning of 29 May 2025 and FCC Parker knocked on the door to tell him he was going to be marked UA.
   vi. At approximately 1000 on 29 May 2025, he and CSSN A.R. got dressed and one of his roommates took them to her residence at Miller Hall on board Naval Station Norfolk.

i. NCIS investigation revealed the following:
   i. CSSN A.R. never checked into Miller Hall on 29 May 2025 or thereafter.

ii. All of the Confinee's roommates told NCIS they did not give a ride to the Confinee or CSSN A.R. on the morning of 29 May 2025.
iii. CSSN A.R.'s cell phone last pinged on 29 May 2025 at the Confinee's barracks building.

j. NCIS searched the Confinee's barracks room and found the following:
i. There was a potential blood trail leading from inside his closet onto the carpet of the room; and a stain was found inside his bathroom.
ii. A swab taken from inside the Confinee' barracks room closet and his bathroom both tested positive for human blood.

k. NCIS searched the Confinee's cell phone and found the following:
i. At approximately 0514 on 2 June 2025, the Confinee was in the vicinity of 2842 Cary Ave., Norfolk, VA 23504, as determined by GPS analysis of a cached location on his phone.
ii. The Confinee was actively moving around the vicinity of 2842 Cary Ave., Norfolk, VA at the time he was in that area, as determined by analysis of his phone's recording of health and activity data.
iii. The Confinee saved a screenshot of a map application depicting a wooded area near a reservoir or pond in the vicinity of 2842 Cary Ave., Norfolk, VA on 2 June 2025 at 0515 as reflected in the screenshot and digital forensic analysis.
iv. The Confinee saved a location in the wooded area in the vicinity of 2842 Cary Ave., Norfolk, VA as shown by a dropped pin on the screenshot saved on 2 June 2025 at 0515.

l. Between when the Confinee terminated his UA status and approximately 0514 on 2 June 2025, his whereabouts are unknown.

m. On 9 June 2025, NCIS searched the area reflected in the screenshot obtained from the Confinee's cell phone.

n. A black duffel bag was located beneath a tree within the perimeter captured by the Confinee's screenshot.[1]

o. After partially opening the black duffel bag, NCIS observed a pair of human legs inside.

p. NCIS found a photo from 23 September 2024 depicting the Confinee in service dress blues next to a black duffel bag that is visually similar to the one located in the wooded area in the vicinity of 2842 Cary Ave., Norfolk, VA.

q. On 10 June 2025, an autopsy was performed on the body found in the black duffel bag with the following initial results:
i. The body was determined to be a female.
ii. Her body was in an extreme state of decomposition.
iii. An E-3 uniform patch was located in her hair.
iv. She was identified as CSSN A.R. by the distinctive tattoo on her back.

[1] The IRO notes that the NCIS affidavit refers to this duffel bag both as a suitcase and a duffel bag. However, based on the evidence the IRO concluded that both terms refer to the same object that the IRO refers to as a duffel bag in this memorandum.

E. *Facts Pertinent to Alleged Violation of Article 120(d) (abusive sexual contact)*

a. In the early morning hours of 23 July 2024 ABHAN C.R. was on the mess decks of USS HARRY S. TRUMAN (CVN 75) with her boyfriend CSSN Fernando Cuestabravo. CSSN Cuestabravo left to go to sleep.
b. Shortly after CSSN Cuestabravo left, ABHAN C.R. began receiving SnapChat snaps from the Confinee; he wanted to talk to her about CSSN Cuestabravo.
c. ABHAN C.R. agreed and the Confinee requested they go somewhere private to talk. They went to the fantail of the ship.
d. The Confinee told ABHAN C.R. that CSSN Cuestabravo was talking to other women and not treating her the way she should be treated; the Confinee suggested they should be in a relationship to get back at CSSN Cuestabravo.
e. After talking with the Confinee about her relationship with CSSN Cuestabravo, the Confinee began to play a "game" where he pretended to arrest her.
f. The Confinee forced ABHAN C.R.'s hands behind her back and grabbed her vulva over the clothing.
g. ABHAN C.R. turned around and punched the Confinee in the stomach.
h. The Confinee said he heard she liked to be choked and he grabbed her neck with one hand, applying pressure. ABHAN C.R. had difficulty breathing. ABHAN C.R. tried to push the Confinee's hand away but he kept putting it back.
i. While the Confinee was applying pressure to ABHAN C.R.'s neck, he kissed her on the lips and grabbed her breasts, buttocks, and vulva over the clothing.
j. The Confinee then stopped and left.
k. ABHAN C.R. texted CSSN Cuestabravo afterward.
l. The next day they discussed what happened and ABHAN C.R. made a report of sexual assault.
m. On 16 August 2024, NCIS interviewed the Confinee and he said the following:
    i. He and ABHAN C.R. saw each other on the mess decks and went to the fantail to talk.
    ii. The Confinee was sitting in a chair and ABHAN C.R. on the deck.
    iii. ABHAN C.R. told him CSSN Cuestabravo does not treat her well and was cheating on her; she asked the Confinee for advice.
    iv. They flirted but he denied being romantically or sexually interested in ABHAN C.R.
    v. The two hugged and he got close to her face but denied trying to kiss her.
    vi. He denied touching ABHAN C.R. anywhere else.
    vii. NCIS asked if he had strangled ABHAN C.R. He responded, "oh okay yeah I have but it wasn't in like a weird way." He said he put one hand around her neck without applying any pressure.
    viii. He also denied touching any of ABHAN C.R.'s intimate areas and denied telling her she should have sex with him to get back at CSSN Cuestabravo.
n. Additional NCIS investigation revealed:
    i. The Confinee told CSSN Jaelen Owens that ABHAN C.R. was "feeling on" and "leading on" the Confinee.

ii. CSSN Cuestabravo observed bruises on the sides of ABHAN C.R.'s neck but neither of them took photos of the bruises.

F. *Facts Pertinent to Alleged Violation of Article 120(b) (sexual assault)*
   a. On 4 November 2024, during a port call in Oslo, Norway, CSSN S.S. reported the Confinee sexually assaulted her in the head of a bar at approximately 2200 hours.
   b. CSSN S.S. was intoxicated and did not remember having sexual intercourse with the Confinee, however other Sailors told her on 5 November that the Confinee showed them a video on his phone of the two of them having sexual intercourse.
   c. CSSN S.S. confronted the Confinee about him making a video of sexual intercourse with her and he denied it.
   d. Two Sailors interviewed by NCIS stated the Confinee had shown them a video of him and CSSN S.S. having sexual intercourse.
   e. Another Sailor interviewed by NCIS reported the Confinee told him he had sex with CSSN S.S. and seemed excited about it.
   f. NCIS searched the Confinee' person, his berthing, rack, and personal spaces to find his phone but his phone was never found.
   g. On 18 November 2024, NCIS interviewed the Confinee:
      i. He confirmed that he and CSSN S.S. had sexual intercourse in the bathroom in a bar in Oslo, Norway and that he had video recorded it.
      ii. He stated the sexual intercourse was consensual.
      iii. He said he lost his phone before returning to the ship on 5 November.

G. *Facts Pertinent to Alleged Violation of Article 128 (assault consummated by a battery / aggravated assault) or Article 128b (domestic violence)*[2]
   a. In April 2025, the Confinee was in his barracks room with his then-girlfriend, CS2 S.R.
   b. While in the Confinee's barracks room, CS2 S.R.[3] received a phone call from another woman claiming to be his girlfriend. She confronted the Confinee.
   c. The Confinee denied the relationship with the other woman and they argued.
   d. The Confinee then strangled CS2 S.R.
   e. Afterward, he laughed and said he was just playing with CS2 S.R.
   f. CS2 S.R. left the Confinee's barracks room and went home. She continued to communicate with the other woman.
   g. CS2 S.R. returned to the Confinee's barracks room and confronted him again.
   h. They argued and the Confinee grabbed CS2 S.R.'s phone from her hand.
   i. CS2 S.R. punched the Confinee in the chest, slammed his PlayStation 5 to the ground, and left.

[2] These offenses were not included in the command's 72-hour review letter as offenses; however, the facts support that they were committed and helped inform the IRO's analysis.
[3] The IRO notes that there are what appear to be significant typographical errors in the email that documents the alleged assault. Specifically, after initially identifying the Confinee's then-girlfriend as CS2 S.R., the narrative refers to a CS2 Williams multiple times. Additionally, the narrative refers to the Confinee alternatively as CSSN Copeland and CSSN Williams. The IRO used context to relate the facts found from the narrative supplied in the 72-hour letter's enclosures.

j. One of the Confinee's roommates told law enforcement CS2 S.R. waved a knife around while arguing with the Confinee but no knife was found.

H. On 6 June 2025, the Confinee received nonjudicial punishment for his period of UA from 29 May to 1 June.

3. **Applicable Law**

Per R.C.M. 305(j)(2)(A)(iii), the Government must prove by a preponderance of the evidence the requirements for continued confinement under R.C.M. 305(i)(2)(B).

4. **Victim Information**

Ms. Esmerelda Castle, CIV, ABHAN C.R., USN, CSSN S.S., USN, and CS2 S.R., USN were identified as victims in this matter.

The victims were not represented by counsel. The victims were given the opportunity to confer with the representative of the command. The victims were given a reasonable opportunity to be heard; only Ms. Castle exercised her right to be heard.

The IRO will also note that CSSN A.R., USN is considered a victim for the purposes of the Article 118 allegation, however she is deceased.

5. **Conclusions**. Based on the evidence presented at the IRO hearing, the IRO finds the Government has proven the following by a preponderance of the evidence:

A. The following offenses triable by court-martial were committed:[4]
   a. Article 118 (murder) on or about 29 May 2025; and
   b. Article 120(d) (abusive sexual contact) on or about 26 July 2024.

B. The Confinee committed the following offenses triable by court-martial:
   a. Article 118 (murder) on or about 29 May 2025; and
   b. Article 120(d) (abusive sexual contact) on or about 26 July 2024.

C. Continued pretrial confinement is necessary because it is foreseeable that:
   a. the Confinee will not appear at trial, pretrial hearing, or preliminary hearing due to:
      i. the seriousness of the charge of murder and its punishments, specifically a maximum punishment of death or confinement for life without the possibility of parole;
      ii. the fact that the Confinee was in a UA status for four days during and after the murder of CSSN A.R.;
      iii. though the Confinee voluntarily terminated his UA status, after doing so he hid CSSN A.R.'s body in a duffel bag that he dumped in a wooded

[4] The IRO notes that the Government did not prove by a preponderance of the evidence that the Confinee committed the offense of sexual assault in violation of Article 120(b).

area, indicating that his decision to terminate his UA status was part of a plan to avoid accountability for his actions leading to CSSN A.R.'s death and would likely impel him to leave the area if he were not confined;

iv. that the Confinee attempted to cover up his involvement in the death of CSSN A.R. by both lying to NCIS investigators and hiding her body in a duffel bag in a wooded area; and

v. the Confinee lacks substantial ties to the Hampton Roads area of Virginia beyond the presence of his command in Norfolk indicating the Confinee has no incentive to remain in the Hampton Roads area were he to be free.

b. the Confinee will engage in serious criminal misconduct due to:

i. the nature and circumstances of the offenses suspected, specifically:

1. that the Confinee committed at least two violent offenses[5] while under investigation by NCIS for two other violent offenses;
2. the Confinee sought to obstruct the investigation into CSSN A.R.'s disappearance by hiding her body in a duffel bag and dumping it in a wooded area, all while keeping his phone in airplane mode to prevent it from confirming his presence where he had dumped CSSN A.R.'s body;

ii. the weight of the evidence against the Confinee, specifically:

1. evidence of his consciousness of guilt from his attempt to mislead NCIS in both the investigation of the abusive sexual contact allegation against him and the disappearance of CSSN A.R.;
2. the strong evidence provided by his phone's GPS, health data, and the screenshot he took that he dumped CSSN A.R.'s body;
3. the presence of human blood in his barracks room; and
4. that he was the last person known to have seen CSSN A.R. alive;

iii. the pattern of escalating violent conduct of the Confinee;[6] and

iv. the fact that the Confinee committed multiple violent offenses against different women all while under investigation for other violent offenses.

D. Less severe forms of restraint are inadequate given:

a. the severity of the allegations against the Confinee as outlined above;

b. the weight of the evidence against him as outlined above;

c. the pattern of escalating violent conduct despite being under multiple criminal investigations from NCIS shows that the moral threat of being held accountable for misconduct is insufficient to deter him from engaging in criminal acts;

d. that the Confinee was willing to be UA before he knew he was suspected of murder of CSSN A.R., despite receiving a direct order to report to the ship shortly

[5] Article 118 (murder) and Article 128 (assault consummated by a battery) or 128b (domestic violence). The IRO recognizes that the Article 128 or 128b offense was not specifically stated in the 72-hour memorandum as the offenses for which CO, JAMES E. WILLIAMS found continued confinement appropriate; however, it is a significant fact that he committed this violent offense while under investigation for two other violent sexual offenses and shortly before the Article 118 (murder) offense.

[6] From abusive sexual contact to assault consummated by a battery / aggravated assault / domestic violence to murder

after his UA period began and he continued being UA for another three days; this shows the IRO that he is willing to disobey orders and that moral restraint is insufficient to ensure the Confinee will be present; and

e. the IRO is not persuaded that less severe forms of restraint are adequate by his presence at NJP on 6 June 2025 because of the substantial difference in the severity of the offenses for which he was placed into pretrial confinement and the significant difference between the punishment available for these offenses at court-martial compared to the maximum punishments available at NJP.

The IRO considered the evidence presented by the Confinee via his counsel but notes that it deals only with the conditions of confinement at NCBC and does not address whether confinement itself is appropriate. While there may be avenues for redress of unduly severe conditions of confinement under other R.C.M.s,[7] they do not provide a basis for finding that continued pretrial confinement is not necessary.[8]

6. **Action of 7-Day Reviewing Officer**

**Continued pretrial confinement for the Confinee is APPROVED.** The Confinee will remain in pretrial confinement.

The Government shall provide a copy of this memorandum to the Confinee, the Defense Counsel, and the confinement facility.

[8] R.C.M. 305(h)(2)(B) (continued confinement is only permitted where "(i) An offense triable by a court-martial has been committed; (ii) The confinee committed it; (iii) Confinement is necessary because it is foreseeable that: (a) The confinee will not appear at trial, pretrial hearing, or preliminary hearing, or (b) The confinee will engage in serious criminal misconduct; and (iv) Less severe forms of restraint are inadequate.").

13 Aug 25

From: LCDR Amanda Serfess, JAGC, USN, Defense Counsel
To: Commander, Naval Surface Force Atlantic
Via: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95)

Subj: REQUEST FOR REDRESS UNDER ARTICLE 138, UCMJ

Ref: (a) Article 138, UCMJ
(b) JAGINST 5800.7G, Chapter III.

Encl: (1) Emails with trial counsel and defense counsel
(2) Emails with defense counsel and the staff judge advocate advising the USS JAMES E. WILLIAMS
(3) CSSN Copeland's Request for Redress of 29 Jul 25
(4) Email from staff judge advocate advising the USS JAMES E. WILLIAMS notifying the defense that the request for redress was denied of 7 Aug 25
(5) Email with Brig Staff
(6) Email from staff judge advocate advising the USS JAMES E. WILLIAMS stating that formal response was not required of 11 Aug 25

1. This complaint of wrong under reference (a) is submitted on behalf of CSSN Jermiah Copeland by his defense counsel, LCDR Amanda Serfess, JAGC, USN and LCDR Clifton Morgan, JAGC, USN. It is submitted in compliance with reference (b).

2. Complainant information:

a. Current command: USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

b. Command at time of alleged wrong: USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

c. EAOS: 12 July 2027

d. Current mailing and email address: CSSN Copeland is being held in pretrial confinement in Naval Consolidated Brig Chesapeake. He can be reached through his defense counsel.

3. Respondent information: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

4. Complaint:

a. Alleged wrong: CSSN Copeland has been held in pretrial confinement for 63 days without preferred charges. CSSN Copeland has been in a "maximum status" while at the brig. He remains in his cell 22 hours per day. He is not permitted to have "contact" visits with his defense

counsel. CSSN Copeland has requested to have a private, in-person, meeting with his defense counsel. However, this request was denied.

b. Details:

(1) For 63 days, CSSN Copeland has been held in confinement without preferral of charges.

(2) Per enclosure (1), on 16 June, CSSN Copeland requested through counsel to meet with his attorney's in-person in a private setting. The trial counsel stated that the government could not support this request. The trial counsel ignored the defense's request for more information.

(3) On 3 July 2025, the staff judge advocate advising the USS JAMES E. WILLIAMS reached out to defense counsel. In response, the defense counsel provided her additional information. Namely, that at least one trial court has found that the current policies and procedures in place at Naval Consolidated Brig Chesapeake for pretrial confinees in a "maximum" confinement status is illegal pretrial punishment.

(4) On 23 July 2025, the defense followed up with our original request. This follow up was ignored.

(5) On 29 July 2025, CSSN Copeland through counsel submitted a formal request for redress to the Commanding Officer, USS JAMES E. WILLIAMS to meet with his attorneys in a private, confidential in-person setting.

(6) On 7 August 2025, CSSN Copeland's request was denied. USS JAMES E. WILLIAMS provided no reasoning for the denial.[1]

c. Relief requested: CSSN Copeland respectfully requests to be able to meet with his attorneys in a private room to have a private conversation without the risk of being heard by people who are not members of his defense team. CSSN Copeland has been in pretrial confinement since 9 June 2025. Based solely on the fact that CSSN Copeland has "Article 118" on his confinement order, he has been placed in a "maximum status." Because CSSN Copeland is in that status, he cannot have a "contact" visit with his attorneys at the brig.[2] This means that his attorneys can only meet with him separated by a plexiglass wall. This room is not soundproof – the brig staff or anyone else can hear from outside the room. Further, because of the plexiglass, it is difficult for CSSN Copeland to hear his attorneys and even more difficult for his attorneys to

[1] Per enclosure (6), the staff judge advocate reads Section 0305.a of the JAGMAN to state that a response to a request for redress is not required. Section 0305.a of the JAGMAN states that

> The commanding officer must act upon a request for redress within 30 calendar days of receipt, and notify the complainant in writing of the action taken, if applicable. If the commanding officer does not respond to the request within 30 calendar days or denies the requested redress, then the complainant may submit an Article 138 complaint to the GCMCA via the commanding officer, as the respondent.

[2] See enclosure (5).

hear him. This is inadequate to properly represent CSSN Copeland and does not meet the requirements of the Sixth Amendment.

Understanding that you cannot order the brig to have a different policy, you do have the authority to transport CSSN Copeland to a different location so that he can meet with his attorneys. Defense counsel regularly meet with clients who are in pretrial confinement at building A-50 on Naval Station Norfolk. Commands transport pre-trial confinees, including other pretrial confinees who are accused of murder and attempted murder, to consult with their attorneys. A-50 is a secure building, it is the same building where CSSN Copeland will meet with his attorneys should charges in this case ever be pursued. CSSN Copeland simply requests to exercise his constitutional right to counsel, which must include the right to meet and openly discuss his case. The right to counsel includes the right to effective counsel. CSSN Copeland's attorneys cannot be effective if they cannot meet and openly discuss the case. Please allow CSSN Copeland to have a privileged, in-person meeting with his attorneys.

5. I certify the above information is true and correct to the best of my knowledge, and this complaint is submitted per the guidelines and procedural requirements in Chapter III, Manual of the Judge Advocate General.

6. Please contact me with any questions or concerns you may have at 850-452-5572 or via email Amanda.m.serfess.mil@us.navy.mil.

---

CDR Mayo,

Who has decided that CSSN Copeland cannot come to A-50? OSTC? The RLSO? Why can't the government support CSSN Copeland coming to A-50? We have confined clients from other command come to A-50.

Can you please provide me with the name and contact information of the lead agent in this case?

LCDR Serfess,

You are more than welcome to address your concerns with the brig or NCIS.

The government cannot support a 2 July meeting in A-50. I've asked the brig if you can use the IRO room - but the brig is unable to accommodate. I suggest you liaise directly with the brig regarding any future visits.

CDR Mayo,

Please find LCDR Morgan and I's notice or representation attached.

Our understanding is the CSSN Copeland's cell was searched and his IRO package was taken from him because according to NCIS he cannot have that documentation. Is there a sealing or protection order in this case? Please let us know why CSSN Copeland cannot review and keep the documents associated with his case. Please let us know what the Government believes CSSN Copeland can have and review in his case. If NCIS has questions about how CSSN Copeland received documents, please have them reach out me and LCDR Morgan.

Please let me know if you need anything from me. Are we good for Wednesday? We have a couple of A/C spaces in the defense that we can use to meet with CSSN Copeland – the same spaces being used today with a client from the brig.

**Subject:** RE: SN Copeland"s Initial Review Hearing
**Date:** Wednesday, July 23, 2025 1:16:00 PM

---

Elisabeth,

I just wanted to circle back to our request to meet with our client in the same room privately. I emailed the brig today and it will not allow us to visit our client in a contact room – we would only be able to meet with him through glass in non-private area. Is it possible for the command to bring him to A-50 or another location to allow us to meet with him? (Similar to how we will meet with him when he come to the court room for hearings).

Please and thank you

**Subject:** FW: SN Copeland's Initial Review Hearing

Elisabeth,

Please see attached. We presented these to the IRO at Copeland's hearing.

There are plenty of spaces at the brig where we could meet with the client and the staff could still see us. CDR Mayo asked them if we could use the IRO room (no windows, but a place we meet with other clients) but the brig said no. We would also agree to have more than one of the defense team in the room during any meeting if it is our safety they are concerned about. We are not concerned about our safety and haven't seen any indication that CSSN Copeland would do anything to harm his defense

team.

Let me know if you have questions or need anything else from me.

Have a Happy Independence Day!!!

From: LCDR Amanda Serfess, JAGC, USN, Defense Counsel
To: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95)

Subj: REQUEST FOR REDRESS ICO CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. amend. VI
(b) R.C.M. 502
(c) Article 138, UCMJ

1. On behalf of CSSN Copeland, the defense respectfully requests to be able to meet with CSSN Copeland in a private room to have a private conversation where he can consult with his attorneys without the risk of being heard by people who are not members of his defense. CSSN Copeland has been in pretrial confinement since 9 June 2025. Based solely on the fact that CSSN Copeland has "Article 118" on his confinement order, he has been placed in a "maximum status." Because CSSN Copeland is in that status, he cannot have a "contact" visit with his attorneys at the brig. This means that his attorneys can only meet with him separated by a plexiglass wall. This room is not soundproof – the brig staff or anyone else can hear from outside the room. Further, because of the plexiglass, it is difficult for CSSN Copeland to hear his attorneys and even more difficult for his attorneys to hear him. This is inadequate to properly represent CSSN Copeland and does not meet the requirements of reference (a).

2. Understanding that you cannot order the brig to have a different policy, you do have the authority to transport CSSN Copeland to a different location so that he can meet with his attorneys. Defense counsel regularly meet with clients who are in pretrial confinement at building A-50 on Naval Station Norfolk. Commands transport pre-trial confinees, including other pretrial confinees who are accused of murder and attempted murder, to consult with their attorneys. A-50 is a secure building, it is the same building where CSSN Copeland will meet with his attorneys should charges in this case ever be pursued. CSSN Copeland simply requests to exercise his constitutional right to counsel, which must include the right to meet and openly discuss his case. The right to counsel includes the right to effective counsel. CSSN Copeland's attorneys cannot be effective if we cannot meet and openly discuss the case with our client. Despite twice demanding a speedy trial, CSSN Copeland has been in pretrial confinement for 50 days without being brought to trial or being able to meet with his attorneys in a private setting. Please allow CSSN Copeland to have a privileged, in-person meeting with his attorneys.

3. If you have any questions, need amplifying information, or need assistance in coordinating the release of CSSN Copeland's personal property, LCDR Amanda Serfess, detailed defense counsel, can be reached at 850-452-5572 or via email at amanda.m.serfess.mil@us.navy.mil.

CO,

Good afternoon. I, along LCDR Morgan (copied) represent CSSN Copeland. CSSN Copeland has the right to be represented by counsel. To effectuate that right, he needs to able to have a private conversation with his attorneys. We have made the request, but have not received a clear answer on why he cannot meet with his attorneys in-person in a private room. Please find a request for redress ICO CSSN Copeland attached.

I am available to answer any questions.

Subject: Request for Redress CSSN Copeland

CO,

Good afternoon. I, along LCDR Morgan (copied) represent CSSN Copeland. CSSN Copeland has the right to be represented by counsel. To effectuate that right, he needs to able to have a private conversation with his attorneys. We have made the request, but have not received a clear answer on why he cannot meet with his attorneys in-person in a private room. Please find a request for redress ICO CSSN Copeland attached.

I am available to answer any questions.

1. I, Mrs. Cindy Hoffmeister, serve as a Defense Paralegal for Defense Service Office Southeast and have been assigned to this case since June 2025. I have been a defense paralegal since 26 February 2023. I have accompanied defense attorneys during visits to clients located at Naval Consolidated Brig Charleston (NCBC) Detachment Chesapeake on many occasions. This includes contact and no-contact visits. There is a room at the Chesapeake Brig that is used to facilitate no-contact visits with clients. The client is placed in the room on the other side of a plexiglass wall. The defense team enters the room on the other side of the Plexiglass. The defense can see the client. However, it is difficult for the client to hear his defense attorneys. The attorney will have to talk very loud limiting privacy as there are brig employees outside of the room. Further, it is very hard for the defense team to hear the client. There are small slots next to the plexiglass. However, in order to pass a document to the client, you have to fold it in half for it to fit through the slot. There are no outlets in this room. There is no way to have the client view a video on a computer. There is no way to have the client use a computer. There is no phone in the room to have the client contact other members of the defense, experts, or anyone else.

2. On 16 June 2025, I was present during the no-contact visit at the NCBC Detachment Chesapeake, along with LCDR Amanda Serfess, LCDR Clifton Morgan and CSSN Copeland. The following is a summary of the issues regarding communication that I observed during the meeting:

a. CSSN Copeland and his defense team can only visit through a no-contact room which is a small room that can barely hold four chairs, with Plexiglass between the attorneys and the client. While speaking with the client in this room, me and the other paralegal could not hear what the client was saying. The attorneys had to put their ears to the plexiglass and/or try to read his lips. The attorneys had to repeat themselves a few times as the client could not hear them. You have to speak in a slightly louder voice to be heard on the other side of that plexiglass, risking brig employees and any others not apart of the defense team to hear the conversation.

b. This room makes it nearly impossible for the attorneys to hear the client, and in turn, hard for the client to hear his attorneys.

c. Communications from inside the no-contact room can be heard from outside the room, in the main contact visit sitting area.

Signed today, 26 August 2025.

Subj: DEMAND FOR SPEEDY TRIAL ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST., Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707

1. Per references (a) through (d), CSSN Copeland, USN, through counsel, demands a speedy trial or immediate release from pre-trial confinement. On 9 June 2025, CSSN Copeland was placed in pre-trial confinement. As of today, no charges have been preferred. Based solely on the fact that the offense of violating Article 118 appears on the confinement order, CSSN Copeland has been placed in "Maximum" status in the Naval Consolidated Brig Charleston, Detachment Chesapeake. CSSN Copeland spends 22 hours per day in his cell with no other human contact. He is not permitted to have contact visits with his attorneys. As such, CSSN Copeland demands a speedy trial and requests to be brought to trial immediately.

2. Please contact me with any questions or concerns you may have at 757-341-4559 or via email at amanda.m.serfess.mil@us.navy.mil.

Subj: GOVERNMENT REQUEST FOR EXCLUDABLE DELAY ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) R.C.M. 707 (2024 ed.)

1. Pursuant to reference (a), the Government respectfully requests excludable delay for the period beginning on 10 June 2025 through 25 July 2025.

2. On 10 June 2025, CSSN Copeland was placed in pre-trial confinement. Per reference (a), this event requires CSSN Copeland be brought to trial within 120 days of the imposition of restraint. CSSN Copeland is under investigation for violating Uniform Code of Military Justice Article 107 (False official statement), Article 117a (Wrongful broadcast or distribution of intimate visual images), Article 118 (Murder), Article 120 (Rape and sexual assault), Article 128 (Assault), and Article 128b (Domestic Violence). These alleged violations primarily span four separate, complex alleged incidents and investigation remains ongoing into each.

3. Taken alone, any of one of these offenses is extremely complex and several lengthy investigative steps remain. Specific to the allegation of murder, these steps include receipt and analysis of digital evidence, forensic analysis of multiple pieces of physical evidence, a report of the autopsy of the victim's body, and interviews of several witnesses. NCIS and counsel for the Government are working on this case daily to further the investigation and move with reasonable diligence toward trial. Pursuant to reference (a), the Government may receive excludable delay to thoroughly investigate a case and prepare for trial. Therefore, the Government respectfully requests the time beginning on 10 June 2025 through 25 July 2025 be excluded.

4. Thank you for your time and consideration in this matter. If you have any questions about this request, please contact me via e-mail at lauren.a.mayo2.mil@us.navy.mil or via phone at (757) 341-4598.

Subj: OBJECTION TO EXCLUDABLE DELAY REQUEST ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707
(e) Request for excludable delay of 1 Jul 25

Encl: (1) Emails with the special trial counsel
(2) Additional emails with the special trial counsel

1. Per references (a) through (d), CSSN Copeland, through counsel, once again demands a speedy trial or immediate release from pre-trial confinement. Further, CSSN Copeland objects to any excludable delay.

2. CSSN Copeland has been held in pre-trial confinement for 23 days without being charged with a crime. Further, CSSN Copeland has not been provided any discovery, therefore, he is being denied the ability to defend against whatever charges the government might prefer. CSSN Copeland is in a maximum status at the brig and remains in his cell for at least 22 hours per day.[1] His defense is not permitted to have in-person private conversations with him, and the trial counsel has expressed a lack of willingness to assist in solving this issue, as seen in enclosure (1).

3. On 1 July 2024, the trial counsel submitted a letter to you requesting excludable delay from 10 June 2025 to 25 July 2025, as set forth in reference (e).

4. The defense objects to this lengthy excludable delay request. The trial counsel must act with the diligence required when someone is incarcerated – they must take the "immediate steps" required by reference (c). There must be a required higher degree of specificity before granting a request for what amounts to continued pre-trial confinement, and you should request that higher specificity from the trial counsel. Especially in this case where the confinement is so severe and the defense's access to our client has been restricted.[2]

[1] A status that at least one military judge has held is illegal pretrial punishment.

5. Per reference (d), prior to referral, all requests for pre-trial delay, together with supporting reasons, will be submitted to the convening authority for resolution. The discussion section provides further instructions.

> The decision to grant or deny a reasonable delay is a matter within the sole discretion of the convening authority or a military judge. This decision should be based on the facts and circumstances then and there existing. Reasons to grant a delay might include, for example, the need for: time to enable counsel to prepare for trial in complex cases; time to allow examination into the mental capacity of the accused; time to process a member of the reserve component to active duty for disciplinary action; time to complete other proceedings related to the case; time requested by the defense; time to secure the availability of the accused, substantial witnesses, or other evidence; time to obtain appropriate security clearances for access to classified information or time to declassify evidence; or additional time for other good cause….

Here, the trial counsel provided no evidence or documents supporting the reason for the delay. The generalized notion of the need to conduct further investigation does not amount to the specificity required under the Rules. Why does the government need until 25 July 2025? What do they expect will be completed by that date? Based on the enclosures to Commanding Officer's 48/72 hour letter for CSSN Copeland's initial review officer hearing, the Art. 120 investigation started in July 2024 – a year ago. However, according to the trial counsel's request for excludable delay there "several lengthy investigative steps" remaining. You should demand more specificity. Additionally, R.C.M. 707 does not address excludable delay when the accused is in pre-trial confinement.

6. Per reference (c), when accused is ordered into arrest or confinement before trial, *immediate steps shall* be taken to inform the person of the specific offense of which the person is accused and to try the person or to dismiss the charges and release the person. Immediate steps require more than diligence, it requires immediacy. CSSN Copeland has been in confinement for the last 23 days.

7. CSSN Copeland requests that the government take immediate steps to take him to trial or release him from pre-trial confinement.

8. The defense requests the government to provide the defense with any documents, or communications with NCIS, the name and contact information of all investigators, and a written response to the government's excludable delay request.

Subj: OBJECTION TO EXCLUDABLE DELAY REQUEST ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

9. Please contact me with any questions or concerns you may have at 757-341-4559 or via email at amanda.m.serfess.mil@us.navy.mil

LCDR Serfess,

You are more than welcome to address your concerns with the brig or NCIS.

The government cannot support a 2 July meeting in A-50. I've asked the brig if you can use the IRO room - but the brig is unable to accommodate. I suggest you liaise directly with the brig regarding any future visits.

**Subject:** RE: Demand for Speedy Trial ICO CSSN Copeland

CDR Mayo,

Please find LCDR Morgan and I's notice or representation attached.

Our understanding is the CSSN Copeland's cell was searched and his IRO package was taken from him because according to NCIS he cannot have that documentation. Is there a sealing or protection order in this case? Please let us know why CSSN Copeland cannot review and keep the documents associated with his case. Please let us know what the Government believes CSSN Copeland can have and review in his case. If NCIS has questions about how CSSN Copeland received documents, please have them reach out me and LCDR Morgan.

Please let me know if you need anything from me. Are we good for Wednesday? We have a couple of A/C spaces in the defense that we can use to meet with CSSN Copeland – the same spaces being used today with a client from the brig.

**Subject:** ICO Copeland: Defense Request for In Person Meeting in A-50

LT Maddrell -

Forwarding defense request below.

I'll also call the brig tomorrow and see if I can help with a contact visit. The room LCDR Serfess is referring to with the glass does require folks to get closer to the glass to talk. I've dealt with it, too. It's doable, but I understand the preference to meet in a different room. I don't have any SA on what RLSO Security will require here though. So - I'll get more information on that as well. MTF.

V/r,

LAM

**Subject:** RE: Demand for Speedy Trial ICO CSSN Copeland

CDR Mayo,

We need to have a confidential meeting. The brig will not allow us to have a "contact" visit. We can only meet with him in the room with the glass – where we have to yell for him to hear us (not confidential) and frankly we cannot hear him and do want him to have to yell. Building A-50 is where the rest of the defense team is so that seems like the best place. Further, it seems like the least risk of a potential member seeing him in shackles.

Please let me know if you need anything else.

Subj: RESPONSE TO GOVERNMENT'S REQUEST FOR EXCLUDABLE DELAY REQUEST ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) Your ltr dated 01 Jul 25
(b) LCDR Amanda Serfess, JAGC, USN, Detailed Defense Counsel ltr of 1 Jul 25

1. Pursuant to Rules of Courts-Martial 707, the Government's request for excludable delay, reference (a), from 10 June 2025 to 25 July 2025 is hereby approved. In response to that request, I received reference (b), Defense Counsel's objection to the Government's request.

2. In weighing the Government's request against Defense's objection, I have determined that the Government's request is reasonable in both length and rational based on the Government's stated basis.

3. My point of contact for this matter is Staff Judge Advocate, CDR Beasley-Ledet, JAGC, USN (757) 322-2936, or via email at ronisha.t.beasleyledet.mil@us.navy.mil.

Subj: DEMAND FOR SPEEDY TRIAL ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST., Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707
(e) My ltr of 16 Jun 25
(f) CDR Mayo ltr of 1 Jul 25
(g) CNRMA ltr of 9 Jul 25

1. Per references (a) through (d), CSSN Copeland, USN, through counsel, demands a speedy trial or immediate release from pre-trial confinement. On 9 June 2025, CSSN Copeland was placed in pre-trial confinement. On 1 July 2025, the detailed special trial counsel requested excludable delay until 25 July 2025 and Commander, Navy Region Mid-Atlantic approved the request. As of today, 25 July 2025, no charges have been preferred. Based solely on the fact that the offense of violating Article 118 appears on the confinement order, CSSN Copeland has been placed in "Maximum" status in the Naval Consolidated Brig Charleston, Detachment Chesapeake. CSSN Copeland spends 22 hours per day in his cell with no other human contact. He is not permitted to have contact visits with his attorneys. As such, CSSN Copeland demands a speedy trial and requests to be brought to trial immediately. Additionally, CSSN Copeland requests to have a private meeting with his attorneys.

2. Please contact me with any questions or concerns you may have at 850-452-5572 or via email at amanda.m.serfess.mil@us.navy.mil.

(j) *United States v. Barry*, 76 M.J. 407 (C.A.A.F. 2017)

1. The Defense has already submitted two speedy trial requests in relation to the Government's investigation and case into CSSN Jermiah Copeland, USN. CSSN Copeland has been in confinement for over 50 days without charges. First, CSSN Copeland has the right to dispute his pretrial confinement, to do so requires discovery. Second, the professional rules of responsibility require fairness. If the trial counsel has access to discovery, out of fairness, it should be shared with the defense. Finally, providing discovery to the defense will assist in avoiding speedy trial prejudice and permit the defense to be prepared if the government pursues charges in this case. In accordance with references (a) and (b), which govern fairness to opposing parties and Government counsel responsibilities, and references (c) and (d), which govern pretrial confinement and pre-preferral sessions of court, the Defense requests the Government produce for use, inspection, and/or copying the following in the subject case:

a. Evidence

(1) Any evidence that is material to either the issue of guilt or the sentence, regardless of admissibility, that is known to the government or agents thereof, including closely aligned civilian authorities or entities, witnesses, or consultants.

(2) Any sworn or signed statements relating to the charged offenses, and any notes derived from those oral statements relating to the charged offenses.

(3) Any books, papers, documents, photographs, tangible objects, media, electronic records, or copies or portions thereof, which are within the possession, custody, or control of the government or agents thereof, including closely aligned civilian authorities or entities, and which are relevant to defense preparation or are intended for use by the trial counsel as evidence in the prosecution case-in-chief at trial.

(4) Any results or reports of physical or mental examinations, and of scientific tests or experiments, or copies thereof, which are within the possession, custody, or control of the government or agents thereof, including closely aligned civilian authorities or entities, and which are relevant to defense preparation or are intended for use by trial counsel as evidence in the prosecution case-in-chief at trial.

(5) Evidence known to the government that reasonably tends to negate the guilt or reduce the degree of guilt of the Accused on a charged offense, or is otherwise favorable to the Accused under reference (e).

(6) Evidence that adversely affects the credibility of any prosecution witness or evidence.

(7) All evidence or information of any identification of the Accused.

(8) A written list of, and access to, all evidence seized from the person or property of the Accused, or believed to be owned by the Accused, as well as any search warrant, consent form, command authorization or other basis upon which any search was conducted or any evidence was seized.

(9) Notice of the government's intent to offer any out-of-court statement under the residual hearsay exception.

(10) Copies of any diagrams that any witness has used for identification purposes and any notes or writing that any witness has reviewed and indicated was correct or adopted as an accurate statement.

(11) Copies of any subpoena or subpoena duces tecum issued in this case.

b. Investigative Documents, Records, and Procedures.

(1) A complete, legible, color copy, including all attachments, of any investigative report created by any investigative agency or command related to this case, specifically including but not limited to:

(a) All Naval Criminal Investigative Service (NCIS) Interim Reports of Investigation;

(b) All memoranda or reports drafted by personnel assigned to USS JAMES E. WILLIAMS (DDG 95) relating to this case; and

(c) All local law enforcement reports addressing the allegations, interactions, complaints, and arrests.

(d) All reports and notifications drafted by the Navy Absentee Collection and Information Center (NACIC) regarding CSSN Copeland and CSSN A.R.

(2) Any agency or law enforcement documents and data, made in connection with this case, including all attachments. This request includes all forms and documents, including witness reliability forms, data sheets, and other relevant documents. This request includes, but is not limited to, the following relevant documentation:

(a) Interview logs;

(b) Interview records;

(c) Source dossier and forms related to any Confidential Informants;

(d) Informants' notes;

(e) Any document detailing the disbursement of any funds in support of the investigation in this case;

(f) Investigative records checks, including NCIC checks, run on any person during the investigation of this case;

(g) Any documents related to searches and seizures;

(h) Internal communications, emails, or other documents used to brief, respond to, and/or request investigative activities related to this case. This request specifically includes any communication between law enforcement and a member of the Accused's command, the convening authority, the staff judge advocate, or any officer directing the investigation;

(i) All records reflecting the chain of custody of any evidence seized and/or tested; and

(j) All personal or business notes, memoranda, and other writings prepared by investigators in the case that are not furnished pursuant to any other provisions of this request.

(3) The names of all government investigators who have participated, or are presently participating, in the investigation of this case, as well as their accreditation, any previous law-enforcement or investigative jobs held, and a statement as to their length of service in such jobs.

(4) Any evidence of the revocation or suspension of the credentials of any investigators involved in this case, or evidence that any investigator was a subject or suspect in an internal affairs investigation.

(5) Notice of any expected forensic or scientific testing that may destroy evidence.

(6) All laboratory reports, expert conclusions or statements, chain of custody documents, forensic notes, and other evidence or documents relied on by government experts in the performance of their services. This includes any laboratory tests, field tests, and reports thereof, including but not limited to DNA, fingerprints, blood samples, handwriting exemplars, and chemical analyses of substances seized, regardless of the results of the tests.

(7) Copies of any inspections by accrediting bodies of any laboratory conducting forensic or scientific testing of evidence in this case.

c. Witnesses.

(1) The full names, locations, and telephone numbers of all individuals interviewed in this case or otherwise used in developing the case against the Accused.

(2) Any evidence from unit personnel files demonstrating any disciplinary actions against a potential government witness.

(3) Any evidence or information of any promises of immunity or leniency made to any potential government witness by trial counsel or military authorities or agents thereof, including closely aligned civilian authorities or entities. This includes the contents of any formal or informal pretrial agreement reached with any co-conspirator or potential witness.

(4) The contents of any prior inconsistent statement or any statement that tends to show bias or motive to fabricate made by any potential witness in this case known by the government or agents thereof, including closely aligned civilian authorities or entities.

(5) Any evidence that a potential witness consumed alcohol or drugs prior to witnessing the events that give rise to his or her testimony.

(6) Any evidence tending to show that any potential witness's ability to perceive, remember, communicate, or tell the truth is impaired.

(7) Any evidence that any potential witness has been diagnosed as an alcoholic, alcohol abuser, or controlled substance abuser.

(8) Any evidence that any potential witness sought or received mental health treatment, including specifically the mental health treatment records of the complaining witness.

(9) Notice of the government's intention to employ an expert witness or consultant and the name, contact information, and resume for the intended expert witness or consultant. This request includes the government's written request to the Convening Authority as well as the Convening Authority's written response.

(10) All personnel records for law enforcement and potential military witnesses for evidence of adverse performance, bias, or any evidence that would constitute grounds for impeachment.

d. Information and records regarding the Accused.

(1) The contents of all statements, oral or written, made by the Accused that are relevant to the case. This includes statements that are within the control of the government and military law enforcement agents, including closely aligned civilian authorities or entities, witnesses, or consultants.

(2) Any records of the Accused's prior civilian or court-martial convictions which the government may offer on the merits for any purpose, including impeachment.

(3) Copies of all documents, including emails, pertaining to any pretrial confinement or restrictions on the liberty of the Accused, including any change in the liberty status of the Accused since the alleged misconduct that forms the basis for the charges in this case.

(4) The Blue Ribbon copy of the Accused's service record book.

(5) Pursuant to Mil. R. Evid. 404, 413, or 414, all evidence or information pertaining to any other crimes, wrongs, or acts committed by the Accused that the government may seek to introduce at trial for any purpose, and notice of the government's intent to introduce such evidence.

e. Sentencing.

(1) Evidence known to the government which reasonably tends to mitigate the Accused's responsibility or might lead a fact-finder to adjudge a less severe sentence.

(2) Written material that will be presented by the government at presentencing proceedings, if any.

(3) The names, addresses, and a synopsis of expected testimony for the witnesses the government intends to call at presentencing proceedings, if any.

f. Unlawful Command Influence

(1) In light of reference (i), evidence of any direct communication, whether written or oral, by any senior military leaders—including civilians—which may have influenced the disposition decisions or actions of:

(a) Any officers acting under R.C.M. 305 in this case.

(2) In light of reference (j), evidence of any direct communication, whether written or oral, by any senior military leaders—including civilians—which might influence the post-trial disposition decisions or actions of:

(a) The Staff Judge Advocate under R.C.M. 1106; or

(b) The Convening Authority under Article 60, UCMJ, and R.C.M. 1107.

2. Specific Items Requested. In addition to the above items, these specific items are promptly requested.

a. The defense requests discovery of the following items that are relevant to defense preparation:

(1) Physical access for Defense to visit CSSN Copeland's barracks room in an unaltered state, which is located at X-2 barracks, room 335B.

(2) Any and all surveillance camera footage from X-2 barracks and Miller Hall from 28 May 2025 to 10 June 2025. If there is no surveillance camera footage at either of those two barracks, defense requests surveillance camera footage during the requested timeframe from surrounding buildings that are angled toward those barracks.

(3) The full autopsy report from the autopsy performed on CSSN A.R. on or about 11 June 2025.

(4) The names, contact information, and current commands of CSSN Copeland's and CSSN A.R.'s roommates from their barracks.

(5) All muster reports and liberty logs for the CS Department onboard USS JAMES E. WILLIAMS (DDG 95) from 26 May 2025 to 10 June 2025.

(6) All records of leave chits for CSSN Copeland and CSSN A.R. while stationed onboard USS JAMES E. WILLIAMS (DDG 95).

(7) Phone records and call logs for CSSN A.R. from 25 May 2025 to 10 June 2025.

(8) Bank records for CSSN A.R. from 25 May 2025 to 10 June 2025.

(9) Full phone extraction from CSSN A.R. and CSSN Copeland's cellular phones.

(10) Copy of the following documents listed in LT Maddrell's email to CAPT Santicola of 3 June 2025:

a. Initial CMEO report of 17 September 2024;

b. CDRE's disposition and LOI issued of 31 January 2025;

c. "CSSN Appeal" of 12 March 2025;

d. CNSL CMEO Denial letter of 30 May 2025; and

e. UA SITREP for CSSN Copeland and CSSN A.R. of 1 June 2025.

(11) Any and all enclosures, to include media, missing from the investigations previously provided to defense relating to the accused. This request includes enclosures and media from prior charges, acts or wrongs the government anticipates providing notice as M.R.E. 404(b) evidence.

3. The Defense expects that the government will make a diligent effort to comply with this discovery request. As to any particular requested information, the Defense will regard any nonresponse or response without comment as an affirmative assertion by the government that the requested information does not exist. This is a continuing request, and as such, this request includes a request for any information that the government later discovers before, during, or after trial of this case, if any.

4. The Defense requests a response in writing within seven (7) days of service of this request. Please contact us with any questions or concerns you may have. You may reach me at (757) 341-4486 or via email at clifton.e.morgan4.mil@us.navy.mil.

To: Commander, Navy Region Mid-Atlantic

Subj: GOVERNMENT REQUEST FOR EXCLUDABLE DELAY ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) R.C.M. 707 (2024 ed.)

1. Pursuant to reference (a), the Government respectfully requests excludable delay for the period beginning on 25 July 2025 through 15 August 2025.

2. On 10 June 2025, CSSN Copeland was placed in pre-trial confinement. Per reference (a), this event requires CSSN Copeland be brought to trial within 120 days of the imposition of restraint. On 1 July 2025, the Government requested excludable delay from 10 June 2025 through 25 July 2025. This request was granted 9 July 2025.

3. CSSN Copeland is under investigation for violating Uniform Code of Military Justice Article 107 (False official statement), Article 117a (Wrongful broadcast or distribution of intimate visual images), Article 118 (Murder), Article 120 (Rape and sexual assault), Article 128 (Assault), and Article 128b (Domestic Violence). These alleged violations primarily span four separate, complex alleged incidents and investigation remains ongoing into each.

4. Although NCIS and the Government have exercised all expedience in this case, several lengthy investigative steps remain. First, as to the allegation of murder, outstanding steps include receipt of the final reports of investigation, forensic analysis of multiple pieces of physical evidence, a report of the autopsy of the victim's body, a finalized toxicology report, and interviews of several witnesses. The Government is also waiting on returns from various providers relating to UCMJ Article 30a matters, and it is unclear when those results will be in the Government's possession. Second, regarding the sexual assault allegations, NCIS recently acquired information concerning pre-service incidents and a fifth post-service allegation, which may provide evidence regarding the current charges, or could constitute further charges. NCIS requires time to pursue these leads by interviewing witnesses, gathering court documents, and reviewing digital evidence.

5. Pursuant to reference (a), the Government may receive excludable delay to thoroughly investigate a case and prepare for trial. Accordingly, the Government respectfully requests the time beginning on 25 July 2025 through 15 August 2025 be excluded.

6. Thank you for your time and consideration in this matter. If you have any questions about this request, please contact me via e-mail at patricia.t.cannaday.mil@us.navy.mil or via phone at (757) 341-4509.

Subj: OBJECTION TO SECOND EXCLUDABLE DELAY REQUEST ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707
(e) Request for excludable delay of 1 Jul 25
(f) Defense objection to excludable delay of 1 Jul 25 w/ encls
(g) Your ltr 5810 Ser N00J/421 of 9 Jul 25
(h) Second Request for excludable delay of 8 Aug 25

Encl: (1) Request for Redress to meet with counsel of 29 Jul 25
(2) Email from USS JAMES E WILLIAMS of 7 Aug 25
(3) Demand for speedy trial of 16 Jun 25
(4) Demand for speedy trial of 25 Jul 25
(5) Request for Discovery of 30 Jul 25

1. Per references (a) through (d), CSSN Copeland, through counsel, objects to any excludable delay and demands a speedy trial or immediate release from pre-trial confinement.

2. CSSN Copeland has been held in pre-trial confinement for 62 days – over two months – without being charged with a crime. Further, CSSN Copeland has not been provided any discovery, despite the defense submitting a formal request to the trial counsel for discovery. Therefore, he is being denied the ability to defend against whatever charges the government might prefer. CSSN Copeland is in a maximum status at the brig and remains in his cell for at least 22 hours per day.[1] His defense is not permitted to have in-person private conversations with him, and the trial counsel has expressed a lack of willingness to assist in solving this issue, as seen in enclosure (1) of reference (f).

3. On 1 July 2024, the trial counsel submitted a letter to you requesting excludable delay from 10 June 2025 to 25 July 2025, as set forth in reference (e). That same day, the defense objected to that request as many of the alleged offenses occurred over year ago and the government failed to state with any specificity why excludable delay was necessary in a case where the accused remains in the most restrictive confinement without proper access to counsel. On 9 July 2025, you granted the government request for excludable delay until 25 July 2025. On 25 July 2025, CSSN Copeland again demanded a speedy trial. The Office of Special Trial Counsel neither acknowledged or responded to this request. On 30 July 2025, the defense requested discovery citing Rules 3.4 and 3.8 of the JAG Corps Rules for professional responsibility because the

[1] A status that at least one military judge has held is illegal pretrial punishment.

defense requires and is entitled to fairness and equal access to discovery. Further, discovery would reduce the risk of prejudicial speedy trial issues if charges are ever preferred in this case. The trial counsel neither acknowledged or responded to this request. Instead, on 8 August 2025, the trial counsel once again requested excludable delay.

4. On 29 July 2025, the defense once again requested to meet with CSSN Copeland for an in-person private meeting. On 7 August 2025, the USS JAMES E. WILLIAMS denied CSSN Copeland's request providing no reasoning.

5. The defense again objects to this lengthy excludable delay request. The trial counsel must act with the diligence required when someone is incarcerated – they must take the "immediate steps" required by reference (c). A higher degree of specificity is required before granting a request for what amounts to continued pre-trial confinement, and you should request that higher specificity from the trial counsel. Especially in this case where the confinement is so severe and CSSN Copeland's access to defense counsel has been restricted.

6. Per reference (d), prior to referral, all requests for pre-trial delay, together with supporting reasons, will be submitted to the convening authority for resolution. The discussion section provides further instructions.

> The decision to grant or deny a reasonable delay is a matter within the sole discretion of the convening authority or a military judge. This decision should be based on the facts and circumstances then and there existing. Reasons to grant a delay might include, for example, the need for: time to enable counsel to prepare for trial in complex cases; time to allow examination into the mental capacity of the accused; time to process a member of the reserve component to active duty for disciplinary action; time to complete other proceedings related to the case; time requested by the defense; time to secure the availability of the accused, substantial witnesses, or other evidence; time to obtain appropriate security clearances for access to classified information or time to declassify evidence; or additional time for other good cause….

Here, the trial counsel once again provided no evidence or documents supporting the vague reason for the delay. The generalized notion of the need to "conduct further investigation" does not amount to the specificity required under the Rules. Why does the government require excludable delay until 15 August 2025? What specific actions do they expect to be completed by that date? What has trial counsel and NCIS done between 25 July 2025 and 8 August 2025 to take immediate steps to bring this case to trial? Why are there witnesses who have not been interviewed? The military has no jurisdiction over pre-service misconduct. CSSN Copeland should not linger in maximum confinement while law enforcement investigates civilian charges. You must demand more specificity; you must demand charges. Additionally, R.C.M. 707 does not address excludable delay when the accused is in pre-trial confinement.

6. Per reference (c), when accused is ordered into arrest or confinement before trial, *immediate steps shall* be taken to inform the person of the specific offense of which the person is accused and to try the person or to dismiss the charges and release the person. Immediate steps require

more than diligence, it requires immediacy. CSSN Copeland has been in confinement for the last 62 days.

7. CSSN Copeland requests that the government take immediate steps to take him to trial or release him from pre-trial confinement.

8. The defense requests the government to provide the defense with the requested discovery and a written response to the government's excludable delay request.

9. Please contact me with any questions or concerns you may have at 850-452-5572 or via email at amanda.m.serfess.mil@us.navy.mil

From: LCDR Amanda Serfess, JAGC, USN, Defense Counsel
To: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95)

Subj: REQUEST FOR REDRESS ICO CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. amend. VI
(b) R.C.M. 502
(c) Article 138, UCMJ

1. On behalf of CSSN Copeland, the defense respectfully requests to be able to meet with CSSN Copeland in a private room to have a private conversation where he can consult with his attorneys without the risk of being heard by people who are not members of his defense. CSSN Copeland has been in pretrial confinement since 9 June 2025. Based solely on the fact that CSSN Copeland has "Article 118" on his confinement order, he has been placed in a "maximum status." Because CSSN Copeland is in that status, he cannot have a "contact" visit with his attorneys at the brig. This means that his attorneys can only meet with him separated by a plexiglass wall. This room is not soundproof – the brig staff or anyone else can hear from outside the room. Further, because of the plexiglass, it is difficult for CSSN Copeland to hear his attorneys and even more difficult for his attorneys to hear him. This is inadequate to properly represent CSSN Copeland and does not meet the requirements of reference (a).

2. Understanding that you cannot order the brig to have a different policy, you do have the authority to transport CSSN Copeland to a different location so that he can meet with his attorneys. Defense counsel regularly meet with clients who are in pretrial confinement at building A-50 on Naval Station Norfolk. Commands transport pre-trial confinees, including other pretrial confinees who are accused of murder and attempted murder, to consult with their attorneys. A-50 is a secure building, it is the same building where CSSN Copeland will meet with his attorneys should charges in this case ever be pursued. CSSN Copeland simply requests to exercise his constitutional right to counsel, which must include the right to meet and openly discuss his case. The right to counsel includes the right to effective counsel. CSSN Copeland's attorneys cannot be effective if we cannot meet and openly discuss the case with our client. Despite twice demanding a speedy trial, CSSN Copeland has been in pretrial confinement for 50 days without being brought to trial or being able to meet with his attorneys in a private setting. Please allow CSSN Copeland to have a privileged, in-person meeting with his attorneys.

3. If you have any questions, need amplifying information, or need assistance in coordinating the release of CSSN Copeland's personal property, LCDR Amanda Serfess, detailed defense counsel, can be reached at 850-452-5572 or via email at amanda.m.serfess.mil@us.navy.mil.

Subject: Request for Redress CSSN Copeland

CO,

Good afternoon. I, along LCDR Morgan (copied) represent CSSN Copeland. CSSN Copeland has the right to be represented by counsel. To effectuate that right, he needs to able to have a private conversation with his attorneys. We have made the request, but have not received a clear answer on why he cannot meet with his attorneys in-person in a private room. Please find a request for redress ICO CSSN Copeland attached.

I am available to answer any questions.

Subj: DEMAND FOR SPEEDY TRIAL ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST., Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707

1. Per references (a) through (d), CSSN Copeland, USN, through counsel, demands a speedy trial or immediate release from pre-trial confinement. On 9 June 2025, CSSN Copeland was placed in pre-trial confinement. As of today, no charges have been preferred. Based solely on the fact that the offense of violating Article 118 appears on the confinement order, CSSN Copeland has been placed in "Maximum" status in the Naval Consolidated Brig Charleston, Detachment Chesapeake. CSSN Copeland spends 22 hours per day in his cell with no other human contact. He is not permitted to have contact visits with his attorneys. As such, CSSN Copeland demands a speedy trial and requests to be brought to trial immediately.

2. Please contact me with any questions or concerns you may have at 757-341-4559 or via email at amanda.m.serfess.mil@us.navy.mil.

(j) *United States v. Barry*, 76 M.J. 407 (C.A.A.F. 2017)

1. The Defense has already submitted two speedy trial requests in relation to the Government's investigation and case into CSSN Jermiah Copeland, USN. CSSN Copeland has been in confinement for over 50 days without charges. First, CSSN Copeland has the right to dispute his pretrial confinement, to do so requires discovery. Second, the professional rules of responsibility require fairness. If the trial counsel has access to discovery, out of fairness, it should be shared with the defense. Finally, providing discovery to the defense will assist in avoiding speedy trial prejudice and permit the defense to be prepared if the government pursues charges in this case. In accordance with references (a) and (b), which govern fairness to opposing parties and Government counsel responsibilities, and references (c) and (d), which govern pretrial confinement and pre-preferral sessions of court, the Defense requests the Government produce for use, inspection, and/or copying the following in the subject case:

a. Evidence

(1) Any evidence that is material to either the issue of guilt or the sentence, regardless of admissibility, that is known to the government or agents thereof, including closely aligned civilian authorities or entities, witnesses, or consultants.

(2) Any sworn or signed statements relating to the charged offenses, and any notes derived from those oral statements relating to the charged offenses.

(3) Any books, papers, documents, photographs, tangible objects, media, electronic records, or copies or portions thereof, which are within the possession, custody, or control of the government or agents thereof, including closely aligned civilian authorities or entities, and which are relevant to defense preparation or are intended for use by the trial counsel as evidence in the prosecution case-in-chief at trial.

(4) Any results or reports of physical or mental examinations, and of scientific tests or experiments, or copies thereof, which are within the possession, custody, or control of the government or agents thereof, including closely aligned civilian authorities or entities, and which are relevant to defense preparation or are intended for use by trial counsel as evidence in the prosecution case-in-chief at trial.

(5) Evidence known to the government that reasonably tends to negate the guilt or reduce the degree of guilt of the Accused on a charged offense, or is otherwise favorable to the Accused under reference (e).

(6) Evidence that adversely affects the credibility of any prosecution witness or evidence.

(7) All evidence or information of any identification of the Accused.

(8) A written list of, and access to, all evidence seized from the person or property of the Accused, or believed to be owned by the Accused, as well as any search warrant, consent form, command authorization or other basis upon which any search was conducted or any evidence was seized.

(9) Notice of the government's intent to offer any out-of-court statement under the residual hearsay exception.

(10) Copies of any diagrams that any witness has used for identification purposes and any notes or writing that any witness has reviewed and indicated was correct or adopted as an accurate statement.

(11) Copies of any subpoena or subpoena duces tecum issued in this case.

b. Investigative Documents, Records, and Procedures.

(1) A complete, legible, color copy, including all attachments, of any investigative report created by any investigative agency or command related to this case, specifically including but not limited to:

(a) All Naval Criminal Investigative Service (NCIS) Interim Reports of Investigation;

(b) All memoranda or reports drafted by personnel assigned to USS JAMES E. WILLIAMS (DDG 95) relating to this case; and

(c) All local law enforcement reports addressing the allegations, interactions, complaints, and arrests.

(d) All reports and notifications drafted by the Navy Absentee Collection and Information Center (NACIC) regarding CSSN Copeland and CSSN A.R.

(2) Any agency or law enforcement documents and data, made in connection with this case, including all attachments. This request includes all forms and documents, including witness reliability forms, data sheets, and other relevant documents. This request includes, but is not limited to, the following relevant documentation:

(a) Interview logs;

(b) Interview records;

(c) Source dossier and forms related to any Confidential Informants;

(d) Informants' notes;

(e) Any document detailing the disbursement of any funds in support of the investigation in this case;

(f) Investigative records checks, including NCIC checks, run on any person during the investigation of this case;

(g) Any documents related to searches and seizures;

(h) Internal communications, emails, or other documents used to brief, respond to, and/or request investigative activities related to this case. This request specifically includes any communication between law enforcement and a member of the Accused's command, the convening authority, the staff judge advocate, or any officer directing the investigation;

(i) All records reflecting the chain of custody of any evidence seized and/or tested; and

(j) All personal or business notes, memoranda, and other writings prepared by investigators in the case that are not furnished pursuant to any other provisions of this request.

(3) The names of all government investigators who have participated, or are presently participating, in the investigation of this case, as well as their accreditation, any previous law-enforcement or investigative jobs held, and a statement as to their length of service in such jobs.

(4) Any evidence of the revocation or suspension of the credentials of any investigators involved in this case, or evidence that any investigator was a subject or suspect in an internal affairs investigation.

(5) Notice of any expected forensic or scientific testing that may destroy evidence.

(6) All laboratory reports, expert conclusions or statements, chain of custody documents, forensic notes, and other evidence or documents relied on by government experts in the performance of their services. This includes any laboratory tests, field tests, and reports thereof, including but not limited to DNA, fingerprints, blood samples, handwriting exemplars, and chemical analyses of substances seized, regardless of the results of the tests.

(7) Copies of any inspections by accrediting bodies of any laboratory conducting forensic or scientific testing of evidence in this case.

c. Witnesses.

(1) The full names, locations, and telephone numbers of all individuals interviewed in this case or otherwise used in developing the case against the Accused.

(2) Any evidence from unit personnel files demonstrating any disciplinary actions against a potential government witness.

(3) Any evidence or information of any promises of immunity or leniency made to any potential government witness by trial counsel or military authorities or agents thereof, including closely aligned civilian authorities or entities. This includes the contents of any formal or informal pretrial agreement reached with any co-conspirator or potential witness.

(4) The contents of any prior inconsistent statement or any statement that tends to show bias or motive to fabricate made by any potential witness in this case known by the government or agents thereof, including closely aligned civilian authorities or entities.

(5) Any evidence that a potential witness consumed alcohol or drugs prior to witnessing the events that give rise to his or her testimony.

(6) Any evidence tending to show that any potential witness's ability to perceive, remember, communicate, or tell the truth is impaired.

(7) Any evidence that any potential witness has been diagnosed as an alcoholic, alcohol abuser, or controlled substance abuser.

(8) Any evidence that any potential witness sought or received mental health treatment, including specifically the mental health treatment records of the complaining witness.

(9) Notice of the government's intention to employ an expert witness or consultant and the name, contact information, and resume for the intended expert witness or consultant. This request includes the government's written request to the Convening Authority as well as the Convening Authority's written response.

(10) All personnel records for law enforcement and potential military witnesses for evidence of adverse performance, bias, or any evidence that would constitute grounds for impeachment.

d. Information and records regarding the Accused.

(1) The contents of all statements, oral or written, made by the Accused that are relevant to the case. This includes statements that are within the control of the government and military law enforcement agents, including closely aligned civilian authorities or entities, witnesses, or consultants.

(2) Any records of the Accused's prior civilian or court-martial convictions which the government may offer on the merits for any purpose, including impeachment.

(3) Copies of all documents, including emails, pertaining to any pretrial confinement or restrictions on the liberty of the Accused, including any change in the liberty status of the Accused since the alleged misconduct that forms the basis for the charges in this case.

(4) The Blue Ribbon copy of the Accused's service record book.

(5) Pursuant to Mil. R. Evid. 404, 413, or 414, all evidence or information pertaining to any other crimes, wrongs, or acts committed by the Accused that the government may seek to introduce at trial for any purpose, and notice of the government's intent to introduce such evidence.

e. Sentencing.

(1) Evidence known to the government which reasonably tends to mitigate the Accused's responsibility or might lead a fact-finder to adjudge a less severe sentence.

(2) Written material that will be presented by the government at presentencing proceedings, if any.

(3) The names, addresses, and a synopsis of expected testimony for the witnesses the government intends to call at presentencing proceedings, if any.

f. Unlawful Command Influence

(1) In light of reference (i), evidence of any direct communication, whether written or oral, by any senior military leaders—including civilians—which may have influenced the disposition decisions or actions of:

(a) Any officers acting under R.C.M. 305 in this case.

(2) In light of reference (j), evidence of any direct communication, whether written or oral, by any senior military leaders—including civilians—which might influence the post-trial disposition decisions or actions of:

(a) The Staff Judge Advocate under R.C.M. 1106; or

(b) The Convening Authority under Article 60, UCMJ, and R.C.M. 1107.

2. Specific Items Requested. In addition to the above items, these specific items are promptly requested.

a. The defense requests discovery of the following items that are relevant to defense preparation:

(1) Physical access for Defense to visit CSSN Copeland's barracks room in an unaltered state, which is located at X-2 barracks, room 335B.

(2) Any and all surveillance camera footage from X-2 barracks and Miller Hall from 28 May 2025 to 10 June 2025. If there is no surveillance camera footage at either of those two barracks, defense requests surveillance camera footage during the requested timeframe from surrounding buildings that are angled toward those barracks.

(3) The full autopsy report from the autopsy performed on CSSN A.R. on or about 11 June 2025.

(4) The names, contact information, and current commands of CSSN Copeland's and CSSN A.R.'s roommates from their barracks.

(5) All muster reports and liberty logs for the CS Department onboard USS JAMES E. WILLIAMS (DDG 95) from 26 May 2025 to 10 June 2025.

(6) All records of leave chits for CSSN Copeland and CSSN A.R. while stationed onboard USS JAMES E. WILLIAMS (DDG 95).

(7) Phone records and call logs for CSSN A.R. from 25 May 2025 to 10 June 2025.

(8) Bank records for CSSN A.R. from 25 May 2025 to 10 June 2025.

(9) Full phone extraction from CSSN A.R. and CSSN Copeland's cellular phones.

(10) Copy of the following documents listed in LT Maddrell's email to CAPT Santicola of 3 June 2025:

a. Initial CMEO report of 17 September 2024;

b. CDRE's disposition and LOI issued of 31 January 2025;

c. "CSSN Appeal" of 12 March 2025;

d. CNSL CMEO Denial letter of 30 May 2025; and

e. UA SITREP for CSSN Copeland and CSSN A.R. of 1 June 2025.

(11) Any and all enclosures, to include media, missing from the investigations previously provided to defense relating to the accused. This request includes enclosures and media from prior charges, acts or wrongs the government anticipates providing notice as M.R.E. 404(b) evidence.

3. The Defense expects that the government will make a diligent effort to comply with this discovery request. As to any particular requested information, the Defense will regard any nonresponse or response without comment as an affirmative assertion by the government that the requested information does not exist. This is a continuing request, and as such, this request includes a request for any information that the government later discovers before, during, or after trial of this case, if any.

4. The Defense requests a response in writing within seven (7) days of service of this request. Please contact us with any questions or concerns you may have. You may reach me at (757) 341-4486 or via email at clifton.e.morgan4.mil@us.navy.mil.

CDR Mayo,

Additionally, we will need the command's assistance getting CSSN Copeland in the proper uniform for the Article 32.

CDR Mayo,

We have our Art. 6 inspection from 8-19 – but no one is coming to Pensacola so I could really be anywhere for that. Right now, I will be in Jacksonville from 24 Sept – 3 October. So really I could make anything before that work. The week of the 15th being my preference. (But, let me talk to Clifton).

We would like to meet with our client before the Art. 32. We'd request to schedule the hearing in the afternoon so that we can meet with him in the morning. (NCIS can meet with him in person, but we cannot….).

Please let us know what you need from us.

## MOTION

Pursuant to Article 30a and Rule for Courts-Martial (R.C.M.) 309(b)(6), the defense moves this Court to order the government to permit the defense to meet with CSSN Copeland, in private, in order to prepare for trial – including the Article 32 preliminary hearing – or order the release of CSSN Jermiah Copeland from pretrial confinement.

## SUMMARY

On 9 June 2025, CSSN Copeland was ordered into pretrial confinement. On 16 June 2025, a 7-day reviewing officer held a hearing and approved continued confinement. That same day, the defense began requesting to confer privately with CSSN Copeland. The trial counsel, the brig, and CSSN Copeland's commanding officer denied those requests. Pursuant to Article 30a and R.C.M. 309, this Court can review the pretrial confinement of an accused prior to referral. The defense requests that this Court review CSSN Copeland's confinement and find that it interferes with his right to counsel – namely his right to confer privately with his attorneys – and order that the defense be permitted to meet with CSSN Copeland privately in the same room to have confidential meetings in preparation for trial at least once every two weeks. These meetings can be at the brig, in building A-50, or at another location in Hampton Roads, Virginia. Alternatively, this Court should order the release of CSSN Copeland from pretrial confinement.

## BURDEN

As the moving party, the defense bears the burden to prove facts necessary to resolve the motion by a preponderance of evidence. R.C.M. 905(c).

## FACTS

1. On 9 June 2025, CSSN Copeland was ordered into confinement. (Enclosure (1): Confinement Order of 9 Jun 25).

2. CSSN Copeland is confined at the Naval Consolidated Brig Charleston (NCBC) Detachment Chesapeake. He is classified as a maximum status prisoner. This means, he is in his cell alone for at least 22 hours per day. At least one military judge has ruled that this type of confinement is illegal pretrial punishment. (Enclosure (2): Ruling from U.S. v. DC3 Reimonenq of 14 Mar 25).

3. On 16 June 2025, an Initial Review Officer (IRO) hearing was held at the NCBC, where the defense team met with CSSN Copeland for the first time. That same day, a 7-day reviewing officer approved continued confinement. (Enclosure (3): IRO Memo of 17 Jun 25).

4. Based on CSSN Copeland's status, his defense team cannot have a contact visit with him at the brig. The brig will only allow the defense team to meet with him behind glass. This room makes it difficult, if not impossible, for the attorneys to hear our client and makes it difficult for CSSN Copeland to hear his attorneys. Additionally, communications from outside this room can be heard while inside, which means communications within the room can also be heard. Further, there is no means to review discovery with CSSN Copeland in this room as there are only tiny slots to pass a few sheets of folder paper and no way for CSSN Copeland to review a video or electronic evidence. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 16; Enclosure (5): Mrs. Hoffmeister Affidavit).

5. On 16 June 2025, the defense demanded a speedy trial and requested that CSSN Copeland be brought to building A-50 to meet with his defense counsel. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 10; Enclosure (6): Demand for Speedy Trial of 16 Jun 25).

6. On 24 June 2025, after the defense followed up on our initial request, the trial counsel responded to inquire as to why the defense wanted to meet with our client in-person. The defense responded and explained. The same day, the Staff Judge Advocate for the USS JAMES E. WILLIAM's ISIC stated that the command was standing by to assist. However, on 30 June 2025, the trial counsel stated that "the government would not be able to support…." The defense asked the trial counsel for justification as to why the government would not support our request. However, the trial counsel never responded. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 4-6).

7. Despite the trial counsel not responding to the defense's request for justification, on 1 July 2025, the trial counsel submitted a request for excludable delay from 10 June 2025 to 25 July 2025. (Enclosure (7): Excludable Delay Request of 1 Jul 25). That same day, the defense objected to that request. (Enclosure (8): Defense Objection to Excludable Delay of 1 Jul 25).

8. On 9 July 2025, the convening authority granted the government request for excludable delay until 25 July 2025. (Enclosure (9): Grant of Excludable Delay ltr of 9 Jul 25).

9. On 25 July 2025, CSSN Copeland again demanded a speedy trial. (Enclosure (10): Second Demand for Speedy Trial of 25 Jul 25). The Office of Special Trial Counsel neither acknowledged nor responded to this request.

10. On 30 July 2025, the defense requested discovery citing Rules 3.4 and 3.8 of the JAG Corps Rules for Professional Responsibility because the defense requires and is entitled to fairness and equal access to discovery. Further, the defense explained that discovery would reduce the risk of prejudicial speedy trial issues if charges were ever preferred in this case. The trial counsel neither acknowledged nor responded to this request. (Enclosure (11): Defense's Initial Discovery Request of 30 Jul 25).

11. Instead, on 8 August 2025, the trial counsel once again requested excludable delay. (Enclosure (12): Second Excludable Delay Request of 8 Aug 25).

12. On 29 July 2025, CSSN Copeland through counsel submitted a formal request for redress to the Commanding Officer, USS JAMES E. WILLIAMS to meet with his attorneys in a private, confidential in-person setting. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 13).

13. On 7 August 2025, the USS JAMES E. WILLIAMS denied CSSN Copeland's request and later refused to provide any reasoning. (*Id.* at 21).

14. On 11 August 2025, the defense objected to the second request for excludable delay. (Enclosure (13): Defense Objection to Second Excludable Delay of 11 Aug 25). As of this filing, the convening authority has not responded to the trial counsel's request.

15. On 13 August 2025, CSSN Copeland filed a complaint pursuant to Article 138, UCMJ. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25).

16. As of this filing, no response has been issued to CSSN Copeland.

17. On 21 August 2025, NCIS was permitted to meet with CSSN Copeland at the brig and have a contact visit. The special agents were allowed to be in a room with CSSN Copeland. Touch him and take a buccal swap, get his fingerprints, and take his photograph. (Proffered testimony from SA Fritzer Philemon).

18. On 22 August 2025, the government preferred charges in this case. On that same day, the defense reached out about scheduling the Article 32 hearing and meeting with our client in preparation for the hearing. (Enclosure (14): Emails with the trial counsel of 22 Aug 25).

19. As of this filing, the defense has not been able to coordinate a means to have a private in-person meeting with CSSN Copeland.

## LAW

20. "In all criminal prosecutions, the accused shall enjoy the right . . . to have the Assistance of Counsel for his defense."[1] Necessarily included in the Sixth Amendment right to counsel is the right of an accused to *confer privately* with his attorney.[2]

21. The accused has the right to be represented by counsel during an investigation under Article 32, UCMJ, and before a general or special court-martial.[3] In the military justice system, the right to counsel includes the right to counsel detailed under Article 27, UCMJ. The right to the services of detailed counsel "is substantial, and extends to both the pretrial and the trial proceedings."[4]

22. "The right to be heard would be, in many cases, of little avail if it did not comprehend the right to be heard by counsel…. [A defendant] is unfamiliar with the rules of evidence…. He lacks both the skill and knowledge adequately to prepare his defense, even though he [may] have a perfect one. He requires the guiding hand of counsel at every step in the proceedings against him."[5] Courts have concluded that an order preventing a defendant from consulting his attorney even during an overnight recess infringes upon this substantial right.[6]

23. "A concomitant right is the right to confidential communications between the attorney and client."[7] M.R.E. 502(a) requires confidential communications "for the purpose of facilitating the rendition of professional legal services to the client."

24. Article 30a of the UCMJ states that "the President shall prescribe regulations for matters relating to proceedings conducted before referral of charges and specifications to court-martial for trial, including the following: … Pre-trial confinement of an accused…."

25. Article 30a was revised to include review of the pretrial confinement of the accused under a provision called "Expansion of pre-referral matters reviewable by military judges and military magistrates in the interest of efficiency in military justice."[8]

26. "A military judge detailed under regulations of the Secretary concerned may conduct proceedings under Article 30a, before referral of charges and specifications to court-martial for trial, and may issue such rulings and orders as necessary to further the purpose of the proceedings. A military judge may issue such orders and rulings only when the matters would be subject to consideration by a military judge in a general or special court-martial."[9]

27. After action by the 7-day reviewing officer under R.C.M. 305(j)(2)(C), a military judge may, upon application of an accused for appropriate relief, *review the propriety of pretrial confinement*.[10]

28. "Pretrial confinement is physical restraint, imposed by order of competent authority, depriving a person of freedom pending disposition of offenses."[11] It is "not punishment and shall not be used as such."[12] Moreover, "[a] person should not be confined as a mere matter of convenience or expedience."[13] In fact, "[p]retrial confinement inevitably makes defense of a case more difficult," so "unless there is a need for it, pretrial confinement should be avoided."[14]

29. An accused is presumed innocent until proved guilty, and, therefore, punishment for an alleged offense is prohibited before trial.[15]

30. The Department of the Navy Corrections Manual (SECNAV M-1640.1 of May 2019) permits military judges to make exceptions to brig policies. This includes allowing a confinee in any status (including "MAX" and "MDI") to meet without escorts or restraints.[16]

## ARGUMENT

31. **This Court has the authority to detail a military judge to this proceeding to review the pretrial confinement of the accused.** R.C.M. 309 states that a military judge may conduct proceedings pursuant to Article 30a, before referral of charges. R.C.M. 309(a)(6) states that after action by a 7-day reviewing officer, a military judge may review the propriety of pretrial confinement. Propriety means "the quality or state of being proper or suitable."[17] Here, there was action by the 7-day reviewing officer. Therefore, this court may review the quality of CSSN Copeland's confinement and issue remedies "as necessary to further the purpose of the proceedings."[18]

---

[9] R.C.M. 309(a)(1).
[10] R.C.M. 309(a)(6).
[11] R.C.M. 304(a)(4).
[12] R.C.M. 304(f).
[13] R.C.M. 305(i)(B), Discussion.
[14] *Berta v. United States*, 9 M.J. 390, 393 (C.M.A. 1980) (mem.).
[15] E*.g.,* 10 U.S.C. § 813.
[16] Department of the Navy Corrections Manual at 4-6, 4-7.
[17] MERRIAM-WEBSTER'S DICTIONARY (available at https://www.merriam-webster.com/dictionary/propriety).
[18] R.C.M. 309(a)(1).

32. Further, it is clear that the expansion of Article 30(a) to ruling on matters relating to the pretrial confinement of the accused was intended to increase "efficiency in military justice." That is evident from the title of the section of the NDAA that included the expansion. Ordering the government to stop interfering with CSSN Copeland's rights to counsel at the prereferral stage will increase efficiency and prevent speedy trial issues and other litigation in the future. This Court should hear this application pursuant to Article 30a, as it is a proper review of the propriety of CSSN Copeland's pretrial confinement.

33. **A review of CSSN Copeland's pretrial confinement demonstrates that his pretrial status is interfering with his rights to counsel.** CSSN Copeland has the right to counsel, included in that right is the right to meet and confer privately with counsel. CSSN Copeland has been unable to confer privately with his attorneys despite numerous requests.

34. The defense and CSSN Copeland have repeatedly requested to be able to meet in-person privately and have a confidential meeting. The brig will only permit the defense a "no-contact" visit. This occurs in a room where defense counsel would have to shout and CSSN Copeland would have to shout back through a Plexiglass window. This is unacceptable considering conversations from outside the door can be heard within the room. That is neither private nor in-person. Even according to the Navy's correctional manual "MAX" and "MDI" prisoners must be escorted at all times; however, a military judge may order exceptions.[19] Additionally, CSSN Copeland's command could escort him to another secure location outside of the brig to allow him to meet with counsel. However, the government continues to deny the defense's reasonable requests to facilitate a private, confidential meeting with our client. Further, despite these restrictions put in place to keep CSSN Copeland from meeting with his counsel, NCIS has been permitted to be in the same room with him and have contact visits. Finally, no brig policy or instruction can interfere with CSSN Copeland's rights to counsel – or his right to confer privately with his attorneys.

35. While the phone does allow communication with the client that the defense presumes are confidential, it is not sufficient to prepare for trial or pretrial hearings, now or on a consistent basis. For instance, the defense cannot review discovery with the client over the phone. Further, if CSSN Copeland desires to testify in his own defense, whether at the preliminary hearing, an Article 39(a), or at trial, his defense counsel could not properly prepare him for that decision or the hearing over the phone.

36. This Court must review CSSN Copeland's confinement and find that it interferes with his right to counsel – namely his right to confer privately with his attorneys – and order that the defense be permitted to meet with CSSN Copeland privately in the same room for a confidential meeting in preparation for trial at least once every two weeks. These meetings can be at the brig, in building A-50, or another location in Hampton Roads, Virginia.

---

[19] Department of the Navy Corrections Manual, SECNAV M-1640.1 of 15 May 19 at 4-6, 4-7.

## RELIEF REQUESTED

Pursuant to Article 30a and R.C.M. 309(b)(6), the defense moves this Court to order the government to permit the defense to privately meet with CSSN Copeland in-person in order to prepare for trial, including the Article 32 preliminary hearing, or order the release of CSSN Jermiah Copeland from pretrial confinement. If the government cannot facilitate CSSN Copeland's right to confer with counsel while he is in pretrial confinement, this Court should order CSSN Copeland's release.

## EVIDENCE & HEARING

37. The defense requests the production of SA Fritzer Philemon for in person or telephonic testimony at the Article 30a hearing.

38. The defense offers the following enclosures as evidence in support of this Motion:

a. Enclosure (1): Confinement Order of 9 Jun 25
b. Enclosure (2): Ruling from U.S. v. DC3 Reimonenq of 14 Mar 25
c. Enclosure (3): IRO Memo of 17 Jun 25
d. Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls
e. Enclosure (5): Mrs. Hoffmeister Affidavit
f. Enclosure (6): Demand for speedy trial of 16 Jun 25
g. Enclosure (7): Excludable Delay Request of 1 Jul 25
h. Enclosure (8): Defense Objection to Excludable Delay of 1 Jul 25
i. Enclosure (9): Grant of Excludable Delay ltr of 9 Jul 25
j. Enclosure (10): Second Demand for Speedy Trial of 25 Jul 25
k. Enclosure (11): Defense's Initial Discovery Request of 30 Jul 25
l. Enclosure (12): Second Excludable Delay request of 8 Aug 25
m. Enclosure (13): Defense Objection to Second Excludable Delay of 11 Aug 25
n. Enclosure (14): Emails with the trial counsel of 22 Aug 25

39. Unless the government concedes the motion or this Court grants the relief on the basis of pleadings alone, the defense requests a hearing to present evidence and argument on this matter. The defense is available for an Article 39(a) motions hearing on the following dates: 8-19 September 2025.

| | |
|---|---|
| **U N I T E D S T A T E S**<br><br>**v.**<br><br>**JEREMIAH COPELAND**<br>**CSSN/ E-3**<br>**USN** | **R.C.M. 701(a) DISCLOSURE** |

On 2 September 2025, CDR Lauren Mayo and LT Christopher Dempsey, JAGC, USN, interviewed CDR Brian Flanagan, USN, in the presence of Ms. Sharell Welch, RSC(AW) Amanda Cole, USN and LN1 Kathleen Vanetti, USN at RLSO MIDLANT. The following is a summary of the interaction and is not intended to be verbatim:

CDR Flanagan explained that CSSN COPELAND is currently in a maximum security confinement status (MAX), with some special conditions. As such, COPELAND is permitted to be out of his cell for three hours a day; one hour to clean the p-way and showers, one hour for personal time, and one hour for recreation. The hour to clean is a recent addition and is considered a "step down" from his full MAX status and is permitted without supervision. This began on 11 August 2025. Prior to 11 August, he spent 22 hours a day in his cell.

While in MAX, he is allowed phone calls and visitation by his defense counsel in a no-contact booth in addition to the three hours he is normally allowed out of his cell. The no-contact room is private, has plexi-glass with slots to allow the parties to pass documents between client and attorney, allows for videos to be seen by the client, and can have white noise machines placed outside of the room to further ensure conversations cannot be overheard by anyone outside of the attorney-client privilege relationship. Any phone call requests made by the defense attorney during business hours (between 0730 and 1530) will be accommodated, even if the requested call time is outside of business hours.

In accordance with the Chesapeake Brig Standard Operating Procedures (SOP) and the SECNAVMAN-1640.1, contact visits between COPELAND and defense counsel would not be permitted while he is in a MAX status. Every 30 days, COPELAND may participate in a C&A Board that evaluates his security risk as a prisoner, and makes recommendations to the OIC, CDR Flanagan, as to any changes to COPELAND's security status. COPELAND has participated in the last two C&A Boards, and was informed that he has the right to appeal the determination of the C&A Board. COPELAND has not appealed any of the determinations of the C&A Board (which have kept him in a MAX status).

CDR Flanagan reported that there have not been any behavioral issues with COPELAND and

that he has attended at least one class while at the Brig. In addition to his behavior at the brig, the C&A Board must consider factors such as the prisoners' civilian and military record, the seriousness of the offenses alleged, and the potential length of confinement awarded if found guilty in calculating a certain amount of points. Once a certain point threshold is met, the classification status can change. CDR Flanagan can override the decision of the C&A Board under limited circumstances. CDR Flanagan did not foreclose the opportunity that COPELAND may be able to leave MAX at some point based on consideration of these factors even with the charges he is facing. However, he acknowledge reclassification is unlikely. He explained that the opportunity for an hour to clean the p-way and his shower was a recent step down to allow COPELAND an opportunity to prove his good behavior. A recommendation from the trial counsel would not influence the brig's decision on classification.

CDR Flanagan expressed a separate concern that the general population of the Chesapeake Brig has been exposed to the local news and he has some concern for COPELAND's safety if COPELAND were to be moved to general population based on the news coverage his case has attracted.

To date, Defense Counsel has not requested to use a white noise machine during visits with COPELAND at the brig. The email sent by Defense Counsel that asked about having COPELAND attend a meeting at the Defense Service Office was responded to with a logistical explanation of such a movement, as well as what accommodations were available within the Brig for a meeting that ensured attorney-client privilege. If the command decided that such a meeting was appropriate, the Brig would not be able to prevent the command from taking COPELAND to meet with his counsel at a separate location.

# Chapter 4: Control, Security, and Emergencies

## Section 1. Prisoner Accountability System

### 4101. Master Control Center Function

1. The control center is the focal point for all military correctional facility (MCF) security and control operations. The control center must be utilized for 24-hour continuously staffed monitoring and coordinating of the MCF's security, life, safety, and communications systems. It is here that all prisoner movements are directed, controlled, and accounted for; that all active keys are controlled and accounted for; where the entry and exit of all prisoners, staff, and visitors are controlled; and where emergency equipment may be stored. Main communications terminals, both regular and emergency, are located in the control center. Outside telephone switchboards will not be operated from the control center during normal daytime working hours. Master count records and the brig log are maintained in the control center and the reports of daily counts are prepared and verified there.

2. The control center must be manned and its security integrity maintained at all times. Access to the control center will be limited to only authorized personnel designated in writing by the brig officer. Prisoners must not be allowed access to the control center under any circumstances.

### 4102. Control Center Accountability Systems

1. Certain basic information must be maintained and controlled to ensure adequate accountability of prisoners at all times. Accountability systems will be controlled and maintained in the control center. The extent of these systems will be tailored to meet local needs. Many required accountability forms and reports, required per reference (z) and this manual, can be generated and accessed by utilizing the Correctional Management Information System (CORMIS) or its electronic equivalent.

2. Accountability System Elements

a. DD 2707 Confinement Order. A copy of the confinement order will be delivered to the control center by the Receiving and Release (R&R) supervisor immediately upon receipt of a new

prisoner. The control center supervisor will make necessary adjustments to count records and the brig log.

b. Prisoner Identification Badge. Four prisoner identification badges will be created by R&R upon arrival of a new prisoner. A badge is given to the prisoner. A badge is forwarded to the supervisor responsible for records management for inclusion in the prisoner's individual confinement record. A badge is forwarded to the control center for inclusion in the control center's master file. A badge is forwarded to the prisoner's quarters supervisor. The control center will maintain their copies of prisoner identification badges in alphabetical order and in a readily visible file in the control center. New badges will be added only when new prisoners are received and those on file will be removed from the master file only upon receipt of an updated prisoner badge or an executed DD 2718 Prisoner Release Order. Removed badges will be forwarded to the supervisor responsible for records management.

c. Quarters Assignment Record. This record will follow the living quarters configuration of the MCF and show where each prisoner is specifically assigned (rack or cell). This billeting information will also be maintained in CORMIS or its electronic equivalent.

d. Work Assignment Record. This record is established to accommodate local work assignments for quick verification of work detail and location of the prisoner. Work assignment information will also be maintained in CORMIS or its electronic equivalent.

e. Out-Count Record. Format may be a wall chart or a log that, at a minimum, has the prisoner's name, status, custody, destination, and departure time.

f. Daily Change Sheet (DCS). Initiated by the classification and adjustment (C&A) board, a listing of all authorized changes of status, custody, program, billeting, and work assignments must be prepared each workday. The DCS must be authenticated by the brig officer's signature and distributed to applicable posts. All housing moves, except emergencies, must be accomplished in conjunction with the DCS.

g. Daily Appointment Sheet. A daily appointment sheet will be prepared listing all authorized prisoner appointments for the following workday (e.g.; medical appointments, legal appointments, etc.) and distributed to all applicable posts. The daily appointment sheet will list prisoner name, date and time of the appointment, appointment location, and any other relevant information (e.g.; escorts' names for outside agency escorts, uniform, fasting required for medical). This may be generated by CORMIS or its electronic equivalent from data previously entered.

h. DD 2718 Prisoner Release Order. A copy of an executed release order will be delivered to the control center for verification, log entries, and updating the count log.

i. Brig Log. The brig log is the permanent record of daily and historical events and other significant events of the operation of the MCF. It will be maintained in the control center and reviewed and countersigned by the command duty officer (CDO) or duty brig supervisor (DBS) at the conclusion of each shift. An accurate running count must be included in this log. Refer to section 8104 of this manual for other pertinent information to be logged in the brig log. Where authorized by Bureau of Naval Personnel Corrections and Programs Office (BUPERS-00D) and Deputy Commandant of the Marine Corps (Plans, Policies, and Operations (DC PPO)), an electronic brig log may be maintained.

## 4103. Counts

1. A minimum of three formal scheduled prisoner counts must be made daily (reveille, end of workday, and taps). More frequent and informal counts may be required depending on prisoner population and physical characteristics of the MCF; however, the frequency of counts will not unduly interfere with normal workday activity. In addition to scheduled counts, work supervisors and quarters supervisors shall be required to make irregular but frequent checks of all prisoners under their supervision, the frequency of checks shall not exceed one hour. There must be periodic bed checks of all prisoners during the night; however, prisoners must not be awakened for this purpose and silent counts will be used. Routine formal counts will be scheduled at times that will not interfere with work, training, sleep, or recreation schedules. Results and times of all counts

(i.e.; scheduled, unscheduled, or others directed by local policy) must be entered into the brig log.

2. Brig officers will develop, publish, and train staff to conduct count.

3. Under no circumstances will prisoners assist staff with count.

4. Unscheduled counts may be conducted whenever deemed necessary.

5. The control center will verify prisoner accountability, by telephone, the presence of all overnight temporary absences during regularly scheduled counts.

4104. Prisoner Movement

1. Activities and movements of prisoners must be controlled, orderly, punctual, and well supervised.

2. Prisoner passes or electronic prisoner tracking systems (e.g., biometrics) will be used in MCFs to control unescorted prisoner movements (exceptions may be made for installation custody prisoners). Either system will be used for instances which require prisoners to leave their regular details. Strict control of either system must be maintained. All staff and prisoners must be instructed in the operation of the MCF prisoner movement system and procedures.

3. In lieu of an Armed Forces identification card, installation custody prisoners will carry a DD 512 Installation Custody Agreement describing their status and limits of movement when outside of the security perimeter of the MCF.

4105. Sally Port Operations

1. A sally port is basic to the secure operation of any MCF. Used properly, it affords security and control over entry to and exit from the MCF.

2. The following procedures must be followed in sally port operations:

a. Provisions will be made to prevent two doors or gates from being inadvertently opened at the same time;

b. If sally port doors or gates are electrically operated, the controls will be located inside the control center or within a secure post that has an unobstructed view of the sally port; and

c. If the sally port is used primarily for vehicles, it must be constructed so the largest vehicle entering can be contained inside with both gates closed. Ensure that any prisoners accompanying a vehicle have been properly logged out of the MCF by the control center supervisor. All vehicles entering and exiting a sally port must be searched for contraband and prisoner escape attempts.

## Section 2. Prisoner Custody Classification

### 4201. Purpose and Definitions

1. Purpose. Custody classifications establish the degree of supervision and restraint needed for control of individual prisoners. Custody classification allows for and supports graduated release through a systematic decrease in supervision and a corresponding increase in prisoner responsibility as part of the classification program. Custody classifications provide guidance for supervision of prisoners and permit establishment of security measures consistent with requirements of the individual. Where there is fair and impartial treatment, prisoners generally present no serious disciplinary problems. There are some prisoners, however, who can be uncooperative or aggressive. Efforts must be made to identify all special cases and control measures instituted to ensure the safe and orderly administration of the MCF. An objective-based custody classification process that addresses the characteristics of the prisoners must be used per reference (z) and this manual. CORMIS, which incorporates the objective-based classification process, or CORMIS' electronic equivalent, will be employed.

2. Classification Definitions. Every prisoner must be assigned one of the following custody classifications:

a. Maximum Custody (MAX). Prisoners requiring special custodial supervision because of the high probability of escape

or are potentially violent or dangerous, and whose escape would cause concern of a threat to life, property, or national security. Ordinarily, only a small percentage of prisoners will be classified as MAX.

(1) Supervision. When inside their cell, observation checks by MCF staff will be at irregular intervals not to exceed 15 minutes. DD 509 Inspection Record of Prisoner in Segregation must be posted outside the cell door and appropriate entries made at least every 15 minutes. Two or more staff members must be present when MAX prisoners are out of their cell or the cell door is opened, and supervision must be immediate (e.g., near at hand or close proximity) and continuous (e.g., without loss or interval of time) unless physical plant design negates this requirement. Camera cells may be utilized for constant observation but do not replace the requirement for staff to physically view the prisoner in the prisoner's cell.

(2) Work. MAX prisoners will not be assigned to work details outside of their cell.

(3) Quarters. MAX prisoners must be assigned to the restricted housing unit (RHU).

(4) Restraints and Escorts

(a) MAX prisoners must wear hand-irons when outside of their cells in the RHU, unless the facility's design supports security and control, negating this requirement.

(b) Max prisoners must wear full restraints (hand irons, transport belt, and leg irons) and be escorted by a minimum of two escorts at all times when outside the RHU area. Exceptions may only be made for exigent circumstances (fire or safety) or on a case-by-case basis (court appearance or military judge ordered). The brig officer or designee will be notified of any request to remove restraints.

b. Medium Custody In (MDI). Prisoners who present security risks not warranting MAX.

(1) Supervision. Direct supervision within the security perimeter, and immediate and continuous when outside the security perimeter.

(2) Work. MDI prisoners must not be assigned to work details outside the security perimeter.

(3) Quarters. MDI prisoners will normally be assigned to general population housing where direct supervision is required.

(4) Restraints and Escorts

(a) MDI prisoners will not normally wear restraints inside the security perimeter. Any MDI prisoner required to wear restraints inside the security perimeter will be assigned to the RHU.

(b) MDI prisoners must wear hand irons and a transport belt at a minimum when outside the security perimeter unless the brig officer or designee directs otherwise. Escorts will carry leg irons.

(c) MDI prisoners must be escorted by at least two escorts at all times outside the security perimeter. When transporting multiple MDI prisoners, the brig officer or designee may direct only one escort be required for each additional MDI prisoner. Exceptions may only be made for exigent circumstances (fire or safety) or on a case-by-case basis (court appearance or military judge ordered). The brig officer or designee (senior security personnel) will be notified of any request to remove restraints.

c. Medium Custody Out (MDO). Prisoners who present security risks not warranting MDI.

(1) Supervision. Direct supervision within the security perimeter, and immediate and continuous when outside the security perimeter.

(2) Work. MDO prisoners may be assigned to work details inside or outside the security perimeter.

(3) Quarters. MDO prisoners will normally be assigned to general population housing where direct supervision is required.

(4) Restraints and Escorts

(a) MDO prisoners are not required to wear restraints while inside or outside the security perimeter. Escorts will carry hand irons when escorting MDO prisoners outside of the security perimeter.

(b) MDO prisoners require at least one escort when outside the security perimeter. Working party and other escort ratios will be determined by the brig officer or designee when escorted by MCF staff. Escort ratios for command escorts must be no less than one escort per five MDO prisoners.

d. Minimum Custody (MIN). Prisoners who present security risks not warranting higher classifications.

(1) Supervision. Will be occasional (periodic, situational dependent, and accountable as necessary by supervisory staff) within the security perimeter or outside the security perimeter.

(2) Work. MIN prisoners are normally assigned work outside the security perimeter.

(3) Quarters. MIN prisoners will normally be assigned to general population housing.

(4) Restraints and Escorts

(a) MIN prisoners are not required to wear restraints while inside or outside the security perimeter. Escorts will carry hand irons when escorting MIN prisoners outside of the security perimeter.

(b) MIN prisoners will require at least one escort when outside the security perimeter. Working party and other escort ratios will be determined by the brig officer or designee when escorted by MCF staff. Escort ratios for command escorts must be no less than 1 escort per 10 MIN prisoners.

e. Installation Custody (IC). Prisoners who present minimal security risks not warranting higher classifications.

(1) Supervision. Require only limited supervision. They may work and move about much the same as individuals in normal duty status.

(2) Work. IC prisoners are normally assigned work outside the security perimeter.

(3) Quarters. IC prisoners normally will be assigned to general population housing but may be housed outside the security perimeter.

(4) Restraints and Escorts

(a) IC prisoners are not required to wear restraints while inside or outside the security perimeter.

(b) IC prisoners normally will not require escorts when outside the security perimeter.

(5) Selection Criteria for IC

(a) Have completed at least one half of the confinement adjudged or the convening authority has taken action, whichever occurs first.

(b) Not more than 12 months from adjusted minimum release date or approved supervised release date.

(c) Consideration must be taken into account as to the nature of offense and applicable Federal, State, and local laws concerning unsupervised release for work and recreation into local geographical areas (especially those areas with schools, daycare centers, housing, etc.).

(d) Have not been removed previously from this custody for cause.

(e) IC prisoners must sign DD 512 Installation Custody Agreement and carry it with them at all times when outside the MCF's security perimeter. A locally prepared agreement listing the limitations on movement outside the MCF must be agreed to, signed by IC prisoners, and countersigned by the MCF commanding officer (CO). The DD 512 will be turned in and checked out from the R&R supervisor as required.

Assignments will depend on the ability to handle responsibility and, whenever possible, be commensurate to the prisoner's previous training, skill, needs of the Service, and potential training value to the prisoner.

(6) Additional Privileges. Additional privileges such as attending the installation theater, library, sports events or similar activities, and messing sequence may be authorized by the MCF CO.

4202. Classification Criteria

1. Custody classification will be based on the amount of supervision and restraint each prisoner requires.

2. All new prisoners, except those specifically deemed serious management problems, must be assigned an MDI custody classification during the reception phase. Pretrial prisoners must not be assigned any custody classification except MDI or MAX.

3. Ultra-conservative custody classification results in a waste of prisoner and staff manpower. A large number of MAX and MDI prisoners reduces the number of staff available for supervision of the kinds of productive work available to lower custody classifications. Classification systems must follow established, but flexible, procedures.

4. Prisoners will be placed in a lower custody classification as soon as practical and as warranted.

5. Override of the Objective-Based Screening Decision

a. The below factors, though not all-inclusive, are considered in assessing whether to override the objective-based classification system to increase a prisoner’s custody:

(1) Assaultive behavior;

(2) Disruptive behavior;

(3) Serious drug abuse;

(4) Serious civil or military criminal record (convicted or alleged);

(5) Low tolerance of frustration;

(6) Intensive acting out or dislike of the military;

(7) History of previous escape(s);

(8) Pending civil charges or detainers filed;

(9) Serving a sentence that the individual considers unjust or severe;

(10) Poor home conditions or family relationships;

(11) Emotional or mental instability;

(12) Indication of unwillingness to accept responsibility for personal actions, past and present;

(13) Demonstrated pattern of poor judgment;

(14) Length, or potential length, of sentence;

(15) Gang affiliation or ties with disruptive organizations;

(16) Awaiting transfer;

(17) A sentence length exceeding the designated length of confinement authorized at the MCF; and

(18) Refusal to accept or participate in recommended treatment or education programs.

b. The below factors, though not all-inclusive, are considered in assessing whether to override the objective-based classification system to decrease a prisoner’s custody:

(1) Clear military record, aside from present offense;

(2) Close family ties - good home conditions;

(3) The offense(s) charged is not serious;

(4) Emotional and mental stability;

(5) Comparatively short sentence to confinement; however, length of sentence will not be a sole overriding factor;

(6) Behavior during confinement, and

(7) Successful completion of, or active participation in, offense-related treatment programs or groups.

c. The factors mentioned above are only indicators, not ironclad rules; therefore, the brig officer will consider objective-based overrides where applicable. An evaluation of all phases of the prisoner's performance will be made prior to each custody change. By following the criteria and concepts outlined in this chapter, the brig officer should be able to make more efficient use of staff and provide an atmosphere in which rehabilitative efforts will be more effective.

6. Adult Internal Management System (AIMS). An AIMS classification will be determined for each prisoner confined in level II MCFs. This is a five-level classification of prisoners based on aggressiveness of personality and methods of problem management used by an individual. AIMS is never used for custody or incentive determination but is very useful for housing and programming prisoners together in order to maximize their opportunities to succeed and to utilize programs offered. Each C&A Board will consider (but not be bound by) a prisoner's AIMS classification in assignment of berthing, program, and work assignment. AIMS classification is applicable only to male prisoners. AIMS is integrated within CORMIS or its electronic equivalent.

## 4203. Evaluation of Prisoners

1. All members supervising prisoners will be responsible for evaluating prisoners and must submit periodic written reports on their performance. Quarters supervisors and work supervisors will complete a prisoner evaluation, no less than monthly, to show levels of performance on a continuing basis. The evaluation must be submitted on DD 2712 Prisoner Evaluation.

2. A prisoner program plan must be developed for each post-trial prisoner to identify and prioritize all required and recommended correctional programs. The program plan will serve as the central source for documenting program progress and completion. The prisoner program plan should take into account the prisoner's sentence length, confining offense(s), needs, and program sequence.

3. Each staff member has responsibility for communicating information concerning prisoners to the proper authority in the MCF. The behavior and attitude of the prisoner in living quarters, at work, in recreation, and in a classroom provides a good overall indicator of problem areas and adjustment progress. Continuous documented staff evaluation of each prisoner cannot be overemphasized.

4204. C&A Board and Unit Team Management (UTM)

1. The C&A board will establish a prisoner's custody classification using objective-based classification or reclassification procedures. When the C&A Board convenes to develop prisoner classification and assignment, it will be composed of the brig officer, or designated representative, and members from varying departments of the MCF as appointed in writing by the MCF CO. At a minimum, the C&A Board must be comprised of a chairperson and no fewer than two additional members to ensure a multi-disciplinary perspective. See article 6401 of this manual for program functions of the C&A Board.

2. UTM. Level II MCFs may utilize UTM principles in the operation of their C&A boards. Unit teams oversee prisoner program plans, custody classification, incentive levels, and counseling on a routine basis. Unit teams are comprised, at a minimum, of a unit manager, case manager or counselor, leading chief petty officer or leading petty officer (or Military Service equivalent), and quarters supervisor(s).

4205. Quarters

1. General Population Quarters

a. To the largest extent that design and staffing allow, newly confined prisoners generally will be housed in an orientation quarters, that may be located in the RHU, and

administered separately from post-orientation prisoners. During reception processing and orientation, prisoners will be objectively evaluated and a custody classification assigned prior to transfer to the general population.

b. Although preferred, there is no requirement that prisoners of different legal status (pretrial or post-trial) be berthed separately. Separation of prisoners may be by custody or AIMS classification or both (see article 4202.6 of this manual). Optimum situations permit housing different custody classification prisoners in different and separate areas. In many MCFs, practicality dictates commingling of prisoners in the same quarters; however, every effort will be made to maintain separate berthing where possible and when staffing allows. Direct supervision is required in general population housing.

2. RHU

a. The RHU provides living conditions similar to those of the general population; all exceptions will be clearly documented. RHU cells will be designed to permit prisoners to converse with and be observed by staff members. Prisoners are assigned to the RHU by the brig officer or designee and will not have normal privileges restricted unless privileges must be withheld for reasons of security or prisoner safety. In these cases, all restrictions must be documented on a special handling letter and signed by the brig officer or designee.

b. Definitions of Segregation Categories. Abbreviated segregation statuses listed below align with those in CORMIS or its electronic equivalent.

(1) Administrative Segregation (AS). A form of separation from the general population when the presence of the prisoner in general population poses a serious threat to life, property, self, staff, or other prisoners, or to the good order and discipline of the MCF. This segregation category is administrative in nature and may be for relatively extensive periods of time. Sub-categories of AS coincide with housing assignments in CORMIS or its electronic equivalent. Assignment to and removal from AS is authorized by the brig officer or designee.

(a) Medical Segregation (MED). MED is utilized for medical reasons.

(b) Prevention of Injury (POI). POI may be recommended by clinical, medical, CDO or DBS.

(c) Suicide Risk (SR)

1. Prisoners who are considered suicidal must be immediately referred to the medical department, clinical services, or mental health department for further evaluation and appropriate action, which may include hospitalization. References (aa) and (ab) provide guidelines in cases involving emergencies, specialized treatment or evaluation, or psychiatric treatment that cannot be deferred.

2. Such prisoners are normally hospitalized, but if not, the prisoner must be placed in the status of "SR" for continuous observation.

3. SR prisoners must be under continuous observation. Direct physical observation must be by a staff member and considered a primary duty. For documentation purposes, a logbook must be maintained by the staff observer (prisoner's name, date, observer, time the observer took over and ended the shift to include relief, and behavioral remarks as applicable). Annotation on the prisoner's DD 509 Inspection Record of Prisoner in Segregation will be made every 5 minutes. Supplemental (physical) sighting of and visit to suicide risk prisoners will be officially recorded on DD 509 and include date, time, name of visitor, and any appropriate remarks.

4. At levels II and III MCFs, a suicide watch companion program may be authorized by BUPERS-00D or DC PPO.

5. The brig officer or designee may direct removal of a prisoner's clothing and replacement with a suicide protection smock or privacy gown, or approved suicide blanket when deemed necessary by medical, clinical, or the CDO or DBS.

6. When no longer considered to be a suicide risk by medical officers, psychiatrists, doctoral-level clinical psychologists, or doctoral-level clinical social workers with

clinical practice privileges, prisoners will be returned or stepped-down to POI or placed back in appropriate quarters.

(d) Escape Risk (ER). ER may be recommended by CDO or DBS or by the C&A Board due to seriousness of offense, misconduct while in confinement, or confinement capabilities.

(e) Potentially Violent or Dangerous (PVD). PVD may be recommended by CDO or DBS or by the C&A Board due to seriousness of offense, confinement capabilities, or dangerous conduct previously in general population.

(f) Pending Investigation (PI). PI may be recommended if the prisoner cannot be left in general population during an investigation.

(g) Loss of Privileges (LOP). LOP is used only when necessary to enforce loss of certain privileges requiring the prisoner to be housed in the RHU. LOP can also be served in general population based on the magnitude of the lost privileges.

(h) Awaiting Transfer (AT). A prisoner may be placed in AT when waiting to transfer to another facility.

(i) Protective Custody (PC). PC is a form of separation from the general population for prisoners requesting or requiring protection from other prisoners for reasons of health and safety. Admission to PC, to include rationale, must be fully documented with a consent form signed by the prisoner. Assignment to and removal from PC may be authorized by the brig officer or designee.

(j) Indoctrination (INDOC). Newly arriving prisoners assigned to the orientation program will normally be berthed in RHU on INDOC status until medically and clinically cleared to join general population.

(2) Disciplinary Segregation (DS). A form of separation from the general population directed by the approving authority after due process, in which prisoners committing violations of conduct, considered serious from an institutional standpoint, are housed within the RHU.

3. Procedures

a. Assignment to the RHU is not a punitive measure, except for DS, and must not be used as such. Prisoners must be aware of the reason they are assigned to the RHU and acknowledge in writing the limitations of their assigned status. All authorized special handling instructions that impact prisoners in the RHU must be annotated on a special handling letter.

b. When a prisoner is transferred to the RHU, health care staff will be informed immediately and will provide a screening and review as indicated by the protocols established by the health authority. Unless medical attention is needed more frequently, each prisoner in the RHU will receive a daily visit from a qualified health care professional. The visit ensures that offenders have access to the health care system. The presence of a health care provider in the RHU will be recorded on DD 509. The frequency of physician visits to the RHU is determined by the health authority.

c. All prisoners in the RHU will be under direct supervision. They will be sighted at least once every 15 minutes by a staff member and will be visited daily by members of the programs staff and the brig officer or designee. In addition, it is highly desirable that prisoners in the RHU be visited daily by a chaplain. Prisoners who are violent or who demonstrate unusual behavior may receive observation that is more frequent. The DD 509 must be used to document each sighting and visit to any RHU prisoner. Documentation of visits will include date, time, name of visitor, and any appropriate remarks.

d. Prisoners in the RHU must have the opportunity to be outside of their cell for at least 2 hours daily. The 2 hours may be comprised of opportunities for sunshine, recreation, exercise call, education, clinically appropriate treatment therapies, skill-building, and social interaction with staff and other prisoners. The amount of time and type of opportunity will depend on the prisoner’s status; however, at a minimum, all prisoners residing in the RHU who are not designated as on a specific restricted housing reportable status must receive 2 hours outside of their cell daily. If a prisoner is a safety or security concern and cannot receive 2 hours outside of their

cell daily, they will be classified as a specific RH-reportable status and will be handled per article 4206 of this manual.

e. Alternative meal service may be provided to a prisoner in the RHU who uses food or feeding utensils in a manner that is hazardous to self, staff, or other prisoners. Alternative meal service will be on an individual basis, based on health or safety considerations only, meets basic nutritional requirements, and occurs with the written approval of the brig officer or designee, or responsible health authority. The substitution period must not exceed 7 days.

f. Prisoners in the RHU can write and receive letters on the same basis as prisoners in general population.

g. Prisoners in the RHU have opportunities for visitation unless there are substantial reasons for withholding such privileges. These restrictions must be documented on a special handling letter.

h. Prisoners in the RHU are allowed telephone privileges, unless restricted for cause or under investigation concerning the abuse of telephone privileges. Prisoners on DS are allowed limited telephone privileges. Regardless of status, prisoners in the RHU will have unlimited access to telephone calls related specifically to their attorney of record.

i. Prisoners in the RHU, regardless of status, must have access to legal materials, available legal reference materials, allowed access to legal counsel, access to courts, and access to reading or library materials.

j. Prisoners in the RHU will have access (which may or may not include attendance) to programs and services that include, but are not limited to, the following:

(1) Educational services;

(2) Commissary services;

(3) Library services;

(4) Social services;

(5) Counseling services;

(6) Religious guidance; and

(7) Recreational programs

4. Review of Segregated Prisoners

a. 72-Hour Review. The status of each prisoner placed in the RHU must be reviewed by the C&A Board within 72 hours of assignment of the RHU status. A prisoner placed in the RHU under PI status must be reviewed within 24-hours. This PI review may be accomplished through means other than the C&A Board as dictated through local policy.

b. 7-Day Review. A review of the status for prisoners in the RHU by the C&A Board must be conducted at least every 7 days for the first 60 days and every 30 days thereafter.

c. 30-Day Review

(1) A credentialed mental health provider must personally interview and provide a written report on any prisoner remaining in the RHU over 30 days. If segregation continues beyond 30 days, a credentialed mental health provider must make an assessment at least every 3 months, or more frequently if prescribed by the MCF medical officer, psychiatrist, or clinical services director. Prisoners in the RHU may develop symptoms of acute anxiety or other mental problems; regular psychological assessment helps ensure the mental health of anyone in the RHU for over 30 days.

(2) DS. A review of the status for prisoners in DS for more than 30 days must be reviewed and approved by the MCF CO. If a prisoner is in DS over 60 days, the prisoner must be provided the same program services and privileges as prisoners in AS (security and safety concerns permitting).

4206. Restrictive Housing (RH). Reference (ac) details RH policy for use within MCFs. RH-reportable status must only be utilized in extreme situations when no other corrections alternative is available.

1. Definition. Any type of detention or segregation that involves all three of these basic elements triggers an RH-reportable status:

a. Removal from the general prisoner population, whether voluntary or involuntary

b. Placement in a locked room or cell, whether alone or with another prisoner

c. Inability to leave the room or cell for the vast majority of the day, typically more than 22 hours.

2. Placement in RH-Reportable Status

a. Prisoners will be housed in the least restrictive setting necessary to ensure their own safety, as well as the safety of staff, other prisoners, and the public. Assignment of a prisoner to the RHU does not necessarily mean the prisoner is in an RH-reportable status. RH-reportable status may only be used for a prisoner in the RHU if there is no safer alternative. To administer the corrections mission safely, a prisoner in the RHU may meet the definitional parameters in paragraph 4206.1 of this manual.

b. MCFs must strive to limit the use of RH-reportable statuses whenever possible, and to the extent used, to limit the length of a prisoner's stay and to identify services including group, educational, and therapeutic services that the prisoner can safely participate in while in an RH-reportable status.

c. A RH-reportable status must always serve a specific correctional purpose. In each instance, MCFs must clearly articulate and document the specific reason(s) for a prisoner's placement and retention in an RH-reportable status. CORMIS or its electronic equivalent is the primary method for documenting all prisoner record entries. The reason(s) and duration for use of an RH-reportable status must be supported by objective-based rationale and factual statements. Prisoners will remain in the RH-reportable status for no longer than necessary to address the specific reason(s) for their placement.

d. A prisoner's initial placement in an RH-reportable status will be reviewed by the C&A Board the next business day

and ongoing placement in an RH-reportable status will be reviewed by the C&A Board every business day in an attempt to remove the prisoner from the RH-reportable status as soon as possible. This review will include not only security and housing staff but also medical and mental health professionals and be endorsed by the MCF CO.

e. All correctional staff will be trained annually on RH policies (inclusive of pre-service and in-service training). Correctional supervisors must ensure compliance with RH policies and training standards. This training will be reflected in staff training records. Emphasis must be placed on the difference of being housed in the RHU vice actually being in an RH-reportable status.

f. MCFs will formally establish a RH committee, consisting of command and department-level correctional staff to regularly (i.e., not less than semi-annually) evaluate existing RH policy, develop safe and effective alternatives to the use of RH, and craft special handling letters and step-down plan strategies.

## 4207. Management of Mixed-Gender Prisoners and Staff Supervision of Opposite-Gender Prisoners

1. Background. Confinement of both male and female prisoners in a MCF manned by both male and female staff present significant correctional challenges and requires a gender-relevant approach to ensure safety, security, and meet identified privacy needs.

2. Definitions

a. Commingled Mixed-Gender Prisoners. Male and female prisoners mixed in the same space or area at the same time.

b. Opposite-Gender Supervision. MCF staff supervising a prisoner of the opposite gender.

3. Management and Supervision of Commingled Mixed-Gender Prisoner Policy

a. There must be no prisoners of the opposite gender confined in the same space at the same time. For the purposes of this manual, the term “space” refers to quarters, to include

cells and open-bays. At no time will male and female prisoners be commingled in any space during the period between taps and reveille; or at any time or location without direct staff supervision.

b. MCFs must ensure visual and acoustic berthing separation of males and females confined, if simultaneous confinement of male and female Service members is authorized. For the purposes of this manual, "acoustic separation" is defined as out of range of normal conversation.

c. For operational planning purposes, the plan of the day must distinctly identify authorized commingled, mixed-gender events and times for general population prisoners. Adequate supervision and communication requirements must be in place prior to the commencement of the activity.

d. To the greatest extent possible, male and female prisoners will not be assigned simultaneously in the same program or work areas, while ensuring both have full access to a full range of programming opportunities. If assignment to the same work site simultaneously is unavoidable to ensure the same programming opportunities, the supervisor must provide direct supervision continuously and enforce prisoner rules that restrict mixed-gender communication to only that required to carry out the assigned work or task.

e. Mixed-gender prisoner working parties are not authorized outside the MCF security perimeter without specific authority of the brig officer or designee.

f. At no time will commingled male and female prisoners be unsupervised without a staff member being directly present in the program, workroom, or immediate area.

g. Staff members will permit no integration between opposite-gender prisoners except for verbal greetings and authorized exchanges during supervised activities (e.g.; work details, religious activities; morale, welfare, and recreation activities such as holiday functions; assigned group therapy sessions, etc.).

4. Staff Supervision of Opposite-Gender Prisoners

a. Staff must not be assigned duties that require supervision of prisoners of the opposite sex at times when routine nudity occurs.

b. Prisoners must be informed during reception that they are subject to observation by staff, to include staff members of the opposite sex. During the use of the toilet, showering, changing clothes, and similar periods of undress and nudity, mitigation efforts must be employed by the MCF to protect prisoner privacy. Efforts (temporary or otherwise) may include staff replacements to ensure observation by only staff members of same sex, privacy screens or partitions for each head area or shower area, etc. Nudity must not be permitted in common areas.

c. When both male and female prisoners are simultaneously confined in the MCF, at least one male and one female staff member must be on duty at all times and be positioned in a manner to support same-gender supervision requirements.

d. Accommodations must be in place to ensure camera monitoring by staff ensures adequate mixed-gender privacy (e.g.; during use of the toilet, showering, changing clothes, and similar periods of undress and nudity). Where necessary, staff augmentation will be employed to mitigate security and supervision concerns. For RHU prisoners in a camera cell, specialized clothing may be used to provide privacy from camera view. Such clothing will provide sufficient coverage of the body when seated on a toilet (i.e., longer than a standard uniform shirt).

e. MCF staff, volunteers, and all visitors who interact with prisoners of the opposite gender must always be under the continuous observation of correctional staff, at all locations. While direct observation is desired, frequent indirect observation such as camera or observation through a window is authorized.

f. Correctional staff must not conduct mixed-gender frisk searches, except as necessary in the event of an emergency affecting MCF safety and security. Such searches must be documented with an incident or information report and notated in the brig log.

g. Opposite-gender strip searches or opposite-gender visual body cavity searches (meaning a search of the anal or genital opening) are prohibited. These searches may only be performed by medical practitioners.

(1) MCF staff must not search or physically examine a transgender, intersex, or gender non-conforming prisoner for the sole purpose of determining the prisoner's genital status. Upon initial receipt and prior to search, if the prisoner's genital status is unknown, it may be determined during conversations with the prisoner, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical officer.

(2) Transgender, intersex, or gender non-conforming prisoners who do not feel comfortable being frisk-searched or stripped-searched by a staff member of the same sex will be searched by medical personnel.

h. Where mixed-gender correctional activities are authorized, there will be direct communication (radio) between the correctional staff and the control center. The CDO or DBS must pre-authorize and acknowledge mixed-gender presence, ensuring supervision requirements are in place prior to commencing the activity.

i. Male staff must not be permitted to enter places where females are housed, including a visual control center, unless they are accompanied by female staff or female staff are present, and only when entry is justified. The area must first be visually clear of prisoners who may be clothed inappropriately for the presence of male staff, and prior to entry, "male on deck" must be sounded loud enough to be heard. When female staff members enter a male area, the same procedures are followed and "female on deck" must be sounded. Justification for entry includes:

(1) Assist a prisoner;

(2) Restrain a prisoner;

(3) Accompany medical personnel; and

(4) Conduct official business.

j. Prisoner rules and regulations must be published at each MCF that:

(1) Identify mitigation efforts that provide privacy such as screens or partitions for each head area or shower area, etc., and the prisoner's obligation to use available protocols and procedures to avoid compromising themselves or undermining the staff

(2) Advise prisoners that they must not initiate or involve themselves in unduly familiar relationships with staff, volunteers, or other prisoners (e.g.; knowingly expose themselves in a state of undress where not authorized, conduct conversations of an intimate nature, or engage in sexual contact of any nature).

## Section 3. Security Systems

### 4301. Responsibilities for Security

1. The primary purpose of a MCF is custody and control of prisoners. Control of prisoners requires impartial enforcement of reasonable rules and regulations that are necessary for the safe and orderly operation of the MCF. Custody and control measures must be adequate to maintain good order and discipline and to protect staff and prisoners.

2. An effective system of security, custody, and control must be established in each MCF. Every staff member must be aware that custody and security do not stand-alone but are interdependent with all other portions of the operation. Each staff member is responsible for security, custody, and control, regardless of duty assignment.

3. Fixed posts must be maintained to ensure all traffic is channeled with authorized access permitted to enter or leave only upon suitable identification and inspection. Use of armed staff within the security perimeter is not authorized. When necessary to post staff external to the security perimeter, staff must be located in a manner to ensure an unobstructed view of the observation area.

4. Security measures inside the MCF are the day-to-day control and supervision procedures designed to facilitate the movement

of prisoners, to assure control of their whereabouts, to guard against violation of rules, and to promote good order and discipline. Posts must be established at key points such as in quarters and at entrances to work and recreation areas to afford control and direct supervision. Provisions must also be made for direct supervision during meals and plan-of-the-day activities.

5. Persons not assigned to duty at the MCF will not be allowed to enter the MCF except on official business or as authorized visitor. Authorized visitors shall wear a visitor's badge on the front of their outside garment, above the waist.

4302. Contraband and Searches

1. Contraband

a. Contraband is anything not specifically authorized by proper authority to be in a prisoner's possession, or any item authorized for use by a prisoner that has been modified for a use other than originally intended. Contraband can be controlled through close supervision and frequent searches.

(1) Unscheduled searches of prisoners, cells, visiting rooms, recreation areas, library, heads, dining facility, work areas, vehicles, deliveries, shipments, etc., are essential. Personal property and items of clothing that accompany new prisoners must also be closely searched to prevent the introduction of contraband.

(2) Staff will be provided sufficient furnishings, implements, and materials to conduct their duties. Introduction of unnecessary items into the secure area of the MCF must be strictly limited. Staff briefcases, purses, carrying bags, offices, and work areas are subject to search, along with all other areas of the MCF where prisoners may access for any reason. Regular and random searches of MCF staff should be conducted by the operations officer.

b. When contraband is discovered, a written report must be made listing the items and covering precisely the circumstances of discovery. The contraband items, along with the report, will be submitted to appropriate staff per local policy. It is essential that a strict chain of custody be maintained of any

evidence that may be used in disciplinary action. OPNAV 5580/22 Evidence/Property Custody Receipt must be used.

2. Searches. Prisoners will be instructed that all persons, quarters, and work areas are subject to search at any time while confined. There are two types of searches, of a person and of an area. Searches are conducted to control contraband or recover missing or stolen property; use of non-intrusive methods (scanners) or other techniques instead of body searches should be used whenever feasible. Where random frisk or area searches are authorized, an objective-based method will be used; on-the-spot selection by staff is not an acceptable method. Random strip searches are not authorized. Searches are described below and will be used as the situation requires.

a. Search of the Person. Searches must be conducted by staff members of the same sex as the prisoner, absent emergency circumstances.

(1) Frisk Search. The prisoner's body, clothing, and possessions will be searched by the staff member. Requirements for prisoners to assume exaggerated positions are not authorized. Unnecessary force is prohibited. A quick, careless search is useless.

(2) Strip Search. A strip search must be conducted on prisoners being newly confined, entering or leaving the MCF on a temporary release, after visitation call, before and after transfer, or initially assigned to the RHU. Unnecessary strip searches must be avoided. Other than instances already stated, strip searches may be conducted only when specifically authorized by the brig officer or designee and there is reasonable belief that the prisoner may be in possession of an item of contraband or a good opportunity for concealment of contraband has occurred (e.g.; reliable information that the prisoner possesses contraband, the discovery of contraband in the prisoner’s living space, a serious incident in which the prisoner was involved or where the prisoner was present, refusal to be frisk searched, or breaks in custody). In these searches, prisoners must remove their shoes and all clothing. Clothing and personal effects must be physically searched. The prisoner’s body will be visibly searched. No contact is authorized. Strip searches must be made in privacy with only one prisoner at a time present and the searcher must have

another staff member present as a witness. Both staff must be of the same sex as the prisoner. Strip searches must be documented in a log with date, time, prisoner name, staff, and reason for search.

(3) Body Cavity Search. Internal examination of body orifices may be conducted only by qualified medical personnel, when authorized by the MCF CO or designee, and only when there is a reasonable belief that prisoners are concealing contraband in or on their person. The use of body cavity searches must be extremely limited and fully documented.

b. Area Search. All areas will be subjected to a thorough search at random times and on an unscheduled basis. Visiting areas, including visitor-parking areas, must be searched by staff before and after all visits and must be completed prior to any further access by prisoners. Area searches will be conducted in an organized orderly manner (zone search). Prisoners must not be present during the search nor be permitted to see how the search is conducted. If prisoners are occupying the area to be searched, they will be escorted out of the area, each being frisk-searched upon leaving. All authorized articles will be handled carefully and replaced as neatly as possible when the search is completed. Care will be exercised to avoid any undue disturbance of the prisoners' personal effects.

4303. Key Control

1. Control of keys is a major element of security. Key control procedures must be rigidly enforced. A key control system must include routine (at least monthly) inspections to ensure the authorized number of keys are available and will operate their corresponding locks. The key control system must identify each key or ring of keys and give its location at all times. No key will be marked to indicate its function; however, keys to emergency exits must be properly controlled and distinctly marked. Locks and keys for fire escapes and emergency doors must be checked frequently to ensure their operation.

2. There must be three identical sets of keys and all keys will be stored in lockable security containers. All three sets of keys must be rotated regularly (at least every 6 months) to ensure proper function and even wear of keys.

a. Active keys will be located in the control center unless an electronic key watch system is approved by BUPERS-00D or DC PPO; however, emergency keys must always be kept in the control center. Emergency keys must be readily identifiable and stored in such a way that provides accessibility in case of emergencies.

b. The second set of keys will be located on the premises of the MCF but outside the security perimeter.

c. The third set of keys will be located outside of the MCF and at a secure location providing 24-hour access.

3. The active key set must be inventoried daily for accountability and inspected monthly for functionality. All three sets of keys must be inventoried quarterly for accountability, and rotated at a minimum of every 6 months to ensure even wear. Results of inspections, inventories, and verification of rotation of keys will be documented and maintained on file locally for 3 years.

4. Only authorized staff members on duty will have MCF keys in their possession and then only during the performance of duties requiring the use of those keys. A sentry within a locked area must have only the keys to a locked sub-area (such as keys to cells within a unit). Keys, except permanently issued keys, must not be taken from the MCF. Staff members authorized to draw keys or key rings will use a metal tag, logbook, or personal identification number system for each key or key ring drawn and returned. An accurate inventory showing the number of each key, trade name of lock and its location, and number and location of keys for that lock must be maintained in a secure location. Each key or ring of keys will have its own hook on a lockable key panel board or key watcher location. All keys must be accounted for at all times.

5. In the event of lost, misplaced, or stolen keys, an investigation must be conducted immediately; thereafter, a determination to replace affected locks or cores must be made by the brig officer or designee. Any lock, core, or key replacement deemed necessary must be accomplished immediately. Replacement or reserve locks, cores, and keys must be secured to preclude access by unauthorized individuals.

6. A system for the control of MCF staff and visitors' personal keys must be implemented.

7. A key custodian and alternate key custodian must be appointed in writing by the MCF CO to administer the key control program.

4304. Tool Control. All MCFs must have a formal tool control plan that includes culinary, barber, and medical and dental instruments and supplies. Tools must be etched or tagged for identification and closely controlled. Where tools or equipment are kept in a MCF, a secure and lockable tool crib equipped with shadow boards, ladder racks, and garden tool storage racks will be provided. Ladders, ropes, cords, and hoses, as well as other equipment that can be used for escape purposes or for weapons, must be included in the tool control plan and highly supervised.

1. Restricted and hazardous tools must be easily identifiable, used only under supervision, and secured in a double-locked environment. A list of restricted tools (not all-inclusive) follows:

a. Workshops. Files, hacksaws, blades, welding torches, and pipe or bolt cutters;

b. Culinary. Kitchen knives, meat saws, cleavers, ice picks;

c. Medical and Dental Instruments and Supplies. Syringes, needles, and other sharps; and

d. Miscellaneous. Barber instruments

2. Procedures

a. A record of all tools, including life-cycle, must be maintained and monitored, tracking each item from the time it enters the MCF until the date it is removed from the MCF.

b. Keep tools to a minimum and maintain an accurate up-to-date inventory.

c. Utilize a shadow-board with outlines for tools where feasible.

d. Restricted and hazardous tools such as hacksaw blades, knives, culinary instruments, files and tips for cutting torches, and welding equipment must be specially marked, placed in identifiable containers and double-locked.

e. Account for all tools daily.

f. Maintain a tool log to include identification number of the tool, name of personnel or prisoner in possession, date and time issued and returned, and the issuing personnel.

g. Frequently verify location of all tools. Restricted tools and hazardous must only be used by prisoners under continuous staff supervision.

h. Tools allocated to various departments within the MCF will be distinctly marked or etched for ready identification and to determine which department has responsibility.

i. Prisoner utensils and culinary tools must be inventoried after each meal .

j. Broken, damaged, or worn tools must be turned in to the responsible supervisor for disposal. The responsible supervisor must account for all pieces and parts of a broken tool prior to its disposal.

k. Missing or lost tools must be reported immediately to the CDO or DBS. In the event of lost, misplaced, or stolen tools, an investigation must be conducted immediately and a search must be conducted in an effort to locate the missing tool(s). A report of the lost, missing, or stolen tool(s) will be forwarded to the brig officer or designee as soon as possible, but no later than the end of the shift in which the tool(s) were noted missing.

4305. Vehicle and Equipment Control

1. Authorization for entry of any vehicle into the MCF compound is contingent upon consent to search. No personal vehicles are authorized within the security perimeter. All vehicles entering

or leaving the security perimeter must be carefully searched. A staff member will remain with the vehicle the entire time it is in the security perimeter unless the compound is clear of all prisoners. Containers entering the compound must be searched unless they were banded or sealed at a point of shipment and have not since been opened. Laundry, trash, and other containers must be searched before leaving the compound. All vehicles that remain in the security perimeter overnight must be disabled with security safeguards implemented per local policy.

2. Vehicles parked in the MCF staff or visitor parking area must be locked, keys removed, and windows fully closed.

4306. Flammable, Toxic, and Caustic Substance Control. Supplies, which may be dangerous, must be stored and secured per applicable Navy or Marine Corps policy, Navy Occupational Safety and Health standards, and reference (h).

1. Definitions

a. Flammable or Combustible. Flammable materials, liquids with a flash point below 100 degrees Fahrenheit.

b. Toxic. Materials or substances that through chemical reactions or mixture can produce possible injury or harm to the body by entering through the skin, digestive tract, or respiratory tract (e.g.; zinc, chromate paint, ammonia, chlorine, antifreeze, herbicides, and pesticides).

c. Caustic. Materials or substances that can destroy or eat away by chemical reaction (e.g.; lye, caustic soda, sulfuric acid).

d. Medical Supplies. Everything containing a narcotic or alcohol requires special handling and accounting. Refer to chapter 10 of this manual for further information on medical supplies.

e. Flavoring Extracts, Spices, and Food. When the MCF operates its own dining facility, close supervision by dining facility personnel must be maintained to prevent theft of material for making alcoholic beverages or weapons.

2. Control

a. Handling. If a material or substance possesses more than one of the above definition properties, the safety requirements for all applicable properties should be considered. Prisoners must never possess such items unless they are under the close supervision of qualified staff. Substances that do not contain one or more of the above properties but that are labeled "Keep Out of the Reach of Children" or "May Be Harmful If Swallowed" is not prohibited; their use and control, however, will be addressed in local policies. Safety data sheets must be maintained as applicable. Personnel handling flammable, toxic, or caustic materials must use appropriate personal protective equipment and be trained in their proper use.

b. Storage. All flammable, toxic, and caustic materials must be stored in secured areas that are inaccessible to prisoners and a prescribed system must be used to account for their distribution. Fuel (e.g.; gasoline or diesel) will be stored outside the MCF. If stored within the security fence line perimeter, hazardous material (HAZMAT) must be stored in locked authorized HAZMAT containers. HAZMAT items must only be brought into the security perimeter when necessary and then only in the amounts needed for the immediate work on hand and managed under staff supervision.

c. Safeguards. Staff will not introduce any form of unauthorized flammable, toxic, caustic material or substance into the security perimeter.

4307. Weapons. Immediate medical examination and treatment is required in all instances involving the use of a weapon. A written report detailing the use of force involved, detailing prisoners, staff, or others involved, and to describe the nature of the offense must be submitted to the MCF CO or designee no later than the conclusion of the tour of duty when any weapon or chemical agent is used. If injury or adverse public reaction occurs, an interim telephonic report must be made immediately to BUPERS-00D or DC PPO with follow-up reports as soon as additional information becomes known.

1. Restrictions. The MCF CO must ensure proper training of staff prior to employment of any weapons within the MCF. Firearms, ammunition, non-lethal, or chemical riot control

equipment will only be allowed inside the security perimeter of the MCF when specifically authorized by the MCF CO, or higher authority, and then only to prevent or stop a riot or major disturbance. The officer authorizing such use will ordinarily be physically present during the period of authorized use.

2. Firearms. Use of firearms must be authorized by the MCF CO, or higher authority, only as a last resort. The MCF CO must ensure all MCF personnel authorized to use firearms receive appropriate training and demonstrate competency in their use before being assigned to a post involving the possible use of such weapons. Weapon competency will be renewed at least annually (each 12-month period rather than calendar year). Firearms training should be conducted using a systematic curriculum and be appropriately documented. Firearms must be used only to prevent serious injury, loss of life, or to protect staff or prisoners who are held as hostages. Persons must not be fired upon to prevent their escape unless in their efforts to escape, they harm or threaten to harm others seriously, or in any other way endanger the lives of others. Orders to halt will be given first. Warning shots will not be fired. Firearms must be used only by personnel qualified in their use.

3. Batons. Batons of any type (e.g., riot batons, asps, Monadnock PR-24, etc.) may be considered deadly weapons if used improperly. The MCF CO, or higher authority, may authorize their use only when the degree of force that can be applied by hand is inadequate to quell violence or control unruly prisoners. When authorized, the minimum force necessary to control the situation will be applied. Specific training and annual certification is required.

4. Non-Lethal. Use of non-lethal weapons may be authorized by the MCF CO or higher authority. The Marine Corps has been designated as the executive agent for the DoD Joint Non-Lethal Weapons (JNLW) Program for the responsibility in providing program recommendations and for estimating and coordinating JNLW requirements. Due to the array of applications available and unique scenarios appropriate for their use, pre-selection of such weapons or munitions is required. Purchase of non-lethal weapons for use by MCFs must first be authorized by BUPERS-00D or DC PPO. The MCF CO must publish policy governing training requirements and application consistent with JNLW Program guidelines.

5. Arms Locker. An arms locker must be provided outside the security perimeter for the storage of weapons carried by personnel who visit the MCF. An arms clearing trap must be provided outside the security perimeter to safely clear all weapons prior to storage in the arms locker. Instructions on the safe loading and unloading of common types of firearms utilized must be posted to assist personnel in the safe loading and clearing of their firearms.

4308. Chemical Agents. Chemical agents may be used only upon order of the MCF CO, or higher authority, and only by a person trained in its use. All personnel authorized to use chemical agents must receive thorough training in their use and in the treatment of individuals exposed to a chemical agent. A special training curriculum will be established that includes both individual and group instruction by competent authorities. A trained riot force of the MCF must be utilized. Oleoresin Capsicum (OC) and Ortho-Chlorobenzylidene Malonitrile (CS) gas may be used in all MCFs, with the exception of overseas facilities where OC or CS gas is prohibited by the status-of-forces agreement with the host nation. OC and CS gas must be inventoried and weighed at least monthly and after each use to determine condition, amounts available, and expiration dates. A record must be maintained on the use of OC or CS gas during disturbance control, training, or accidental release to monitor the number of individuals exposed and any attributed adverse outcomes. Immediate medical examination and treatment is required in all instances involving the use of a chemical weapon. A written report detailing use of force involved, detailing prisoners, staff, or others involved, and to describe the nature of the offense must be submitted to the MCF CO or designee no later than the conclusion of the tour of duty when any chemical agent is used. If injury or adverse public reaction occurs, an interim telephonic report must be made immediately to BUPERS-00D or DC PPO with follow-up reports as soon as additional information becomes known. Additional restrictions and responsibilities are provided below.

1. OC Spray. Exposure to OC spray may cause respiratory failure in susceptible individuals. If the situation and time allow, medical records will be reviewed to determine at-risk prisoners prior to deployment of OC. Ensure MCF staff members are appropriately trained in basic life support procedures before using OC spray.

2. CS Gas. CS gas may be used when there is a large number of rioters so situated that their removal would be hazardous to other prisoners or staff members. CS gas will not be authorized in conjunction with any other chemical agent.

a. Sufficient CS gas must be used at the first attempt to quickly break-up all resistance. Minimum effective amounts and maximum amounts that can be safely used in any given area must be computed in advance and be maintained as part of the riot control plan.

b. Provisions for equipment and personnel must be made for a follow-up action. CS gas will likely break the resistance, but prisoners may have to be forcibly removed. A follow-up squad equipped with gas masks must be ready to enter the affected area.

c. CS gas must be permitted to develop fully but not to dissipate before sending in follow-up squad(s).

4309. Instruments of Restraint. Instruments of restraint are never applied as punishment, discipline, coercion, convenience, or retaliation by staff and are applied only with the approval of the MCF CO or designee. Instruments of restraint should be used only as a precaution to prevent escape during transfer, for medical reasons if directed by the medical officer, or to prevent self-injury, injury to others, or property damage. Restraints should not be applied for more time than is necessary.

1. Definitions

a. Ambulatory Restraints. Corrections-related restraint equipment (as opposed to medical-related) that limits movement of body extremities without preventing the prisoner from moving about an area (also referred to as "walking restraints"). Ambulatory restraints generally allow the prisoner to eat, drink, move, and take care of basic human needs with no or minimum staff intervention.

b. Authorized Restraints. Restraints authorized by BUPERS-00D or DC PPO include steel handcuffs, leg irons, and waist chains (referred to as "hard restraints"), transportation

or restraining belts, “body cuff universal restraint system,” and other restraints (referred to as "soft restraints").

c. Full Restraints. Full restraints include the collective use of steel handcuffs, leg irons, and transportation or restraining belts.

d. Progressive Restraint. Use of the least restrictive restraints deemed necessary to control the prisoner (e.g.; first use hand irons, then leg irons, then transportation or restraining belts, etc.). When MCF design supports single cells within the general population quarters, progressive restraint may also include de-escalation interventions such as staff directing a disruptive prisoner to return to his or her cell for a “cool down” period. Based on the prisoner’s behavior, more or less-restrictive restraints and transportation belts may be used.

e. Soft Restraints. Soft restraints are made of material such as Velcro, vinyl, plastic or leather and designed to prevent excessive movement of the prisoner’s body part to which they are attached in order to prevent the prisoner from Self-harm. Select soft restraints may also be considered “authorized restraints” when specifically authorized for use by BUPERS-00D or DC PPO.

f. Therapeutic Restraints. Therapeutic restraints include restraint equipment directed by a medical officer, most often a psychiatrist. Therapeutic restraints may include, but are not limited to, ambulatory soft restraints and immobilizing restraints such as “four-point” or “five-point” restraints, or a restraining chair. Immobilizing restraints secure the prisoner in such a way that the prisoner is prevented from self-rising, using toilet facilities, drinking, or eating. The use of four-point or five-point restraints is not authorized in MCFs but may be utilized during hospitalizations as prescribed by health care authorities. Medical, vice correctional, policy and regulation applies for use of therapeutic restraints. Neither the MCF CO nor staff have the authority to authorize the use of these restraints within MCFs.

2. Procedure

a. The MCF CO or designee is responsible for implementation

of all aspects of prisoner ambulatory restraint policy and management with one exception. A military judge may direct restraints to be removed from a prisoner in the courtroom (and that the prisoner remain unrestrained while in the courtroom) if, in the judge's opinion, such restraint is deemed unnecessary.

(1) This exception does not extend to legal visits such as prisoner and attorney meetings occurring outside of court-martial proceedings.

(2) The MCF CO or designee is the approving authority (with exception to military judges as noted above) for any request to remove restraints outside of the MCF's security perimeter.

(3) Upon conclusion of court-martial, pretrial prisoners may be awarded "time served" or found "not guilty" resulting in pending release from confinement. In these instances, prisoners should be properly restrained based on their custody classification and returned to the MCF for out-processing and permanent release.

b. The MCF CO may delegate restraint authority to security personnel. MCF CO's will employ use of progressive restraint consistent with governing policy and guidance herein.

c. Restraint policy and guidance associated with prisoner custody classification is found in article 4201.2 of this manual.

d. The use of restraints on female prisoners during the active labor and delivery of a child is prohibited. Any deviation from this policy requires approval by, guidance on, and methodology from, the medical officer directing use of restraints and is based on serious security risks.

(1) The medical officer will provide guidance on the use of restraints on a pregnant prisoner prior to active labor and delivery.

(2) Restraints used on pregnant prisoners prior to active labor and delivery should not put the pregnant prisoner nor the fetus at risk.

e. Restraint equipment will be applied only for appropriate purposes and per applicable procedures. Staff and prisoner escorts must be specifically trained to each type of locally available authorized restraint.

f. Restraints may be authorized when regaining control during a disorder or when a prisoner is violent or escape-minded. If restraints are used because of a disorder or on a violent or disruptive prisoner, the brig officer will be notified immediately. The brig officer or designated senior security personnel will make an immediate on-site visit to observe that the use of restraints is appropriate and, where warranted, will report that use to their immediate superior in command. An incident report, a use of force statement, voluntary statements (including medical), and an updated scars and marks form must be submitted by the end of shift in all cases where restraints are applied in a non-routine use. In any case, senior security personnel will ensure restraints are removed as soon as practical.

g. Care will be taken not to unnecessarily display restrained prisoners to the public during transportation.

h. Staff may apply restraints to a prisoner who continues to resist after staff achieves physical control of that prisoner and may apply restraints to any prisoner who is placed under control by use of force (e.g., forced cell move). If a prisoner in a forcible restraint situation refuses to move to another area on his or her own, staff may physically move that prisoner by carefully lifting and carrying the prisoner to the appropriate destination. Staff members must not use the restraints for lifting or carrying a prisoner.

i. In circumstances when immediate use of restraints is required for control of the prisoner, the MCF CO or designee may require a prisoner to be restrained while in a cell or authorize restraints to remain on a prisoner once placed in a cell. Leaving prisoners restrained and unattended in a cell by themselves must not be authorized. Use of restraints on a prisoner in a cell must not be used unless a staff member directly and continually monitors the prisoner face-to-face. Staff must be cautioned and trained regarding the potential of injury to prisoners who are in restraints while in a cell by

themselves. Injury can result from situations where prisoners fall and are not able to protect themselves from harm because of restricted movement.

j. Restraint equipment or devices must be used as designed and may not be used in any of the following ways:

(1) About a prisoner's neck or face or in any manner that restricts blood circulation or obstructs the prisoner's airway. Binding must never be placed around a prisoner's mouth, nose, and neck, or so tight to a limb that circulation is restricted. Staff protective gear generally provides sufficient insulation from a prisoner's spitting or biting; therefore, no effort should be made by use of towels, sheets, blankets, hosiery, masks or any other devices to prevent a prisoner from spitting or biting. However, when endorsed by a medical officer and approved by the MCF CO, the use of a medical mask may be authorized on a prisoner.

(2) In a manner that causes unnecessary physical pain or extreme discomfort and:

(a) Staff in general and supervisory personnel in particular must ensure that unnecessary pressure is not placed on a prisoner's body in applying restraints (e.g.; the prisoner's chest, back, or neck). While the proper application of restraints may result in some discomfort, examples of prohibited uses of restraints would include, but are not limited to: "hog-tying;" unnecessarily tight restraints; improperly applied restraints; or unauthorized restraints. Soft restraints, when specifically authorized by a medical officer, should only be used when all lesser measures to prevent the prisoner from harming him or herself are not working or such use is in the interest of safety. Helmets may also be considered as protective devices. Videotaping the application of restraints during a forced-cell move or for self-injurious prisoners is a good practice. Having medical personnel observe and examine the prisoner after application is also good practice.

(b) Restraints will be administered in a natural body position. If restrained in a supine position (face up), head should be free to rotate from side to side and, when possible, elevate head of bed to prevent risk of aspiration. Always avoid use of prone position (face down) due to

possibility of a prisoner's airway becoming obstructed and lung expansion being restricted.

(4) To secure a prisoner to a fixed object, such as a cell door, cell grill, or vehicle component

k. De-escalation Interventions

(1) The effective handling of aggressive prisoners is one of the most demanding aspects of working in corrections. It is an area where good interaction and communication skills are required. The majority of situations, where there is a potential for violence, can be handled through effective communication. Staff must be trained to recognize the signs of aggression (e.g.; standing tall, red faced, raised voice, rapid breathing, direct prolonged eye contact, exaggerated gestures) and reasons for aggression (e.g.; frustration, unfairness, humiliation, immaturity, excitement, learned behavior, reputation, means to an end, decoy).

(2) Staff faced with aggressive prisoners should seek to defuse the situation as they continually assess the risk of violence. Staff should be cautious to do nothing to further escalate the situation, yet maintain control of the situation. Training must be provided to staff in methods to: appear confident; display calmness; create some space; speak slowly, gently, and clearly; lower their voice; avoid staring; avoid arguing and confrontation; show that they are listening; and calm the prisoner. Staff should adopt a non-threatening body posture: use a calm, open posture (sitting or standing); reduce direct eye contact (as it may be taken as a confrontation); allow the prisoner adequate personal space; keep both hands visible; avoid sudden movements that may startle or be perceived as an attack; avoid audiences, as an audience may escalate the situation.

(3) When MCF design supports single cells within the general population quarters, progressive restraint may also include de-escalation interventions such as staff directing a disruptive prisoner or prisoners to return to their cell for a "cool down" period. Such periods cannot exceed 30 minutes and all cases will be reported immediately to the CDO or DBS, be documented in the quarters supervisor’s log, and be brought to the attention of senior security personnel. Where warranted,

the CDO or DBS can extend the cool down period by an additional 30 minutes.

l. Staff and prisoner escorts should be thoroughly trained in the use of locally authorized restraints. Restraints can be cumbersome to apply and harmful to a prisoner if proper training is not provided. In the rare cases where restraint is required for pregnant prisoners, an approved vinyl or leather restraint belt should be used instead of a metal waist chain, whenever possible, to prevent injury to the prisoner or fetus. Where a metal waist chain is directed for use on a pregnant prisoner, where possible, medical personnel should check for proper application.

m. All prisoners in restraints, internal or external of the MCF, must be under direct and continuous observation, supervision and, if under movement, assisted control.

n. To support prisoner escorts, restraint guidance for use on a specific prisoner must be indicated in the "Remarks" field (block 6) of DD 2708 Receipt for Pretrial/Post-Trial Prisoner or Detained Person.

o. Requests for use for other than traditional "hard restraints" must be forwarded to BUPERS-00D or DC PPO with pictures, design intent, technical specifications, application procedures, and training curriculum. For audit purposes, authorizations must be retained locally and readily available for review.

3. Staff Training

a. Brig officers will ensure all correctional staff, to include support staff and prisoner escorts, are thoroughly trained in the policy, application, and use of available authorized restraint equipment and such training will be inclusive within pre-service and in-service training programs and documented within staff training records.

b. At a minimum, restraint-related training should include such issues as: restraint terminology; types of restraints; staff authorized to direct restraints; proper procedures for applying and removing restraints; de-escalation interventions; communication skills; role of the medical officer; terminology,

physiology, and medical risks associated with the application and the use of restraints; procedures for lifting or carrying a restrained prisoner; supervision, movement, and monitoring prisoners in restraints; measures to reduce the risk for asphyxia and death; and legal implications and liability.

## Section 4. Disturbances and Emergencies

### 4401. Prevention of Disturbances

1. There are causes for all disturbances. Trouble may be indicated when prisoners become restless and flare-up easily or when they avoid contact with staff members. Excessive numbers of disciplinary reports, requests for work or housing changes, and suicide attempts are indications of potential trouble and must be investigated. To eliminate incidents that could result in a riot or disorder, staff should be able to observe and detect tensions and unrest among prisoners and report them promptly. Frequent causes of disturbances are mistreatment, untrained staff, failure to separate problem prisoners, and improperly prepared or served food.

2. When an incident or disturbance occurs, staff members must identify individual prisoners involved and report their actions. Immediate identification and isolation of leaders may prevent development of a major disturbance. Staff members will be trained in the exercise of patience in the control of troublesome groups. Unnecessary use of force or arbitrary actions may precipitate a disturbance.

3. Each MCF must implement adequate disturbance and emergency plans, and all MCF staff must be trained in their implementation. Work stoppage and riot or disturbance plans are communicated only to appropriate supervisory or other personnel directly involved in the implementation of those plans. An annual review of all disturbance and emergency plans must be an essential element of staff pre-service and in-service training. New staff must be thoroughly familiar with all disturbance and emergency plans prior to their permanent post assignment.

4. The principles of Incident Command System for Corrections (ICS-C) will be followed in the development and implementation of emergency bills. The ICS-C is based upon the National Incident Management System (NIMS) protocols, which identify

steps for improved coordination in response to incidents that impact correctional operations. The result of the basic protocols is emergency management and incident response systems that provide a common operating picture, to include common incident response procedures, communication and language spoken, and universal priorities which applies across the spectrum of response agencies and departments whether Federal, State, local, or tribal governments. NIMS protocols directly relate to corrections and detention settings.

4402. Controlling Disturbances

1. Staff personnel must avoid use of force where the assigned responsibilities can be effectively discharged without its use. If security cannot be accomplished without the use of force, personnel will use the minimum amount of force necessary to control the situation.

2. When deciding a course of action, consideration must be given to general public safety, safety and welfare of hostages (if any), prevention of loss of life or injury to other personnel, prisoner welfare, and protection of property.

4403. Priorities of Force. Use of physical force is restricted to instances of justifiable self-defense, protection of others, protection of property, prevention of escapes, and to maintain or regain control, then only as a last resort per this manual. When use of force is necessary, it will be exercised according to priorities of force and limited to the minimum degree necessary under the particular circumstances. All instances requiring the use of force must be fully documented. Use of firepower is justified only when ordered by the MCF CO or higher authority, under conditions of extreme necessity as a last resort, and when all lesser means have failed or cannot be reasonably employed. Examples of such circumstances are stated in article 4404 of this manual. The application of any or all of the priorities of force listed or the application of a higher priority of force without first employing a lower priority of force will depend on and be consistent with the situation encountered during any particular disorder. Priorities of force and who may order them are as follows:

| **Priority of Force** | **Who May Order (billet)** |
|---|---|
| An order | Any staff member |
| Show of force (condition or code) | Any staff member |
| Show of force (organized) | Brig officer or authorized representative |
| Use of physical force (individual) | Staff member in self-defense or CDO or DBS |
| Use of physical force (organized) | Brig officer or authorized Representative (if immediate action is required; otherwise CO |
| Chemical agents (OC spray) | CO |
| Use of batons | CO |
| Non-lethal munitions or use use of high pressure water water | CO |
| Fire by selected marksmen or full firepower | CO |

4404. Deadly Force. Deadly force is defined as that force which is used with the purpose of causing, or which a person knows or should know would cause, a substantial risk of death or serious bodily harm.

1. The following are examples of extreme situations where use of deadly force may be directed:

a. To protect citizens, staff personnel, or hostages when a reasonable belief exists that they are in imminent danger of death or serious bodily harm; or

b. To prevent the commission of a serious offense involving violence and the threatened death or serious bodily harm to another prisoner

2. The CO must verify that all elements of intent, capability, and opportunity are in place prior to application of deadly force.

a. Intent. Threat or will of a person to cause injury to another

b. Capability. A means to carry out the threat; i.e., a weapon of some sort

c. Opportunity. Space in which a subject is in to complete the threat. Subjects with knives cannot injure individuals 50 yards away; however, if they had pistols the situation changes.

4405. Emergency Response Plan. The MCF emergency response plan will be prepared to ensure the safety of staff and prisoners in the event of an emergency and reviewed annually. At a minimum, the MCF must publish the following required bills; fire, escape, riot, hostage, natural disaster, work stoppage, hunger strike, and bomb threat. MCF staff must be trained in the implementation of written emergency response plans during pre-service and in-service training. Emergency response plans will specify the means for immediate release of prisoners from locked areas in case of an emergency requiring evacuation and provide for a back-up system in case the primary system fails. These plans must be safeguarded to ensure prisoners do not have access.

1. Fire Bill. Fire bills will provide for the following:

a. Secure and prompt evacuation of all personnel to a pre-selected control point and the means for the immediate release of prisoners from locked areas in case of emergency and provide for a back-up system of release;

b. Availability of efficient firefighting equipment at all times;

c. Modern, portable fire extinguishers in close proximity to all living quarters and at other strategic locations, as determined by the fire marshal;

d. Keys to emergency exits properly controlled and distinctly marked;

e. Availability of portable floodlight equipment;

f. Prisoners will be trained in fire evacuation procedures;

g. Prominent posting of primary and alternate evacuation routes and use of exit signs and directional arrows for traffic flow as information to staff and prisoners in quarters and administrative spaces;

h. Fire drills to be conducted at least monthly and recorded in the brig log;

i. All fire bills must be coordinated with and approved by the installation fire department. Fire bills must be reviewed annually, updated if necessary, and re-approved by the installation fire department; and

j. Detailed plan of building(s) for fire department only.

2. Escape Bill. All precautions must be taken to prevent the escape of prisoners. Reasonable precautions include proper custody classification of prisoners, adequate instruction and supervision of staff, alertness of all staff members, a system of security inspections, and issuance of an adequate escape bill. All staff members and prisoner escorts from other activities or units must be familiar with procedures to be followed in the case of an escape or attempted escape. In the event of an escape, or attempted escape, action as outlined below must be taken.

a. Attempted Escape from a MCF. If a prisoner attempts to escape from inside the MCF, take action in the following order:

(1) Command the prisoner to “halt” and repeat the command one time, if necessary.

(2) If unsuccessful using the command "halt," prevent the escape by physical pursuit and restraint as may be necessary under the circumstances.

(3) An escape, whether successful or unsuccessful, will tend to cause unrest and could lead to a disturbance. Care must be taken to ensure a proper count is conducted and the daily routine is resumed as soon as possible; and

(4) If the prisoner is injured when captured, request medical assistance immediately.

b. Attempted Escape from an Escort. If a prisoner tries to escape from an escort outside the MCF or if the person refuses to obey an order to remain with the detail, the escort will attempt to restrain the prisoner with any effective means at hand, provided it can be done without jeopardizing control over the remaining prisoners in the detail. If the prisoner successfully escapes, the escort will move the remaining prisoners to the nearest means of communication, report the incident to the MCF and request instructions.

c. Escape Bill Requirements. Specific procedures that can be used quickly when an escape occurs should be made available to all staff. Procedures must include the following: prompt reporting of the escape to the MCF CO; mobilizing of staff; implementing of a predetermined search plan; notify base security or provost marshal's office; higher headquarters; public affairs office; preparing of escape circulars for distribution and mailing; and, after apprehension of the escapee, promptly notify all who were previously alerted to the escape. Additional considerations include:

(1) Procedures for reporting absence of a prisoner and sounding the alarm without loss of time;

(2) Maintenance of an up-to-date list of all staff members with addresses and telephone numbers so they can be recalled when needed (emergency recall bill). The recall roster must be safeguarded to ensure compliance with personally identifiable information requirements and tested every quarter, at a minimum, to verify accuracy of recall numbers and response time of staff members;

(3) A listing of escape posts to be manned while the search is in progress. These may be divided into groups that provide for coverage according to areas and known circumstances;

(4) Escape post-specific instructions will be provided for each staff member assigned to an escape post. Instructions will include post number, location of nearest law enforcement agency, and any other information that will assist staff members when they arrive on the post. Portable communication will be issued for each escape post;

(5) Provisions for notification of military and civil law enforcement agencies in the area when an escape has occurred and their notification upon apprehension. The applicable Service Deserter Information Point (DIP) will be notified immediately via telephone with a message to follow the next working day, and DD 553 Deserter/Absentee Wanted by the Armed Forces will be completed and forwarded to the Service DIP by the most expeditious means available. The below points of contact are provided:

(a) USN: Toll free (877) 663-6772
Commercial (901) 874-2522

(b) USMC: Commercial (703) 604-0395, 6666

(c) USA: Commercial (502) 626-3711

(d) USAF: Toll free (800) 433-0048
Commercial (210) 565-3727

(6) Provisions for picking-up personnel assigned to outlying posts and for turn-in of equipment;

(7) Provisions for not disrupting unrelated activities of the installation or station; and

(8) Provisions for securing and preserving any evidence of, or related to, the escape.

3. Riot Control Bill

a. Personnel assigned to riot control response units must be properly equipped and trained in local riot control measures.

b. Each team must be given specific instructions in the course(s) of action to be followed.

c. An assessment of the situation must be made before committing personnel to a condition that could result in a hostage-taking situation. Reinforcements must be called as necessary to handle the situation and they will be assembled as soon as they arrive. This delay can be used to plan the operation and determine immediate objectives. Outer perimeter must be secured.

d. Chemical agents may be used as directed by article 4308 of this manual.

e. Prior arrangements must be made for appropriate emergency response units, not assigned to the MCF, to secure the outside perimeter of the MCF to prevent escape during the period of time spent in forming and briefing the MCF riot squad. Practice drills must be held on a periodic basis. Kind and amount of force used will be directed by the situation. A standby reaction force will be employed as required.

f. Riot control bills must provide for the following:

(1) Sounding the alarm;

(2) Basic procedures for dealing with riots in the mess hall, recreation area, auditorium, or any place where large numbers of prisoners normally gather; and

(3) Instructions for identifying, separating, and housing agitators and ringleaders

g. Provisions for notifying the MCF CO; security, fire, and utilities departments; public affairs; and staff members (emergency recall bill) who may be needed in controlling the riot

h. Safety measures for staff and prisoners who are not participants

i. Provisions for the protection of property

j. Taking immediate steps to close the security perimeter to any avenue of escape or breaching

k. Procedures for localizing the disturbance

l. Procedures to be followed in the event of a hostage-taking situation

m. Procedures for permitting withdrawal from the affected area by prisoners not wishing to participate

n. Provisions made for securing communications facilities, heat, water, and main electrical controls

o. Cause of the disturbance will be ascertained if possible. Rioters may be conferred with, but no promises will be made regarding any demands other than they will have a fair hearing. Use of a formally trained negotiator must be provided for in the emergency bill, but senior decision-making personnel must not become directly involved in negotiations with prisoners.

p. Personnel will be instructed to closely observe actions of the prisoners in order to provide future evidence concerning the agitators and ringleaders.

q. Use of cameras and video recording is encouraged during disturbances as they can serve as a deterrent, as well as providing graphic evidence in the case of future disciplinary hearings. A bullhorn, video camera, and tape recorder are practical equipment to have available for disturbances.

r. Detailed plan of building(s) (blueprint or video)

s. Steps must be taken as soon as the disturbance is under control to ensure no one has escaped and that the physical plant of the MCF is secure.

(1) Segregate all prisoner participants of the riot and assign sufficient supervision to prevent a recurrence of the disturbance.

(2) Account for all prisoners and involved staff.

(3) Provide extra supervisory personnel in all quarters and mess hall until it is certain the disorder is completely subdued.

(4) Segregate all prisoner leaders and agitators in the RHU pending investigation.

(5) Curtail all work and recreation activities, if necessary, and rearrange dining schedules so it is possible to provide adequate supervision for small groups of prisoners.

(6) Conduct a thorough investigation of the incident.

(7) Photograph all damaged areas and destruction before making repairs.

(8) Arrange for repair of damage to the MCF's physical plant and equipment.

(9) Debrief staff members.

(10) Evaluate use of traumatic stress teams.

4. Hostage Bill. Proper training of all staff members and specialized training of hostage reaction teams is imperative. A person, regardless of grade, held hostage has no authority. All orders received from an individual under duress or being held hostage will be referred to the applicable (non-hostage) staff member in the chain of command before being acted upon.

5. Natural Disaster Bill

a. If a MCF is not secure enough to withstand natural disasters, prisoners and staff may be evacuated prior to the final alert stage or condition. Pre-planning and coordination must be made with BUPERS-00D or DC PPO as appropriate.

b. Disaster bills must include the following:

(1) A secure area or structure must be predetermined for the security and prompt evacuation of all personnel

(2) Evacuation routes must be carefully predetermined for security and prompt evacuation of all personnel and take into account natural and manufactured barriers along the route

(3) Emergency food, water, first-aid supplies, fuel, and communications planned for either evacuation site or remain-in-place operations (3-day supply)

(4) If time permits, individual prisoner records will accompany personnel to the evacuation site.

(5) MCFs will be secured once evacuation is complete.

(6) Medical assistance must be provided for injured personnel.

(7) Procedures to account for all personnel and a plan to effect the orderly return to the MCF; and

(8) Working parties will be formed as necessary to repair damage and clear debris.

6. Civilian Work Stoppage Bill. A work stoppage occurs when civilian staff members actively demonstrate dissatisfaction by striking, calling in sick, and or creating work slowdowns or substandard performance.

a. Procedure. At a minimum, each MCF must maintain a work stoppage bill that includes:

(1) Continuity of operations based on the length of the adverse action(s);

(2) Security and safety;

(3) Communications with employees;

(4) Communication with the public affairs office; and

(5) Documentation of employee actions during adverse job actions.

b. After Action. At a minimum, upon resolution of a work stoppage, the MCF must:

(1) Devise a plan to release temporary assigned personnel from other commands;

(2) Resume normal MCF operations as soon as possible;

(3) Analyze cause of the action; and

(4) Analyze lessons learned for improvements.

7. Hunger Strike Bill. MCFs must publish a hunger strike bill consistent with the provisions contained within article 10201.6 of this manual.

8. Bomb Threat Bill. MCFs must prepare a bomb threat bill to react to bomb threats or explosions. Any type of bomb threat must be treated seriously and never ignored. All threats must be investigated before making a declaration that the threat is a hoax. The bomb threat bill must contain the following procedures:

a. Bomb threat by phone (bomb threat checklist);

b. Bomb threat by mail;

c. Suspicious items;

d. Event of an explosion;

e. Threat evaluation;

f. Bomb search procedures;

g. Bomb search techniques;

h. Evacuation;

i. Reporting or notification requirements; and

j. After action reports

**DEPARTMENT OF THE NAVY**
NAVAL CONSOLIDATED BRIG CHARLESTON
1050 REMOUNT RD, BLDG 3107
CHARLESTON. SC 29406-3515

UNITED STATES NAVAL
CONSOLIDATED BRIG CHARLESTON
CODE: 20
DATE: 14 JAN 2025

SOP: 401
SUBJECT: CLASSIFICATION
TITLE: CUSTODY CLASSIFICATION

Ref: (a) SECNAV M-1640.1
(b) ACA Standards **5-ACI-2B-02, 5-ACI-2B-03, 5-ACI-5B-01, 5-ACI-5B-02, 5-ACI-5B-03, 5-ACI-5B-04, 5-ACI-5B-05, 5-ACI-5B-06, 5-ACI-5B-07, 5-ACI-5B-08, 5-ACI-5B-09, 5-ACI-5B-11, 5-ACI-5B-12, 5-ACI-5F-03, 5-ACI-7A-09**
(c) NAVCONBRIG CHASN SOP 633
(d) NAVCONBRIG CHASN SOP 635
(e) NAVCONBRIG CHASN SOP 431

Encl: (1) 48 Hour Notice of Classification Form

Cancellation. NAVCONBRIGCHASNSOP 401 of 28 Jun 2023.

Effective date. Twenty-four hours after issue.

1. Purpose. To set forth policies and procedures governing objective classification for prisoner custody level.

2. Applicability. To all staff and prisoners.

3. Definitions

a. Classification. A process for objectively determining the level of security and program requirements for prisoners based upon existing resources.

b. Custody. The degree of supervision each prisoner requires.

c. Prisoner. An individual in naval confinement. This includes individuals in pretrial confinement.

d. Unit Team. The Unit Teams are appointed by the Commanding Officer and comprised, at a minimum, of a Unit Manager, Unit Counselor, and Quarters Supervisor (s).

e. Security Perimeter. That area within the confines of the facility walls and/or the dual twelve-foot fence.

4. Policy

a. Staff will determine the degree of supervision, restraint and control needed for individual prisoners. This will be based on individual interviews and a review of all available records as from intake, orientation, program plan development, and evaluation by staff. Initial classification actions will be completed by the Command Duty Officer (CDO). Reclassification actions will be completed by the Unit Team and Classification and Adjustment Board (C&A Board) and approved by the Brig Officer or designee.

b. A written policy, procedure, and practice provide for a written prisoner classification plan. The plan specifies the objectives of the classification system and methods for achieving them, and provides a monitoring and evaluation mechanism to determine whether the objectives are being met **(5-ACI-5B-01)**.

c. The classification system will specify the level of custody required and provides for a regular review of each classification **(5-ACI-5B-02)**.

d. The classification plan will provide for maximum involvement of representatives of relevant institutional programs and the prisoner concerned in classification reviews **(5-ACI-5B-03)**.

e. The institution or parent agency solicits and uses pre-institutional assessment information regarding the prisoner's progress and adjustment **(5-ACI-5B-04)**.

f. At initial classification, each prisoner will be assigned to a staff member to ensure supervision and personal contact; a unit team may perform this function **(5-ACI-5B-05)**.

g. The written plan for each prisoner classification status will be reviewed at least every 12 months **(5-ACI-5B-06)**.

h. The classification plan specifies criteria and procedures for determining and changing a prisoner's program status; the plan includes at least one level of appeal **(5-ACI-5B-07)**.

i. Unless precluded for security or other substantial reasons, all prisoners appear at their classification hearing and are given notice 48 hours prior to the hearing; such notice may be waived by the prisoner in writing **(5-ACI-5B-08)**.

j. Prisoners may initiate a review of their progress and program status by submitting a request to their unit team **(5-ACI-5B-09)**.

k. Special needs prisoners will be identified by receiving personnel, clinical, medical, or unit team staff or other qualified personnel **(5-ACI-5B-11)**.

l. Adjudicated delinquent offenders and youths charged with offenses that would not be crimes if committed by adults will not reside in the brig **(5-ACI-5B-12)**.

m. The maximum size of a single management unit is variable and is based upon the characteristics of its prisoner population but does not exceed 80 prisoners. The exact size of each management unit is determined by (1) the security classification of the prisoner occupants (higher security levels require smaller unit size), and (2) the ability of staff to complete regular security checks, maintain visual and auditory contact, maintain personal contact and interaction with prisoners, and be aware of unit conditions **(5-ACI-2B-03).** The Brig rated capacity is 175 which is designated by PERS-00D.

n. Security and program determinations necessary for any individual to be eligible for industries work are made by the unit team and the C&A Board, as outlined in ref (d) **(5-ACI-7A-09).**

o. Graduated release through a systematic decrease in supervision and corresponding increase in prisoner responsibility will be considered during the classification process **(5-ACI-5F-03).**

p. Staff and prisoner interaction are encouraged. Brig staff, particularly Unit Teams, follow the unit management system which provides staff with the authority to make decisions, and the ability to make recommendations regarding security, classification, services, and programs for prisoners as out lined in ref (c) **(5-ACI-2B-02).**

q. A graduated release through a systematic decrease in supervision and corresponding increase in prisoners responsibility is part of the classification program **(5-ACI-5F-03).**

r. The security and program determinations necessary for any individual to be eligible for industries work are made by the Classification and Assignment Board **(5-ACI-7A-09).**

5. Procedures

a. Initial Custody Classification. The initial custody classification is conducted during the reception process by the CDO using pre-institutional assessment regarding progress and adjustment **(5-ACI-5B-05).** The facility solicits and uses pre-institutional assessment information regarding the prisoner's progress and adjustment **(5-ACI-5B-04).** The CDO shall ensure the following are completed:

(1) Complete Prisoner Background Summary DD Form 2710.

(2) Complete Initial Custody Classification Form DD Form 2711.

(3) Determine prisoner level of custody and identify any special needs or problems **(5-ACI-5B-11).**

(4) An initial custody classification of MDI will be assigned to all pre-trial and post-trial prisoners, except when MAX is required due to special circumstances. Under no circumstances should a prisoner have an initial classification of MDO/MIN/IC.

(5) Classification actions are entered into the Corrections Management Information System (CORMIS).

(6) All prisoners shall be initially assigned to the Special Quarters' Chief to ensure supervision and personal contact, pending clinical/medical clearance and urinalysis. Once cleared, the prisoner will be assigned to the Orientation Housing Unit. **(5-ACI-5B-05).** **Transient prisoners will remain in Special Quarters until transfer is affected.**

(7) Policy, procedure, and practice provide for a written prisoner classification plan. The plan specifies the objectives of the classification system and methods for achieving them, and it provides a monitoring and evaluation mechanism to determine whether the objectives are being met **(5-ACI-5B-01).**

(8) Adjudicated delinquent offenders and youths charged with offenses that would not be crimes if committed by adults will not reside in the brig **(5-ACI-5B-12).**

b. Prisoner Notification. Unless precluded for security or other substantial reasons, all prisoners will be given the opportunity to appear at their classification hearing. They will be notified in writing at least 48 hours before the next Classification Review, using enclosure (1). Prisoners may waive the 48 hour notice and/or their right to appear at the hearing **(5-ACI-5B-05).** The right to appeal the outcome to the Commanding Officer is retained even if the prisoner declines to appear. Unless precluded for security or other substantial reasons, all prisoners appear at their classification hearing and are given notice 48 hours prior to the hearing; such notice may be waived by the prisoner in writing **(5-ACI-5B-08).**

c. Custody Reclassification. Custody reclassification shall be focused on the graduated release through a systematic decrease in supervision and corresponding increase in prisoner responsibility **(5-ACI-5F-03).**

(1) After orientation, prisoners will be reviewed by the Orientation Unit Team for placement in the general population, custody, housing, work, and special programs. Reclassification will be done if the following occurs:

(a) Meeting time requirements listed in paragraph (d) below.

(b) A guilty finding from a Discipline and Adjustment Board.

(c) Receipt of more than three negative spot reports within a 90-day period.

(d) After movement from disciplinary segregation.

(e) Any time determined appropriate by a unit team member or at the prisoner's request.

(2) To effect a reclassification review; the Unit Team will:

(a) Complete the Custody Reclassification Form DD Form 2711-1. This form is verified by the Unit Manager with input from the Unit Team. If the Unit Team agrees with the objective recommendation, "no" is circled on the override line. If the C&A Board disagrees recommendation, "yes" is circled with the override code and rationale written on the form for review by the Brig Officer. Override of the objective classification recommendation will be determined by the Brig Officer. An override will normally increase/decrease the custody by one level unless otherwise approved by the Brig Officer.

(b) Determine change in custody level and housing assignment.

(c) Notify the prisoner of the unit team decision.

(d) Forward form to Brig Officer via the Classification and Adjustment Board (C&A Board), a multi-disciplinary board, in accordance with SOP 635, and place completed form in the prisoner's file after Brig Officer's approval **(5-ACI-5B-03)**.

(e) Input the classification actions into CORMIS after final approval is received.

d. Time Schedule for Reclassification. In accordance with reference (b), reclassification of prisoners will be accomplished by the Unit Team as follows **(5-ACI-5B-02) (5-ACI-5B-06)**:

| Criteria | Pretrial | Post-Trial |
|---|---|---|
| At completion of orientation or upon change in legal status | Maximum Custody | All |
| Every 30 Days | Maximum Custody | Maximum Custody |
| Initiated by staff recommendation to change custody classification to a higher/more restrictive level based on identification of risk, other salient factors or management problems. (e.g., MDI to MAX) | Medium-In Custody | All except Maximum Custody |
| Initiated by staff recommendation to change custody classification to a lower/less restrictive level based on performance, risk or other salient factors. (e.g., MDI to MDO) | N/A | All except Installation Custody |
| Quarterly* | N/A | Medium-In, or those with sentences of one year or less |

| | | |
|---|---|---|
| Semi-annual* | N/A | All with sentences of 1 to 3 years |
| Annual* | N/A | All with sentences over 3 years |

*Reclassification may also be conducted based on review of the prisoner's hard-card, work evaluations, disciplinary actions, or other performance or security issues. This review is initiated by the Unit Team at its weekly meeting, which reviews prisoner hard-cards and other related performance information. A review of the prisoner program plan will also be conducted at least annually and documented in CORMIS.

e. Prisoner Initiated Reclassification. Prisoners may initiate a review of their progress and program status, and custody classification at any time by submitting a DD Form 510 request to their unit team **(5-ACI-5B-09)**. If a request for custody classification is received, the Unit Team will assess the prisoner and make a recommendation to the C&A Board. The C&A Board will review the prisoners request and Unit Team recommendation, and forward their recommendation to the Brig Officer for approval.

f. Guidelines for Custody Reclassifications. The Unit Team shall take into consideration the degree of supervision and restraint needed for control of individual prisoners, inside and outside the security perimeter, as outlined in Reference (a), Article 4201. The Unit Team/C&A Board will use the following guidelines to establish proper custody classification assignments for all post-trial prisoners; exceptions to any of the elements listed below must be approved by either the CO or XO.

**NOTE: Time awarded for pretrial confinement and other administrative credits deemed appropriate by the court will be considered as time served and used in computing minimum time eligibilities for custody classification.**

(1) Maximum Custody (MAX). Pre-trial and post-trial prisoners requiring special custodial supervision because of the high probability of escape, are potentially violent or dangerous, and those who are at risk of harming themselves. Ordinarily, only a small percentage of prisoners shall be classified as MAX.

(2) Medium Inside (MDI). Pre-trial and post-trial prisoners who present security risks not warranting MAX and are not regarded as dangerous or violent.

(a) Assigned to all new prisoners, except those specifically deemed to be serious management problems (MAX), shall be assigned a MDI custody classification during the reception/orientation phase.

(b) All pre-trial prisoners will maintain an MDI custody classification, except those specifically deemed to be serious management problems (MAX).

(c) Assigned to General and Special Courts-Martial prisoners who have more than 90 days remaining on their sentence and who have not served one fourth 1/4 of their sentence to confinement.

(d) May also be used when special circumstances warrant (e.g., previous or current conduct in confinement, convicted of serious violent crime, previous convictions, escape risk, pending civil charges, etc.).

(3) Medium Outside (MDO). Post-trial prisoners who present security risks not warranting MDI are considered MDO prisoners.

(a) Will normally be assigned to Summary Courts-Martial prisoners after completion of orientation unless special circumstances warrant remaining MDI.

(b) Assigned to General and Special Courts-Martial prisoners who have served one fourth (1/4) of their sentence to confinement or have less than 90 days remaining on their sentence to confinement unless special circumstances warrant remaining MDI (e.g., convicted of serious violent crime, previous convictions, escape risk, pending civil charges, etc.).

(4) Minimum Custody (MIN). Post-trial prisoners who present security risks not warranting the above classifications are considered MIN prisoners.

(a) Summary courts-martial prisoners may be assigned upon completion of orientation if facility needs require.

(b) May be assigned to General and Special Courts-Martial prisoners who have served one third (1/3) of their sentence to confinement or have less than 2 years remaining on their sentence to confinement.

(c) Must be active in or completed all required programs associated with their convicted offense(s) or any other condition that may exist (i.e., Sexual Offender Education (SOED), General Violence (GO) Treatment, Innovative Skills, Techniques, Options and Plans for Better Relationships (STOP) Treatment, Substance Use Treatment).

(d) No DRs or negative Observation Reports within 90 days. If more than 3 DR's received, prisoner must have completed 120 days without incident since their last DR. Exceptions may be granted on a case-by-case basis. Should a minimum custody prisoner be found guilty at a disciplinary hearing, the prisoner shall be reviewed for increased custody.

(e) Work and Training Reports must reflect above average to outstanding marks.

(f) A prisoner increased from minimum custody will not normally be reassigned to minimum.

(5) Installation Custody (IC). Certain post-trial prisoners who require only limited custodial supervision. They may work and move about much the same as individuals in a normal duty status.

(a) Assigned to prisoners upholding the highest standards of personal conduct and behavior.

(b) Have completed at least one half (1/2) of their confinement adjudged, or the convening authority has acted, whichever occurs first.

(c) No violent charges or any charges that are of a sexual nature.

(d) No more than twelve months from minimum release date.

(e) Never previously removed from IC classification for poor performance or behavior.

(f) Must be active in or completed all required programs related to their offense or any other condition that may exist.

(g) No DR's or negative Observation Reports within 180 days of the nomination. If more than 3 DR's received, he must have completed 180 days without incident since his last DR. Exceptions may be granted on a case-by-case basis.

(h) Work and Training Reports must reflect above average to outstanding marks.

(i) Consideration will be taken when assigning jobs to prisoners adjudicated for serious sexual or aggravated assault offenses.

(j) IC Classification shall be administered in accordance with ref (e).

g. Other Factors Affecting Custody Classification

(1) Factors, though not all inclusive, to be considered in assessing higher custody classifications (MAX or MDI) include:

(a) Assaultive behavior.

(b) Disruptive behavior.

(c) Serious drug abuse.

(d) Serious civil/military criminal record (convicted or alleged).

(e) Low tolerance of frustration.

(f) Intensive acting out or dislike of the military.

(g) History of previous escape(s).

(h) Pending civil charges/detainer filed.

(i) Serving a sentence which the individual considers to be unjust or severe.

(j) Poor home conditions or family relationships.

(k) A mental evaluation indicating serious neurosis or psychosis.

(l) Indication of unwillingness to accept responsibility for personal actions past and present.

(m) Demonstrated pattern of poor judgment.

(n) Length, or potential length, of sentence.

(o) Gang affiliation or ties with disruptive organizations.

(p) Awaiting transfer to another confinement facility.

(q) Refusal to accept/participate in recommended treatment programs.

(2) Factors that indicate lower custody classifications (MDO, MIN, or IC) include:

(a) Clear military record, aside from present offense.

(b) Close family ties; good home conditions.

(c) The offense(s) charged is not serious.

(d) Apparently stable mental condition (responsible for own actions).

(e) Indications the individual wishes to return to duty.

(f) Comparatively short sentence to confinement; however, length of sentence shall not be an overriding factor.

(g) Behavior during a previous confinement.

(h) Completion of, or active participation in, treatment programs or groups.

(3) The factors listed above are indicators, not ironclad rules; therefore, the Brig Officer will consider objective based overrides where applicable. An evaluation of all phases of prisoner performance shall be made prior to each custody change. By following the criteria and concepts outlined above, the Brig Officer shall be able to make more efficient use of staff and provide an atmosphere in which rehabilitative efforts shall be more effective.

h. Staff and prisoner interaction are encouraged. Brig staff, particularly unit teams, follow the unit management system which provides staff with the authority to make decisions, and the ability to make recommendations regarding security, classification, services, and programs for prisoners (see SOP 633) **(5-ACI-2B-02)**. The maximum size of a single management unit is variable and is based upon the characteristics of its prisoner population but does not exceed 80

prisoners. The exact size of each management unit is determined by (1) the security classification of the prisoner occupants (higher security levels require smaller unit size), and (2) the ability of staff to complete regular security checks, maintain visual and auditory contact, maintain personal contact and interaction with prisoners, and be aware of unit conditions **(5-ACI-2B-03).**

i. The security and program determinations necessary for any individual to be eligible for industries work are made by the Classification and Assignment Board **(5-ACI-7A-09)**.

6. Appeals. Appeals of classification decisions shall be forwarded to the Commanding Officer via DD Form 510 in accordance with the Prisoner Handbook (5-ACI-5B-07).

7. Records Management. Records created as a result of this SOP, regardless of media or format, must be managed per Secretary of the Navy Manual 5210.1 of January 2012.

8. Review and Effective Date. Per OPNAVINST 5215.17A, the originator will review this instruction annually around the anniversary of its issuance date to ensure applicability, currency, and consistency with Federal, Department of Defense, Secretary of the Navy, and Navy policy and statutory authority using OPNAV 5215/40 Review of Instruction. This instruction will be in effect for 10 years, unless revised or cancelled in the interim, and will be reissued by the 10-year anniversary date if it is still required, unless it meets one of the exceptions in OPNAVINST 5215.17A, paragraph 9.

## 48 HOUR NOTICE OF CLASSIFICATION

The notice is to advise you that your classification status will be reviewed as explained below. You are encouraged to attend this classification hearing - it is your opportunity to personally hear the discussion and consideration of the factors that affect your classification. If you choose not to attend you still retain the right to appeal the outcome to the Executive Officer. You may waive the 48 hour notice and/or your right to appear at your hearing. Such notice will be made by your signature, which verifies your preference and indicates receipt of notice.

**DEPARTMENT OF THE NAVY**
**NAVY-MARINE CORPS TRIAL JUDICIARY**
**CENTRAL JUDICIAL CIRCUIT**
**GENERAL COURT-MARTIAL**

| | |
|---|---|
| **U N I T E D S T A T E S**<br><br>**v.**<br><br>**JERMIAH COPELAND**<br>**CSSN / E-3**<br>**U.S. NAVY** | **GOVERNMENT RESPONSE TO DEFENSE MOTION FOR APPROPRIATE RELIEF: REVIEW OF PRETRIAL CONFINEMENT**<br><br>**8 SEPTEMBER 2025** |

## MOTION

1. This Court lacks jurisdiction to consider the Defense's motion. Specifically, because the Defense is not challenging the propriety of confinement as defined by R.C.M. 305 and 309 and is instead challenging the conditions of confinement, there is no jurisdiction under Article 30a, UCMJ to conduct a proceeding for this motion.

2. Alternatively, if this Court has jurisdiction, the Defense's motion is without merit and should be denied. The Accused's maximum confinement (MAX) status does not unlawfully interfere with private pretrial preparation with his Defense counsel. In this case, the Government's regulations are "reasonably related to legitimate penological interests."[1]

## JURISDICTION

3. Article 30a, UCMJ provides limited bases for proceedings to occur prior to referral.[2] Included among these bases are "[p]re-referral matters relating to . . . [p]re-trial confinement of the Accused."[3] But Article 30a also directs that "[t]he President shall prescribe regulations" for these types of proceedings. Those regulations can be found in Rule for Court-Martial (R.C.M.) 309. What is not included in Article 30A or R.C.M. 309 are pre-referral motions like the current motion before the Court challenging the conditions of confinement.

4. Specific to pretrial confinement, R.C.M. 309 provides that pre-referral proceedings for pretrial confinement are limited only to a "review of the propriety of pretrial confinement" as previously decided by a reviewing officer under R.C.M. 305(j)(2)(C).[4]

5. Rule for Court-Martial 305(j)(2)(C) explains what that reviewing officer's previous decision entails. Within 7 days of imposition of confinement, a reviewing officer must review the initial

1. *Turner v. Safley*, 482 U.S. 78, 89 (1987).
2. Art. 30a, UCMJ.
3. Art. 30a(a)(1)(E), UCMJ.
4. R.C.M. 309(b)(6).

probable cause determination as well as the necessity of continued pretrial confinement. This includes a review of the findings that "(1) an offense triable by court-martial has been committed; (2) the person confined committed it; and (3) confinement is required by the circumstances," including if the confinee will not appear at trial, pretrial hearings, or preliminary hearings, if the confinee will engage in serious criminal misconduct, and if less severe forms of restraint are inadequate.[5] The discussion section of R.C.M. 305(i)(2) provides a number of factors to assess when making this determination. Of note, the right to counsel is not included for consideration.

6. The motion submitted by the Defense does not challenge the propriety of pretrial confinement. The Defense does not allege a lack of probable cause or the necessity of pretrial confinement. Because access to counsel is not a consideration when weighing the propriety of pretrial confinement, there is no jurisdiction to hear this motion under Article 30a.

7. But should this Court disagree and find that it does have jurisdiction, the facts, law and argument put forth below establish that the Defense's motion lacks merit and should be denied.

**FACTS**

8. The Accused was ordered into confinement on 9 June 2025.[6]

9. The Accused is classified as a MAX prisoner and has been since the start of his confinement.[7] MAX is defined as "[p]risoners requiring special custody supervision because of the high probability of escape or are potentially violent or dangerous, and whose escape would cause concern of a threat to life, property, or national security."[8]

10. Initially, the Accused spent 22 hours a day in his cell. As of 11 August 2025, his status was stepped down and he now spends 21 hours a day in his cell but is still in a MAX status.[9]

11. Every 30 days, his classification is reviewed.[10] The board considers a range of factors from SECNAV M-1540.1, such as his behavior at the brig, the prisoners' civilian and military record, the seriousness of the offenses alleged, and the potential length of confinement awarded if found guilty in calculating a certain amount of points.[11] If a certain threshold is met, the classification is reduced.[12] The Accused has the option to appeal the board's determinations to keep him in a MAX status, but has not done so.[13]

10. Encls. 1; 3 at 5.
11. Encl. 1; *see also* Encl. 2 at 4-10 to 4-13; Encl. 3 at 8-9.
12. Encl. 1.
13. Encl. 1; Encl. 3 at 10.

12. The Accused's step-down on 11 August provides him an additional hour a day outside of his cell to clean.[14] This was done to allow him additional opportunity to prove that his behavior is improving and that re-classification may be appropriate.[15]

13. While in MAX, the Accused is allowed private phone calls and visitation with his defense counsel in a no-contact booth.[16] Private phone calls can be accommodated at any time as long as the request is made during business hours (0730-1530).[17] The no-contact booth is only occupied by the attorneys and the Accused, has plexiglass in the middle with slots to pass documents between client and attorney, allows for videos to be seen by the client, and can have white noise machines placed outside of the booth to avoid conversations being overheard by anyone outside of the attorney-client conversation.[18] No requests have been made by the Defense for the use of a white noise machine.[19]

14. Charges were preferred against the Accused on 22 August 2025.[20] These charges include allegations of premediated murder and violent sexual misconduct.[21] These allegations span five victims in a less than one-year period.[22]

15. Both during and after the commission of the alleged offenses, but before the imposition of pretrial confinement, the Accused searched for options to escape.[23] Specifically, he searched for directions to "Bermuda" on 29 May 2025, the date of the alleged murder, and conducted searches for "norfolk airport" and "virginia airport" in the following days.[24]

**BURDEN**

16. In this motion for appropriate relief, the Defense bears the burden of proof by a preponderance of the evidence and the burden of persuasion as the moving party.[25]

**LAW**

17. MAX status can be appropriate for pretrial prisoners, even if the sole reason for placement in that status is because of the seriousness of his or her offenses.[26] But an accused in pretrial

confinement is entitled to the appointment of military counsel regardless of status.[27] This right, particularly as it applies to this case, is guaranteed by the Sixth Amendment to the Constitution.[28]

18. However, that right to counsel is not absolute for prisoners in pretrial confinement. "Prison regulations that impede an inmate's constitutional rights will . . . be upheld if the regulation 'is reasonably related to legitimate penological interests.'"[29] The Supreme Court held in *United States v. Turner* that there are four factors to consider when assessing the reasonableness of a prison regulation:

> (1) Whether there is a valid, rational connection between the prison regulation and the legitimate governmental interest put forward to justify it,
>
> (2) whether there are alternative means of exercising the right that remain open to prison inmates,
>
> (3) the impact the asserted constitutional right will have on guards and other inmates, and on the allocation of prison resources, and
>
> (4) the existence of obvious, easy alternatives may be evidence that the regulation is not reasonable, but is an exaggerated response to prison concerns.[30]

19. All four factors are not always "equally useful nor need be applied with equal value, depending on the circumstances of the case and the regulation that is challenged."[31] This test has been applied in military courts in a variety of challenges.[32]

20. In evaluating the first *Turner* factor, a court should only strike down a regulation when a logical connection between the regulation and asserted goal does not exist or is "so remote as to render the policy arbitrary or irrational."[33] "[An Accused's] complaint may not be plausible unless

App. Oct. 12, 2007) (considering a policy against sex offenders meeting with minors), *Felicies*, 2005 CCA LEXIS 124 (considering a policy against material and conversation that was in a foreign language).
33. *Turner*, 482 U.S. at 89-90.

it contains specific factual allegations demonstrating why the government's justifications do not have a rational connection to the challenged restrictions."[34]

21. In considering the second *Turner* factor, the existence of alternative means to exercise a constitutional right means a regulation is less likely to violate the Constitution.[35] Some deference is owed corrections officials in assessing the validity of a regulation.[36] "Alternatives are interpreted broadly; if a prisoner can still exercise the asserted right in a similar, though not identical way, the prisoner's constitutional rights are preserved."[37]

22. In assessing the third *Turner* factor, "the right of the prisoner is weighed against the rights of other prisoners and prison employees, and where 'the right in question can be exercised only at the cost of significantly less liberty and safety for everyone else, guards and other prisoners alike, we should defer to the informed discretion of corrections officials."[38] "Deference to prison administrators is due '[w]hen allocation of resources and the ability of administrators to protect staff and detainees at the facility are at issue.'"[39] Prisons do not need to use the least-restrictive available options.[40] "The *Turner* analysis . . . does not invalidate a policy just because it restricts one of many forms of legal assistance.:[41]

23. And last, in reviewing the fourth factor, "if an inmate claimant can point to an alternative that fully accommodates the prisoner's rights at de minims cost to valid penological interests," the regulation may be unreasonable. "[T]he burden is on the inmate 'to point to an alternative that accommodates their rights at de minimis cost to security."[42]

24. In *United States v. Moi*, the United States District Court for Alaska found a difference in the adequacy of representation that occurred between a private contact visit and a visit conducted behind a plexiglass wall and that difference was an unreasonable interference on the right to counsel for inmates at a specific facility.[43] In *Moi*, the plexiglass barrier prevented the ability to physically exchange material and the room contained other people, including prison visitors.[44] This ruling did not specifically contemplate potentially dangerous prisoners and was instead a review of the prison's COVID protocols.[45]

## ARGUMENT

25. The Brig's classification of the Accused as a MAX prisoner is not contested by the Defense and is appropriate. The options available to the Defense for in-person meetings with the Accused while he remains in that status are "reasonably related to legitimate penological interests"[46] as all four *Turner* factors favor the Government.[47]

26. First, there is a valid, rational connection for not allowing unrestrained contact visits between the Accused and his counsel. The Accused is charged with extreme instances of violent behavior, including murder and violent sexual offenses. And after he had committed his most egregious offenses, he sought to escape. MAX classification, including a limitation on contact visitation, ensures the safety of the staff and other persons and also works to prevent any escape opportunities.

27. Second, there are alternative means of exercising the Accused's right to confer with his counsel in private. In addition to phone calls, the Brig is willing to facilitate meetings behind plexiglass that still allow for the transfer of documentation and full privacy, unlike in *Moi*. The Brig is also willing to provide white noise outside of the room to ensure no communications are overheard. While not identical to a contact meeting, any interference with the attorney-client relationship is minimal and should not overcome the discretion given to prison officials.

28. Third, "[d]eference to prison administrators is due '[w]hen allocation of resources and the ability of administrators to protect staff and detainees at the facility are at issue.'[48] Unlike in *Moi*, the Accused is an alleged highly violent offender and would require additional security measures for a contact visit. Deference should be given to prison administration officials here.

29. And last, contact visits are not an easy alternative for the same safety concerns noted above. This is not an exaggerated response.

30. In summary, any differences between a non-contact visit under these circumstances and a contact visit are minimal. That minimal difference is vastly outweighed when considering the *Tucker* factors. The restrictions in place are "reasonably related to legitimate penological interests" and should be upheld.[49]

31. It should also be considered that the Brig is reviewing the Accused's classification status every 30 days and has already provided him an opportunity to develop a rapport by allowing an hour a day to clean unsupervised. As such, the Brig staff are acting in accordance with their instructions in doing so. The Accused has also never appealed his MAX classification determinations.

## REQUESTED RELIEF

46. *Turner*, 482 U.S. at 89.
47. *Id*.
48. *Moi*, 2021 U.S. Dist. LEXIS 171470 at *26.
49. *Turner*, 482 U.S. at 89.

32. The Government respectfully requests that the Court deny the Defense's motion for appropriate relief.

## ENCLOSURES

33. The Government provides the following enclosures in support of this motion:

1. R.C.M. 701 Summary of Interview with CDR Brian Flanagan, USN, dated 2 September 2025.
2. SECNAV M 1640.1, Chapter 4.
3. NAVCONBRIG CHASN SOP 401 dated 14 Jan 2025.
4. Internet Search History of the Accused.

## ORAL ARGUMENT

34. The Government requests oral argument if the Court finds jurisdiction to hear this motion.

Trial Counsel

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

Arrange and bind the record of trial with allied papers in the sequence indicated below. The court reporter is responsible for certifying the record of trial prior to transmittal for appellate review, in accordance with R.C.M. 1112 and JAG/CNLSCINST 5813.1G.

1. Pages 1 (Cover page) and 2 (Chronology Sheet) of DD Form 490 (enclosure 7).

2. Court reporter certification of Record of Trial (enclosure 8).

3. Military Judge verification of Record of Trial (enclosure 8).

4. DD Form 490 (pages 3-6 and any continuation pages if needed) (enclosure 7).

5. Completed Post-Trial Checklist from JAG/CNLSCINST 5814.1G (enclosure 2).

6. Completed Convening Authority's Action Checklist (enclosure 4).

7. Post-Trial Documents.

a. Certificates/Proof of Service of the Certified Record of Trial to the accused and victim, if applicable (enclosure 7).

b. Convening Authority's Action and Entry of Judgment (enclosure 6).

c. Any requests for copies of the court-martial record pursuant to R.C.M. 1106 or 1106A (attach written requests, and any certificates/proof of service, but do not attach the victim's post-trial rights advisement or DD Form 2704).

d. Matters submitted by the accused and/or victim under R.C.M. 1106 or 1106A, or any written waiver of the right to submit such matters. Include all responses to requests here as well.

e. Any deferment request and the action on it (including any request to waive automatic forfeitures under Article 58b).

f. Conditions of suspension and proof of service on probationer under R.C.M. 1107, if any.

g. All clemency recommendations by members or military judge, if any.

h. Statement of Trial Results (enclosure 1).

i. Crime Reporting Information.

j. Accused's request for appellate defense counsel, or waiver/withdrawal of appellate review under R.C.M. 1115, if applicable.

k. All transfer orders, confinement orders, and excess leave orders.

l. Briefs of counsel submitted after trial, if any.

8. Preliminary Hearing.

a. DD Form 457, Preliminary Hearing Officer's Report, pursuant to Article 32, if such hearing was conducted, followed by any other allied papers that accompanied the charges when referred for trial (including any matters submitted under R.C.M. 405(l), unless included elsewhere in the record of trial).*

b. Waiver of Article 32 Hearing (if applicable).

9. Pre-Trial Allied Papers.

a. Convening Order and all amending convening orders.

b. DD Form 458, Charge Sheet (unless included at the point of arraignment in the transcript).

**INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL**

c. Congressional inquiries and replies, if any.

d. Advice of staff judge advocate, when prepared pursuant to Article 34 or otherwise.

10. Record of Proceedings.

a. Substantially verbatim recording of court-martial proceedings. Segregate open and closed sessions of the court-martial in accordance with R.C.M. 1113 and the following guidance:*

b. Ensure that each closed session of the court-martial is recorded on a separate DVD marked CLOSED SESSION, placed in its own envelope marked CLOSED SESSION, and sealed.

c. Label all DVD(s) and envelopes with the information on page 1 of this template.

d. Mark all DVDs and envelopes with "1 of X." as necessary (for example, the second DVD of six DVDs and its envelope should be marked, 2 of 6). All DVDs of open sessions may be in one envelope.

e. Mark all DVDs with their beginning and ending timestamps. The timestamps for closed sessions should match those shown on the Index.

f. Verbatim transcript or summarized report prepared in accordance with JAGINST 5814.1G. Include the following:

I. A certificate of correction, if any (including any supplemental certification for additional proceedings).

II. Court reporter and transcriptionist certification of verbatim transcript.

g. Records of former proceedings (Article 30a) and/or trials, (e.g., electronic/digital record of former proceeding, including audio recording and any scanned documentation/transcripts, CD/DVD format).*

11. Prosecution exhibits admitted in evidence.

12. Defense Exhibits admitted in evidence.

13. Appellate Exhibits including but not limited to, proposed instructions, written offers of proof or preliminary evidence (real or documentary), briefs of counsel submitted at trial, request to be tried by military judge alone (if any), the accused election of members under R.C.M. 903 (if any), any statement by convening authority required under R.C.M. 503(a)(2), and the election for sentencing by members in lieu of sentencing by military judge under R.C.M. 1002(b).*

14. Redaction. The following information shall be redacted in accordance with JAGMAN 1059 from the record of trial prior to releasing it to any accused or victim (including any transcript made pursuant to R.C.M. 1114 and attached to the record of trial) unless the information establishes an element of an offense, or is otherwise required:

a. Any recordings of closed sessions, any transcripts of closed sessions, and any sealed exhibits.

b. Names of minor victims, and names of minor witnesses. If an identifier is used, use only the initials.

c. Social Security Numbers.

d. Financial account information.

e. Home addresses.

f. Telephone numbers.

g. Personal e-mail addresses.

h. Dates of birth.

## INSTRUCTIONS FOR ASSEMBLING THE CERTIFIED RECORD OF TRIAL

i. Any other information that could be used to identify a specific person other than the accused.

*If the report of preliminary hearing or record of trial contains exhibits, proceedings, or other materials ordered sealed by the preliminary hearing officer or military judge, counsel for the Government, the court reporter, or trial counsel shall cause such materials to be sealed to prevent unauthorized examination or disclosure, pursuant to R.C.M. 1113. Sealed material shall be properly marked, individually placed in separate envelopes with a copy of the preliminary hearing officer or military judge sealing order affixed to it, and inserted at the appropriate place in the record of trial. Do not duplicate sealed material to include it in any copy of the record of trial. Instead, insert a copy of the sealing order in lieu of any sealed material, in any copies of the record of trial.

**DIVIDERS ARE NOT NECESSARY TO SEPARATE EACH SECTION. IF USED, THEY CAN BE PAPER RATHER THAN CARD STOCK. IF A PARTICULAR COMPONENT IS NOT APPLICABLE IN THE RECORD OF TRIAL, SUCH AS AN ARTICLE 32 HEARING, EXHIBITS NOT ADMITTED, POST-TRIAL PROCEEDINGS AND VACATION HEARINGS, DO NOT INSERT A DIVIDER OR PLACEHOLDER.**

**FRONT AND BACK COVER MUST BE ON BLUE CARDS STOCK AND LABELED WITH GUM LABELS.**

**Binding.** Each volume of a record of trial should be no more than 1.5 inches thick and bound at the top with metal or plastic fasteners. **DO NOT** interlace or "piggy-back" prong fasteners to create an oversized volume. **DO NOT** place hole punches where it covers up the evidence or language in the transcript. When it becomes necessary to assemble the record of trial in more than one volume, the volumes will be numbered consecutively, on the front cover, as illustrated below:

**Volume 1 of 4 (Pages 1-250)**
**Volume 2 of 4 (Pages 251-400)**
**Volume 3 of 4 (Pages 401-652)**
**Volume 4 of 4 (Pages 653-901 and Exhibits)**

Make the first volume of a multi-volume record an inch thick or smaller to allow for inclusion of post-trial documents. Limit subsequent volumes to 1.5 inches, unless dividing them requires assembling an additional volume smaller than a half inch.

Label the upper right-hand corner or the Preparation and Certification of Record of Trial Form (enclosure (8)) to reflect which copy it is, i.e., "**ORIGINAL**," "**ACCUSED**," "**REVIEW**" etc.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. I make this affidavit in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Sony Interactive Entertainment LLC

(hereafter "Sony") to disclose to the government records and other information, including the contents of communications, associated with the Sony account associated with online ID and email (the **SUBJECT ACCOUNT):**

a. **Online ID: dripdip02**
b. **jermiahcopeland@gmail.com**

and seize information associated with that account that is stored at premises owned, maintained, controlled, or operated by Sony. The information to be disclosed by Sony and searched by the government is described in the following paragraphs and in Attachments A and B.

4. This application seeks a warrant to search all responsive records and information under the control of Sony, a provider subject to the jurisdiction of this court, regardless of where Sony has chosen to store such information. The government intends to require the disclosure pursuant to the requested warrant of the contents of wire or electronic communications and any records or other information pertaining to the customers or subscribers if such communication, record, or other information is within Sony's possession, custody, or control, regardless of whether such communication, record, or other information is stored, held, or maintained outside the United States.

5. Your Affiant anticipates executing this warrant by using this warrant to require Sony to disclose to the government copies of the records and other information (including the content of communications) described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

6. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. I have set forth only those facts that I believe are necessary to establish probable cause that evidence, fruits, and instrumentalities of violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) are present in the information associated with the above listed **SUBJECT ACCOUNT.** Where statements of others are set forth in this Affidavit, they are set forth in substance and in part.

## JURISDICTION

7. As defined in 18 U.S.C. §2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. §§2703(a), (b)(l)(A), (c)(l)(A), and 10 U.S.C. § 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of Title 10 (UCMJ)."

## PERTINENT STATUTES UNDER THE UNIFORM CODE OF MILITARY JUSTICE

8. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain

particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

9. Article 118 (Murder): Intent to kill or inflict great bodily harm; A certain named or described person is dead; Death resulted from the act or omission of the accused; the killing was unlawful; and at the time of the killing, the accused had the intent to kill or inflict great bodily harm upon a person.

10. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## OTHER LEGAL AUTHORITY

11. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from 18 U.S.C. §§ 2701-2711, entitled "Stored Wire and Electronic Communications and Transactional Records Access." Section 2703(a) provides in relevant part as follows:

> (1) A governmental entity may require the disclosure by a provider of electronic communication service of the contents of an electronic communication that is in electronic storage in an electronic communications system for one hundred and eighty days or less, only pursuant to a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant. A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

18 U.S.C. § 2703(b) provides, in relevant part, as follows:

> (1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection -
>
> > (A) Without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant.
>
> (2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service -
>
> > (A) On behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by

means of electronic transmission from), a subscriber or customer of such remote computing service; and

(B) Solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

12. The government may also obtain records relating to e-mail communications, such as subscriber identifying information, by way of a search warrant. 18 U.S.C. § 2703(c)(l)(A).

13. 18 U.S.C. §§ 2703(b)(l)(A) and 2703(c)(l)(A) allow for nationwide service of process of search warrants for the contents of electronic communications and records concerning electronic communication service or remote computing service if such warrant is issued by a court with jurisdiction over the offense under investigation.

## DEFINITIONS

14. "Electronic communication service provider" (ECSP) means (a) a telecommunications carrier, as that term is defined in section 3 of the Communications Act of 1934; (b) a provider of electronic communication service, (c) a provider of a remote computing service, (d) any other communication service provider who has access to wire or electronic communications either as such communications are transmitted or as such communications are stored; or (e) an officer, employee, or agent of an entity described in subparagraph (a), (b), (c), or (d).

15. "Electronic Communications System" means any wire, radio, electromagnetic, photo optical, or photo electronic facilities for the transmission of wire or electronic communications, and any computer facilities or related electronic equipment for the electronic storage of such communications. 18 U.S.C. § 2510(14).

16. "Electronic storage" means (a) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof; and (b) any storage of such communication by an electronic communication service for purposes of backup protection of such communication. 18 U.S.C. § 2510(17).

17. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

18. "Computer," as used herein, refers to "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related

to or operating in conjunction with such device" and includes smartphones, and mobile phones and devices. 18 U.S.C. § 1030(e)(l).

19. "Computer passwords and data security devices," as used herein, consist of information or items designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

20. "Internet Protocol Address" (IP Address), as used herein, refers to refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be "dynamic," meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be "static," if an ISP assigns a user's computer a particular IP address that is used each time the computer accesses the Internet. A "natting" IP address is a type ofIP address that becomes assigned to multiple devices at the same time when those devices are connected to a common router (normally the term is invoked when multiple individuals are connected to the same cellular towers and cellular data network. All devices connected to the same tower will be assigned the same "natting" IP Address.)

21. "Internet Service Providers" or "ISPs" are commercial organizations which provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers, including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment. ISPs can offer various means by which to access the Internet including telephone based dial-up, broadband based access via a digital subscriber line (DSL) or cable television, dedicated circuits, or satellite based subscription. ISPs typically charge a fee based upon the type of connection and volume of data, called "bandwidth," that the connection supports. Many ISPs assign each subscriber an account name such as a user name or screen name, an e-mail address, and an e-mail mailbox, and the subscriber typically creates a password for the account. By using a computer equipped with a telephone or cable modem, the subscriber can establish communication with an ISP over a telephone line or through a cable system, and can access the Internet by using his or her account name and password."

22. Remote Computing Service" as defined in 18 U.S.C. § 2711(2), is the provision to the public of computer storage or processing services by means of an electronic communications system.

23. "Log Files" are records automatically produced by computer programs to document electronic events that occur on computers. Computer programs can record a wide range of

events including remote access, file transfers, log-on/log-off times, and system errors. Logs are often named based on the types of information they contain. For example, web logs contain specific information about when a website was accessed by remote computers; access logs list specific information about when a computer was accessed from a remote location; and file transfer logs list detailed information concerning files that are remotely transferred.

24. The terms "records," "documents," and "materials" include all information recorded in any form, including the originals and all non-identical copies thereof, whether different from the original by reason of any notation made on such copies or otherwise, including, but not limited to the following:

a. graphic records or representations;

b. photographs;

c. pictures;

d. images, and

e. aural records or representations.

25. The terms "records," "documents," and "materials" include all of the foregoing, in whatever form and by whatever means, the records, documents, or materials, and their drafts, or their modifications may have been created or stored, including (but not limited to): any electrical, electronic, or magnetic form (including but not limited to any information on an electronic or magnetic storage device such as hard disks).

26. "Web hosts" provide the equipment and services required to host and maintain files for one or more websites and to provide rapid Internet connections to those websites. Most hosting is "shared," which means that multiple websites of unrelated companies are on the same server in order to reduce associated costs. When a client develops a Website, the client needs a server and perhaps a web hosting company to host it. "Dedicated hosting," means that the web hosting company provides all of the equipment and assumes all of the responsibility for technical support and maintenance of a website. "Co-location" means a server is located at a dedicated hosting facility designed with special resources, such as a secure cage, regulated power, a dedicated Internet connection, online security and online technical support. Co-location facilities offer customers a secure place to physically house the customers' hardware and equipment as opposed to keeping it in their offices or warehouse, where the potential for fire, theft or vandalism is greater.

27. "Website" consists of textual pages of information and associated graphic images. The textual information is stored in a specific format known as Hyper-Text Mark-up Language (HTML) and is transmitted from web servers to various web clients via Hyper-Text Transport Protocol (HTTP).

## TECHNICAL BACKGROUND ON SONY INTERACTIVE ENTERTAINMENT

28. I know that Sony Interactive Entertainment LLC (SIE) is a digital entertainment company associated with Sony. SIE develops gaming consoles, game development, and companion applications to their consoles. Sony is the developer and owner of the PlayStation gaming system, PlayStation Mobile, and PlayStation Plus. A PlayStation is a gaming console that connects wirelessly or via cable to the internet. Users can purchase game disks or purchase games through the PlayStation store, and can play individually or online with parties around the world in real time. Users of the PlayStation gaming systems are provided with the option to create a player profile where they can add their name, link an email address to their player profile, and create an account with the gaming system to store game progress, applications, and customized settings. On the PlayStation, users can purchase and download games from the PlayStation Store after adding a purchased gift card or by inputting billing information, purchase subscriptions to enable online play, and add applications to their PlayStation to stream shows and movies such as Netflix and other third party services. PlayStation additionally has created a messaging component for users to communicate where voice messages, photos, and attachments can be exchanged by users using the gaming console, a cellphone/electronic device via the PlayStation messaging app, or a computer. Sony collects various information about its users including stored chats, purchase history and billing information, and associated application sign on information such as Netflix apps or Spotify, IP address information, and other items.

29. I know from experience, a PlayStation 5 can be used to access and search the internet via applications such as Google. However, while there is not a dedicated application on the PlayStation 5, as was on older models, a user can still access search engines such as Google.

30. A PlayStation 5 user can also access their account through a web browser, including from a mobile device.

## PROBABLE CAUSE TO SEARCH THE SUBJECT ACCOUNT

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

31. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks.

32. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

33. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

34. During an interview with AN John CALISSE, a suitemate of COPELAND, he stated that COPELAND and, now who we know to be RESENDIZ, were singing along with Karaoke in the common area of their barracks room at approximately 0200 on 29 May 2025. COPELAND's PlayStation 5 was in the common area of the barracks room.

35. CALISSE advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

36. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

37. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

38. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

39. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

40. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

41. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

42. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

43. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

44. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

45. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

46. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

47. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

48. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

49. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

50. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

51. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

52. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

53. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

54. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

55. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

56. On June 03, 2025, NCIS executed a CASS, during which CSSN Sarah COOK, USN, CVN-77 was located inside the barracks of COPELAND. COOK stated she and COPELAND were hanging out and playing video games on his PlayStation 5.

57. NCIS has also obtained video footage from various friends of COPELAND, where the PlayStation in the common area owned by COPELAND is being utilized as a device to play music on.

58. NCIS was able to determine COPELAND's Sony username is Dripdip02 and the e-mail associated with that account is jerimahcopeland7@gmail.com, after reviewing emails associated with his iPhone 15 during forensic review.

## CONCLUSION

59. As explained herein, information stored in connection with the **SUBJECT ACCOUNT** may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, the information stored within the Sony account may give a timeline as to when the device was being used during the night in question of RESENDIZ's death. It may also provide relevant information in the form of internet

searches that were not found or associated with any of the other electronic devise NCIS has searched.

60. Based upon the information contained in this affidavit, I respectfully submit that probable cause exists to believe that the **SUBJECT ACCOUNT** described in Attachment A, contains evidence, fruits, and instrumentalities related to violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ).

61. Accordingly, I request that a warrant be issued authorizing me, with assistance from additional law enforcement personnel, to search the **SUBJECT ACCOUNT** described in Attachment A, for the particular things to be seized, which are described in Attachment B.

62. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. Because the warrant will be served on Apple, who will then compile the requested records at a time convenient to it, there exists reasonable cause to permit the execution of the requested warrant at any time in the day or night.

63. I declare under penalty of perjury that the statements above are true and correct to the best of my knowledge and belief.

Very respectfully submitted,

GOKEY.JESSICA.RAY [redacted] Digitally signed by GOKEY.JESSICA.RAY [redacted] Date: 2025.08.26 15:15:16 -04'00'

Jessica Gokey, Special Agent
Naval Criminal Investigative Service
Norfolk, Virginia

SUBSCRIBED and SWORN to before me on 26 August 2025

[redacted]

LT Christopher Dempsey, JAGC, USN
Special Trial Counsel

# ATTACHMENT A

## Property to Be Searched

This warrant applies to the electronically stored data, information, communications, and items contained in, related to, and associated with, including all preserved data associated with the Sony Interactive Entertainment LLC account of Jermiah Copeland with online ID and email:

a. **Online ID: dripdip02**
b. **jermiahcopeland@gmail.com**

that is stored at premises owned, maintained, controlled, or operated by Sony Interactive Entertainment LLC.

**ATTACHMENT B**
**Particular Things to Be Seized**

**I. Information to Be Disclosed By Sony Interactive Entertainment LLC (The "Provider")**

To the extent that the information described in Attachment A is within the possession, custody, or control of the Provider, including any messages, records, files, logs, or information that have been deleted but are still available to the Provider, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f). The Provider is required to disclose, within 14 days from the date of issuance of this warrant, the following information to the government for the **SUBJECT ACCOUNT** listed in Attachment A from 12AM (EST) on 28 May 2025 through 12 AM (EST) on 30 May 2025:

a. All identity and contact information, including full name, email address, physical address (including city, state, and zip code), date of birth, phone numbers, gender, hometown, occupation, and other personal identifiers;

b. All past and current usernames associated with the **SUBJECT ACCOUNT**;

c. All activity logs including IP logs and other documents showing the IP address, date, and time of each login to the **SUBJECT ACCOUNT**, as well as any other log file information;

d. All information regarding the particular device or devices used to login to or access the **SUBJECT ACCOUNT**, including all device identifier information or cookie information, including all information about the particular device or devices used to access the **SUBJECT ACCOUNT** and the date and time of those accesses;

e. All location information, including location history, login activity, information geotags, and related metadata to the extent this shows user attribution; and

f. All information and content contained within the subject account, including, but not limited to, correspondence, records, documents, photographs, videos, electronic mail and electronic media, all deleted files, transactions and transactional data, user access, account identifying information, and file activity logs, that are related to showing the identity of the user.

**II. Information to be seized by the government**

All information described above in section I. Including correspondence, records, documents. Photographs, videos, Electronic mail and electronic messages that constitutes fruits, evidence and instrumentalities of Article 107, 118, 131b of the Uniform Code of Military Justice (UCMJ), for the **SUBJECT ACCOUNT** listed on Attachment A, information pertaining to the following matters, from 12AM (EST) on 28 May 2025 through 12 AM (EST) on 30 May 2025:

a. The identity of the person or persons who created or used the **SUBJECT ACCOUNT**, including records which help reveal the whereabouts of such person(s):

b. Evidence indicating how and when the **SUBJECT ACCOUNT** was accessed and/or used to determine the chronological and geographic context of account access and use;

c. Records of application usage;

d. Online search history and other system usage information, including usage of web browsers or other applications to search the internet for information;

e. User attribution information, including account access logs, geographic location information, login information, and information regarding account usage.

**III**. **Disclosure by provider - By Order of the Court**

Sony. shall disclose responsive data, if any, by sending to Special Agent Jessica Gokey, 1329 Bellinger Blvd, Norfolk, VA 23511, using the US Postal Service or another courier service or by electronic means (Jessica.gokey@leo.gov). Please include an attestation certificate for these records and provide the requested documents within ten (10) days of receipt of this warrant.

**ATTACHMENT A**

**Property to Be Searched**

This warrant applies to the electronically stored data, information, communications, and items contained in, related to, and associated with, including all preserved data associated with the Sony Interactive Entertainment LLC account of Jermiah Copeland with online ID and email:

a. **Online ID:** [redacted]
b. [redacted]

that is stored at premises owned, maintained, controlled, or operated by Sony Interactive Entertainment LLC.

LT Dempsey:

For some reason none of the information I provided by filling out the form was recorded; though it was gone from the pending RCM 309 matters. That's an odd situation that reflects mixed data that don't make sense. This may indicate a software issue to raise with the NCORS dev team. If you run into this situation again with any other 309 matters in any other cases, please let me know and I'll reach out to the NCORS team because we would then have two (or more) data points.

Did you get a notification from NCORS that action had been taken on this warrant? The email would have been sent at approximately 1614 yesterday.

I have added all the information into the NCORS record; please let me know if it doesn't show up properly for you. It is showing denied now in my view:

| Submission Type | Recipient | Source | Is Ex Parte? | Submission Date | Is Issued? | Ruling Date | Actions |
|---|---|---|---|---|---|---|---|
| Warrant | Sony | Government | Green check mark | 8/13/2025 4:06 PM EDT | Red X | 8/18/2025 | |

Thank you.

| **U N I T E D S T A T E S**<br><br>**v.**<br><br>**JERMIAH COPELAND**<br>**CSSN / E-3**<br>**U.S. NAVY** | **REQUEST FOR INVESTIGATIVE SUBPOENA**<br><br>**4 SEP 2025** |

## FACTS

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

4. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

6. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

7. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

8. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

9. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

10. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

11. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

12. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

13. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

14. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

15. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

16. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

17. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

18. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

19. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

20. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

21. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

22. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

23. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

24. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

25. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. COPELAND advised via Snapchat messages on 2 June 2025 to a user "desi.rv" that he had not turned off his Life 360 account and shared a screenshot indicating his account was active. The only identifying information included in the Snapchat image is the username "Jermiah." Text messages dating back to March 3, 20255 indicate he has had an account since at least that time. As understood from other investigative steps, COPELAND's primary e-mail account is jermiahcopeland7@gmail.com.

## INFORMATION AND RECORDS REQUESTED

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Life360 for account information relating to CSSN Jermiah Taylor Copeland, date of Birth 23 May 2005, e-mail jermiahcopeland7@gmail.com.

## REASON FOR REQUEST

30. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Life 360 to produce this information.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. NCIS obtained information pertaining to the transfer of COPELAND to a new high school after numerous complaints were filed against him at his previous high school. During this investigation, NCIS has knowledge of other disciplinary actions which allegedly involved sexual misconduct at Coupeville High School located in Coupeville, WA. NCIS previously obtained disciplinary records for two incidents from Oak Harbor High School that allege sexual misconduct committed by COPELAND.

## INFORMATION AND RECORDS REQUESTED

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Coupeville High School for the disciplinary records of CSSN Jermiah Taylor Copeland, date of Birth [redacted]

## REASON FOR REQUEST

30. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Coupeville High School to produce this information.

## FACTS

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

4. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

6. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

7. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

8. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

9. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

10. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

11. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

12. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

13. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

14. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

15. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

16. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

17. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

18. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

19. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

20. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

21. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

22. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

23. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

24. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

25. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. NCIS obtained a screen shot from a social media post from the publicly accessed Reddit forum "r/navy." Where the username "u/ovenistirl" posted publicly with the title "Recent Assault/murder of navy soldier". Wherein the post itself the username u/ovenistirl states they had gone to school with CSSN Jermiah COPELAND (S/COPELAND), USN, USS JAMES E. WILLIAMS (DDG-95). u/ovenistirl alleges S/COPELAND "has always been a sex offender. He sexually assaulted multiple girls including myself all throughout elementary – middle school some even all the way into high school. We reported him numerous times to school authorities and police but were never taken seriously. My point is, It was clear the kind of person he was/was bound to become and no one did a damn thing to help any of us. This is the result you get when you ignore victims and laugh in their faces when they try to speak out. Not only did he get away with this form the age of 11 until now. But he also took an innocent girls life. Such a shame." After receiving the results from Reddit the only identifying information able to be located was lewismakk04@gmail.com. Utilizing Law Enforcement Resources, NCIS was not able to fully identify the owner of this email account.

## INFORMATION AND RECORDS REQUESTED

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Google for account subscriber information relating to the e-mail account [redacted]

## REASON FOR REQUEST

30. Trial Counsel and law enforcement request such information because these records might

further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Google to produce this information.

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to AR JOHN CALISSE, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates, AR John CALISSE, USN, PSSN Irbin GORDILLOCRUZ, USN, and YN3 Sean MONAGHAN, USN

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH, USN received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, a suitemate of COPELAND and who shares a room with CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and the blood located in the closet and in the stairwell confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024

in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. During the interview with CALISSE, he stated he only called COPELAND on the morning of 02JUN25, after COPELAND had taken his vehicle the night before. However, after searching COPELAND's cellphone NCIS found text messages between CALISSE and COPELAND on the morning of 02JUN25.

50. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to CALISSE and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

51. The focus of this search and seizure are to obtain geolocation information to corroborate and investigate the offenses alleged against COPELAND.

52. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

53. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

54. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted]

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the information specified above in Section i, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized, namely:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to PSSN IRBIN GORDILLOCRUZ, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag.

Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to GORDILLACRUZ and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

1. The focus of this search and seizure are to obtain geolocation information to corroborate and investigate the offenses alleged against COPELAND.

2. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

3. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

4. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY.[redacted]

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the information specified above in Section i, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized, namely:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to YN3 SEAN MONOGHAN, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag.

Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to MONAGHAN and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

50. The focus of this search and seizure are to obtain geolocation information to corroborate and investigate the offenses alleged against COPELAND.

51. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

52. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY.[redacted] Date: 2025.09.09 13:20:15 -04'00'

## FACTS

1. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

2. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

3. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

4. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

5. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

6. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

7. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

8. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

9. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

10. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

11. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

12. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

13. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

14. During an interview on 3 June 2025, COPELAND explained that she left his barracks room by herself.

15. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

16. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

17. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

18. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

19. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

20. During a search of COPELAND's room on 04 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

21. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

22. On June 09, 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on June 02, 2025 at 5:15AM.

23. NCIS was able to locate and extract heath data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. Which shows health data recorded on June 02, 2025, from 3:45AM to 5:57AM. Based off of the geolocation data located the approximately geolocation from the iPhone was in the approximately area of 2842 Cary Avenue, Norfolk, VA 23504.

24. On June 09, 2025, NCIS went to the location of the ping and began to search the area. Within the area of the ping, a duffel bag was located near a tree. After partially opening the duffel bag, a pair of human legs were observed to be inside the duffel bag.

25. On June 09, 2025, COPELAND was apprehended on DDG-95. COPELAND did not have any additional electronic devices on his person at the time of his apprehension. COPELAND was subsequently placed into Pre-Trial Confinement.

26. On June 10, 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag there was an E3 uniform patch located in the hair of the female.

27. On June 10, 2025, the remains of the female were identified as being CSSN Angelina RESENDIZ.

28. The Government was notified on 10 September 2025 that a second, private autopsy had been completed by RESENDIZ's family. The Government received records relating to that autopsy on the same date, but this did not include the entire autopsy file. The autopsy was completed by Epiarx. The Case number is ED25-1195.

**INFORMATION AND RECORDS REQUESTED**

29. Trial Counsel and law enforcement requests one subpoena relating to this case to better determine evidence that is relevant and necessary for the investigation. Specifically, Trial Counsel and law enforcement request:

a. A subpoena to Epiarx for the autopsy of RESENDIZ, case number ED25-1195.

**REASON FOR REQUEST**

30. Trial Counsel and law enforcement request such information because these records might further the investigation by providing corroboration and further detail to the alleged misconduct of CSSN Copeland.

31. For these reasons, we respectfully request a subpoena for Epiarx to produce this information.

[redacted]

C. B. DEMPSEY
LT, JAGC, USN
Trial Counsel

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

    ii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.

    iii. Communications between CSSN Jermiah Copeland and any individuals who may have a Texas phone number based on area code from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

**DEPARTMENT OF THE NAVY**
**NAVY-MARINE CORPS TRIAL JUDICIARY**
**CENTRAL JUDICIAL CIRCUIT**

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to CSSN Angelina RESENDIZ, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international

mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific

house is accurate enough to provide block-level accuracy, in some cases. Investigators can use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and CSSN Jermiah COPELAND, USN, DDG-95.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. On June 01, 2025, COPELAND was interviewed by NCIS and told Agents RESENDIZ had become progressively more upset throughout the night due to her calling and speaking with two (2) ex-boyfriends from Texas.

50. COPELAND never gave a time for when these calls occurred, however, NCIS submitted for and obtained a warrant for RESENDIZ's T-Mobile account, dated 29 May 2025. These results did not show any outgoing or incoming phone calls from any person with a Texas phone number.

51. In order to gain further information about the ex-boyfriends in Texas, who COPELAND stated RESENDIZ spoke with, NCIS is requesting a warrant be issued for the date 28 May 2025.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

52. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to

on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

53. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

54. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

55. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.09.16 11:17:09 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

Subscribed and sworn to before me on the 16th day of September, 2025.

[redacted]

Christopher Dempsey
LT, JAGC, USN
Trial Counsel

**NAVY MARINE CORPS TRIAL JUDICIARY, CENTRAL JUDICIAL CIRCUIT**

In the Matter of the Search of
*(Briefly describe the property to be searched):*

T-MOBILE RECORDS FOR CELL PHONE NUMBER [redacted]

Case Identifier: 01JUN25NFNF-00237-7MNA

## Search and Seizure Warrant Pursuant to 18 U.S.C. § 2703

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following property located at *(identify the electronic communications or remote computing service or describe the property to be searched and give its location):*

See attachment A

I find that the affidavit(s) and/or sworn testimony establish probable cause to search and seize the property described above, and that such search will reveal *(describe the property to be seized):*

See Attachment B "Particular Things to Be Seized."

**YOU ARE COMMANDED** to execute this warrant on or before _____
*(not to exceed 14 days)*

The officer executing this warrant must prepare an inventory as required by law and promptly return this warrant and inventory to

, JAGC, USN
*Rank and name of military judge*

Date and time issued: _____ _____ hours , Military Judge, USN
*Military judge's name and title*

Naval Station Norfolk
*Military installation or location:*

_____
*Signature of military judge*

Questions and requests for relief should be directed to:

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Call/Text/Data Detail records**: All records associated with the SUBJECT PHONE NUMBER, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.

2. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

3. **Electronically Stored Records**: All records associated with the SUBJECT PHONE NUMBER, to include all stored communication or files, including voice mail, text messages, including numbers test to and received from and all related content, email, digital images (e.g. pictures), contact lists, video calling, web activity (name of website or application visited or accessed), domain accessed, data connections (to include Internet Service Provider (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each

connection and/or record associated with the SUBJECT PHONE NUMBER for the time range of **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

    ii. Evidence indicating the chronological and geographical locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER.

    iii. Communications between CSSN Jermiah Copeland and any individuals who may have a Texas phone number based on area code from **0500AM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 29 May 2025**

**DEPARTMENT OF THE NAVY**

## AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to CSSN Angelina RESENDIZ, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statements), Article 118 (Murder), and Article 131b (Obstructing Justice) of the Uniform Code of Military Justice (UCMJ) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars; Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international

mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific

house is accurate enough to provide block-level accuracy, in some cases. Investigators can use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and CSSN Jermiah COPELAND, USN, DDG-95.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room, but admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. On June 01, 2025, COPELAND was interviewed by NCIS and told Agents RESENDIZ had become progressively more upset throughout the night due to her calling and speaking with two (2) ex-boyfriends from Texas.

50. COPELAND never gave a time for when these calls occurred, however, NCIS submitted for and obtained a warrant for RESENDIZ's T-Mobile account, dated 29 May 2025. These results did not show any outgoing or incoming phone calls from any person with a Texas phone number.

51. In order to gain further information about the ex-boyfriends in Texas, who COPELAND stated RESENDIZ spoke with, NCIS is requesting a warrant be issued for the date 28 May 2025.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

52. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to

on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

53. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

54. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

55. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.09.29 15:20:47 -04'00'

Special Agent Jessica Gokey
Naval Criminal Investigative Service

Subscribed and sworn to before me on the 29th day of September, 2025.

## ATTACHMENT A

## PROPERTY TO BE SEARCHED

1. This warrant applies to information associated with T-Mobile cellular phone number [redacted] (SUBJECT PHONE NUMBER) which is stored at premises owned, maintained, controlled, or operated by T-Mobile, located at 4 Sylvan Way, Parsippany, New Jersey, 07054.

**ATTACHEMENT B**

**Items to be Seized**

i. Information to be disclosed by T-Mobile

1. **Specialized Location Records:** All call, text and data connection location information, related to all specialized carrier records that may be referred to as NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular and TrueCall or TDOA (Time Distance of Arrival or Timing Advance Information)- T-Mobile & Metro by T-Mobile, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (Longitude & Latitude) and Cell-Site and sector of device in relationship to the network when connected to the network for the SUBJECT PHONE NUMBER for the time range of **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025.**

ii. Information to be seized by the government

1. Upon review of the specific information above in Section I, including Call/Text/Data Detail Records, Specialized Location Records, Electronically Stored Records, Subscribed/Account Owner Information, the Government shall seize evidence that constitutes fruits, evidence and instrumentalities of violations of Article 107 (False Official Statement), Article 118 (Murder), and Article 131b (Obstruction of Justice) of the Uniform Code of Military Justice (UCMJ). Evidence to be seized includes:

    i. The locations of the handset utilized by the account holder of the SUBJECT PHONE NUMBER from **12PM (Eastern Standard Time) on 28 May, 2025** through **12AM (Eastern Standard Time) on 3 June 2025**

**DEPARTMENT OF THE NAVY**
**NAVY-MARINE CORPS TRIAL JUDICIARY**
**CENTRAL JUDICIAL CIRCUIT**

**AFFIDAVIT IN SUPPORT OF**
**AN APPLICATION FOR A SEARCH WARRANT**

I, Jessica Gokey, being first duly sworn state:

1. I am a Special Agent with the Naval Criminal Investigative Service (NCIS) assigned to the NCIS Resident Agency Norfolk, VA and have been employed with NCIS since March 2022. During my tenure as a Special Agent, I have completed approximately 900 hours of instruction at the Federal Law Enforcement Training Center (FLETC) in Glynco, GA, where I attended the Special Agent Basic Training Integrated Program (SABTI). I was provided instruction on investigations, federal law, and other various practice issues for investigators. I completed 40 hours of advanced family and sexual violence training. I am a member of the Military Criminal Investigative Organization Internet Crimes Against Children Task Force. I have attended the National Criminal Justice Training Center's Internet Crimes Against Children certification course and additional training through ICAC for an approximate total of 90 hours. I spent eight (8) years as an active duty member of the United States Navy, where I was a Master-at-Arms (MA). As a MA, I was a first responder to base incidents, misdemeanor crimes, and traffic accidents. During my tenure as a MA, I was employed with the Criminal Investigation Division (CID) where I worked various cases to include Domestic Violence cases, simple assaults, and other misdemeanor crimes. I have a Bachelor of Science in Criminal Justice from Fort Hays State University, Hays, KS.

2. As a federal agent, I am authorized to investigate violations of law of the United States and to execute warrants issued under the authority of the United States.

3. In addition to the above, I have conducted numerous different types of investigations wherein I have requested, retrieved, and analyzed cell phone records.

4. The following facts and information are known to your Affiant based upon information gained from the conduct of this investigation, witness observations, training and experience, and/or through information relayed through other law enforcement officers.

5. This affidavit is made in support of an application for a Search Warrant to seize and analyze data from T-MOBILE as is relates to cell phone number [redacted] (**SUBJECT PHONE NUMBER**), as this number has been identified as belonging to AR JOHN CALISSE, USN.

## JURISDICTION

6. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT PHONE NUMBER** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

7. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 85 (Desertion) and Article 86 (Unauthorized Absence) could be located within the Call/Text/Data Detail Records, Specialized Locations Records, Electronically Stored Records, and Subscriber/Account Owner Information.

## LEGAL AUTHORITY

8. As defined in 18 U.S.C. § 2711(3)(C), this is a court of competent jurisdiction under 18 U.S.C. 2703(a), (b)(1)(A), (c)(1)(A) and 10 U.S.C. 846(d)(3), as it is "a court-martial or other proceeding under chapter 47 of title 10 (Uniform Code of Military Justice) to which a military judge has been detailed." LEGAL AUTHORITY 5. The legal authority for this search warrant application regarding the **SUBJECT ACCOUNT** is derived from R.C.M. 703A and 18 U.S.C. §§ 2701-2713.

9. Since this affidavit is being submitted for the limited purpose of securing a Search Warrant, your Affiant has not included every fact known concerning this investigation. Your Affiant has set forth the facts believed necessary to establish probable cause to believe that evidence of violations of Article 107 (False Official Statement), Article 118 (Sexual Assault), and Article 131b (Obstruction of Justice) could be located within the data obtained from **SUBJECT ACCOUNT**.

10. Article 107 (False Official Statements): The accused signed a certain official document or made a certain official statement; Document or statement was false in certain particulars;

Accused knew it to be false at the time of signing it or making it; and False document or statement was made with the intent to deceive.

11. Article 118 (Murder): Accused murdered another person with premeditation.

12. Article 131b (Obstructing Justice): Accused did a certain act; Accused did so in the case of a certain person against whom the accused had reason to believe there were or would be criminal or disciplinary proceedings pending and the act was done with the intent to influence, impede, or otherwise obstruct the due administration of justice.

## USE OF CELL PHONES WITH CRIMINAL ACTIVTY

13. I have a general understanding of how the cellular telephone network operates. I am aware that cell sites (towers) are strategically placed by cellular service providers, to provide seamless operation so people can travel virtually anywhere and make or receive an uninterrupted call, send or receive text messages, or initiate a data session via their cell phone.

14. Usually, cell sites will be mounted high on a large pole, building, or other structure which provides line of sight with the population below. Cell sites are typically divided into sectors, which are made up of antennas connected to cellular radio transceivers. Each sector is mounted on the cell site and faces a specific direction to provide maximum cellular coverage for the people in the area. The range of the cell site and sectors depends on environmental and geographic factors and whether it is located in a highly populated urban area or a desolate rural area. Cell Site Location Information, (CSLI), does not provide an exact location of a cell phone; the basic call detail record data only provides the physical location of the cell site (latitude & longitude) and a direction (azimuth) from the cell site, which can cover an area ranging from approximately 0-20 miles.

15. I am aware when a person initiates or received a voice call, text message, or a data session (usage event) from their cellular device, the device broadcasts signals to the cell site that routes its communications. These signals include a cellular device's unique identifiers as well as details about the usage event. I am also aware cellular service providers collect and store these usage event details (transaction records) associated with the cellular phone numbers during their normal course of business. The usage event records, commonly referred to as call detail records, stored by their respective cell phone company contain the following information: date, time, type of event, duration, phone number initiating the usage event (called, calling), even if caller identification is blocked by the calling party, text message transaction data, the international mobile equipment identifier (IMEI), the international mobile subscriber identifier (IMSI), IP packet data session logs, and cell site location and sector information at the beginning and ending of each usage event.

16. I believe such information is relevant and material to the ongoing criminal investigation as it may provide investigators with information as assist with determining other unidentified co-conspirators, and/or show the general geographic location of the target device before, during, or after the commission of the crime. This basic is basic information and does not provide an exact location of the persons cell phone nor does it identify the other parties. I am aware that obtaining and preserving historical cell phone call detail and specialized location records could also prove to be fruitful, as such records could assist investigators not only with identifying those who may have been in contact with the victim(s) or potential co-conspirators, but may also allow investigators many other opportunities including, but not limited to, confirmation or disproving of alibis, statements, and other observations.

17. I know that these records such as those associate with the SUBJECT PHONE NUMBER, are not kept or preserved indefinitely by the cellular service providers and are purged at different intervals. Obtaining and preserving these records at this point in the investigation will assure the investigators assigned to the case will have them available, and if the case were to go "cold", future investigators will have access to the records which would otherwise likely not be obtainable. Not only could the preserved records assist in proving one's guilt, they could also assist in proving one's innocence.

18. I am aware cellular service providers maintain specialized location records consisting of engineering data. These data sets are used by providers to troubleshoot coverage areas and report back on potential dead spots, all with the intent to oversee and optimize the cellular network. Specialized location records typically contain data for every usage event, to include technology details (e.g. voice, text, data), resource usage, and call failure information. They can also include data for incomplete calls (e.g. denied calls and set-up failures). These records not only include the basic call detail records, but also an estimation of the SUBJECT PHONE NUMBER's location (latitude & longitude) with a possible accuracy radius, and/or the distance from the cell site at the time of the usage event. Utilizing specialized location records can provide investigators with a much smaller footprint of the SUBJECT PHONE NUMBER's location and could place the SUBJECT PHONE NUMBER within close proximity of a crime scene before, during, or after a crime. Each carrier uses their own nomenclature to describe the technology used to obtain this data including PCMD, formerly, NELOS (Network Event Location System)- AT&T, RTT (Round Trip Time/Return Trip Time/Real Time Tool)- Verizon, PCMD (Per Call Measurement Data)- Sprint & U.S. Cellular, and TruCall or TDOA (Time Distance of Arrival)- T-Mobile & metro by T-Mobile. I believe this information is relevant and material to the investigation as it provides supplemental geo-location information which, while not precise enough to identify a specific house is accurate enough to provide block-level accuracy, in some cases. Investigators can

use this information to correlate existing fact patterns and timelines to confirm or refute prior statements and/or evidence regarding the location of the SUBJECT PHONE NUMBER.

19. I am seeking evidence of communication between identified subjects and previously unidentified individuals and entities. In my training an experience, associates communicate together via phone calls, text messages, and social network posts via data sessions and this communication most commonly occur on or through cellular devices. I am also seeking evidence of association. I know that establishing the association of co-conspirators is important in proving a concert of action between multiple persons. In my training and experience, one of the most effective methods of linking co-conspirators together is by reviewing the call detail records maintained by the cellular service providers. In my training and experience, associates communicate together via voice calls, text messages and third party applications by means of a data usage event, therefore I am seeking the call detail record evidence to demonstrate the associations of the individuals in this case. Because this evidence is intended to be used to show associations of the user/owner of the device and co-participants, I am seeking the above items regardless of the dates the information was created.

20. I am aware cellular service providers maintain a master cell site list of all cell sites within their network. These cel site lists will include the specific switch, cell site number, name, physical address, latitude and longitude of the cell cite, all sectors associate with each cell site, azimuth, and beam-width of each related sector. When reviewing call detail and specialized location records from the carriers, the records may only reference a specific switch, cell and sector, or LAC (Location Area Code) and CID (Cell identification, related to each usage event; they usually will not include the location (latitude & longitude) of the actual cell site and to identify the azimuth of the sector used associated with specific usage events.

21. Also, in the course of the investigation and review of call detail and specialized location records, it may become necessary to visualize all cell sites within a geographic region of interest, not just the cell sites used by the target phone. It is just as important to show cell sites not used by the SUBJECT PHONE NUMBER as it is to show the cell sites used. By obtaining the master cell lists from the cellular service providers, investigators are able to plot all of the cell sites in a given region, helping investigators with disproving of alibis, statement, and other observations evidence by the records.

## PROBABLE CAUSE

22. On May 30, 2025, NCIS was notified of a missing person's report for CSSN Angelina RESENDIZ, USN, DDG-95 and COPELAND.

23. On June 01, 2025, COPELAND was located within his barracks room onboard Naval Station Norfolk, however, RESENDIZ was still missing.

24. On the evening of 28 May 2025, CSSN Angelina RESENDIZ was known to be in room 335B in the X-2 Barracks located onboard Naval Station Norfolk. This room is occupied by CSSN Jermiah COPELAND and three other roommates.

25. According to COPELAND, RESENDIZ came to his barracks room to have dinner and have a couple drinks with him.

26. COPELAND stated the relationship with RESENDIZ was platonic and he is a friend from work and no sexual acts have ever happened between them. He said that she kept her clothes on the whole time she was at his barracks room,. But admitted that she did spend the night.

27. At approximately 0214, ET3 Daniel RICH received a call from RESENDIZ in distress. She asked to be picked up as soon as possible. She passed the phone to COPELAND who asked how far away he was. When he arrived, she did not answer his calls or texts. Her phone died or was turned off around 0400 that morning.

28. During an interview with AR John CALISSE, a suitemate, he advised that he left for work at approximately 0530 on 29 May 2025 and observed COPELAND and an unknown female at least partially naked sleeping on the floor of the common area.

29. During an interview with YN3 Sean MONOGHAN, who shares a bedroom with COPELAND, at approximately 0600 on 29 May 2025, MONOGHAN stated as he left for work he saw COPELAND and an unknown female on the floor of the common area in a state of undress and without a blanket.

30. During an interview with PSSN Irbin GORDILLOCRUZ, who is a roommate of CALISSE, at approximately 0645 on 29 May 2025, GORDILLOCRUZ stated he was leaving for work and saw COPELAND and an unknown female on the floor at least partially naked.

31. COPELAND stated he was late for work on the morning of 29 May 2025 and FCC Brad PARKER knocked on his door to tell COPELAND he was going to be labeled as Unauthorized Absence (UA). FCC PARKER spoke to COPELAND at approximately 0900 and observed RESENDIZ rolled in a blanket in his bed. FCC PARKER told COPELAND to take care of her and report to work and left the barracks room.

32. On 29 May 2025 at approximately 1241, COPELAND called FCC PARKER and told him he had dropped RESENDIZ off at her barracks room and he was waiting for a ride to work.

33. During an interview on 1 June 2025, COPELAND explained the two of them got dressed and a roommate took him and RESENDIZ to RESENDIZ's residence located at Miller Hall onboard Naval Station Norfolk at approximately 1000.

34. RESENDIZ never checked into Miller Hall on 29 May 2025, or thereafter.

35. During an interview on 3 June 2025, COPELAND explained that RESENDIZ left his barracks room by herself.

36. NCIS interviewed all remaining roommates of COPELAND who stated they did not give a ride to COPELAND and RESENDIZ on the morning of 29 May 2025.

37. COPELAND never arrived at work on 29 May 2025. COPELAND was marked UA for the days of 29 May 2025, 30 May 2025, 31 May 2025 and on 01 June 2025 before checking in on that day.

38. On 01 June 2025, according to CALISSE, COPELAND, went to dinner at Chipotle with CALISSE and GORDILLACRUZ around 1900. Then, after eating at around 2000, COPELAND asked CALISSE if he could use CALISSE's car, a white jeep, to "go get something to eat." GORDILLOCRUZ corroborated this. COPELAND was unaccounted for from 2000, 1 June 2025 to 0630 2 June 2025.

39. This white jeep was captured on a street camera at 0440 driving south down Hampton Boulevard in Norfolk, Virginia. CALISSE was not operating the vehicle at that time.

40. COPELAND returned the keys to CALISSE at approximately 0630 on 2 June 2025.

41. During a search of COPELAND's room on 03 June 2025, a trail of blood was found between the common area and COPELAND's room. Blood was also found on the bathroom sink and in COPELAND's closet. Blood was later identified in a stairwell leading out of X-2. Samples were later tested and confirmed to contain the DNA of RESENDIZ.

42. RESENDIZ's cellphone last pinged on 29 May 2025 and the location was the X-2 Barracks.

43. On 09 June 2025, while reviewing the iPhone belonging to COPELAND, NCIS was able to extract two image files, one of which appears to be a screenshot of a Google maps App with the street name Cary Ave visible. The device also appeared to be in Airplane mode at the time the screenshot was taken. The time on the screen shot is 05:15. After further examination, it appears the screenshot was taken on 02 June 2025 at 05:15.

44. NCIS was able to locate and extract health data to include the Apple Health Floors, Apple Health Steps, and Apple Health Distance during the examination. This data shows that on 02 June 2025 from 0345 to 0557, the iPhone was in the approximate area of 2842 Cary Avenue, Norfolk, VA 23504.

45. On 09 June 2025, NCIS went to the location of the ping/screenshot and began to search the area. A suitcase was located beneath a tree within the perimeter captured by COPELAND's screenshot. After partially opening the duffel bag, a pair of human legs was observed to be inside the suitcase.

46. NCIS found a photo on COPELAND's mother's Facebook page from 23 September 2024 in which COPELAND is using a bag that appears to be the duffel bag found at the Norfolk location.

47. On 10 June 2025, NCIS attended the autopsy of the female located in the duffel bag. Within the duffel bag, there was an E3 uniform patch located in the hair of the female.

48. On 10 June 2025, the Office of the Chief Medical Examiner identified remains located in the suitcase to be those of RESENDIZ.

49. Through law enforcement resources, NCIS was able to determine that the phone number [redacted] belongs to CALISSE and is registered with T-Mobile.

## INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

50. I am seeking evidence of ownership, use, and identification of subscriber, customer or owner of the electronic communication information contained in the records retained by the cellular service provider. I am aware, depending in whether the account is post-paid or pre-paid, a consumer must provide information to the cellular service provider. Post-paid accounts are credit based whereby a customer is provided service and then billed after the provision of services. These types of accounts require sufficient identifying information to enable the cellular service providers to make a determination regarding the credit worthiness and recourse in the event the consumer defaults on their contractual agreement. The information required by most cellular service providers include the customer's personal identifying information, verified using government issued identification or other means, residential address, alternate contact phone number(s), and electronic main (email) address (es). Additional information can include the type of service plan, additional features subscribed to, such as cloud storage and additional phones on the same account, device type and unique identifiers including IMEI and IMSI, method and source of payment information including financial institution and direct billing checking account numbers, credit or debit card numbers, and/or third-party payment processors, and customer service representative account comments and notes. I believe this information is relevant and material to the matter at hand as it serves multiple purposes including identifying the subscriber to the SUBJECT PHONE NUMBER, providing investigators with additional information and leads including subscriber address, additional phone numbers, and/or email addresses, device identifiers used to correlate any seized phones with the account, previously unidentified phones subscribed to on the same account and financial information. I know that ownership and control of a digital device can be placed at issue through a simple denial, "that is not my phone." In my training and experience, some of the best ways to establish ownership and control are by reviewing account information and subscriber records from cellular service providers.

51. The items to be searched for and seized are listed in detail on the attached "Attachment B" on the application for this search warrant. Based upon my training and experience, I know that all of the items listed on "Attachment A" are commonly found within the cellular phone activity of criminal actors.

52. I swear or affirm under penalty of perjury that the above stated information is true and correct to the best of my knowledge and belief.

## CONCLUSION

53. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. Section 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

GOKEY.JESSICA.RAY[redacted] Digitally signed by GOKEY.JESSICA.RAY[redacted] Date: 2025.09.29 15:23:52 -04'00'

Special Agent Jessica Gokey

**Subject:** Ex-Parte Warrants: US v. Copeland

Good Afternoon Clerk of Court,

I have just submitted two warrant requests in US v. CSSN Copeland. One is a correction based on a ruling from this court denying a prior warrant application on 17 SEP. The other is a re-do of a warrant submitted on 9 SEP and approved on 11 SEP. The substantive content is the same, but the phone number on the 3056 was not consistent with the number in parts A and B, so T-Mobile kicked it back. This resubmission corrects

that error. Of note, I used the "as issued" versions of Attachments A and B from the prior approved version. Thanks.

Very Respectfully,

Christopher B. Dempsey

|---|---|
| **United States**<br><br>**v.**<br><br>**JERMIAH T. COPELAND**<br>**CSSN/E-3**<br>**USN** | **APPLICATION FOR DESIGNATION TO ASSUME THE RIGHTS OF A VICTIM: Ms. Esmerelda Castle**<br><br>**8 OCT 25** |

## APPLICATION FOR DESIGNATION TO ASSUME THE RIGHTS OF A VICTIM

1. The Government respectfully submits this *ex parte* request for an order pursuant to Article 6b(c), Uniform Code of Military Justice (U.C.M.J.), and Rule for Court-Martial (R.C.M.) 309(b)(5) designating Ms. Esmerelda Castle to assume the rights of a deceased victim in the above-captioned case.

## LEGAL BACKGROUND

2. "In the case of a victim of an offense under this chapter who is under 18 years of age (but who is not a member of the armed forces), incompetent, incapacitated, or deceased, the legal guardians of the victim or the representatives of the victim's estate, family members, or any other person designated as suitable by the military judge, may assume the rights of the victim under this section." Article 6b(c), U.C.M.J.

3. "In this section, the term 'victim of an offense under this chapter' means an individual who has suffered direct physical, emotional, or pecuniary harm as a result of the commission of an offense under this chapter." Article 6b(b), U.C.M.J.

4. "The military judge may designate a suitable person to assume the rights of a victim who is under 18 years of age (but who not a member of the armed forces), or who is incompetent, incapacitated, or deceased. Upon appointment by the military judge, the legal guardian of the victim, the representative of the victim's estate, a family member, or any other person designated as suitable by the military judge, may assume the rights of the victim." R.C.M. 309(b)(5).

## FACTS

5. On 29 May 2025, CS3 A.R., USN, went missing and was never heard from again. On 9 June 2025, her body was located in a wooded area after evidence was found linking CSSN Jermiah Copeland, USN, the Accused, to her murder and disappearance.

6. A thorough investigation revealed several other victims of violence and sexual misconduct perpetrated by the Accused. On 22 August 2025, Charges were preferred. These Charges include

four Specifications of Article 120, one specification of Article 128, one specification of Article 117a, two Specifications of Article 120c, three specifications of Article 131b, two Specifications of Article 128b, two specifications of Article 107, and one Specification of Article 118, UCMJ.

7. On 3 September 2025, Commander, Navy Region Mid-Atlantic, appointed CDR John Butler, JAGC, USN, as a Preliminary Hearing Officer to conduct a preliminary hearing into the charges against CSSN Copeland.

8. The Article 32 preliminary hearing was held on 18 September 2025.

9. On 1 October 2025, charges were referred to a general court-martial. Five Specifications of alleged misconduct relating to the death of CS3 A.R. were referred. This includes a Specification of Article 118 for the premeditated murder of CS3 A.R., two Specifications of Article 131b for disposing of her body and hiding his phone from investigators, and two Specifications of Article 107 for making false statements about his knowledge of CS3 A.R.'s whereabouts.

9. Ms. Esmerelda Castle is CSSN Resendiz's mother.

**REQUEST FOR ORDER**

10. The Government respectfully requests that a military judge issue an order designating Ms. Esmerelda Castle to assume the rights of a deceased victim in this case, specifically, CS3 A. R. CS3 A.R. is a "victim of an offense under this chapter" pursuant to Article 6b, U.C.M.J., because she suffered direct physical harm as a result of the commission of an offense under the U.C.M.J. as described above. Ms. Esmerelda Castle is CS3 A.R.'s mother (*i.e.*, family member), and her designation to assume CS3 A.R.'s rights in this case is proper because she is deceased.

Respectfully submitted,

[redacted]

C. B. DEMPSEY
LT, JAGC, USN
Trial Counsel

**DEPARTMENT OF THE NAVY**
**NAVY-MARINE CORPS TRIAL JUDICIARY**

|---|---|
| **United States**<br><br>**v.**<br><br>**JERMIAH T. COPELAND**<br>**CSSN/E-3**<br>**USN** | **APPLICATION FOR DESIGNATION TO ASSUME THE RIGHTS OF A VICTIM: Ms. Esmerelda Castle**<br><br>**8 OCT 25** |

**ORDER**

The Government has submitted an application pursuant to Article 6b(c), Uniform Code of Military Justice, and Rule for Court-Martial 309(b)(5), requesting that a military judge issue an order designating Ms. Esmerelda Castle to assume the rights of a deceased victim in this case, specifically, CS3 A.R.

The Court finds that CS3 A.R. is a victim under Article 6b, Uniform Code of Military Justice, who suffered direct physical harm as a result of the commission of an offense under the Uniform Code of Military and is deceased.

The Court also finds that CS3 A.R. was unmarried and had no children at the time of his death, and that Ms. Esmerelda Castle is the mother of CS3 A.R., and thereby are suitable individuals to assume the CS3 A.R.'s rights in this case.

IT IS THEREFORE ORDERED, pursuant to Article 6b(c), Uniform Code of Military Justice, and Rule for Court-Martial 309(b)(5), that Ms. Esmerelda Castle is hereby designated to assume the rights of CS3 A.R. in this case as articulated in Article 6b(a) and any other Navy rule, regulation, or instruction.

Subj: APPLICATION FOR INVESTIGATIVE SUBPOENA ICO US V. COPELAND (2)

Ref: (a) Uniform Code of Military Justice, Article 30a
(b) Rule for Courts-Martial 309(b)
(c) Rule for Courts-Martial 703(g)(3)(C)

Encl: (1) Draft DD Form 453 ICO US v. Copeland (2)

1. The Government respectfully requests an investigative subpoena to obtain subscriber information for the Instagram account (controlled and operated by Meta Platforms, Inc.) belonging to CSSN Jermiah Copeland, USN. This subpoena is in support of NCIS' investigation into CSSN Copeland labeled CCN: 06NOV24-NFXQ-00029-8SNA.

2. CSSN Copeland (hereafter "subject") is suspected of sexually assaulting CSSN [redacted] USN (hereafter "victim"), in violation of UCMJ Article 120, at bar in Oslo, Norway during a port call on 4 Nov 24. The victim stated that she went out with co-workers and consumed alcohol to the point of "blacking out." She reported that she has limited memories from the night and does not remember how she returned to the ship. The following day, the victim reported that she heard rumors of the subject showing other Sailors a video of him having sex with her in the bathroom of a bar in Oslo. The victim reported that she called the subject to confront him about it and stated that the subject denied the rumors. The victim then received messages from the subject wherein he threatened to kill himself because of the victim's allegations.

3. NCIS' investigation into this case revealed multiple Sailors who corroborated seeing the video in question. The video is described as starting with the subject's face and then panning to the victim's backside, with her face not visible in the shot. The video is described as showing the subject penetrating the victim from behind and witnesses reported not being able to tell if the victim was conscious during the sexual acts. NCIS was unable to obtain a copy of the video in question. NCIS interviewed the subject on 18 Nov 24, during which time he stated the sexual encounter was consensual, confirmed that he made a video recording, and admitted that he was unsure if the victim knew he was recording. NCIS interviewed the subject again on 20 Dec 24, during which time the subject stated that he made the recording using Instagram's "reels" feature because the application was already open on his phone when he entered the bathroom.

4. Biographical checks on the subject revealed the following information: DOB: [redacted]
Phone number: [redacted]; Email address: [redacted]

5. The Government requires CSSN Copeland's Instagram subscriber information to facilitate follow-on investigative actions in an attempt to obtain the video in question.

6. Thank you for your time and consideration. If there are any questions or concerns, I can be reached via email at matthew.c.doherty2.mil@us.navy.mil or via phone at 757-341-4511.

The victim then received messages from the subject wherein he threatened to kill himself because of the victim's allegations.

3. NCIS' investigation into this case revealed multiple Sailors who corroborated seeing the video in question. The video is described as starting with the subject's face and then panning to the victim's backside, with her face not visible in the shot. The video is described as showing the subject penetrating the victim from behind and witnesses reported not being able to tell if the victim was conscious during the sexual acts. NCIS was unable to obtain a copy of the video in question. NCIS interviewed the subject on 18 Nov 24, during which time he stated the sexual encounter was consensual, confirmed that he made a video recording, and admitted that he was unsure if the victim knew he was recording. NCIS interviewed the subject again on 20 Dec 24, during which time the subject stated that he made the recording using Instagram's "reels" feature because the application was already open on his phone when he entered the bathroom.

4. Biographical checks on the subject revealed the following information: **DOB**: [redacted]; **Phone numbers**: [redacted]; **Email address**: [redacted]; **Instagram Accounts**: [redacted]; [redacted]

5. The Government is submitting an additional request for an investigative subpoena in response to Meta advising that there was no data associated with the 804-216-4307 phone number relied upon in the original request. NCIS was able to ascertain more specific account identifiers during an open-source check on the subject conducted on 3 June 2025. These additional identifiers are now included above in paragraph 4.

6. The Government requires CSSN Copeland's Instagram subscriber information to facilitate follow-on investigative actions in an attempt to obtain the video in question.

7. Thank you for your time and consideration. If there are any questions or concerns, I can be reached via email at matthew.c.doherty2.mil@us.navy.mil or via phone at 757-341-4511.

## MOTION

Pursuant to Article 30a and Rule for Courts-Martial (R.C.M.) 309(b)(6), the defense moves this Court to order the government to permit the defense to meet with CSSN Copeland, in private, in order to prepare for trial – including the Article 32 preliminary hearing – or order the release of CSSN Jermiah Copeland from pretrial confinement.

## SUMMARY

On 9 June 2025, CSSN Copeland was ordered into pretrial confinement. On 16 June 2025, a 7-day reviewing officer held a hearing and approved continued confinement. That same day, the defense began requesting to confer privately with CSSN Copeland. The trial counsel, the brig, and CSSN Copeland's commanding officer denied those requests. Pursuant to Article 30a and R.C.M. 309, this Court can review the pretrial confinement of an accused prior to referral. The defense requests that this Court review CSSN Copeland's confinement and find that it interferes with his right to counsel – namely his right to confer privately with his attorneys – and order that the defense be permitted to meet with CSSN Copeland privately in the same room to have confidential meetings in preparation for trial at least once every two weeks. These meetings can be at the brig, in building A-50, or at another location in Hampton Roads, Virginia. Alternatively, this Court should order the release of CSSN Copeland from pretrial confinement.

## BURDEN

As the moving party, the defense bears the burden to prove facts necessary to resolve the motion by a preponderance of evidence. R.C.M. 905(c).

## FACTS

1. On 9 June 2025, CSSN Copeland was ordered into confinement. (Enclosure (1): Confinement Order of 9 Jun 25).

2. CSSN Copeland is confined at the Naval Consolidated Brig Charleston (NCBC) Detachment Chesapeake. He is classified as a maximum status prisoner. This means, he is in his cell alone for at least 22 hours per day. At least one military judge has ruled that this type of confinement is illegal pretrial punishment. (Enclosure (2): Ruling from U.S. v. DC3 Reimonenq of 14 Mar 25).

3. On 16 June 2025, an Initial Review Officer (IRO) hearing was held at the NCBC, where the defense team met with CSSN Copeland for the first time. That same day, a 7-day reviewing officer approved continued confinement. (Enclosure (3): IRO Memo of 17 Jun 25).

4. Based on CSSN Copeland's status, his defense team cannot have a contact visit with him at the brig. The brig will only allow the defense team to meet with him behind glass. This room makes it difficult, if not impossible, for the attorneys to hear our client and makes it difficult for CSSN Copeland to hear his attorneys. Additionally, communications from outside this room can be heard while inside, which means communications within the room can also be heard. Further, there is no means to review discovery with CSSN Copeland in this room as there are only tiny slots to pass a few sheets of folder paper and no way for CSSN Copeland to review a video or electronic evidence. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 16; Enclosure (5): Mrs. Hoffmeister Affidavit).

5. On 16 June 2025, the defense demanded a speedy trial and requested that CSSN Copeland be brought to building A-50 to meet with his defense counsel. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 10; Enclosure (6): Demand for Speedy Trial of 16 Jun 25).

6. On 24 June 2025, after the defense followed up on our initial request, the trial counsel responded to inquire as to why the defense wanted to meet with our client in-person. The defense responded and explained. The same day, the Staff Judge Advocate for the USS JAMES E. WILLIAM's ISIC stated that the command was standing by to assist. However, on 30 June 2025, the trial counsel stated that "the government would not be able to support…." The defense asked the trial counsel for justification as to why the government would not support our request. However, the trial counsel never responded. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 4-6).

7. Despite the trial counsel not responding to the defense's request for justification, on 1 July 2025, the trial counsel submitted a request for excludable delay from 10 June 2025 to 25 July 2025. (Enclosure (7): Excludable Delay Request of 1 Jul 25). That same day, the defense objected to that request. (Enclosure (8): Defense Objection to Excludable Delay of 1 Jul 25).

8. On 9 July 2025, the convening authority granted the government request for excludable delay until 25 July 2025. (Enclosure (9): Grant of Excludable Delay ltr of 9 Jul 25).

9. On 25 July 2025, CSSN Copeland again demanded a speedy trial. (Enclosure (10): Second Demand for Speedy Trial of 25 Jul 25). The Office of Special Trial Counsel neither acknowledged nor responded to this request.

10. On 30 July 2025, the defense requested discovery citing Rules 3.4 and 3.8 of the JAG Corps Rules for Professional Responsibility because the defense requires and is entitled to fairness and equal access to discovery. Further, the defense explained that discovery would reduce the risk of prejudicial speedy trial issues if charges were ever preferred in this case. The trial counsel neither acknowledged nor responded to this request. (Enclosure (11): Defense's Initial Discovery Request of 30 Jul 25).

11. Instead, on 8 August 2025, the trial counsel once again requested excludable delay. (Enclosure (12): Second Excludable Delay Request of 8 Aug 25).

12. On 29 July 2025, CSSN Copeland through counsel submitted a formal request for redress to the Commanding Officer, USS JAMES E. WILLIAMS to meet with his attorneys in a private, confidential in-person setting. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls at 13).

13. On 7 August 2025, the USS JAMES E. WILLIAMS denied CSSN Copeland's request and later refused to provide any reasoning. (*Id.* at 21).

14. On 11 August 2025, the defense objected to the second request for excludable delay. (Enclosure (13): Defense Objection to Second Excludable Delay of 11 Aug 25). As of this filing, the convening authority has not responded to the trial counsel's request.

15. On 13 August 2025, CSSN Copeland filed a complaint pursuant to Article 138, UCMJ. (Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25).

16. As of this filing, no response has been issued to CSSN Copeland.

17. On 21 August 2025, NCIS was permitted to meet with CSSN Copeland at the brig and have a contact visit. The special agents were allowed to be in a room with CSSN Copeland. Touch him and take a buccal swap, get his fingerprints, and take his photograph. (Proffered testimony from SA Fritzer Philemon).

18. On 22 August 2025, the government preferred charges in this case. On that same day, the defense reached out about scheduling the Article 32 hearing and meeting with our client in preparation for the hearing. (Enclosure (14): Emails with the trial counsel of 22 Aug 25).

19. As of this filing, the defense has not been able to coordinate a means to have a private in-person meeting with CSSN Copeland.

## LAW

20. "In all criminal prosecutions, the accused shall enjoy the right . . . to have the Assistance of Counsel for his defense."[1] Necessarily included in the Sixth Amendment right to counsel is the right of an accused to *confer privately* with his attorney.[2]

21. The accused has the right to be represented by counsel during an investigation under Article 32, UCMJ, and before a general or special court-martial.[3] In the military justice system, the right to counsel includes the right to counsel detailed under Article 27, UCMJ. The right to the services of detailed counsel "is substantial, and extends to both the pretrial and the trial proceedings."[4]

22. "The right to be heard would be, in many cases, of little avail if it did not comprehend the right to be heard by counsel…. [A defendant] is unfamiliar with the rules of evidence…. He lacks both the skill and knowledge adequately to prepare his defense, even though he [may] have a perfect one. He requires the guiding hand of counsel at every step in the proceedings against him."[5] Courts have concluded that an order preventing a defendant from consulting his attorney even during an overnight recess infringes upon this substantial right.[6]

23. "A concomitant right is the right to confidential communications between the attorney and client."[7] M.R.E. 502(a) requires confidential communications "for the purpose of facilitating the rendition of professional legal services to the client."

24. Article 30a of the UCMJ states that "the President shall prescribe regulations for matters relating to proceedings conducted before referral of charges and specifications to court-martial for trial, including the following: … Pre-trial confinement of an accused…."

25. Article 30a was revised to include review of the pretrial confinement of the accused under a provision called "Expansion of pre-referral matters reviewable by military judges and military magistrates in the interest of efficiency in military justice."[8]

26. "A military judge detailed under regulations of the Secretary concerned may conduct proceedings under Article 30a, before referral of charges and specifications to court-martial for trial, and may issue such rulings and orders as necessary to further the purpose of the proceedings. A military judge may issue such orders and rulings only when the matters would be subject to consideration by a military judge in a general or special court-martial."[9]

27. After action by the 7-day reviewing officer under R.C.M. 305(j)(2)(C), a military judge may, upon application of an accused for appropriate relief, *review the propriety of pretrial confinement*.[10]

28. "Pretrial confinement is physical restraint, imposed by order of competent authority, depriving a person of freedom pending disposition of offenses."[11] It is "not punishment and shall not be used as such."[12] Moreover, "[a] person should not be confined as a mere matter of convenience or expedience."[13] In fact, "[p]retrial confinement inevitably makes defense of a case more difficult," so "unless there is a need for it, pretrial confinement should be avoided."[14]

29. An accused is presumed innocent until proved guilty, and, therefore, punishment for an alleged offense is prohibited before trial.[15]

30. The Department of the Navy Corrections Manual (SECNAV M-1640.1 of May 2019) permits military judges to make exceptions to brig policies. This includes allowing a confinee in any status (including "MAX" and "MDI") to meet without escorts or restraints.[16]

## ARGUMENT

31. **This Court has the authority to detail a military judge to this proceeding to review the pretrial confinement of the accused.** R.C.M. 309 states that a military judge may conduct proceedings pursuant to Article 30a, before referral of charges. R.C.M. 309(a)(6) states that after action by a 7-day reviewing officer, a military judge may review the propriety of pretrial confinement. Propriety means "the quality or state of being proper or suitable."[17] Here, there was action by the 7-day reviewing officer. Therefore, this court may review the quality of CSSN Copeland's confinement and issue remedies "as necessary to further the purpose of the proceedings."[18]

---

[10] R.C.M. 309(a)(6).
[11] R.C.M. 304(a)(4).
[12] R.C.M. 304(f).
[13] R.C.M. 305(i)(B), Discussion.
[14] *Berta v. United States*, 9 M.J. 390, 393 (C.M.A. 1980) (mem.).
[15] E*.g.,* 10 U.S.C. § 813.
[16] Department of the Navy Corrections Manual at 4-6, 4-7.
[17] MERRIAM-WEBSTER'S DICTIONARY (available at https://www.merriam-webster.com/dictionary/propriety).
[18] R.C.M. 309(a)(1).

32. Further, it is clear that the expansion of Article 30(a) to ruling on matters relating to the pretrial confinement of the accused was intended to increase "efficiency in military justice." That is evident from the title of the section of the NDAA that included the expansion. Ordering the government to stop interfering with CSSN Copeland's rights to counsel at the prereferral stage will increase efficiency and prevent speedy trial issues and other litigation in the future. This Court should hear this application pursuant to Article 30a, as it is a proper review of the propriety of CSSN Copeland's pretrial confinement.

33. **A review of CSSN Copeland's pretrial confinement demonstrates that his pretrial status is interfering with his rights to counsel.** CSSN Copeland has the right to counsel, included in that right is the right to meet and confer privately with counsel. CSSN Copeland has been unable to confer privately with his attorneys despite numerous requests.

34. The defense and CSSN Copeland have repeatedly requested to be able to meet in-person privately and have a confidential meeting. The brig will only permit the defense a "no-contact" visit. This occurs in a room where defense counsel would have to shout and CSSN Copeland would have to shout back through a Plexiglass window. This is unacceptable considering conversations from outside the door can be heard within the room. That is neither private nor in-person. Even according to the Navy's correctional manual "MAX" and "MDI" prisoners must be escorted at all times; however, a military judge may order exceptions.[19] Additionally, CSSN Copeland's command could escort him to another secure location outside of the brig to allow him to meet with counsel. However, the government continues to deny the defense's reasonable requests to facilitate a private, confidential meeting with our client. Further, despite these restrictions put in place to keep CSSN Copeland from meeting with his counsel, NCIS has been permitted to be in the same room with him and have contact visits. Finally, no brig policy or instruction can interfere with CSSN Copeland's rights to counsel – or his right to confer privately with his attorneys.

35. While the phone does allow communication with the client that the defense presumes are confidential, it is not sufficient to prepare for trial or pretrial hearings, now or on a consistent basis. For instance, the defense cannot review discovery with the client over the phone. Further, if CSSN Copeland desires to testify in his own defense, whether at the preliminary hearing, an Article 39(a), or at trial, his defense counsel could not properly prepare him for that decision or the hearing over the phone.

36. This Court must review CSSN Copeland's confinement and find that it interferes with his right to counsel – namely his right to confer privately with his attorneys – and order that the defense be permitted to meet with CSSN Copeland privately in the same room for a confidential meeting in preparation for trial at least once every two weeks. These meetings can be at the brig, in building A-50, or another location in Hampton Roads, Virginia.

[19] Department of the Navy Corrections Manual, SECNAV M-1640.1 of 15 May 19 at 4-6, 4-7.

## RELIEF REQUESTED

Pursuant to Article 30a and R.C.M. 309(b)(6), the defense moves this Court to order the government to permit the defense to privately meet with CSSN Copeland in-person in order to prepare for trial, including the Article 32 preliminary hearing, or order the release of CSSN Jermiah Copeland from pretrial confinement. If the government cannot facilitate CSSN Copeland's right to confer with counsel while he is in pretrial confinement, this Court should order CSSN Copeland's release.

## EVIDENCE & HEARING

37. The defense requests the production of SA Fritzer Philemon for in person or telephonic testimony at the Article 30a hearing.

38. The defense offers the following enclosures as evidence in support of this Motion:

a. Enclosure (1): Confinement Order of 9 Jun 25
b. Enclosure (2): Ruling from U.S. v. DC3 Reimonenq of 14 Mar 25
c. Enclosure (3): IRO Memo of 17 Jun 25
d. Enclosure (4): Complaint Pursuant to Article 138 of 13 Aug 25 w/encls
e. Enclosure (5): Mrs. Hoffmeister Affidavit
f. Enclosure (6): Demand for speedy trial of 16 Jun 25
g. Enclosure (7): Excludable Delay Request of 1 Jul 25
h. Enclosure (8): Defense Objection to Excludable Delay of 1 Jul 25
i. Enclosure (9): Grant of Excludable Delay ltr of 9 Jul 25
j. Enclosure (10): Second Demand for Speedy Trial of 25 Jul 25
k. Enclosure (11): Defense's Initial Discovery Request of 30 Jul 25
l. Enclosure (12): Second Excludable Delay request of 8 Aug 25
m. Enclosure (13): Defense Objection to Second Excludable Delay of 11 Aug 25
n. Enclosure (14): Emails with the trial counsel of 22 Aug 25

39. Unless the government concedes the motion or this Court grants the relief on the basis of pleadings alone, the defense requests a hearing to present evidence and argument on this matter. The defense is available for an Article 39(a) motions hearing on the following dates: 8-19 September 2025.

**GENERAL COURT-MARTIAL**
**UNITED STATES COAST GUARD**

| | |
|---|---|
| UNITED STATES<br>v.<br>DC3 RUDOLPH P. REIMONENQ IV,<br>U.S. Coast Guard | RULING on Defense Motion for Appropriate Relief (Confinement Credit)<br><br>14 March 2025 |

**1. Relief Sought**

The Defense filed a motion for administrative credit for various alleged violations of Article 13, UCMJ. AE 46. The Government filed a response opposing the Defense motion. AE 48. An Article 39(a) session was held to hear arguments on this motion on 28 January 2025.

**2. Issues Presented**

a. Did the Government violate Article 13, UCMJ, when it placed and kept the accused as a maximum-security prisoner, and, if so, what administrative credit is the accused entitled to, if any?

b. Did the Government violate Article 13, UCMJ, when it kept the accused shackled during his Article 32, UCMJ, preliminary hearing, and, if so, what administrative credit is the accused entitled to, if any?

c. Did the Government violate Article 13, UCMJ, when it failed to provide the accused a Coast Guard uniform for his Article 32, UCMJ, preliminary hearing, and, if so, what administrative credit is the accused entitled to, if any?

**3. Findings of Fact**

In reaching its findings of fact and conclusions of law, the Court considered all legal and competent evidence presented and the reasonable inferences drawn therefrom and resolved all issues of credibility. The Court finds the following facts by a preponderance of the evidence.

a. Procedural History

(1) DC3 Rudolph Reimonenq, USCG, is accused of attempted premeditated

murder, two specifications of carrying a concealed weapon, and one specification of dereliction of duty. The charges and specifications arise from an incident when the Accused brought a rifle, revolver and ammunition with him when he reported to duty aboard the United States Coast Guard Cutter (USCGC) LEGARE in the early morning hours of 26 March 2024. The accused later admitted to CGIS that he intended to kill the Commanding Officer of the *Legare*.

(2) The accused was ordered into Pre-Trial Confinement (PTC) at NCBC DET Chesapeake on 28 March 2024. He has remained in PTC since that time.

b. NCBC DET Chesapeake

(1) The Naval Consolidated brig in Chesapeake, Virginia, is a brig detachment under the supervision of NCBC (NCBC), South Carolina. NCBC DET Chesapeake does not have an independent Commanding Officer (CO). Instead, it has an Officer-in-Charge (OIC) that is subordinate to the Commanding Officer of NCBC.

(2) CDR IM is the OIC for NCBC DET Chesapeake. He reports to CDR JB as the CO for NCBC.

(3) CDR IM testified that on 28 January 2025 there were 14 prisoners housed at NCBC DET Chesapeake, which is a typical number for that facility.

(4) CDR IM's career has been as a Navy helicopter pilot. His current assignment is the first in the Military corrections field. In addition to a generic leadership course offered to all entering a command position, CDR IM also attended a Brig Officer Management course, which was either 4 or 5 days.

(5) Similarly, CDR JB's background has not been in military corrections, instead he entered his current position after a career as a Surface Warfare Officer.

(6) Both NCBC and NCBC DET Chesapeake have civilian corrections professionals to advise the command on corrections matters and corrections policy. Ms. RR is the Technical Director for NCBC, and Mr. PM is the Program and Service Department Head at NCBC DET Chesapeake. He also serves as the Facilities Manager and the Safety Manager.

c. Prisoner custody classification

(1) Medium-In (MDI)

(a) MDI is the lowest level of classification for a pre-trial confinee.

(b) Generally, an MDI prisoner is in their cell overnight from 2130 until 0530. Once they wake up, an MDI prisoner exits their cell and remains outside

of it until they go back in at 2130.

(c) An MDI prisoner is not required to wear restraints while moving within the brig, and there are generally no restrictions on their interactions with other prisoners.

(d) An MDI prisoner will work in assigned work details from after breakfast until approximately 1530.

(e) After 1530, MDI prisoners get to participate in rec call, where they can work out or play sports with other prisoners.

(f) After dinner (generally around 1700), prisoners can enjoy personal time until they must return to their cells at 2130. During personal time MDI prisoners can be outside of their cells in their housing unit, watch TV, make phone calls, or talk with other prisoners.

(g) MDI prisoners are permitted to have contact visits with family and counsel.

(2) Maximum (MAX)

(a) MAX prisoners are confined to their cells for up to 22 hours a day. They are permitted one hour of recreation, and one hour of personal time. Both recreation time and personal time are performed alone without any other interaction with other prisoners.[1]

(b) MAX prisoners are not permitted to make contact with anyone other than the brig staff. Brig staff must physically observe a MAX prisoner every 15 minutes and record their observations on a DD 509 form.

(c) MAX prisoners eat all of their meals in their cell.

(d) MAX prisoners are fully restrained (hand irons, leg irons, and transport belt) and escorted by two brig staff members when outside of their housing unit – even within the brig's fenceline. They are not required to wear restraints during their recreational or personal time; however, they must be restrained and escorted to the recreation yard.

(e) Only a military judge or the brig OIC can order a MAX prisoner's restraints removed.[2]

(f) MAX prisoners may not have any contact visits with either family or counsel, which means a MAX prisoner must be separated from their

[1] CDR IM testified that MAX prisoners were permitted additional personal time if there were sufficient staff resources to support it.
[2] MAX prisoners may move unrestrained in emergency situations.

visitor by some form of partition.

(3) Classification & Adjustment (C&A) Board

(a) Each brig is required to have a C&A Board which must meet daily (excluding weekends and holidays). The board evaluates the classification status for each prisoner, generally once every 30 days or at the prisoner's request, using objective criteria:

| 5. CLASSIFICATION CRITERIA *(Enter point values)* |
|---|
| a. OFFENSE SEVERITY = 1 - 8 |
| b. NUMBER OF DISCIPLINARY BOARDS *(Last 90 days)*<br>NONE = 0 ONE = 1 TWO = 2 THREE+ = 4 |
| c. SEVEREST DISCIPLINARY REPORT<br>NONE = 0 CATEGORY 1 = 1 CATEGORY 2 = 2 CATEGORY 3 = 3 CATEGORY 4 = 4 CATEGORY 5 = 5 |
| d. NUMBER OF NEGATIVE OBSERVATION/DISCIPLINARY REPORTS *(Last 90 days)*<br>NONE - THREE = 0 FOUR - SIX = 2 SEVEN - TEN = 4 ELEVEN+ = 6 |
| e. NUMBER OF POSITIVE OBSERVATION REPORTS *(Last 90 days)*<br>NONE = 0 ONE OR MORE = -1 |
| f. CURRENT PROGRAMMING COMPLETED A TREATMENT PROGRAM = -2<br>INVOLVED IN TREATMENT PROGRAMS = -1 *(only if no program completed)*<br>NO PROGRAM INVOLVEMENT = 0 FAILED OR DROPPED FROM PROGRAM = 2 |
| g. WORK PERFORMANCE<br>OUTSTANDING = -2 ABOVE AVERAGE = -1 AVERAGE = 0 BELOW AVERAGE = 2 |
| h. LENGTH OF SENTENCE TIME REMAINING PRETRIAL OR 0 - 90 DAYS = 0 91 DAYS - 1 YEAR = 1<br>1+ TO 3 YEARS = 2 3+ TO 5 YEARS = 3 5 + TO 10 YEARS = 5 10+ YEARS = 7 LIFE/DEATH = 8 |
| i. PENDING CHARGES/WARRANTS/DETAINERS<br>NO = 0 YES = ENTER POINTS FOR OFFENSE SEVERITY CODE *(See DoDI 1325.07, Severity Code Tables)* |
| j. TOTAL POINTS |

(b) After adding up the points assigned to the objective criteria, the C&A board can recommend reduction in classification (for 0-6 points), remain the same (7-10 points), or increase the classification (11 or more points).

(c) There are also subjective criteria which the board can use to override the recommendation generated by the objective criteria. To override a reduction in classification, the board may consider the following:

i. Assaultive behavior;

ii. Disruptive behavior;

iii. Serious drug abuse;

iv. Serious civil or military criminal record (convicted or alleged);

v. Low tolerance of frustration;

vi. Intensive acting out or dislike of the military;

vii. History of previous escape(s);

viii. Pending civil charges or detainers filed;

ix. Serving a sentence that the individual considers unjust or severe;

x. Poor home conditions or family relationships;

xi. Emotional or mental instability;

xii. Indication of unwillingness to accept responsibility for personal actions, past and present;

xiii. Demonstrated pattern of poor judgment;

xiv. Length, or potential length, of sentence;

xv. Gang affiliation or ties with disruptive organizations;

xvi. Awaiting transfer;

xvii. A sentence length exceeding the designated length of confinement authorized at the MCF; and

xviii. Refusal to accept or participate in recommended treatment or education programs.[3]

(d) To override an increase in classification, the board may consider the following:

i. Clear military record, aside from present offense;

ii. Close family ties - good home conditions;

iii. The offense(s) charged is not serious;

iv. Emotional and mental stability;

v. Comparatively short sentence to confinement; however, length of sentence will not be a sole overriding factor;

vi. Behavior during confinement, and

vii. Successful completion of, or active participation in, offense-related treatment programs or groups.

(e) Finally, the facility commander may override the C&A board's recommendation using the same criteria.

d. Navy & NCBC policies

(1) Navy Corrections policy

(a) Section 4202 of SECNAVINST M1640.1 addresses classification criteria. It notes that "Ultra-conservative custody classification results in a waste of prisoner and staff manpower. … Classification systems must follow established, but flexible, procedures." It also states that "Prisoners will be placed in a lower custody classification as soon as practical and as warranted."

[3] Pre-Trial Confinees are generally ineligible to participate in treatment programs.

(2) NCBC policy

(a) NCBC has a policy that any pre-trial confinee who is charged with a "serious crime" will be classified as a MAX prisoner.

(b) This policy is not written. CDR IM testified that CDR JB relayed to them that "most people who are accused of murder, they're normal, they have a bad day and then something bad happens," and that they were going to keep those accused of murder classified as MAX prisoners to keep everybody safe, both staff and prisoners.

(c) There was no evidence of data supporting CDR JB's assertion that, as a general matter, prisoners accused of murder were more likely to do "something bad" and that they posed a safety risk for brig staff and inmates.[4]

(d) Further, as the policy was not written, there was not a definition of "serious crime," however, CDR IM understood that murder and attempted murder qualified as "serious."

(e) At the time the accused was ordered into PTC, CDR IM was not aware of this policy. In June 2024 there was a use-of-force incident with a different pre-trial confinee accused of a serious crime that brought to light NCBC DET Chesapeake's non-compliance with NCBC's policy.

e. The accused's confinement at NCBC DET Chesapeake

(1) When the accused was ordered into PTC, the confinement order specified he was suspected of violating Articles 80 (attempted murder), 92 (failing to obey an order or regulation), 114 (endangerment offenses) and 115 (communicating a threat), UCMJ.

(2) Because NCBC DET Chesapeake was not classifying pre-trial confinees accused of serious crimes as MAX prisoners, the accused was initially classified as an MDI inmate.

(3) From 28 Mar 2024 until 19 July 2024 the accused performed as an MDI prisoner without any disciplinary incidents.

(4) On 19 July 2024 the accused was served with the preferred charge sheet. At that point, the NCBC DET Chesapeake staff and OIC realized he had been

[4] The only evidence in the record of a pre-trial confinee acting in a manner that threatened other staff or prisoners occurred in June, 2024, when HM3 Pate (another pre-trial confinee accused of a serious offense) had an adverse interaction with a staff member. However, the evidence is not clear about whether the staff member bore some responsibility for instigating the incident, and, in any event, the staff member involved did not regard the prisoner as a physical threat.

misclassified and reclassified the accused to a MAX prisoner.[5]

(5) At the following C&A board on 20 Aug 2024, the board recommended again reclassifying the accused to an MDI prisoner. The OIC overrode the board's recommendation and ordered the accused remain as a MAX prisoner.

(6) At every subsequent C&A board (occurring approximately every 30 days), the board recommended downgrading the accused's classification to MDI. Every time the OIC overrode the board's recommendation and ordered the accused remain a MAX prisoner.[6] At times, the OIC noted the seriousness of the crime as the justification, others he merely noted that the accused should "remain MAX." The OIC was unaware of the specifics of the accused's offense, only that he was accused of attempted pre-meditated murder.

(7) In November 2024, the licensed clinical social worker assigned to NCBC DET Chesapeake informed the OIC of the following concern:

> Based on a brief assessment that was conducted recently with SNP Reimonenq, SNP is demonstrating/expressing an increased level of emotional [decompensation] due to being isolated and confined in a cell for an [extended] period of time. In my clinical judgement, SNP Reimonenq would benefit from increased interaction with others to reduce [further] decompensation.

(8) In each of the DD Form 2711-1 documenting the accused's C&A board results, the board noted the accused was dealing with mental health challenges.

(9) Mr. PM disagrees with the NCBC's policy about keeping prisoners accused of serious crimes as MAX prisoners. He termed the policy "cookie cutter" and expressed concerns about being unable to justify the decisions based upon the prisoner's observed behavior.

f. <u>The Article 32 hearing</u>

(1) On 9 October 2024, CDR KW presided over an Article 32, UCMJ, hearing into the charges against the accused.

---

[5] At the C&A board that led to the accused's reclassification to a MAX prisoner, the board had to recommend overriding the objective criteria because, based upon his lack of disciplinary issues since being confined, the objective criteria directed that his classification remain the same (i.e. MDI). The OIC concurred with the board's recommendation.

[6] Prior to the Article 39(a) session where this motion was litigated, the OIC again overrode the C&A board's recommendation on 13 Jan 2025. The C&A board's evaluation on 13 January 2025 noted the objective criteria—for the first time—should require the accused to remain in his current classification. However, the board overrode the objective criteria to recommend reclassification to MDI due to "period of observation and evaluation." The OIC overrode the board's recommendation.

(2) The hearing was conducted in the Coast Guard courtroom in Main Street Tower in Norfolk, VA. The hearing was open to the public and members of the public attended the hearing, including members of the accused's family.

(3) By agreement of the parties, CDR KW participated remotely, as did civilian defense counsel. Detailed defense counsel was present with the accused.

(4) The accused was attired in a brown prisoner's uniform and remained shackled throughout the proceeding.

(5) Defense counsel requested that the shackles be removed. Government counsel joined in this request. However, the brig personnel refused to do so because it was not a "court proceeding" and the Preliminary Hearing Officer was not a judge.

(6) At the outset of the hearing, CDR KW noted that the accused was not attired in the proper uniform but noted that he would take into consideration the fact that the accused was a third-class petty officer in the Coast Guard and also took note of his awards.

(7) Shortly before he was ordered into PTC, the accused was re-assigned to LANTAREA. In July 2024, the LANT staff received notice that the *Legare* command had sent the accused's personal effects to his mother in Louisiana, however, they were unaware that his personal effects included his uniforms.

(8) The accused did not ask the LANT staff about his uniforms for upcoming proceedings during their weekly brig visits. Neither the LANT legal staff nor Government counsel asked the accused new command (i.e. LANT-1) about his uniforms.[7]

(9) The accused was in the proper uniform for all subsequent court-martial proceedings.

*Further facts necessary for an appropriate ruling are contained within the Analysis section.*

## 4. Principles of Law

a. Burden

As the moving party, the Defense bears the burden of persuasion by a preponderance of the evidence. R.C.M. 905(c).

[7] While there isn't direct evidence that the LANT legal staff or government counsel engaged with LANT-1 about the accused's uniforms, given the commendable efforts expended by the LANT-1 staff to ensure the accused was properly attired for his court-martial, the Court infers that no such inquiries were made prior to the Article 32 hearing.

b. Article 13

Article 13, UCMJ provides that:

> No person, while being held for trial, may be subjected to punishment or penalty other than arrest or confinement upon the charges pending against him, nor shall the arrest or confinement imposed upon him be any more rigorous than the circumstances required to insure his presence, but he may be subjected to minor punishment during that period for infractions of discipline.

"Article 13, UCMJ prohibits two things: (1) the imposition of punishment prior to trial, and (2) conditions of arrest or pretrial confinement that are more rigorous than necessary to ensure the accused's presence for trial." *United States v. King*, 61 M.J. 225, 227 (C.A.A.F. 2005).

A service member may not be detained under conditions that amount to punishment prior to trial. *United States v. James*, 28 M.J. 214, 215 (C.M.A. 1989). One significant factor in determining whether the conditions or terms of confinement violate Article 13 is the intent of the detention officials. *Id.* at 216. Thus, "[a] court must decide whether the disability is imposed for...punishment or whether it is but an incident of some other legitimate governmental purpose." *Id.* (quoting *Bell v. Wolfish*, 441 U.S. 520, 538 (1979). In *United States v. Howell*, 75 M.J. 386 (C.A.A.F. 2016), the court held that for an Article 13 violation to occur the record "must disclose an intent to punish on the part of the Government."

If there was not an intent to punish, the court must then decide whether the government action furthered a legitimate, non-punitive government interest. *Id*. at 393. Irrespective of the intent to punish, Article 13 may still be violated if the activity serves no legitimate, non-punitive purpose. *Id*. This analysis is exclusive to the intent of the government's action and is not informed by the impact of the action, even if punitive in nature. *Id*. at 393-94.

Confinement in violation of service regulations does not create a *per se* entitlement to relief but can shed light on whether impermissible intent to punish should be attributed to confinement officials. A command's disregard for service regulations may lead a military court to infer an improper purpose, such as to punish, even where an accused's status as a flight risk or a threat of continuing misconduct justifies the decision to confine him. *United States v. West*, No. 201200189, 2013 WL 1209934, at *4 (N-M. Ct. Crim. App. Mar. 21, 2013).

**5. Analysis**

a. The accused's continued classification as a MAX prisoner did not further a legitimate government interest

As an initial matter, there was no evidence presented that the NCBC classification policy was intended to punish the accused, and the Defense disclaimed any such claim. Therefore, the Court may only find a violation of Article 13 if the continued classification of the accused as a MAX prisoner did not serve a legitimate government interest.

The Court finds that the *initial* classification of a prisoner accused of a serious crime to a MAX prisoner to serve a legitimate government interest. The concerns articulated by the NCBC DET Chesapeake OIC (albeit vaguely) could be present when a member is placed in pre-trial confinement for serious crimes, and those factors are also captured in the SECNAVINST (seriousness of the alleged crimes and potential sentence). This interest is heightened at the imposition of confinement because the brig staff lack information about how the confinee will react to being incarcerated.

In this case, though, prior to reclassifying the accused as a MAX prisoner, they had nearly four months of data on how the accused responded to incarceration, during which the accused had no disciplinary infractions. Nonetheless, the Court is loath to second-guess brig staff in ensuring they were following their parent command's policies for classifying prisoners, especially where the initial classification furthers a legitimate government interest.

However, the Court finds the *continued* classification of the accused in face of repeated recommendations from corrections professionals to downgrade his status to MDI does not serve a legitimate governmental interest. The C&A board's repeated recommendations to return the accused to MDI status undercuts the government's theory that prisoners accused of serious crimes "might" pose to staff and other prisoners. It does so because the objective criteria not only consider the seriousness of the crime (the only source for the government's concern)[8] as well as the observations of this *particular* accused.

The legitimate government concern is further undercut by the informality and lack of support of the NCBC policy. While a formally issued (and presumably legally reviewed) policy may not overcome the persistent recommendations of the C&A board (based upon repeated interactions with the accused), the fact that the policy was communicated to the NCBC DET Chesapeake OIC orally with scanty support weakens the government's purported interest.

Finally, while the SECNAVINST does permit overriding of the objective classification recommendation based upon the seriousness of the crime and the potential

[8] The Court does not minimize the seriousness of the crimes with which the accused has been charged. However, the charge of attempted premeditated murder can encompass a wide range of conduct, from arriving at a location with the means and motive to kill an individual to grievously injuring the victim (while not causing the victim's death). The fact the OIC was unaware of the facts of the accused's alleged conduct and thus could not take that into account in his classification decision, further detracts from the government's asserted interest.

length of the sentence, the SECNAVINST also directs that classification should follow "established, but flexible, procedures." Further, the SECNAVINST commands that "Prisoners *will* be placed in a lower custody classification as soon as practical and as warranted." (emphasis added). NCBC's policy is anything but flexible, as the OIC testified that there was no circumstance where the accused would be eligible for a lower classification.

Having found a violation of Article 13, the Court must determine the appropriate credit to be awarded. As an initial matter, the accused was confined for 22 hours each day, as compared with 8 for a typical MDI prisoner, resulting in the accused spending 175% more time locked in his cell (22 hours is 175% of 8 hours). However, a credit of only 1.75 days for each day in MAX after 20 August 2024 doesn't adequately encompass the additional hardships imposed upon the accused, because the accused was also denied the opportunity to interact with other prisoners in social settings. This restriction has caused psychological harm. Further, it is harm that was made known to the brig command. Additionally, his status has prevented him from contact visitation with his family and his attorneys. Thus, the Court finds that an appropriate amount of credit is 3 days for each day after 20 August 2024, resulting in 438 days of confinement credit.[9]

b. Shackling of the accused during the Article 32 hearing furthered a legitimate government objective

The SECNAVINST restricts who may order restraints removed from a MAX prisoner, limiting it to Brig command staff and a military judge. In doing so, it furthers a legitimate government objective to maintain security over a prisoner who, by some criteria, is deemed to be a danger to himself or others. Additionally, it avoids having the brig chasers make case-by-case determinations and prevents any arguments from strong willed advocates from swaying either junior personnel or the brig staff.

The defense arguments to the contrary are unpersuasive. First, even though an Article 32 hearing is a legal proceeding, the PHO is not a military judge and thus does not meet the objective criteria outline in the SECNAVINST. Second, the rules cited in the defense motion apply before *courts-martial*, and not any legal proceeding. The accused is not entitled to credit for being shackled during the Article 32 hearing.

c. Forcing the accused to appear in a prisoner's uniform at his Article 32 hearing did not further a legitimate government objective

As an initial matter, the Court does not find an intent to punish the accused by forcing him to wear a prisoner's uniform to his Article 32 hearing. As is clear from the affidavit submitted by Mr. TL of LANT-1, once alerted to the accused's lack of uniforms took

[9] This is calculated from 21 August 2024 up to and including 13 January 2025, the last day for which the Court has evidence of the OIC overriding the C&A board's recommendation.

appropriate measures to ensure the accused was appropriately attired, evincing a lack of intent to punish.

Even assuming, as the Court does, that the government's inability to ensure the accused had access to his uniforms was an oversight, it nonetheless decided to proceed with the Article 32 hearing with the accused in a prisoner's uniform. While it is true that the accused (and Defense counsel) agreed to go forward with the accused attired in a prisoner's uniform, the accused should not have been put into that position. When it imposes pre-trial confinement, the government has a responsibility to ensure the accused is attired in the proper uniform.[10] Further, they had 195 days from when they imposed pre-trial confinement and 83 days from when they preferred charges to ensure the accused had a proper Coast Guard uniform.

The government's decision to proceed is mitigated somewhat by the accused not inquiring about his uniforms during the weekly command brig visits because a military member bears responsibility to appear in the prescribed uniform of the day.

Nonetheless, the lion's share of the responsibility falls upon the government, a responsibility they failed to uphold (albeit without any malice towards the accused). In so doing, they did not further any legitimate government objective and thus violated Article 13. The accused shall be awarded an additional 4 days of confinement credit.

**6. <u>Conclusions of Law</u>**

a. The Government violated Article 13 by continuing to classify the accused as a MAX prisoner after 20 August 2024 and until and including 13 January 2025. The accused shall be awarded 438 days of confinement credit.

b. The Government did not violate Article 13 when the accused remained shackled for his Article 32 hearing.

c. The Government violated Article 13 when it failed to provide the accused with a proper Coast Guard uniform. The accused shall be awarded 4 days of confinement credit.

[10] The Court takes judicial notice of Article 1.F.5.e of the Coast Guard Discipline and Conduct Manual, COMDTINST M1600.2(series), which states that "Prisoners shall be delivered in the appropriate Service Dress uniform," and "Accordingly, it is important that the prisoner be delivered with a sufficiently full seabag to sustain his/her needs during the anticipated period of confinement."

7. **Ruling and Order**

The Defense motion is **GRANTED IN PART** and **DENIED IN PART,** consistent with the above conclusions of law.

**So ordered this 14th day of March, 2025**.

**INITIAL REVIEW OFFICER'S**
**7-DAY REVIEW OF PRETRIAL CONFINEMENT**

| | | |
|---|---|---|
| U N I T E D S T A T E S | ) | R.C.M. 305(j)(2)(D) Memorandum |
| v. | ) | **Initial Review Officer Findings, Conclusions, and Action** |
| JEREMIAH T. COPELAND<br>CSSN / E-3 USN | ) | Date: 17 June 2025 |

1. **Background**. I, CDR Jason A. Pfeil, JAGC, USN was detailed as the Initial Review Officer (IRO) for the review of pretrial confinement in the case of CSSN Jeremiah T. Copeland, USN (Confinee). The 7-day review hearing was at Naval Consolidated Brig Chesapeake, Virginia (NCBC) on 16 June 2025. This memorandum is prepared pursuant to Rule for Courts-Martial (R.C.M.) 305(j)(2)(D), Manual for Courts-Martial.

2. **Findings of Fact**. After considering the evidence and statements provided at the 7-day review hearing, the preponderance of the evidence supports the following factual findings:

A. The Confinee is from Durham, North Carolina.
B. The Confinee is 20 years of age.
C. The IRO received no evidence of substantial ties to the Hampton Roads area of Virginia other than that his command is based out of Naval Station Norfolk, Virginia.
D. *Facts Pertinent to Alleged Violation of Article 118 (murder)*
    a. 28 May 2025
        i. CSSN A.R. was with the Confinee in his barracks room, building X-2, room 335B and she spent the night.
        ii. CSSN A.R. last used her bank accounts.
        iii. CSSN A.R. was in authorized liberty status 28-29 May 2025.
    b. 29 May 2025
        i. At 0645, PSSN Irbin Gordillocruz, one of the Confinee's roommates, saw CSSN A.R. in the Confinee's barracks room, naked and laying on the floor with the Confinee, also naked, was laying on the floor with his head resting on CSSN A.R.'s stomach area.
        ii. PSSN Gordillocruz observed CSSN A.R. breathing.
        iii. At 0645, CSSN A.R. was alive.
        iv. Some time afterward, FCC Brad Parker from USS JAMES E. WILLIAMS (DDG 95) went to the Confinee's barracks room to make contact with him because he did not report for work.
        v. When FCC Parker knocked on the Confinee's door, the Confinee opened the door wearing shorts and no shirt. FCC Parker recognized CSSN A.R. in the Confinee's barracks room.

vi. CSSN A.R. waved at FCC Parker and then rolled over into a blanket.
vii. FCC Parker ordered CSSN Copeland to report to work and then left the Confinee's barracks room.
viii. CSSN A.R. was alive when FCC Parker left the Confinee's barracks room on 29 May 2025.
ix. No JAMES E. WILLIAMS personnel, other than the Confinee, had further positive contact with CSSN A.R. after FCC Parker saw her.
x. The Confinee did not report to work as ordered and was placed in an unauthorized absence (UA) status.
xi. CSSN A.R.'s cell phone was last used in the evening.
xii. CSSN A.R. was still in an authorized liberty status.

c. 30 May 2025
   i. CSSN A.R. did not report for duty and was placed in a UA status.
   ii. The Confinee remained in a UA status.
d. 31 May 2025
   i. Both the Confinee and CSSN A.R. remained in a UA status.
e. 1 June 2025
   i. The Confinee and CSSN A.R. remained in a UA status.
   ii. At approximately 1900, the Confinee and his roommates PSSN Gordillacruz and AR John Calisse went to dinner at Chipotle.
   iii. At approximately 2000, after eating dinner, the Confinee asked AR Calisse if he could use his vehicle to "go get something to eat" and AR Calisse agreed.
   iv. The Confinee mustered on board the ship to terminate his UA status.
   v. The Confinee's whereabouts after mustering are unknown.
f. The Confinee was in a UA status for approximately four days: from 29 May until the evening of 1 June 2025.
g. FCC Parker is the last known person, other than the Confinee to see CSSN A.R. alive.
h. As part of its investigation, NCIS interviewed the Confinee who told NCIS the following:
   i. CSSN A.R. came to his room on 28 May 2025 for dinner and drinks.
   ii. His relationship with CSSN A.R. was platonic friendship.
   iii. No sexual acts ever happened between them.
   iv. She spent the night in his barracks room the night of 28 May but she had her clothes on the entire time she was in his barracks room.
   v. He was late for work on the morning of 29 May 2025 and FCC Parker knocked on the door to tell him he was going to be marked UA.
   vi. At approximately 1000 on 29 May 2025, he and CSSN A.R. got dressed and one of his roommates took them to her residence at Miller Hall on board Naval Station Norfolk.
i. NCIS investigation revealed the following:
   i. CSSN A.R. never checked into Miller Hall on 29 May 2025 or thereafter.

ii. All of the Confinee's roommates told NCIS they did not give a ride to the Confinee or CSSN A.R. on the morning of 29 May 2025.
iii. CSSN A.R.'s cell phone last pinged on 29 May 2025 at the Confinee's barracks building.

j. NCIS searched the Confinee's barracks room and found the following:
   i. There was a potential blood trail leading from inside his closet onto the carpet of the room; and a stain was found inside his bathroom.
   ii. A swab taken from inside the Confinee' barracks room closet and his bathroom both tested positive for human blood.

k. NCIS searched the Confinee's cell phone and found the following:
   i. At approximately 0514 on 2 June 2025, the Confinee was in the vicinity of 2842 Cary Ave., Norfolk, VA 23504, as determined by GPS analysis of a cached location on his phone.
   ii. The Confinee was actively moving around the vicinity of 2842 Cary Ave., Norfolk, VA at the time he was in that area, as determined by analysis of his phone's recording of health and activity data.
   iii. The Confinee saved a screenshot of a map application depicting a wooded area near a reservoir or pond in the vicinity of 2842 Cary Ave., Norfolk, VA on 2 June 2025 at 0515 as reflected in the screenshot and digital forensic analysis.
   iv. The Confinee saved a location in the wooded area in the vicinity of 2842 Cary Ave., Norfolk, VA as shown by a dropped pin on the screenshot saved on 2 June 2025 at 0515.

l. Between when the Confinee terminated his UA status and approximately 0514 on 2 June 2025, his whereabouts are unknown.

m. On 9 June 2025, NCIS searched the area reflected in the screenshot obtained from the Confinee's cell phone.

n. A black duffel bag was located beneath a tree within the perimeter captured by the Confinee's screenshot.[1]

o. After partially opening the black duffel bag, NCIS observed a pair of human legs inside.

p. NCIS found a photo from 23 September 2024 depicting the Confinee in service dress blues next to a black duffel bag that is visually similar to the one located in the wooded area in the vicinity of 2842 Cary Ave., Norfolk, VA.

q. On 10 June 2025, an autopsy was performed on the body found in the black duffel bag with the following initial results:
   i. The body was determined to be a female.
   ii. Her body was in an extreme state of decomposition.
   iii. An E-3 uniform patch was located in her hair.
   iv. She was identified as CSSN A.R. by the distinctive tattoo on her back.

[1] The IRO notes that the NCIS affidavit refers to this duffel bag both as a suitcase and a duffel bag. However, based on the evidence the IRO concluded that both terms refer to the same object that the IRO refers to as a duffel bag in this memorandum.

E. *Facts Pertinent to Alleged Violation of Article 120(d) (abusive sexual contact)*

a. In the early morning hours of 23 July 2024 ABHAN C.R. was on the mess decks of USS HARRY S. TRUMAN (CVN 75) with her boyfriend CSSN Fernando Cuestabravo. CSSN Cuestabravo left to go to sleep.
b. Shortly after CSSN Cuestabravo left, ABHAN C.R. began receiving SnapChat snaps from the Confinee; he wanted to talk to her about CSSN Cuestabravo.
c. ABHAN C.R. agreed and the Confinee requested they go somewhere private to talk. They went to the fantail of the ship.
d. The Confinee told ABHAN C.R. that CSSN Cuestabravo was talking to other women and not treating her the way she should be treated; the Confinee suggested they should be in a relationship to get back at CSSN Cuestabravo.
e. After talking with the Confinee about her relationship with CSSN Cuestabravo, the Confinee began to play a "game" where he pretended to arrest her.
f. The Confinee forced ABHAN C.R.'s hands behind her back and grabbed her vulva over the clothing.
g. ABHAN C.R. turned around and punched the Confinee in the stomach.
h. The Confinee said he heard she liked to be choked and he grabbed her neck with one hand, applying pressure. ABHAN C.R. had difficulty breathing. ABHAN C.R. tried to push the Confinee's hand away but he kept putting it back.
i. While the Confinee was applying pressure to ABHAN C.R.'s neck, he kissed her on the lips and grabbed her breasts, buttocks, and vulva over the clothing.
j. The Confinee then stopped and left.
k. ABHAN C.R. texted CSSN Cuestabravo afterward.
l. The next day they discussed what happened and ABHAN C.R. made a report of sexual assault.
m. On 16 August 2024, NCIS interviewed the Confinee and he said the following:
    i. He and ABHAN C.R. saw each other on the mess decks and went to the fantail to talk.
    ii. The Confinee was sitting in a chair and ABHAN C.R. on the deck.
    iii. ABHAN C.R. told him CSSN Cuestabravo does not treat her well and was cheating on her; she asked the Confinee for advice.
    iv. They flirted but he denied being romantically or sexually interested in ABHAN C.R.
    v. The two hugged and he got close to her face but denied trying to kiss her.
    vi. He denied touching ABHAN C.R. anywhere else.
    vii. NCIS asked if he had strangled ABHAN C.R. He responded, "oh okay yeah I have but it wasn't in like a weird way." He said he put one hand around her neck without applying any pressure.
    viii. He also denied touching any of ABHAN C.R.'s intimate areas and denied telling her she should have sex with him to get back at CSSN Cuestabravo.
n. Additional NCIS investigation revealed:
    i. The Confinee told CSSN Jaelen Owens that ABHAN C.R. was "feeling on" and "leading on" the Confinee.

ii. CSSN Cuestabravo observed bruises on the sides of ABHAN C.R.'s neck but neither of them took photos of the bruises.

F. *Facts Pertinent to Alleged Violation of Article 120(b) (sexual assault)*
   a. On 4 November 2024, during a port call in Oslo, Norway, CSSN S.S. reported the Confinee sexually assaulted her in the head of a bar at approximately 2200 hours.
   b. CSSN S.S. was intoxicated and did not remember having sexual intercourse with the Confinee, however other Sailors told her on 5 November that the Confinee showed them a video on his phone of the two of them having sexual intercourse.
   c. CSSN S.S. confronted the Confinee about him making a video of sexual intercourse with her and he denied it.
   d. Two Sailors interviewed by NCIS stated the Confinee had shown them a video of him and CSSN S.S. having sexual intercourse.
   e. Another Sailor interviewed by NCIS reported the Confinee told him he had sex with CSSN S.S. and seemed excited about it.
   f. NCIS searched the Confinee' person, his berthing, rack, and personal spaces to find his phone but his phone was never found.
   g. On 18 November 2024, NCIS interviewed the Confinee:
      i. He confirmed that he and CSSN S.S. had sexual intercourse in the bathroom in a bar in Oslo, Norway and that he had video recorded it.
      ii. He stated the sexual intercourse was consensual.
      iii. He said he lost his phone before returning to the ship on 5 November.

G. *Facts Pertinent to Alleged Violation of Article 128 (assault consummated by a battery / aggravated assault) or Article 128b (domestic violence)*[2]
   a. In April 2025, the Confinee was in his barracks room with his then-girlfriend, CS2 S.R.
   b. While in the Confinee's barracks room, CS2 S.R.[3] received a phone call from another woman claiming to be his girlfriend. She confronted the Confinee.
   c. The Confinee denied the relationship with the other woman and they argued.
   d. The Confinee then strangled CS2 S.R.
   e. Afterward, he laughed and said he was just playing with CS2 S.R.
   f. CS2 S.R. left the Confinee's barracks room and went home. She continued to communicate with the other woman.
   g. CS2 S.R. returned to the Confinee's barracks room and confronted him again.
   h. They argued and the Confinee grabbed CS2 S.R.'s phone from her hand.
   i. CS2 S.R. punched the Confinee in the chest, slammed his PlayStation 5 to the ground, and left.

[2] These offenses were not included in the command's 72-hour review letter as offenses; however, the facts support that they were committed and helped inform the IRO's analysis.
[3] The IRO notes that there are what appear to be significant typographical errors in the email that documents the alleged assault. Specifically, after initially identifying the Confinee's then-girlfriend as CS2 S.R., the narrative refers to a CS2 Williams multiple times. Additionally, the narrative refers to the Confinee alternatively as CSSN Copeland and CSSN Williams. The IRO used context to relate the facts found from the narrative supplied in the 72-hour letter's enclosures.

j. One of the Confinee's roommates told law enforcement CS2 S.R. waved a knife around while arguing with the Confinee but no knife was found.

H. On 6 June 2025, the Confinee received nonjudicial punishment for his period of UA from 29 May to 1 June.

3. **Applicable Law**

Per R.C.M. 305(j)(2)(A)(iii), the Government must prove by a preponderance of the evidence the requirements for continued confinement under R.C.M. 305(i)(2)(B).

4. **Victim Information**

Ms. Esmerelda Castle, CIV, ABHAN C.R., USN, CSSN S.S., USN, and CS2 S.R., USN were identified as victims in this matter.

The victims were not represented by counsel. The victims were given the opportunity to confer with the representative of the command. The victims were given a reasonable opportunity to be heard; only Ms. Castle exercised her right to be heard.

The IRO will also note that CSSN A.R., USN is considered a victim for the purposes of the Article 118 allegation, however she is deceased.

5. **Conclusions**. Based on the evidence presented at the IRO hearing, the IRO finds the Government has proven the following by a preponderance of the evidence:

A. The following offenses triable by court-martial were committed:[4]
   a. Article 118 (murder) on or about 29 May 2025; and
   b. Article 120(d) (abusive sexual contact) on or about 26 July 2024.

B. The Confinee committed the following offenses triable by court-martial:
   a. Article 118 (murder) on or about 29 May 2025; and
   b. Article 120(d) (abusive sexual contact) on or about 26 July 2024.

C. Continued pretrial confinement is necessary because it is foreseeable that:
   a. the Confinee will not appear at trial, pretrial hearing, or preliminary hearing due to:
      i. the seriousness of the charge of murder and its punishments, specifically a maximum punishment of death or confinement for life without the possibility of parole;
      ii. the fact that the Confinee was in a UA status for four days during and after the murder of CSSN A.R.;
      iii. though the Confinee voluntarily terminated his UA status, after doing so he hid CSSN A.R.'s body in a duffel bag that he dumped in a wooded

[4] The IRO notes that the Government did not prove by a preponderance of the evidence that the Confinee committed the offense of sexual assault in violation of Article 120(b).

area, indicating that his decision to terminate his UA status was part of a plan to avoid accountability for his actions leading to CSSN A.R.'s death and would likely impel him to leave the area if he were not confined;

iv. that the Confinee attempted to cover up his involvement in the death of CSSN A.R. by both lying to NCIS investigators and hiding her body in a duffel bag in a wooded area; and

v. the Confinee lacks substantial ties to the Hampton Roads area of Virginia beyond the presence of his command in Norfolk indicating the Confinee has no incentive to remain in the Hampton Roads area were he to be free.

b. the Confinee will engage in serious criminal misconduct due to:

i. the nature and circumstances of the offenses suspected, specifically:

1. that the Confinee committed at least two violent offenses[5] while under investigation by NCIS for two other violent offenses;
2. the Confinee sought to obstruct the investigation into CSSN A.R.'s disappearance by hiding her body in a duffel bag and dumping it in a wooded area, all while keeping his phone in airplane mode to prevent it from confirming his presence where he had dumped CSSN A.R.'s body;

ii. the weight of the evidence against the Confinee, specifically:

1. evidence of his consciousness of guilt from his attempt to mislead NCIS in both the investigation of the abusive sexual contact allegation against him and the disappearance of CSSN A.R.;
2. the strong evidence provided by his phone's GPS, health data, and the screenshot he took that he dumped CSSN A.R.'s body;
3. the presence of human blood in his barracks room; and
4. that he was the last person known to have seen CSSN A.R. alive;

iii. the pattern of escalating violent conduct of the Confinee;[6] and

iv. the fact that the Confinee committed multiple violent offenses against different women all while under investigation for other violent offenses.

D. Less severe forms of restraint are inadequate given:

a. the severity of the allegations against the Confinee as outlined above;

b. the weight of the evidence against him as outlined above;

c. the pattern of escalating violent conduct despite being under multiple criminal investigations from NCIS shows that the moral threat of being held accountable for misconduct is insufficient to deter him from engaging in criminal acts;

d. that the Confinee was willing to be UA before he knew he was suspected of murder of CSSN A.R., despite receiving a direct order to report to the ship shortly

[5] Article 118 (murder) and Article 128 (assault consummated by a battery) or 128b (domestic violence). The IRO recognizes that the Article 128 or 128b offense was not specifically stated in the 72-hour memorandum as the offenses for which CO, JAMES E. WILLIAMS found continued confinement appropriate; however, it is a significant fact that he committed this violent offense while under investigation for two other violent sexual offenses and shortly before the Article 118 (murder) offense.

[6] From abusive sexual contact to assault consummated by a battery / aggravated assault / domestic violence to murder

after his UA period began and he continued being UA for another three days; this shows the IRO that he is willing to disobey orders and that moral restraint is insufficient to ensure the Confinee will be present; and

e. the IRO is not persuaded that less severe forms of restraint are adequate by his presence at NJP on 6 June 2025 because of the substantial difference in the severity of the offenses for which he was placed into pretrial confinement and the significant difference between the punishment available for these offenses at court-martial compared to the maximum punishments available at NJP.

The IRO considered the evidence presented by the Confinee via his counsel but notes that it deals only with the conditions of confinement at NCBC and does not address whether confinement itself is appropriate. While there may be avenues for redress of unduly severe conditions of confinement under other R.C.M.s,[7] they do not provide a basis for finding that continued pretrial confinement is not necessary.[8]

6. **Action of 7-Day Reviewing Officer**

**Continued pretrial confinement for the Confinee is APPROVED.** The Confinee will remain in pretrial confinement.

The Government shall provide a copy of this memorandum to the Confinee, the Defense Counsel, and the confinement facility.

[8] R.C.M. 305(h)(2)(B) (continued confinement is only permitted where "(i) An offense triable by a court-martial has been committed; (ii) The confinee committed it; (iii) Confinement is necessary because it is foreseeable that: (a) The confinee will not appear at trial, pretrial hearing, or preliminary hearing, or (b) The confinee will engage in serious criminal misconduct; and (iv) Less severe forms of restraint are inadequate.").

13 Aug 25

From: LCDR Amanda Serfess, JAGC, USN, Defense Counsel
To: Commander, Naval Surface Force Atlantic
Via: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95)

Subj: REQUEST FOR REDRESS UNDER ARTICLE 138, UCMJ

Ref: (a) Article 138, UCMJ
(b) JAGINST 5800.7G, Chapter III.

Encl: (1) Emails with trial counsel and defense counsel
(2) Emails with defense counsel and the staff judge advocate advising the USS JAMES E. WILLIAMS
(3) CSSN Copeland's Request for Redress of 29 Jul 25
(4) Email from staff judge advocate advising the USS JAMES E. WILLIAMS notifying the defense that the request for redress was denied of 7 Aug 25
(5) Email with Brig Staff
(6) Email from staff judge advocate advising the USS JAMES E. WILLIAMS stating that formal response was not required of 11 Aug 25

1. This complaint of wrong under reference (a) is submitted on behalf of CSSN Jermiah Copeland by his defense counsel, LCDR Amanda Serfess, JAGC, USN and LCDR Clifton Morgan, JAGC, USN. It is submitted in compliance with reference (b).

2. Complainant information:

a. Current command: USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

b. Command at time of alleged wrong: USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

c. EAOS: 12 July 2027

d. Current mailing and email address: CSSN Copeland is being held in pretrial confinement in Naval Consolidated Brig Chesapeake. He can be reached through his defense counsel.

3. Respondent information: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95), Norfolk, Virginia

4. Complaint:

a. Alleged wrong: CSSN Copeland has been held in pretrial confinement for 63 days without preferred charges. CSSN Copeland has been in a "maximum status" while at the brig. He remains in his cell 22 hours per day. He is not permitted to have "contact" visits with his defense

counsel. CSSN Copeland has requested to have a private, in-person, meeting with his defense counsel. However, this request was denied.

b. Details:

(1) For 63 days, CSSN Copeland has been held in confinement without preferral of charges.

(2) Per enclosure (1), on 16 June, CSSN Copeland requested through counsel to meet with his attorney's in-person in a private setting. The trial counsel stated that the government could not support this request. The trial counsel ignored the defense's request for more information.

(3) On 3 July 2025, the staff judge advocate advising the USS JAMES E. WILLIAMS reached out to defense counsel. In response, the defense counsel provided her additional information. Namely, that at least one trial court has found that the current policies and procedures in place at Naval Consolidated Brig Chesapeake for pretrial confinees in a "maximum" confinement status is illegal pretrial punishment.

(4) On 23 July 2025, the defense followed up with our original request. This follow up was ignored.

(5) On 29 July 2025, CSSN Copeland through counsel submitted a formal request for redress to the Commanding Officer, USS JAMES E. WILLIAMS to meet with his attorneys in a private, confidential in-person setting.

(6) On 7 August 2025, CSSN Copeland's request was denied. USS JAMES E. WILLIAMS provided no reasoning for the denial.[1]

c. Relief requested: CSSN Copeland respectfully requests to be able to meet with his attorneys in a private room to have a private conversation without the risk of being heard by people who are not members of his defense team. CSSN Copeland has been in pretrial confinement since 9 June 2025. Based solely on the fact that CSSN Copeland has "Article 118" on his confinement order, he has been placed in a "maximum status." Because CSSN Copeland is in that status, he cannot have a "contact" visit with his attorneys at the brig.[2] This means that his attorneys can only meet with him separated by a plexiglass wall. This room is not soundproof – the brig staff or anyone else can hear from outside the room. Further, because of the plexiglass, it is difficult for CSSN Copeland to hear his attorneys and even more difficult for his attorneys to

[1] Per enclosure (6), the staff judge advocate reads Section 0305.a of the JAGMAN to state that a response to a request for redress is not required. Section 0305.a of the JAGMAN states that

> The commanding officer must act upon a request for redress within 30 calendar days of receipt, and notify the complainant in writing of the action taken, if applicable. If the commanding officer does not respond to the request within 30 calendar days or denies the requested redress, then the complainant may submit an Article 138 complaint to the GCMCA via the commanding officer, as the respondent.

[2] See enclosure (5).

hear him. This is inadequate to properly represent CSSN Copeland and does not meet the requirements of the Sixth Amendment.

Understanding that you cannot order the brig to have a different policy, you do have the authority to transport CSSN Copeland to a different location so that he can meet with his attorneys. Defense counsel regularly meet with clients who are in pretrial confinement at building A-50 on Naval Station Norfolk. Commands transport pre-trial confinees, including other pretrial confinees who are accused of murder and attempted murder, to consult with their attorneys. A-50 is a secure building, it is the same building where CSSN Copeland will meet with his attorneys should charges in this case ever be pursued. CSSN Copeland simply requests to exercise his constitutional right to counsel, which must include the right to meet and openly discuss his case. The right to counsel includes the right to effective counsel. CSSN Copeland's attorneys cannot be effective if they cannot meet and openly discuss the case. Please allow CSSN Copeland to have a privileged, in-person meeting with his attorneys.

5. I certify the above information is true and correct to the best of my knowledge, and this complaint is submitted per the guidelines and procedural requirements in Chapter III, Manual of the Judge Advocate General.

6. Please contact me with any questions or concerns you may have at 850-452-5572 or via email Amanda.m.serfess.mil@us.navy.mil.

---

CDR Mayo,

Who has decided that CSSN Copeland cannot come to A-50? OSTC? The RLSO? Why can't the government support CSSN Copeland coming to A-50? We have confined clients from other command come to A-50.

Can you please provide me with the name and contact information of the lead agent in this case?

LCDR Serfess,

You are more than welcome to address your concerns with the brig or NCIS.

The government cannot support a 2 July meeting in A-50. I've asked the brig if you can use the IRO room - but the brig is unable to accommodate. I suggest you liaise directly with the brig regarding any future visits.

**Subject:** RE: Demand for Speedy Trial ICO CSSN Copeland

CDR Mayo,

Please find LCDR Morgan and I's notice or representation attached.

Our understanding is the CSSN Copeland's cell was searched and his IRO package was taken from him because according to NCIS he cannot have that documentation. Is there a sealing or protection order in this case? Please let us know why CSSN Copeland cannot review and keep the documents associated with his case. Please let us know what the Government believes CSSN Copeland can have and review in his case. If NCIS has questions about how CSSN Copeland received documents, please have them reach out me and LCDR Morgan.

Please let me know if you need anything from me. Are we good for Wednesday? We have a couple of A/C spaces in the defense that we can use to meet with CSSN Copeland – the same spaces being used today with a client from the brig.

**Subject:** RE: SN Copeland"s Initial Review Hearing
**Date:** Wednesday, July 23, 2025 1:16:00 PM

Elisabeth,

I just wanted to circle back to our request to meet with our client in the same room privately. I emailed the brig today and it will not allow us to visit our client in a contact room – we would only be able to meet with him through glass in non-private area. Is it possible for the command to bring him to A-50 or another location to allow us to meet with him? (Similar to how we will meet with him when he come to the court room for hearings).

Please and thank you

**Subject:** FW: SN Copeland's Initial Review Hearing

Elisabeth,

Please see attached. We presented these to the IRO at Copeland's hearing.

There are plenty of spaces at the brig where we could meet with the client and the staff could still see us. CDR Mayo asked them if we could use the IRO room (no windows, but a place we meet with other clients) but the brig said no. We would also agree to have more than one of the defense team in the room during any meeting if it is our safety they are concerned about. We are not concerned about our safety and haven't seen any indication that CSSN Copeland would do anything to harm his defense

team.

Let me know if you have questions or need anything else from me.

Have a Happy Independence Day!!!

From: LCDR Amanda Serfess, JAGC, USN, Defense Counsel
To: Commanding Officer, USS JAMES E. WILLIAMS (DDG-95)

Subj: REQUEST FOR REDRESS ICO CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. amend. VI
(b) R.C.M. 502
(c) Article 138, UCMJ

1. On behalf of CSSN Copeland, the defense respectfully requests to be able to meet with CSSN Copeland in a private room to have a private conversation where he can consult with his attorneys without the risk of being heard by people who are not members of his defense. CSSN Copeland has been in pretrial confinement since 9 June 2025. Based solely on the fact that CSSN Copeland has "Article 118" on his confinement order, he has been placed in a "maximum status." Because CSSN Copeland is in that status, he cannot have a "contact" visit with his attorneys at the brig. This means that his attorneys can only meet with him separated by a plexiglass wall. This room is not soundproof – the brig staff or anyone else can hear from outside the room. Further, because of the plexiglass, it is difficult for CSSN Copeland to hear his attorneys and even more difficult for his attorneys to hear him. This is inadequate to properly represent CSSN Copeland and does not meet the requirements of reference (a).

2. Understanding that you cannot order the brig to have a different policy, you do have the authority to transport CSSN Copeland to a different location so that he can meet with his attorneys. Defense counsel regularly meet with clients who are in pretrial confinement at building A-50 on Naval Station Norfolk. Commands transport pre-trial confinees, including other pretrial confinees who are accused of murder and attempted murder, to consult with their attorneys. A-50 is a secure building, it is the same building where CSSN Copeland will meet with his attorneys should charges in this case ever be pursued. CSSN Copeland simply requests to exercise his constitutional right to counsel, which must include the right to meet and openly discuss his case. The right to counsel includes the right to effective counsel. CSSN Copeland's attorneys cannot be effective if we cannot meet and openly discuss the case with our client. Despite twice demanding a speedy trial, CSSN Copeland has been in pretrial confinement for 50 days without being brought to trial or being able to meet with his attorneys in a private setting. Please allow CSSN Copeland to have a privileged, in-person meeting with his attorneys.

3. If you have any questions, need amplifying information, or need assistance in coordinating the release of CSSN Copeland's personal property, LCDR Amanda Serfess, detailed defense counsel, can be reached at 850-452-5572 or via email at amanda.m.serfess.mil@us.navy.mil.

CO,

Good afternoon. I, along LCDR Morgan (copied) represent CSSN Copeland. CSSN Copeland has the right to be represented by counsel. To effectuate that right, he needs to able to have a private conversation with his attorneys. We have made the request, but have not received a clear answer on why he cannot meet with his attorneys in-person in a private room. Please find a request for redress ICO CSSN Copeland attached.

I am available to answer any questions.

Subject: Request for Redress CSSN Copeland

CO,

Good afternoon. I, along LCDR Morgan (copied) represent CSSN Copeland. CSSN Copeland has the right to be represented by counsel. To effectuate that right, he needs to able to have a private conversation with his attorneys. We have made the request, but have not received a clear answer on why he cannot meet with his attorneys in-person in a private room. Please find a request for redress ICO CSSN Copeland attached.

I am available to answer any questions.

V/r

1. I, Mrs. Cindy Hoffmeister, serve as a Defense Paralegal for Defense Service Office Southeast and have been assigned to this case since June 2025. I have been a defense paralegal since 26 February 2023. I have accompanied defense attorneys during visits to clients located at Naval Consolidated Brig Charleston (NCBC) Detachment Chesapeake on many occasions. This includes contact and no-contact visits. There is a room at the Chesapeake Brig that is used to facilitate no-contact visits with clients. The client is placed in the room on the other side of a plexiglass wall. The defense team enters the room on the other side of the Plexiglass. The defense can see the client. However, it is difficult for the client to hear his defense attorneys. The attorney will have to talk very loud limiting privacy as there are brig employees outside of the room. Further, it is very hard for the defense team to hear the client. There are small slots next to the plexiglass. However, in order to pass a document to the client, you have to fold it in half for it to fit through the slot. There are no outlets in this room. There is no way to have the client view a video on a computer. There is no way to have the client use a computer. There is no phone in the room to have the client contact other members of the defense, experts, or anyone else.

2. On 16 June 2025, I was present during the no-contact visit at the NCBC Detachment Chesapeake, along with LCDR Amanda Serfess, LCDR Clifton Morgan and CSSN Copeland. The following is a summary of the issues regarding communication that I observed during the meeting:

a. CSSN Copeland and his defense team can only visit through a no-contact room which is a small room that can barely hold four chairs, with Plexiglass between the attorneys and the client. While speaking with the client in this room, me and the other paralegal could not hear what the client was saying. The attorneys had to put their ears to the plexiglass and/or try to read his lips. The attorneys had to repeat themselves a few times as the client could not hear them. You have to speak in a slightly louder voice to be heard on the other side of that plexiglass, risking brig employees and any others not apart of the defense team to hear the conversation.

b. This room makes it nearly impossible for the attorneys to hear the client, and in turn, hard for the client to hear his attorneys.

c. Communications from inside the no-contact room can be heard from outside the room, in the main contact visit sitting area.

Signed today, 26 August 2025.

Subj: DEMAND FOR SPEEDY TRIAL ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST., Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707

1. Per references (a) through (d), CSSN Copeland, USN, through counsel, demands a speedy trial or immediate release from pre-trial confinement. On 9 June 2025, CSSN Copeland was placed in pre-trial confinement. As of today, no charges have been preferred. Based solely on the fact that the offense of violating Article 118 appears on the confinement order, CSSN Copeland has been placed in "Maximum" status in the Naval Consolidated Brig Charleston, Detachment Chesapeake. CSSN Copeland spends 22 hours per day in his cell with no other human contact. He is not permitted to have contact visits with his attorneys. As such, CSSN Copeland demands a speedy trial and requests to be brought to trial immediately.

2. Please contact me with any questions or concerns you may have at 757-341-4559 or via email at amanda.m.serfess.mil@us.navy.mil.

Subj: GOVERNMENT REQUEST FOR EXCLUDABLE DELAY ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) R.C.M. 707 (2024 ed.)

1. Pursuant to reference (a), the Government respectfully requests excludable delay for the period beginning on 10 June 2025 through 25 July 2025.

2. On 10 June 2025, CSSN Copeland was placed in pre-trial confinement. Per reference (a), this event requires CSSN Copeland be brought to trial within 120 days of the imposition of restraint. CSSN Copeland is under investigation for violating Uniform Code of Military Justice Article 107 (False official statement), Article 117a (Wrongful broadcast or distribution of intimate visual images), Article 118 (Murder), Article 120 (Rape and sexual assault), Article 128 (Assault), and Article 128b (Domestic Violence). These alleged violations primarily span four separate, complex alleged incidents and investigation remains ongoing into each.

3. Taken alone, any of one of these offenses is extremely complex and several lengthy investigative steps remain. Specific to the allegation of murder, these steps include receipt and analysis of digital evidence, forensic analysis of multiple pieces of physical evidence, a report of the autopsy of the victim's body, and interviews of several witnesses. NCIS and counsel for the Government are working on this case daily to further the investigation and move with reasonable diligence toward trial. Pursuant to reference (a), the Government may receive excludable delay to thoroughly investigate a case and prepare for trial. Therefore, the Government respectfully requests the time beginning on 10 June 2025 through 25 July 2025 be excluded.

4. Thank you for your time and consideration in this matter. If you have any questions about this request, please contact me via e-mail at lauren.a.mayo2.mil@us.navy.mil or via phone at (757) 341-4598.

Subj: OBJECTION TO EXCLUDABLE DELAY REQUEST ICO UNITED STATES V. CSSN JERMIAH COPELAND, USN

Ref: (a) U.S. CONST. Amend. VI
(b) Barker v. Wingo, 407 U.S. 514 (1972)
(c) Article 10, U.C.M.J.
(d) R.C.M. 707
(e) Request for excludable delay of 1 Jul 25

Encl: (1) Emails with the special trial counsel
(2) Additional emails with the special trial counsel

1. Per references (a) through (d), CSSN Copeland, through counsel, once again demands a speedy trial or immediate release from pre-trial confinement. Further, CSSN Copeland objects to any excludable delay.

2. CSSN Copeland has been held in pre-trial confinement for 23 days without being charged with a crime. Further, CSSN Copeland has not been provided any discovery, therefore, he is being denied the ability to defend against whatever charges the government might prefer. CSSN Copeland is in a maximum status at the brig and remains in his cell for at least 22 hours per day.[1] His defense is not permitted to have in-person private conversations with him, and the trial counsel has expressed a lack of willingness to assist in solving this issue, as seen in enclosure (1).

3. On 1 July 2024, the trial counsel submitted a letter to you requesting excludable delay from 10 June 2025 to 25 July 2025, as set forth in reference (e).

4. The defense objects to this lengthy excludable delay request. The trial counsel must act with the diligence required when someone is incarcerated – they must take the "immediate steps" required by reference (c). There must be a required higher degree of specificity before granting a request for what amounts to continued pre-trial confinement, and you should request that higher specificity from the trial counsel. Especially in this case where the confinement is so severe and the defense's access to our client has been restricted.[2]

[1] A status that at least one military judge has held is illegal pretrial punishment.

5. Per reference (d), prior to referral, all requests for pre-trial delay, together with supporting reasons, will be submitted to the convening authority for resolution. The discussion section provides further instructions.

> The decision to grant or deny a reasonable delay is a matter within the sole discretion of the convening authority or a military judge. This decision should be based on the facts and circumstances then and there existing. Reasons to grant a delay might include, for example, the need for: time to enable counsel to prepare for trial in complex cases; time to allow examination into the mental capacity of the accused; time to process a member of the reserve component to active duty for disciplinary action; time to complete other proceedings related to the case; time requested by the defense; time to secure the availability of the accused, substantial witnesses, or other evidence; time to obtain appropriate security clearances for access to classified information or time to declassify evidence; or additional time for other good cause….

Here, the trial counsel provided no evidence or documents supporting the reason for the delay. The generalized notion of the need to conduct further investigation does not amount to the specificity required under the Rules. Why does the government need until 25 July 2025? What do they expect will be completed by that date? Based on the enclosures to Commanding Officer's 48/72 hour letter for CSSN Copeland's initial review officer hearing, the Art. 120 investigation started in July 2024 – a year ago. However, according to the trial counsel's request for excludable delay there "several lengthy investigative steps" remaining. You should demand more specificity. Additionally, R.C.M. 707 does not address excludable delay when the accused is in pre-trial confinement.

6. Per reference (c), when accused is ordered into arrest or confinement before trial, *immediate steps shall* be taken to inform the person of the specific offense of which the person is accused and to try the person or to dismiss the charges and release the person. Immediate steps require more than diligence, it requires immediacy. CSSN Copeland has been in confinement for the last 23 days.

7. CSSN Copeland requests that the government take immediate steps to take him to trial or release him from pre-trial confinement.
